The Canton Connection

HOSTS WANTED: AS part of its Youth Exchange Program, the Canton Rotary Club is seeking host families for a 17year-old girl, Lene Ostlyngen from Elvebakken, Norway.

The host family, who need not be Rotarian, must be located in Plymouth or Canton so Lene can attend Plymouth Salem High School. Canton Rotary plans to find three or four host families during this school year so Lene can be exposed to different social and economic conditions, which makes for a well-rounded experience.

Lene, who speaks and write English fluently, is planning a career as a physiotherapist. She is very active in ski jumping and enjoys tennis. She leaves a rural Norwegian home where her parents, a sister and a brother remain. Anyone interested in serving as a host family may get more information from John Williams, international youth chairman, at 455-5214 or 453-

BIRTHDAY BASH: Friends of 15th Congressional District of U.S. Rep. Bill Ford, D-Taylor, whose district includes Canton, will get together Aug. 8 at the Van Buren Park, Rawsonville Road and I-94, for his 22nd annual birthday pienic. The festivities, which begin at noon and end at 6 p.m., will take on an old time country flavor, complete with hot dogs, fresh steamed corn on the cob, live music, games, clowns and door prizes.

The admission fee is \$15 per car, with a limit of seven per automobile. Senior citizens will be admitted for \$2 each.

"All the money collected is used to help defray costs of the event, with none of the money going for political or campaign purposes," a press release said.

There are a limited amount of picnic tables at the park, therefore, guests are encouraged to bring their own blankets and lawn chairs for comfort.

CREATIVE STUDENT: Minal Hajratwala, daughter of Dr. and Mrs. Bhuprendra Hajratwala of Canton, is one of 102 high school students participating in the Michigan State Board of Education Summer Institute for the Arts and Sciences at Olivet College.

The summer institute provides two-week institutes for 525 talented and creative sophomores and juniors in Michigan high schools at five Michigan colleges and universities, including Olivet College, Michigan Technological University, Western Michigan University, Eastern Michigan University and Grand Valley State College.

The program provides students with instruction in the arts and sciences, plus in-depth exploratory activities. Funding for the Olivet program is through the Calhoun Intermediate School District under the direction of the Michigan State Board of

GUARD WINS: The Color Guard of Mayflower-Lt. Gamble VFW Post 6695 of Plymouth took first place in the state of Michigan for the second straight year at the Veterans of Foreign Wars Convention held recently in Kalamazoo.

Members of the Color Guard are Commander Donald Block, director, Robert Nelson, Earl Hanson, Duane Johnson, Richard Valleau, Charles Minthorn, Sylvester Coil, Burt Shoebottom, John Beacher and Thomas Lester.

The unit, known as "The Guardsmen," also will be defending its Michigan State Fair championship in September. That same month the unit will be competing at Canada's 'Warriors' Day" in London,

DNR holding back sewer permits

staff writer

A halt in sanitary sewer construction permits is stalling \$50 million of development in Plymouth Township.

Two project permits have been delayed in Canton, but are expected to be issued soon, said Roy Schrameck, Michigan Department of Natural Resources water quality division

But future Canton permits are iffy, Schrameck said.

The DNR has held the permits for more than a month and has vowed not to allow sanitary sewer construction for new projects until Plymouth Township submits a long range plan for excess flows (beyond capacity).

"We're asking for verification of capacity for projects," Schrameck said. "There's no long range plan in Plymouth and Northville townships for excess flows in the system.

PLYMOUTH TOWNSHIP argues a capacity analysis plan submitted to the DNR in August 1986 is sufficient.

The township is "not aware of any documented (or not documented) pollution problems, overflows, spills, etc. associated with the township's sanitary sewer system that would be cause for withholding the issuance" of permits, wrote Michael Bailey, Plymouth

Township engineer, in a letter to Schrameck dated June 5

But the DNR maintains the August 1986 analysis is not good enough.

Results of the standoff between Plymouth Township officials and the DNR will determine when the permits are issued.

Three residential developments in Plymouth Township are affected by the ban said Thomas Hollis, Plymouth Township Department of Public Works superintendent

· Heritage Point at the northwest corner of Plymouth and Haggerty;

• Eaton Estates at North Territorial between Sheldon and Beck;

Subdivision on Plymouth Notch

McClumpha between Ann Arbor Road and Ann Arbor Trail;

• Plymouth Trade Center in the Gould Industrial Subdivision between Ann Arbor Road and Joy Road.

Maurice Breen, Plymouth Township supervisor, estimated the value of the projects at \$50 million. He said a number of developers have complained about the delay.

Two residential projects in Canton have been affected: Pilgrim Village Estates, on Lilley and Warren and Pheasant Run Estates, on Maben between Canton Center and Beck, have been stalled, said Tom Casari, Canton

Brian, Lindsay and Sara Wagner enjoy the musical presen-

Musicians offer learning and fun

HERE ARE plenty of hard-working moms in this area - and their children have a pretty good idea about just what it is their moms do.

A song, "What Does Your Mama Do While You're at School?" was among those performed by musicians Betsy Cook and Roger Marcus during a recent Canton Public Library program. The program was among several offered for this year's summer reading club participants.

The children's hard-working moms can be found in such places as banks; other moms work as dentists or as nurses.

Ann Arbor musicians Cook and Marcus sang a variety of songs during the Thursday, July 23, program. They played a number of musical instruments, including the banjo, guitar and dulcimer.

One song performed that afternoon incorporated the names of some of the children in the room; other songs included phrases in Swahili and Hebrew. The song "Froggie Went A-Courting" told a tale of romance between Froggie and Miss Mousy.

DURING THE performance, the children were encouraged to sing along and to clap. Some of the songs included hand gestures that helped in telling a story.

The Ann Arbor couple brought their daughter, 3-year-old Amelia, along for the trip to Canton.

"We have a 2-month-old at home," Cook said after the performance. Although the musicians enjoy performing for children, they aren't able to perform quite as much as they used to.

"We're going to get back into it again," she said.

While they're performing, the musicians keep an eye on the young

Radon gas is under study

staff writer

Air and water pollution have been outdoor environmental concerns for many years.

For the last three years, however, environmental experts also have been concerned with indoor pollu-

Radon gas, which is generated through the earth and can seep into the home, is one pollutant that is coming under careful scrutiny.

The Environmental Protection Agency says these structural conditions are some ways that may allow radon gas to seep into the home:

 a foundation not intact a home that has lower pressure

than the outside air a home constructed with a crawl space that vents into the base-

an unsealed sump pump

unsealed foundation blocks.

In the March/April 1987 issue of The Building Official and Code Administrator, the EPA projects an increased risk of developing lung cancer from radon. It has projected the gas will account for between 5,000 to 20,000 lung cancers per year, amounting to 4-15 percent of the annual total.

IN CANTON Township, DPW Director Jake Dingledey recently requested that the township order 25 radon testing kits that may be bought by township residents for \$12 each at the advice of Joe Teramino, his foreman.

"My foreman went to a seminar down in Wyandotte in April and sent me a memo. We wanted to order the kits in an effort to stay one step ahead of the problem.

Since then 11 kits have been sold, according to Don Rigato, financing department accounting clerk. Several township employees, including Dingledey and Treasurer Gerald Brown have bought kits.

Mettetal sold

Jet Services Inc. buys 'family airport'

By Susan Buck

The owners of Jet Services Inc. which operates flight operations at Mettetal Airport, has exercised its option to buy the airport.

According to Mary Mettetal, owner of the airport at Joy and Lilley roads in Canton, Klochko Inc., a parent company of Jet Services, has made a purchase offer that matches one made by a Southfield developer.

Jet Services Inc. had the right of first refusal included in their lease. "The money is in escrow," said Mettetal. "The offer came totally by surprise to me. The Klochkos made an offer before, but it wasn't enough money. That's why it

(the airport) was put on the open market.

MARV METTETAL grew up in a house that still stands across from the airport, said his wife, Helen. In 1939, the airport was started by Marv Mettetal's

'My whole life has been at this airport," Marv said. The Mettetal family has long thought about selling

"My husband is 56 years old and can't do the work that he used to," said Helen. "He's had a lot of mixed feelings. We wanted to sell it, but my husband's dream was that it remain an airport. She said that a "a conglomerate of developers, not in

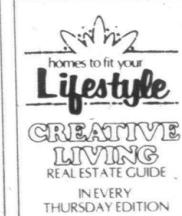

the airport business," had made the other offer.

Parents plan rally against drugs

By Tom Henderson staff writer

Parent to Parent, a Livonia-based program designed to fight substance abuse by young people, is looking for volunteers and donations for a rally Sept. 12 at Nankin Mills in Hines

'It's a way parents can make a statement that kids can be alcohol and drug free," said Kathy Kallio, one of the program's founders and a member of Livonia Families in Ac-

She and Eileen Ross of Westland, who became active in fighting substance abuse when her now-grown children attended the Livonia Public Schools, are putting together the rally on a Saturday, when the park is closed to traffic.

"Families will be able to ride in there on their bikes together," Kallio

18829 Farmington Road Livonia, Michigan 48152 Phone: 478-7860 MIND OVER MATTER IN THE TREATMENT OF ARTHRITIS

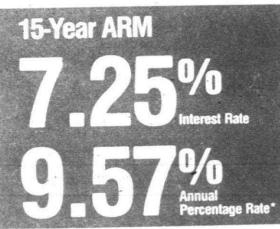

Arthritis Today

Physicians understand the importance of a good attitude in fighting cancer, arthritis and other serious and long term conditions. First, this stance promotes your efforts toward self reliance. Second, an optimistic mental outlook on your part encourages the people who are assisting in your care

However, doctors are aware that some people take the idea of a good attitude and stretch it to mean that arthritis is mainly in your head. If your willpower is strong enough, you will overcome your pain, fatigue, and impaired movements, and be as sound as someone without arthritis. This view carries self-help to an unwise extreme

Doctors encourage a good attitude in a person with arthritis. At the same time, physicians know that painful joints are bringing a message that you cannot ignore, or overcome by attitude alone. Finally, too great a dependence on willpower may ignore the necessity of a regular schedule of heat, rest, medication and activity

Interest rates on Adjustable Rate Mortgages are the lowest ever at Standard Federal.

30-Year ARM

Before you buy or refinance your home, consider the advantages of our Adjustable Rate Mortgage (ARM).

Many of our ARM loan customers have saved a lot of money in mortgage interest costs over the past few years. And, at present interest rates, borrowers are finding our ARM loans to be an even better bargain. The first-year interest rate on our 15-year ARM is now only 7.25% compared to much higher rates on fixedrate loans. What's more, with the 2% annual and 6% lifetime interest rate caps that we have placed on our ARM loans, you'll pay less interest and have greater principal reduction over at least the first four years of your loan.

The lower initial interest rates on our ARM loans result in lower initial monthly payments. And, the lower monthly payments mean that it will be easier for you to qualify for the loan that you need to buy or refinance your home

So, come to any Standard Federal branch office and learn more about our ARM loans. We'll help you find the loan that is just right for you.

"All annual percentage rates are calculated based on a 2% loan disc all annual percentage raies are carculared based on a zeroloan discount for 3 c/an ansisted of \$50,000.00 a 20% down payment, and monthly periodical and interest observed \$456.43 for the 15 year loan and \$349.61 for the 30 year loan. These estimated annual percentage rates are subject to increase or decrease on an annual basis after the loan is closed based on the formula set forth in the loan contract.

taste buds chef Larry

Liqueurs add flavor, zest to pie

Janes

Everybody has at least one in their family. Our's was Uncle Omar. Fortunately for us, Uncle Omar lived out of town, but whenever we went visiting, momma would always make one of her infamous "Omar Pies"

We kids were never allowed to taste it. It was a present made especially for Uncle Omar. All I remember was that while making the pie, momma would always reach for the pretty green bottle that was kept in the kitchen cupboard over the refrigerator. The cupboard that was out of us kids' reach. The cabinet that was only opened for "special occasions." The liquor cabinet.

Usually, when people think of pies, thoughts of apple and cherry run through their heads. Uncle Omar knew better. He knew what liqueurs could do with their wide range of flavors from fruit to nuts. Just a few drops of one of these powerful elixirs can perfect an already excellent dish and vastly improve one with less impressive credentials.

THE COMPLEX composition of most liqueurs and cordials gives them flavors that are both unique and elusive. When added to foods, interesting chemical reactions take place. Trying to guess the makeur of most liqueurs would be like trying to solve the combination of the lock to the crown jewels. So intermingling with different foods and flavors can be tricky.

Generally speaking, most liqueurs can be divided into three categories: Those with a flavor of fruit (Kirsch, Grande Marnier), herbs and spices (Chartreuse, Band, Creme de Menthe) and the coffee and chocolate cordials like Tia Maria, Kahlua and Creme

de Cocoa.

When making pies with these potables, just about anything goes because of the intense sweetness that is imparted. People expect a sweet tasting pie. Liqueurs are sweet. What a perfect match!

When testing these recipes, I was surprised how the flavor did not "bake out" as most concoctions with alcohol have a tendency to do when cooked. Of course, maybe it was the hearty amount used.

WHEN USING alcohol in the recipes that do not require cooking, be prepared for a potent dessert that, while not being strong enough to knock the socks off Uncle Omar, will definitely bring a silly little grin to

Aunt Marge's face.

Probably the most temptation you will face will be to add a little bit more than what's really called for. Rest assured that the pies that require chilling will have a profound alcoholic taste.

If you are thinking about bringing one of these beauties to a church social, choose a baked pie because the alcohol will evaporate when heated, leaving only the true flavor behind. For an extra special taste treat, chill a small amount of the liqueur in the freezer and substitute the alcohol for the ice water when making a homemade crust. (I'll never tell if you choose to use "ready crusts," although Uncle Omar would!)

So if the family usually goes bonkers over your delectable Grasshopper Pie this spring, wait till they see what you can do with a little Southern Comfort, Irish whiskey, rum, bourbon or whatever. When the time comes to make a dessert, consider one that's a little racy, a little glamorous, just a little something daring, and put a smile on everyone's face with a tipsy pie! By the way, if your "Uncle Omar" indulges in more than one piece — get his car keys. Bon Appetit!

BRANDY ALEXANDER PIE

BRANDY ALEXANDE.

1 envelope plain gelatin

1/2 cup cold water

% cup sugar dash salt 3 eggs. separated

3 eggs, separated

14 cup cognac

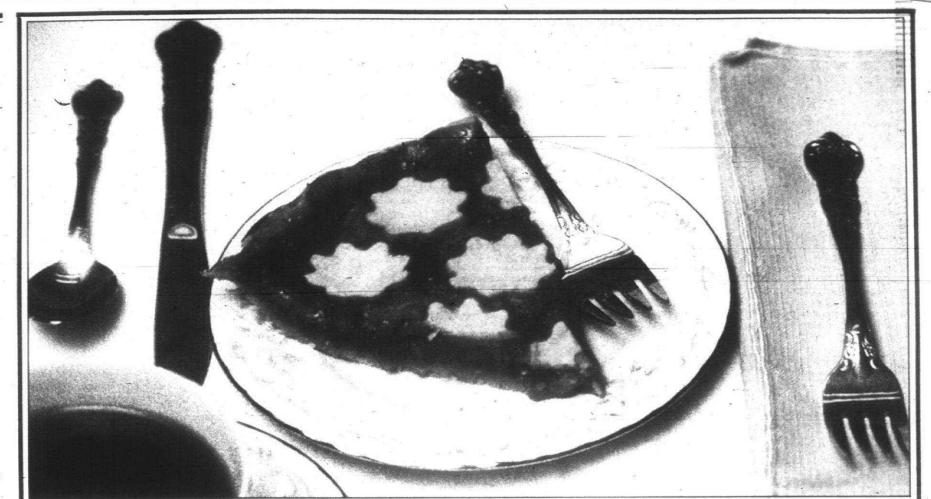

14 cup creme de cocoa

2 cups whinping cream, whinped

2 cups whipping cream, whipped 1 graham cracker pie crust

Sprinkle gelatin over cold water in a heavy saucepan. Add ½ cup sugar, salt and egg yolks. Stir to blend. Cook over low heat, stirring until the gelatin dissolves and the mixture thickens. Do not boil. Remove from heat and bring to room temperatures. Stir in cognac and creme de cocoa. Chill until mixture begins to mound slightly. Beat egg whites till foamy. Gradually beat in remaining sugar and beat until stiff peaks form. Fold into thickened mixture. Fold in whipped cream. Turn into crust. Chill several hours or overnight.

ANDY BORST/staff photographer

Nothing finishes off a meal like a slice of fresh strawberry pie, complete with a flaky bottom crust and a flower-style cutout crust on the top, says Diane Kozlowski of D'serts Inc.

RANDY BORST/staff photographer

Diane Kozlowski has plenty of flour on hand to make certain the dough doesn't stick the the rolling pin while being shaped for the bottom crust.

Scrumptious!

Fresh fruit, flaky crust — partners in the perfect pie

By Sue Mason staff writer

Ah, summer . . . the time when bananas, apples and oranges take a back seat to such seasonal treats as peaches, blueberries, cherries and strawberries.

Not only are they great to dress up a light summer lunch or dinner and to snack on, but tantalizing topics for pies.

Pies can bring oohs and ahs from the beholders and moans and groans from the baker who tries for the peak of perfection — a culinary creation brimming with flavor and set off by an ever so flaky crust.

And, according to Diane Kozlowski, the peak of perfection is easier to achieve than some cooks may think.

The owner of D'serts Inc. in Farmington Hills, the

Plymouth resident spends five days a week in the kitchen, whipping up batches of cooks, cakes made to order and pies and goes no further than a cookbook and magazines to find the recipes she needs.

"I've always been interested in baking, ever since I was a child, and I've collected recipes for years," Kozlowski said. "I try them and some I pitch."

Of course, the fruit is the most important ingredient in a pie. It can't be too ripe or unripe. Overripe fruits turn mushy in pies, while unripe fruits tend to be hard and lack flavor.

"Many people believe you can set out fruit for a few

Taste readers offer their favorite pie recipes on Page 2B.

days to ripen it; all it does is turn soft," Kozlowski said. "The flavor has to be there when it's picked."

She prefers to taste the sweetness of the fruit in her pies, so she uses less sugar and swears by cornstarch as a thickening agent. It's foolproof, blends in easily, doesn't get lumpy like flour and gives the filling a clear colored glaze, she said.

IN FACT, she refers to a chart on making fresh fruit pies, published several years ago by the manufacturer of Argo cornstarch.

Her well-used cookbook provides the recipe for the crust, which she triples to keep her commercial freezer stocked with pie shells ready for a filling and baking.

While most recipes call for shortening, Kozlowski uses margarine for a better flavored crust. Cheap shortenings, she said, can make a crust tough.

She creams the margarine into the dry ingredients — flour and a small amount of salt — with à fork or

Videos feature quick, easy recipes

By Arlene Funke special writer

Lorenzo Pizzorni and Kevin Gawronski — masters of memorable meals — are turning their talents to the video world.

Pizzorni of Farmington Hills and Gawronski of West Bloomfield are chefs, teachers and entrepreneurs. Both have worked at heralded restaurants in metro Detroit.

Now they're teaming up to create quick, innovative dishes for a series of videos entitled "Two Minute Chef," airing in several Great Scott supermarket locations. Each recipe runs 1-3 minutes in length.

"We try to stay with what is new and innovative," said Pizzorni, 26. "Things which cooks may see in the supermarket, but don't know how to prepare. We also take classic recipes and convert them to our needs, so anybody can (prepare them)."

THE FOODS are prepared by longtime colleagus Pizzorni and Gawronski in a studio operated by Glass Eye Video Productions in Plymouth. The recipes emphasize quick preparation of fish, poultry

and barbecued dishes.
"It's still being tested," said Ron
Reid, 25, marketing director of
Glass Eye Video. "The test results

look very positive."

Reid, a Plymouth resident and 1980 graduate of Catholic Central High School in Redford, said the videos are being shown at Great Scott stores in Rochester Hills, Taylor, Westland and St. Clair Shores. Other locations may be added in coming weeks, Reid said.

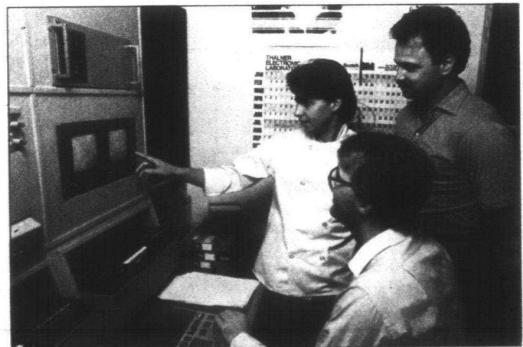

Pizzorni and Gawronski are graduates of the well-known culinary arts curriculum at Schoolcraft College in Livonia. Both teach foodspreparation and management courses at the college.

Pizzorni formerly worked with well-known local chef Tom MacKinnon, of MacKinnon's in Northville, and at the Golden Mushrooms in Southfield.

"It takes many years of experience to become a chef," said Pizzorni. "This is a demanding business. It gives an opportunity to start out at a young age, washing dishes. You start young, but you do start."

Native Detroiter Pizzorni, whose parents came to the United States from Italy in 1955, speaks fluent Italian. He studied culinary arts in Europe and currently is the night chef for employees at the Ford Motor Co. Pizzorni also has a free-lance catering business, for parties "from two to 2,000 guests."

> NOTICE OF PUBLIC HEARING PLYMOUTH CHARTER TOWNSHIP PLANNING COMMISSION

TO AMEND TEXT: Section 16.2 Paragraph (j), of Zoning Ordinance No. 83 TIME OF HEARING 7:30 P.M.

PLACE OF HEARING 42350 Ann Arbor Road NOTICE IS HEREBY GIVEN that the Planning Commission of Plymouth Charer Township, on its own motion, proposes to amend the land area requirements for a R-2-A District when a project is considered to be a redevelopment project by amending Section 16.2, Paragraph (j), as follows:

A PROPOSAL TO AMEND PLYMOUTH TOWNSHIP ZONING ORDINANCE

O. 83, BY AMENDING SECTION 16.2. PARAGRAPH (j), WHICH CURRENT-LY READS AS FOLLOWS. Each principal building, hereafter erected as a multiple dwelling, shall be located on a parcel which will provide a parcel area of not less than

four thousand (4,000) square feet for each dwelling unit with not more than one (1) bedroom and shall provide an additional one thousand (1,000) square feet minimum for each additional bedroom, exclusive of the area within the street setback Where extra rooms such as a den or library are shown on the plans in

addition to a living room and bedrooms, such extra rooms shall be counted as a bedroom for the purpose of computing land area per dwelling TO READ AS FOLLOWS

Each principal building, hereafter erected as a multiple dwelling, shall be located on a parcel which will provide a parcel area of not less than four thousand (4,000) square feet for each dwelling unit with not more than one (1) bedroom and shall provide an additional one thousand (1,000) square feet minimum for each additional bedroom, exclusive of the area within the street setback

Where extra rooms such as a den or library are shown on the plans in addition to a living room and bedrooms, such extra rooms shall be counted as a bedroom for the purpose of computing land area per dwelling When a project is considered by the Planning Commission to be a rede-

velopment project, that is a project where removal of existing structures will be required in order to accomplish the development and said removal would be considered an upgrading of the area, the overall density of the project shall be determined by total number of dwelling units without consideration to number of bedrooms proposed. The overall density for such a project, shall not exceed 11 DU/AC overall density. In reviewing the project to determine consideration as a redevelopment project, the Commission shall consider the following:

The project would be considered an upgrading of the area which would be in harmony with the appropriate and orderly development of the 2. The designation of a redevelopment project would permit develop-

ment of the area consistant with the zoning and Master Plan which may otherwise be difficult to accomplish because of the additional development cost resulting from the assembling of the properties and removal of existing structures

NOTICE IS FURTHER GIVEN that the proposed amendment to the text, as

printed, may be examined at the Township Hall, Department of Planning, 42350 Ann Arbor Road, during regular business hours, 8:00 a.m. to 4:00 p.m., until the date of the public hearing. Written comments concerning the request will be At the public hearing, the Planning Commission may recommend the text

Chiefs, sheriff clash over fingerprint sites

By Wayne Peal staff writer

Wayne County police chiefs and the county sheriff's department agree AFIS, a newly-developed automated fingerprint identification system, is a major breakthrough in crime fighting.

But they don't agree on where computerized AFIS terminals should be placed.

The county expects to receive three terminals. One is virtually guaranteed for Detroit, another for a suburban department, but the Wayne County Association of Chiefs of Police and the county sheriff's department are haggling over the third.

The chiefs' group believes it should also be placed with a municipal department, Livonia Police Chief William Crayk said.

"We're the agencies that, for the most part, will be solving the crimes," Crayk. "We feel the terminals should be easily accessible."

THE GROUP believes terminals should be placed in Livonia and Taylor. Officers from both communities would operate AFIS terminals, handling requests departments through-

March, during a joint press confer-

ence called by Wayne County Execu-tive Edward McNamara and Wayne

But while the chiefs stress prox-

imity, spokesmen for the sheriff's

department and deputies' union said

they believe politics lies at the pro-

County Prosecutor John O'Hair.

out the county

posal's core.

'We feel the terminals should be easily accessible.

William Crayk, Livonia chief

'Why should the county pay for something that's going to be placed in Livonia or Taylor?'

Warren Evans undersheriff

Warren Evans

"It's a political decision," Under-

Both sites were suggested in sheriff Warren Evans said. Why should the county pay for something that's going to be placed in Livonia or Taylor? If that's the case, why shouldn't the county pay

for Detroit's system, too?" The state would pick up 80 percent of each unit's estimated \$200,000 cost. The county would pay about \$40,000, over four years for the other units, deputy county executive Michael Duggan said. Detroit would pay for its own unit.

DEPUTIES BELIEVED their department would receive a unit, until sites were discussed at the March press conference, union representative Don Cox said.

"Up until four months ago we were the primary agency," said Cox.

president of Local 502 of the Service Employees International Union,

Crayk said there had been disagreements between police chiefs and the sheriff's department but declined to be specific.

This really isn't the time to dis-

cuss that," he said. The chief's association represents all 43 county police agencies,includ-ing the sheriff's department, Crayk

Representatives of member agencies filled a county commission conference room during Wednesday's discussion of the terminals by the public safety and judiciary commit-

The committee recommended having the county pay for four terminals, one each for Detroit, Livonia. Taylor and the sheriff's depart-

The recommendation was largely seen as a method of smoothing over the dispute each agency.

Regardless of any recommendation, a final decision rests with the state's AFIS advisory committee a committee that includes Wayne County Sheriff Robert Ficano.

What is

Automated fingerprint identifiation systems match fingerprint fragments found at crime scenes with as many as 3 million sets of prints on file with the Michigan State Police.

It would take 72 years to screen all 3 million prints by hand, experts say, compared with 30 min

utes for AFIS In addition, AFIS allows for a 'blind match' of suspect to print Currently, police must already have suspects in mind before they

begin matching. Equipment hasn't yet been in

talled in Wayne County. While the system was initially expected to begin operating this winter, the startup date has been evised to spring.

While a state AFIS study group nitially recommended up to six erminals for Wayne County, the initial setup will only involve three

Oakland, Macomb and Wash enaw counties also expect to eceive AFIS terminals. Additional terminals are expected to be placed at Michigan State Police posts, including the Northville post

Mayors research urban problems

The Michigan Association of Mayors has launched a summer research project on urban policies and pro-

David Namie and Herb Norman, doctoral candidates in urban planning at Michigan State University. have been selected as summer in-

The students will compile an unprecedented inventory of state urban policies and programs. The inventory will be used to develop a guidebook for use by municipal officials and employees. It will also assist the Mayors Association in providing recommendations to state officials responsible for urban policies and pro-

"THE PROJECT is a real first for the group," said Charlotte Rothstein, mayor of Oak Park and the association's president.

'It's the first time we've had an internship program for graduate students interested in urban issues. It's also the first time anyone has taken a comprehensive snapshot of the programs and policies the state is providing its cities and villages and

made the information available to local officials in a guide book.

'Mayors across the state have hoped for something like this for a long time, and we're proud to help make it happen."

Namie is a municipal administrator with experience in parks and recreation, housing, transportation and city management. Norman has background in state level planning, local government planning, budgeting and housing. Both have taught planning and public administration courses on the university level.

Livonia's newest golf course fills area void

By C.J. Risak staff writer

Understand, asking Gary Whitener his opinion on whether another cityoperated golf course is needed in Livonia is akin to asking Santa Claus if Christmas is a necessity.

Both answers are obvious. Whitener, the long-time golf pro at Livo-nia's Whispering Willows and Idyl Wyld courses, strongly favored adding a third 18-hole course. And that's what he told former mayor Ed McNamara when first approached on the subject.

They asked me, 'Can we fill another golf course?" Whitener recalled of a conversation he later held

with members of the city council. "I told them there was no doubt in my mind we could fill it."

That might sound predictably optimistic, source considered. Then

WHY WAS Whitener so positive a third course could be successful? 'One simple reason," he answered. Before we open (next spring), Dun Rovin will be gone and Godwin Glen will be gone.

Those two nearby public courses are closing, victims of escalating property values. Dun Rovin will be redeveloped for condominiums. Godwin Glen will become the new Farmington Country Club. Farming12 Mile) was bought by a developer for a price large enough to allow the country club's members to buy out Godwin Glen.

What all this means is an increase in population as the I-275 corridor fills, an increase that is bound to result in an escalation in the numbers of golfers. Combine that with fewer courses to play and Whitener's optimism doesn't seem so out of place

"People are calling me right now about league play next year," said

GETTING APPROVAL to build the course was the first hurdle. The next was the actual execution building the course and building it

That phase is nearing completion. The new course, next to Bicentennial Park on the north side of Seven Mile and east of Newburgh, has been shaped and seeded and should open next spring.

Originally budgeted at \$1.9 million, the actual cost is expected to be over \$2 million. Whitener said.

What that will buy for the city is a course better than its cousins, both longer and more difficult than Whispering Willows with water near 14 of the holes.

"It will be challenging," promised Whitener. "But it will be fair. That's

In fact, that was the thin line Whitener sought to tightrope in advising the course architect, Mark DeVries - who designed Whispering Willows 20 years ago.

WHITENER WANTED a longer course. Whispering Willows has just three par-fives, and the longest is just 495 yards. The new course will be more versatile, offering four parfive holes - with the longest playing 585 vards.

Three of four of the par-fives will be over 500 (yards)," said Whitener. And a couple will be closer to 600

But longer isn't necessarily better.

Whitener - who is also the current president of the Michigan PGA wanted a course that could be altered. That's why he told DeVries he wanted bigger tees and bigger greens than those at Whispering Willows. Not only would it help in maintenance, but it could make a difference in how a golfer plays a hole.

There are two reasons for big tees," said Whitener. "One; you can . save your tees, and two, a guy can play a five-wood one day and a fouriron the next '

What Whitener didn't want was another monster - like the Jack Nicklaus-designed course in Trav-

erse City known as the Bear. They were wacko when they built that course," said Whitener. "I want-ed to make this course playable, not with impossible shots.'

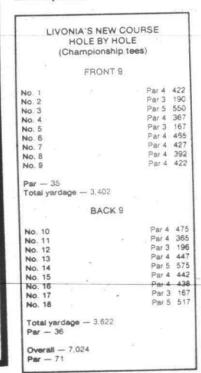

THE NEW course will play between 6,500 and 7,000 yards, depending on tee and pin placements: Whispering Willows plays nearly 500 yards shorter.

Without doubt, water will present the greatest hazard. The Department of Natural Resources added to that hazard with a ruling against the city for disturbing wetlands. Six acres of water had to be added. Although it won't come into play on the 14 holes it borders, the water will be an everpresent danger.

Of the holes that could turn into major challenges, No. 16 ha the best chance. The 438-yard par-four doglegs sharply right around a large hill in the center of the course. The narrow fairway is tree lined on both sides, adding to its difficulty.

With the fairways and greens outlined and seeded, all that remains to complete Livonia's newest course is for the grass to grow and the construction of a clubhouse and parking lot. Those last two items should be completed before winter, Whitener estimated.

And, of course, a name for the new course needs to be chosen. Anyone have any ideas?

Elks edge Ypsilanti, 6-5 Craiger's come-from-behind

staff writer

As champion of the Redford Adray-Connie Mack League, the Canton Elks' baseball pride was on the line Thursday in a see-saw battle with Ypsilanti I.

Perhaps that was the source of their motivation as the Elks held on until the bottom of the eighth inning when they brought the winning run to the plate, ending the regular season with a 6-5 victory.
"It was nice to see the boys can

put it together when they have to," Elks coach Dave Racer said. "You could see they weren't up in the middle of the game, but when Ypsilanti came back they were ready to play."

The Elks capitalized on Ypsilanti pitcher Craig Van Riper's wildness early in the game to take a 3-0 lead while their own Shane Smith pitched a perfect game for three innings.

BUT THE visitors eventually rallied to tie the game 5-5 in the fifth and extend it an extra inning.

With one out and Kevin Learned on first after hitting safely in the eighth, right fielder Jay Buelow, the No. 9 hitter in the order, became the man of the hour for the Elks.

Buelow drove the ball into center field, and the line drive bounded past Ypsilanti defender Brian Kennedy for a triple as Learned raced around

effort defeats Grosse Pointe Craiger came from behind Thursday to defeat the Tigers, champions of the Grosse Pointe Farms Babe Ruth League, 9-8.

With two out and two on in the sixth inning, Eric Butske's third hit of the

game, a two-run single to left-center, gave Craiger its 9-8 lead. Keith Bozyk, who relieved Jason Bregni in the sixth, struck out the side in the seventh and picked up the win.

While Grosse Pointe pulled ahead early in the game, Craiger kept the score close with home runs by Ryan Johnson and Al Araquil.

Butske finished the game 3-for-4 at the plate and had three RBI, and Johnson was 2-for-2 as Craiger, champion of the Plymouth-Canton Babe Ruth League, extended its record to 11-1.

"He probably rode the bench as much as anyone this season, and he never complains when he does sit," said Racer of Buelow.

"BUT HE goes and plays when he gets the chance. He gives you 100 percent when he does play." Buelow's clutch hit followed one

by Todd Kenyon in the sixth inning that temporarily broke a 4-4 deadlock. The Elks loaded the bases on two walks and lead-off batter Joel Riggs' base hit. Then Kenyon dropped an RBI single into short left to score the go-ahead run.

But the Elks, who hurt themselves with five errors, allowed Ypsilanti to tie it again in the top of the seventh.

With two on and one out, Elks shortstop Steve Waite fielded Dennis Glover's grounder, stepped on second for the forceout but overthrew first on the attempted double play, enabling John Dignan to score from

THE ELKS went down in order in the seventh and had to hold off Ypsilanti in the top of the eighth. The losers put their first four batters on base but failed to get a runner past second, Waite assisting on the last two putouts, including a diving grab of a hard grounder headed for center

Racer aid the team was motivat-

baseball

ed by its desire to win 20 league games and added the victory over Ypsilanti, which won the league title the last two years, was an example of the ballclub's character.

"They play together as a team," he said. "No one boy sits off by himself on the team. They really pull for

each other and pick each other up." The Elks jumped in front in the second inning as Van Riper, a tall right-hander who seemed to get stronger as the game progressed and lasted for the duration, walked the bases loaded and gave up an RBI walk to Buelow. Two runs scored on Riggs' grounder to short that resulted in an error.

RIGG'S RBI fielder's choice made it 4-1 in the fourth, but Ypstlanti's breakthrough came in the fifth when it pushed across three runs.

Smith faced the minimum nine batters in the first three innings, and Ypsilanti's only hit in the fourth scored its first run. Smith pitched to five batters in the fifth before Mike Sulak came on to finish the game and get credit for the win.

Please turn to Page 2

Shane Smith pitched four strong innings, including a perfect game for the first three, to get the Elks off to a good start.

Elks survive 8-inning test

3-4 innings and Sulak 3-4 innings." said Racer, adding he thought the extreme heat had taken its toll on Smith by the fifth inning. "I planned to pull Shane in the fourth, but he wanted to go one more.

LEADING SCORERS

Special hunt slated in north

That's what the local residents of Dickinson and Menominee counties in the Upper Peninsula keep seeing. Since the turkey population in these two coun-

ties seems to be considerably larger than last year's flock, the Natural Resource Commission has approved a special turkey hunt in October. The two counties have been divided into two separate areas for the hunt; Area M, entirely in Dickinson County, and Area N, in both Dickinson and Menominee counties. The bag limit will be one bird of either sex in Area N and two birds of

either sex in Area M. each area. The Department of Natural Resources will conduct a computerized draw in late August and successful applicants will be notified by Sept.

Turkey hunters should apply for a permit by Aug. 1. Applications are available at DNR offices and from hunting and fishing license dealers. Hunt dates are Oct. 5-9, Oct. 10-14, Oct. 15-19, Oct. 20-24. and Oct. 25-29.

CITY OF PLYMOUTH MICHIGAN

ORDINANCE NO. 87-7

AN ORDINANCE TO AMEND CHAPTER 21 OF THE PLYM OUTH CITY CODE, ENTITLED COLLECTION AND CHARGES, BY AMENDING SECTION 2.29, 2.30, 2.31, 2.32, 2.33 AND ADDING SECTION 2.35.

NOW THEREFORE, the City Commission of Plymouth DOES ORDAIN

2.31, 2.32, 2.33 are amended to read as follows and Section 2.35 is 2 29 Normal Service

Normal collection service of one collection a week shall be provided without charge for domestic refuse from buildings with no more than two (2) residential units Normal collection service shall be provided without charge for

domestic refuse from buildings with four 4 or more residentia units, provided, that a maximum of one (1) eight yards (8 yd., non portable from load container shall be collected for each forty 40 residential units or fraction thereof in any one (1) apartment building complex each week, and at a cost per yard as established in accordance with Sec. 2.31 of this ordinance for each additional pickup. Normal collection service of one (1) collection per front load container a week shall be provided without charge for commercial efuse and at a cost per yard as established in accordance with Sec

2.31 of this ordinance for each additional pickup Administration of Collection. It shall be the duty of the City Manager, or his duly authorized representative, to provide for the collection and disposal of all municipal refuse. He shall establish such rules and regulations necessary to protect the health and safety of the community, to facilitate the collection of refuse and to assure the most economical removal of refuse. He shall determine the frequency of pickup and publish a schedule of collection at least once

ipon adoption and or change 2 31 Charges. Normal collections in addition to the one collection without charge shall cost \$2.00 per yard plus any cost assessed by the City as provided herein. For all extraordinary domestic or commer cial service in excess of the normal collection service as herein defined, there shall be a charge established by the City Manager based on the cost of the City providing such extra service. All increases assessed to the City by the refuse collector and attributable to the collection of 1) Domestic refuse from buildings with four (4) or more residential units and or 2) Commercial refuse shall be assessed on a per yard basis and paid in addition to the fees per yard established. 2 32. Private Disposal. Commercial or domestic refuse may be hauled by the originator of same or by private collectors to a disposal site, as directed or approved by the City Manager, provided cost of

such disposal shall be paid by the originator of same or by the pri-2.33 Conditions of Collection The collection of municipal refuse is conditioned upon the observance of all provisions of this Chapter and no refuse shall be collected unless it complies with the terms and provisions, herein. Collection is subject to weather and other condi-

ions beyond the City's control. 2.35 Unauthorized Use. It shall be unlawful for any person to place refuse, garbage or rubbish in any portable front load container no owned, leased or under his control. Said receptacle shall be posted "FOR (business name) USE ONLY - ALL UNAUTHORIZED USE PUNISHABLE BY \$500.00 FINE PURSUANT TO PLYMOUTH

SUBARU LOU

durability, reliability, performance and quality

We've just made a great deal on a Subaru better than ever. When you buy a 1986 or 1987 Subaru you can choose up to

"1500 cash back" or 3.9% A.P.R. financing."
So if getting that much cash back wasn't enough to get you into a Subaru showroom, 3.9% financing should be. Just be sure and visit your Subaru dealer before August 3. After that, all you'll have are the usual reasons to buy a Subaru. Like

Monday, July 27, 1987 O&E

Experimental aircraft from all over were shown at the recent fly-in sponsored by Chapter 113 of the Experimental Aircraft Association at Mettetal Airport in Canton. This Long EZ, owned by Walter Renko of Allen Park, was designed by Burt Rutan, the designer of the Voyager aircraft that flew around

Air stylists

Pilots fly own creations

By Doug Funke staff writer

Orville and Wilbur Wright made the first successful powered flight in history with a home-built aircraft.

Dick Rutan and Jeana Yeager made their historic around-the-world flight on one tank of gas in an experimental aircraft.

Then you have Al Bosonetto, Randy and Scott Hebron, Lou Lambert, Paul "Mac" Holman, Stan Wallis and dozens of others.

Individuals who build and pilot their own

airplanes. They're no longer content with flying off into the wild blue yonder in factory-built machines. They want something more, a little

bit extra in performance. They are a tenacious people, with a great eye for detail. Patience is more than a virtue They take years to complete a plane, usually tinkering in basements, garages and barns

They never seem satisfied SOME HAVE a sense of frugality. They are quick to point out that a reliable homebuilt aircraft can be put together for as little

as \$7,000 while the cheapest factory-built model now costs about \$30,000. But who can put a price on time - hundreds of hours rebuilding engines, piecing to-

gether wooden-ribbed wings, cutting and shaping aluminum. It truly is a labor of love for these magnificent men and their flying machines. Al Bosonetto, 42, is president of the Plym-

outh chapter of the Experimental Aircraft Association based at Mettetal Airport in Canton. Along with making their own planes, members collect antique aircraft.

He belonged to a flying club and piloted a factory-built aircraft when he learned about the EAA in a magazine. Soon he was hooked.

"I BOUGHT a set of plans. I bought a roll of aluminum. When I started, I threw away two parts for every part-I kept. That's part of the learning process

"The engine was originally used as a ground-power unit during World War IL I was working a (fly-in) breakfast and a guy said, 'I know where you can get an engine.

Now the electrical engineer has a single prop, two-seat aircraft with a cruising speed of 175 mph and a range of about 600 miles.

Total cost: \$7,000 - with a lot of scroung

ing.
"I spent 7½ years building my airplane, and it was basically doing something every day." Bosonetto said. "It requires a lot of

Randy Hebron, 36, a plant manager for a small machine shop in Westland, has built a one-seat, wood-and-fiberglass aircraft with a modified 45 horsepower Volkswagen car engine. He also has restored a two-seat amphib-

"THE REASON a person builds an aircraft is one, cost, and two, there is a great deal of creative energy expanded," Hebron said. "These aircraft have capabilities you can't

buy in an aircraft." His one-seater can fly 1,000 miles on a tank of fuel. The amphibian has much less range,

but it can land and take off on water. Parts are getting easier to find now with more and more people getting involved with

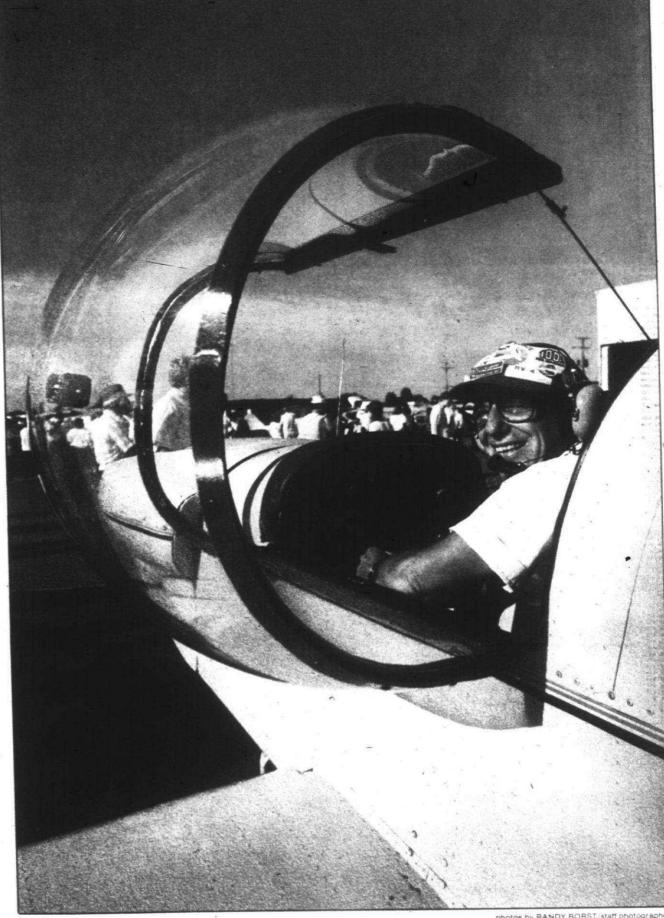

home-builts, Hebron said. There's a grapevine of parts information It's the same as motorcycles and cars. People

get around and people talk "A lot of it is mail order stuff," he added

Scott Hebron, 33, who works with his brother at Aero-Marine Inc., has built a twoseat aircraft with a 130-horsepower Franklin engine. It has wood wings and a steel

"I DESIRED to own my own airplane," he said. "I wanted one that carried two people, was fast and economical. Looking at money I had available and having some experience, I felt home building was the way to go."

These guys are Syrius! Ralph Udderly Syrius is a man with a mission: for his outstanding newspaper art. Today, Bar

To be the first to go over the Niagara Falls in a ney lives in Plymouth with his wife, Kathy, 2-

R.U. Syrius, who recently debuted on the front page of Street Scene, has not always been lucky in life. On a recent camping trip, two of his companions were attacked and eaten by a grizzly Typical of his luck, Ralph escaped death only to be fined \$50 by park rangers for feeding the bears. On another occasion, women in babushkas broke into his home and put plastic slipcovers on his Roche-Bobois conversation pit

R.U. SYRIUS is the creation of local cartoonists Barney Judge and Karl Nilsson. Says Judge, Ralph is like most of us in today's crazy world. Sometimes he's an observer of the absurd, some times he's a victim." Nilsson continues, "Like the time Ralph checked into a motel that passed out flea collars with the room keys. No wonder he invented do-it-yourself shock therapy"

Judge gives insight into Ralph's bizarre behavior: "He's the ultimate yuppie - the perfect consumer. Instead of a clock radio, he keeps a string quartet in the bedroom. As a child he was afraid of water. As an adult, he's hired a live-in lifeguard for his bathtub

Nilsson portrays Ralph as a product of the ecology-conscious '60s generation "During the energy crisis Ralph painstakingly trained a pack of fireflies to hover over his newspaper. And like most baby-boomers, Ralph is utterly serious about diet and fitness - he orders his chocolate eclair on a 10-grain bun It was this kind of commitment to social issues that earned him a guest slot on 'Lifestyle of the Middle-Class and Boring.'

While Ralph may be a bit neurotic, it's eviden his co-creators are perfectly stable. Barney explains, "When we first started, we thought we'd set the world on fire Now we'd be happy to just set a few kitchen tables on fire." Karl agrees. "Cartooning is in our blood. But with the help of modern antibiotics we're able to lead normal

A MAN OF IDEALS, Barney Judge feels that success in cartooning would allow him to pursue a higher purpose. "To make a lot of money, retire young, and become the prime minister of Tahiti." After attending Eastern Michigan University. Judge honed his art skills at Detroit's Center for Creative Studies, majoring in graphic communications

No stranger to newsprint, Barney's editorial illustrations have appeared in the Observer & Eccentric papers and the Detroit News In 1986. Barney won the New York Art Director's Award

year-old son, Matthew, and loyal dog, Maggie.

If cartooning leads to riches, Nilsson vows to donate his money back into fine arts "I'd like to open the first public museum exclusively devoted to velvet paintings of Elvis "Karl traces his passion for culture back to Wayne State University where he majored in art history and philoso-"With a practical education like that, my only

job skill was to ponder Plato's meaning of life

while I starved to death. What else could I do but start an ad agency?" Owner of Nilsson Advertising. Karl lives in Birmingham with his wife. Marie, and 5-month-old daughter. Britt. Nilsson confesses the origin of the partnership was a bit of an accident. "Our original plan was

not to simply draw cartoons, but to act out each joke in an elaborately choreographed skating routine. When I discovered that Barney was too heavy to lift over my head, we turned to more conventional means. Our first one-dimensional project was an ad campaign for a chain of salons called Bananas For Hair. Our assignment was to create a cartoon family of animated bananas. We've been 'bananas' ever since.

BARNEY ADDS, "A turning point for us as cartoonists was a brochure we did on corporate travel for the Travel Connection in Birmingham. In it we created a bedraggled business traveler who was forced to endure a different travel mishap on every page. For example, to illustrate a ticket mix-up, we find our hero booking a vacation flight to sunny Aruba. Expecting to be greeted by a tropical princess with a lei, he's met by a polar bear at the Anchorage air; Standing in snow up to his surfer shorts, he watches the plane disappear into the arctic sky with his luggage onboard. Looking back, we realized this frequent flyer was Ralph Syrius in search of a cartoon home."

Exactly how does the "Karlos Barney" partnership work? "First we assume one of three standard comedy poitions," explains Karl Then Barney holds the pencil, and I push the paper around." Judge adds, "If either one of us doesn't think a panel is funny we reject it unless I whine a lot. Of course, if you've seen our work, you know it is not a foolproof system "

THE PROLIFIC PAIR offers this word of caution to aspiring young cartoonists "Cartooning is difficult, dangerous work," warns Karl. "We work our nose to the bone and keep our fingers to the grindstone. Our best shirts are ruined from all the elbow grease on the drawing ultimate yuppie — the perfect consumer. Instead of a clock radio, he keeps a string quartet in the bedroom. As a child he was afraid of water. As an adult, he's hired a live-in lifeguard for his bathtub.

board. We often burn the midnight oil, but we're thinking of switching over to electricity. Have you tried to buy any midnight oil lately?

Barney sighs, "Meeting a deadline is a lot like being on the old 'Lou Grant' TV show. We drink cold coffee, we crumple up a lot of paper, and at the typewriter for hours. Did I mention that I type with my forehead? It's been proven that I work best under pressure, so if the everyday garden-variety stress isn't aggravating enough. hang upside down in gravity boots until achieve a sufficient headache to be creative.

Barney recalls the team's first awkward attempts at public relations: "We started out with the motto. 'Two morons for the price of one.' but that sounded too boastful. I favored something less conceited, like 'Cartoon's for all occasions no reasonable offer refused."

Nilsson concludes, "Of course, our marketing today is much more sophisticated. Now our business card reads. Fast dependable jokes. All gags guaranteed. Fully licensed and insured. You look at it, you laugh at it, and you take your time

THE BROWNE JUG

photos by STEPHEN CANTRELL/staff photographe

Can this truly be what our ancestors were like? David the tour guide explains Ned the Neanderthal to an eager group of tourists exploring Prehistoric Forest in the Irish Hills.

There's plastic in them thar hills

by Sharon Dargay staff writer

So you're going to the Irish Hills, huh?

And you're planning to spend a whole vacation day sightseeing along "the strip"-what the locals call a five-mile stretch of highway and roadside attractions southwest of Ann Arbor.

You probably remember fishing off the dock at Uncle Harry's summer cottage on Wamplers Lake when you were a kid.

Or you recently stumbled upon some 20-year-old souvenir-perhaps a bag of rubber monsters or simulated cedar coasters-and now you long to experience the thrill of holding a plastic tomahawk in your palm. Maybe you've never seen the Irish Hills, but you've heard rumors of its

tacky time tunnel and weird anti-gravity belt.

You are dying to see the place, but aren't sure what to see, how to dress, where to buy.

Don't worry. Just go. And have a good time. But take this Street Scene Travel Guide to the Irish Hills with you.

PART 1. THE PREPARATIONS

What to read before traveling: Maps.

This guide.

Comic books.

Articles with headlines such as "MARTIANS MOWED MY LAWN TELE-PATHICALLY." "THOUSANDS FLOCK TO SEE HOLY VISION ON POT ROAST!" "MY LIFE AS DOG MEMORABLE-SHIRLEY MACLAINE."

How to know if you're ready to travel:

Buy several grazing deer for your front yard. Install a lily pond and fountain. Add a bird bath and a windmill. String plastic lanterns and wind chimes from the flagpole to the fieldstone wishing well.

If you think the yard looks great, you're ready for the Irish Hills.

If you feel an urge to play miniature golf, add a few ceramic gnomes.

Hawaiian print shirts or knits with glow-in-the-dark pictures of heavy metal bands. Iron-on lettering. Cut-offs or blue jeans. Baseball caps with slogans. Jewelry from supermarket vending machines. White socks.

Borrow a camper if you don't have one.

Bring a camera with lots of fancy lenses and filters.

Don't forget binoculars for scanning the beach.

Pack a cooler with Spam sandwiches, processed cheese and Gatorade.

PART 2. ON YOUR WAY!

· How to get there:

Take I-94 west to the U.S. 12 exit. Head west.

· If you get lost:

Ask anyone in Brooklyn or Clinton. We found a guy named Roger sipping pop on a bench in front of the drugstore in Brooklyn. Here's what he told

"The Irish Hills is up on U.S. 12. That's the strip. You have a few families with children who go into that area, but as a rule, the people who were raised here don't take an interest in it.

"About all there is around here is recreation. There are a couple of go-cart tracks. A lot of people are into miniature golf. You'd find people at the (52) lakes.

The people in Detroit all come out here for recreation. People in this area go elsewhere.

"That's Roger. Stonecipher. C-i-p-h-e-r. Uh, have a nice day." PART 3. YOU'RE THERE!

You only have one day. You can't see everything. So be selec-

· Prehistoric Forest:

You'll see more Fiberglass dinosaurs at Prehistoric Forest than you'll see in a lifetime.

These pre-Disneyland-era monsters stalked the Irish Hills long before dinosaurs became fashionable marketing gimmicks.

Mildred Petit, a gray-haired septuagenarian, took over the business 13 years ago when her husband died.

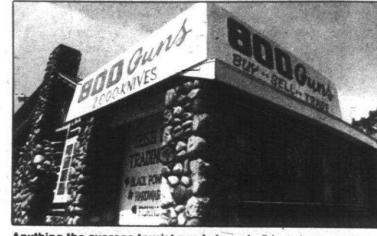

"Remember when the Sinclair Oil Co. took those dinosaurs around? That's when he got the idea. I had nothing to do with it before my husband died. He said, 'If anything

happens to me, you sell the store.' Well, I haven't. "I sold the space needle. You know the one in Gatlinburg? He owned that."

The jewels on her fingers (are they rhinestone or diamond?) flash as her hands sweep out over shelves of Indian and war toys in the adjacent Mammoth Gift Store.

Please turn to Page 4

The Irish Hills

Anything the average tourist needs to make his or her vacation complete can be found in the Irish Hills.

Irish Hills souvenir shoppers do their part to help keep Third World economies

Do not adjust your newspaper! A plucky young tourist laughs at the laws of gravity at Mystery Hill — Believe it or not!
