Standing in line for the new Batman movie was no joke for Rami Farhat, of Plymouth, who dressed as his favorite character.

Fans cheer for Batman

By C. L. Rugenstein staff writer

will the movie?

Bam! Pow! Batman lives! He even flies in this latest celluloid incarnation. The question is —

Most of the 200 or so fans who packed Canton's Cinema 6 theater for Friday's 11 a.m. matinee seemed to think so. Anticipation was so keen they cheered when the house lights dimmed, before the movie ever started.

Some were long time Bat-fans:
"I like it because its a new image," said Mike Bodley, 15, of Canton. "He's not the old hippy Batman"

of the '60's TV series.

"He has a new emblem," said
Ryan Guiliani, 13, of Plymouth.

"He's also more muscular."

"He's also Michael Keaton," added
13-year-old Keaton fan Fred Locke,
of Plymouth.

Plymouth.

Locke likes Jack Nicholson's

Joker too, though "He's not real different — I just like his character."

Another Nicholson fan just liked the Joker because "He's so bad. I just like Jack Nicholson and all his tricks," said Canton resident John Porter, 13.

Some of Friday's crowd were Batman comic collectors.

16-year old Billy Keller of Canton has collected comics — "mostly Batmans" — since he was seven. A fan of the old TV series too, Keller's favorite thing in the movie is the Bat Plane.

"I just like how it looks," he said. Not even threat of domestic retribution could keep Gilford Edwards, 23, of Canton, away. Edwards, whose wife didn't know he was going to the movie, has been a fan since he got his first Batman action figure at age 7. He also watched the series, and collected comics — 250 of them — "mostly Bats." he said.

nostly Bats," he said. But, his mother won't let him have them. She has them safely tucked away for the next generation of Batfans, Edwards' two sons, Khalvin, 4, and Quentin, 2.

For some moviegoers, seeing the Bat-movie just seemed like the right thing to do "I'm here to celebrate the end of the college semester," said Diana Markley of Canton. "Batman seemed like a good way to do it."

Markley said finals kept her and her 15-year-old son away from Thursday's sneak preview. But "he was here at nine Friday morning he thought there'd be a line" she said.

"Mom's working, it's the first day of vacation, and he just asked if he could go,"said Steve Wilson, of Livonia, taking in the matinee with his son James, 6. While Wilson wasn't especially a Bat-fan in his younger days, Markley, like many, had read the original comics.

Freezer murder case could go to jury today

By Peggy Aulino

A final defense witness was expected to take the stand today in the murder trial of Leonard Tyburski of Canton. The closing arguments are likely to be delivered today and the jury may start deliberations.

Tyburski, 46, is accused of second degree murder in the 1985 death of his wife, Dorothy. He faces a jail term of up to life in prison, with the possibility of parole, if convicted.

Defense attorney Carole Stanyar asked Detroit Recorders Court Judge Richard Hathaway Thursday to reduce the charge to manslaughter. That motion was denied, but the jury — if it finds Tyburski guilty — could come back with a verdict of either second degree murder or the lesser charge. Manslaughter carries a minimum sentence of 15 years.

"I'm going to allow the jury to decide whether or not this case should be reduced to manslaughter." Hathaway said in denying the motion

The highly publicized trial began a week ago and culminated in the testimony of the defendant. Tyburski with his wife, then hit her head against a beam and threw the body into a chest-type freezer.

STANYAR IS expected to call a medical doctor to the stand to give expert testimony about barbituates and tranquilizers Dorothy Tyburski was allegedly using in the months before her death. In his testimony, Leonard Tyburski said his wife attempted suicide sometime during the week before her murder.

"If I suggested that she needed counseling, she would get violent," he said. "I really thought she was having a nervous breakdown."

On Tuesday, assistant Wayne County prosecutor Glenn Page joined Stanyar in urging Hathaway to admonish the television cameramen about their conduct around Tyburski's family. Kelly Tyburski, who found her mother's body in the freezer on Jan. 2, fled the hallway when cameramen refused to stop taping her during a break in the proceedings.

"They feel they have been harrassed," Page told the judge.

Hathaway, who had barred cameras from the courtroom, left the bench and went into the hallway where television news crews had

been stationed all week.
"I'm going to ask that you not film
these people," Hathaway said.
"Don't harass them."

Stanyar objected to Hathaway's ruling that the freezer could be wheeled into the courtroom and admitted into evidence. She argued that law enforcement officials at the scene when the body was removed could describe during testimony the size and shape of the appliance.

"It just makes it a circus," Stanyar said. "I don't think it's necessary. It's inflammatory and I object to it"

Hathaway allowed the freezer to be placed in front of the defense table during the testimonty of Canton Police Detective Keith Lazar, who aided with the initial investigation.

"I thought that it was relevant for this jury to be able to see the dimensions," Hathaway said in overruling Stanyar. The judge said the jury would not be allowed to look inside the freezer, and it was removed from the courtroom after Lazar's testimony.

Plymouth luxury home project is launched

By Doug Funke

A development of luxury homes and condominiums around an 18-hole private golf course in the southwest corner of Plymouth Township, near the Canton border, has received the blessing of the Plymouth Township planning commission.

The commission last week recommended a rezoning of approximately 415 acres from agriculture to residential and granted special use approval for a golf course to be built on the property bounded by Powell, Ridge, Ann Arbor Road, Joy and Napier.

The developers, brothers Marcello and Silvio Scappaticci, hope to break ground on the project next spring.

Marcello Scappaticci said they intend to build an aggregate of 400 houses and condos of at least 3,000 square feet each. He projected selling prices at \$400,000-\$600,000.

"IT'S AN EXCELLENT building site," Scappaticci said. "We know this is a town that's growing with quality type buildings. I've been building in Plymouth Township 15 years. I've been the first one to strike gold."

The development, if and when completed, would be the largest single project ever built here in terms of land area and dollars spent, said James Anulewicz, township planning director.

Millions of property tax dollars would pour into school, county and township coffers.

"I would say over the last 10

"I would say over the last 10 years, this particular site has been looked at by a number of people," Anulewicz said.

"It has a number of natural resources, an existing pond or small lake, topographic change and vegetation," he said.

ANULEWICZ PROJECTED that it could take up to 2½ years for the golf course to be ready for play and the first housing units available for sale.

Before construction on houses and condominiums can proceed, water mains must be extended a mile along Ann Arbor Road and 1½ miles along Napier and Powell.

Also, a sanitary sewer line must be extended by nearly three-quarters of a mile from Joy.

Michael Bailey, the township's consulting engineer, projected that the developer could pay millions for utility improvements alone at the site.

Before any work begins, the Scappaticcis must obtain rezoning and plat approvals from the township board for the residential construction and site plan approval from the planning commission for the golf course.

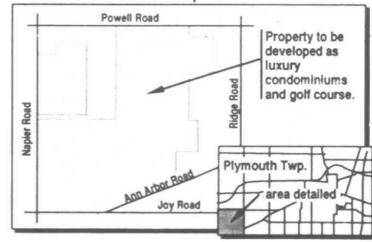

THE TOWNSHIP BOARD could consider the rezoning at its August meeting, Anulewicz said.

Records filed with the township planning department indicate that the Scappaticcis began to acquire options on property for the development two years ago.

The Scappaticcis have built such projects as the Plymouth Office Park, Plymouth Atrium Center and Italian Cucina restaurant.

They also plan to develop the Wilcox property overlooking Kellogg Park for residential use.

Canton firm could be closed for selling illegal fireworks

By C. L. Rugensteil staff writer

The state attorney general's office last week sought a court injunction to stop a Canton fireworks firm from selling illegal fireworks.

The injunction against Tri-City Fireworks, 47405 Michigan Ave., signed on Thursday by an Ingham County Circuit Court judge, could lead to the closing of the firm, if it doesn't stop selling the fireworks, according to Chris De Witt, a spokes-

man for Attorney General Frank Kelley.

Kelley is also asking for a \$25,000 fine against the company as well as costs and legal fees.

A spokesman for Tri-City refused to comment on the injunction. He said the firm is still in operation.

Kelley's complaint alleges the company sold fireworks without obtaining the permits necessary under the state Fireworks Act, and also used deceptive advertising.

Permits are hard for individuals

to get, according to De Witt, and are usually issued to communities like Detroit for fireworks shows, like the Freedom Festival kickoff.

Kelley's office sought the injunction after an investigator ordered fireworks through the mail. When the order came in it was tested by a state police fire marshal who charged that the fireworks are in violation of the state law. Under that law, fireworks that are illegal in Michigan can be sold only when shipped out of state to a firm or per-

son with proper permits for that state.

Sparklers, small caps, and smoke bombs are the only fireworks legal in Michigan, DeWitt said.

"Anything that explodes, shoots up in the air, or makes a loud noise,"is illegal, he said.

That includes cherry bombs, bottle rockets, M-80's and Roman candles. Kelley said that fireworks are en-

Kelley said that fireworks are entertaining and safe only when they are in the hands of trained people who take the proper precautions.

Sales tax increase has local support

By C. L. Rugenstein

Local legislators and educators favor a ballot proposal that would raise the state sales tax by two cents

to finance education That proposal would also provide some property tax relief and will be on the Nov. 7 ballot along with a

similar proposal. That other proposal would hike the sales tax by one-half a cent, but wouldn't provide property tax relief. The one-half cent sales tax plan would raise about \$400 million for education, but there would be no

change in the school tax formula. The two-cent plan would raise about \$1.6 billion for education and allow local school districts to cut property tax rates.

Rep. James Kosteva, D-Canton, favors the two-cent plan because it will change the school tax formula Inder the plan, 9 mills of every disrict's taxes will go into a fund to be shared statewide by all districts. "It offers a shift from the burden

on tax payers, onto the sales tax, Kosteva said, adding that the 9 mills would provide for property tax sharing across the state.

For instance, if a new building were to be built in Southfield, the additional tax revenues would benefit every other school district in the state as well as Southfield.

A group of parents and other supporters from a substance abuse reatment center decided that walk was worth the effort. A walkathon for the Straight Inc. facility in Plymouth Township attracted 60 walkers.

Did you know Chiropractic is a proven scientific method of health care? In research laboratories around the world there is proof that pinched spinal nerves lead to poor body function and ill health. Chiropractors have known this for years, others are now agreeing.

You may have seen our advertisements, you have read testimonials by our patients. We have helped hundreds return to health and kept as many from being sick.

The Mashike/Chiropractic Clinic has a modern health maintenance plan wherein your spine can be checked for potential pinched nerves and if found eliminated before they cause ill health.

Answer these:

- How much longer are you going to wait to be helped?
- Are you going to leave your health to chance?

Commissioner heads SEMCOG

By Tim Richard staff writer

Local units will have to solve environmental problems themselves, together and without federal or state help, says Milton Mack Jr., the new chair of the Southeast Michigan Council of Governments.

"The '90s is the decade of the environment, and solid waste is the issue of the '90s," Mack said as SEMCOG delegates unanimously elected him to head the sevencounty regional planning agency last week

The first western Wayne County official to head SEMCOG in its 21year history, Mack, 40, is a fourthterm county commissioner.

Mack, D-Wayne, has seen his own career in county politics take a downturn when he supported policies of former County Executive William Lucas and former board chair John Hertel.

"State government does not have the dollars to deal with the issues

"Local governments will have to step up to the task," he said, citing problems of solid waste, stormwater and infrastructure, a collective term for public roads, bridges, sewers and water lines.

Although most solid waste plans are being drafted on a countywide basis, Mack said SEMCOG has a role in this area.

"Solid waste is a classical regional issue," he said, noting that cities generate it, townships accept it, the state makes the rules, and the county runs the programs.

"SEMCOG can participate in inter-county waste management agreements," Mack said.

AN ATTORNEY, Mack has headed the county board's public services and solid waste planning committees.

Ironically, he said in an interview, he will have more time as SEMCOG chair than he had serving

Shitakes just one of many

With all the hoopla over this year's poor bounty of morel mushrooms, I couldn't help but notice all the other assorted, upscale mushrooms appearing on my grocers' shelves.

Venture into any major suburban restaurant and you will notice the likes of shitakes and oyster mushrooms, wild mushrooms, enokis and creminis, resounding from the waitperson's lips as he or she reads the daily specials.

With their subtle flavor and distinctive texture, coupled with a beautiful appearance, today's mushrooms have a magical ability to transform even the most mundane ingredients into truly extraordinary fare.

BEFORE THE commercial cultivation of mushrooms, which began in France at the time of Louis XIV, they were so rare a delicacy in many locales that they were reserved for the ruling classes. Nowadays, with such bounty at hand, it is a culinary challenge to explore the whole range of mushroom cookery from garnishes and sauces to soups and main courses.

Not the least of the mushroom's benefits is the fact that it is unusually low in calories, rich in vitamins and low in sodium. Four large mushrooms contain just about three calories, most of which are consumed just by chewing them alone.

THE MOST notable variety readily seen in all markets includes the moonlight white and botton varieties. When purchasing these, look for ones that are firm, without blemishes and with caps that are tightly closed so that the gills underneath the cap are not visible. In the East and Midwest, most varieties are white or a light cream-colored but in California and other Western states, whites, cream-colored and brown varieties are readily

When purchasing exotic mushrooms such as the shitakes and cremini varieties (two of the more common market varieties), again look for unblemished assortments that are firm and have no visible sign of mold or slimi-

To store mushrooms, place them unwashed in a plastic container that is open at the top or in a paper produce bag open at the top to allow them to breathe. Plastic bags should not be used for storage because mushrooms tend to give off moisture and they will become soggy and mold more easily. If you purchase the freshest mushrooms, expect them to keep for no more than one week in this fashion in the fridge.

Mushrooms should be cleaned just before cooking and/or eating. If you are certain the mushrooms haven't been treated with chemicals, a simple wipe with a damp paper towel or soft-bristled mushroom brush will suffice. If you are not certain, a good rinsing and quick drying on paper towels will do nicely. It is not necessary to peel mushrooms. Simply trim off a thin slice from the stem and they are ready to

NOW, A WORD on mushroom brushes. A few years back, mushroom brushes were de rigueur and all good kitchens had them prominently displayed. At about \$4 each, these were a marketing strategy that soon went bust. Nowadays, good cooks keep a soft toothbrush in the gadget drawer, ready to lightly brush off any dirt that ordinary rinsing won't remove. If you are neurotic about cleaning the little beauties, you probably wouldn't be interesed in knowing what they grow in so we wil leave that info for a later sto-

The temptation to gather wild mushrooms can be very strong, but unless you are an expert on the subject, it is almost impossible to be sure which fungus are

It includes tuna salad, fresh vegetables, hard-boiled egg, crackers, fresh strawberries with whipped cream and a croissant with butter. Ensure supplement drink is high calorie and high protein.

In sickness or in health, eating right is essential

HE OLD SAW, "You are what you eat," is perhaps never more true than when one is ill.

Good nutrition, a necessary ingredient for healthy living, is even more essential during bouts of major life-threatening illnesses such as

"Disease and treatment can cause medical problems that result in dietary problems for patients," said Sandra Remer, a Farmington Hills nurse who supervises the care of cancer patients seeking outpatient services at Southfield's Providence Hospital

Depending upon the type of cancer and where it strikes, patients may be unable to eat or digest food properly. Tumors, for example, may alter the patient's ability to maintain nutri-

tion, according to Remer.

Patients also may suffer loss of appetite as a result of complications or side effects from surgery, chemotherapy, radiation or other medical treatments.

"Treatment can adversely affect the nutritional status of patients, and a negative nutritional balance can even become a matter of day-to-day survival," Remer said. Overt malnutrition is present in an estimated 40 percent of all patients hospitalized for cancer, Remer said.

"EATING HINTS," a booklet produced by the U.S. Department of Health and Human Services for cancer patients, offers tips reflective of good common sense to ensure better nutrition during cancer treatment.

Try ice cream mixed with ginger ale or a milk shake, frozen yogurt or eggnog.

Eat small meals more often.
 Keep snacks handy for nib-

More enjoyable.

A balanced diet helps prevent body tissues from breaking down and can help rebuild normal tissues that have been affected by the treat-

ment, according to the booklet.

Research, the booklet said, indicates that cancer patients with good eating habits may have fewer infections and be able to be up and about

The booklet also emphasizes that diets high in fiber and low in fat, while recommended by the National Cancer Institute and the American Cancer Society, in no way "prevent" cancer. There is no evidence at this time that changes in your diet will

prevent cancer or a recurrence of it, the booklet said.

"For individuals under treatment for cancer, the highest (nutritional) priority is a balanced diet adequate in calories, protein and vitamins," it also said.

"NUTRITION IS really important as a part of therapy. I tell patients they must think of it that way. Good nutrition helps them fight infections and tolerate treatment better," said dietician Jo Mondro of Providence Hospital.

Mondro, who works exclusively with cancer patients, said her advice includes "eating exactly opposite as you would if dieting."

When appetite is up, "pack it in" and eat as much as possible. Try to add calories without increasing volume, cream instead of milk and lots of butter and dressing.

Make food more appealing by experimenting with different ingredients and new recipes. Combat fatigue by eating small amounts fre-

quently.

Patients at Providence Hospital
also receive diets rich in supplements like Ensure, Enrich or Carnation Instant Breakfast.

LIKE MONDRO, Jo Ann Naumoff is also a dietician for cancer patients at an area hospital. By observing the eating habits of the seriously ill. Naumoff has come to certain conclusions or "tumor humors," as she calls them.

Patients "across the board" dislike red meat, regardless of how it is prepared — broiled, baked, ground or pureed.

A diet supplement called Isocal, described as "bland, mild and flavor-less" by those who are well, is universally favored by the sick.

Ice cream, Jell-O, applesauce and other pureed foods are generally considered refreshing, orange and other acid juices can create intestinal burning, and individuals on chemotherapy need twice the sugar to make things taste sweet.

"Patients who aren't feeling well don't like talking about food," Naumoff said.

The challenge to the hospital dietician is "coming up with ways" to promote and maintain normal weight.

HOSPICE PATIENTS who are critically ill are encouraged to eat whatever they want in order to maintain strength, according to Mary MacGregor of Southeast Michigan Hospice in Southfield. Last year, the facility offered services, including dietary advice, to approximately 1,000 patients.

"We encourage soothing foods," cuisine that is easy to chew, swallow and digest."

Pub-style warmth earmarks Rugby Grille

It was a special occasion, so we looked for a special new place to meet friends for a farewell dinner.

We found a great spot for an intimate, delicious meal — the Rugby Grille, Birmingham's new British pub style restaurant in the Townsend Hotel. Its English theme is carried out in

green Carrara marble, which is used throughout for table tops as well as for a fireplace mantel and accents. It almost feels like a study, with its hunter green plaid draperies and

striped wallpaper in deep green,

cherry paneling and tables and deep

blue, rose and gold tones.

The grill seats just 42 at present, but will expand to 75 in a few weeks when eight tables are added in the colonnade off the hotel lobby. That means more activity near the lobby, which already encourages visitors and guests to stop for a genuine English tea time.

THE OCCASION we were celebrating was the retirement and pending move of Observer & Eccentric wine columnist Richard Watson and his wife, Susan. Before they moved west to Washington, we had to sip a few more glasses of wine and try out a new place.

The wine list met with our critic's approval. It is extensive and features a nice selection of wines sold by the glass. However, it is difficult to find a moderate-priced wine on the list — which is also true of the menu.

with filet mignon (\$21) and New York Strip Steak (\$19), and includes char-grilled veal chops (\$22.50), salmon (\$20), chicken (\$15.50) and broiled whitefish with lemon caper butter (\$18).

We ordered from the evening's specials, which included sauteed soft-shell crabs (\$22) and lightly breaded and sauteed lake perch (\$18), served with cute little mushroom redskins (redskins cut into mushroom shapes). A terrific, crispy

salad accompanied our meals.
Intriguing specials also included sauteed baby halibut with hazelnut crust (\$19) and char-grilled medallions of beef with wild mushroom sauce and bearnaise (\$22).

WHILE THE main entrees are tasty, the baked goods are unforgettable, right down to our whole wheat dinner rolls. The pastry chef, Don Palmer, prepares all the breakfast and dinner rolls and wonderful pastries and desserts — even cakes for weddings held at the hotel.

In the heart of downtown Birmingham, the grill draws most of its clientele from area businesses, retailers and residents, as well as Townsend guests.

Lunches are quick and good. Mainstay of the lunch menu is a sandwich buffet (\$6.95) featuring four differ-

ent selections each day.

AMERICAN

CHIROPRACTIC SPELLS RELIEF

I had been suffering with a very bad achy back for a long time. My daughter finally convinced me to go see her Chiropractor, Dr. Chase. I had not been able to do my own housework for a long time without a lot of pain. After only one month my back began feeling better and I was able to do more and more

Even when I am on my feet too long, I get only mid aches and no pain. I would recommend Chiropractic care to any one.

ORA DAVIES

No More Pain Pills For Her...

When I first started going to Dr. Chase it was because I was in severe pain because of a bad fall on the ice. I couldn't sleep at night and I was taking pain pills every 3 or 4 hours. I was told by a medical doctor that I had a pinched nerve and it would take time for it

Then I went in Doctor Chase's office he took x-rays and he sat me down and talked to me and explained them. I had sprained my right hand, tore tendons under my right arm and breast and I had pulled my third and fourth vertebrae out of place.

After the first adjustment I felt some relief from the pressure, by the third adjustment I was starting to feel a lot better. By the time I had my tenth adjustment, I felt like a new person. I was not a true believer in Chiropractic care until this experience, but I am now.

If you have any aches and pains don't be afraid to go see a Chiropractor because your nerves control your body and if your nerves are not in proper order you will have aches and pains. Believe me you will be amazed!

Thank you Dr. Chase

Chiropractic Care, Don't Ever Underestimate It

Three years ago when I first placed myself under the Chiropractic care of Dr. Chase, I was suffering from severe headaches, extreme mental depression and a stomach that could hardly retain anything.

I had been under the constant care of my family medical doctor who finally informed me I was not holding my own and if I did not start doing better, I was not going to make it. It was at this point, through friends that I became acquainted with Dr. Chase.

Today I no longer have any physical problems. never looked or felt better. I feel extremely well. I have also had a subsequent back problem and knee injury completely corrected through Chiropractic are. From experience I have discovered that Chiropractic care should be considered first. Don't ever underestimate it, and don't deprive yourself of it.

school soccer league in Michigan has a better crop of players.

Troy Athens ended the WLAA's six-year dominance of girls soccer in Michigan, defeating Northville 1-0 earlier this spring in the Class A championship game. WLAA teams won the open class titles from 1983-86 and the Class A crowns in 1987-

And it's a safe bet the WLAA will return to the top.

Every member of the 1989 All-Observer first-team is from the WLAA. and eight of the 11 players are underclassmen. Farmington placed five players on the team, highlighted by Amy Trunk, the area's leading scorer with 24 goals.

On more than one occasion this year, six WLAA teams were ranked among the Top-10 in Class A.

Five Observerland stars made the Class A first-team, including Plymouth Salem's senior sensation Jill Estey, a three-time all-stater. The other seniors on the All-Observer first team are Farmington midfielder Jennifer Misaros, and Churchill defender Andrea Szymanski.

The Coach of the Year is Cathy Cole, who in her first year meshed together a young Farmington squad and guided the Falcons to a 16-1-4 record. Farmington reached the Class A semifinal round before losing to Athens

Following is a capsule look at the WLAA, excuse me, All-Observer first-team:

FIRST TEAM

GOALIE

Jennifer Emmett, freshman, Salem: The only thing left for Emmett to look forward to is a Class A title. Still only 14 years old, Emmett was a first

team Class A all-state selection, record ing 11 shutouts and a 38 goals-against average. She was a first-team All-West ern Lakes Activities Association honored and also was one of two goalies named to the Section 3 Class A soccer team.

Emmet was one of the primary rea-sons Salem won the Lakes Division title and finished 12-2-2 overall. She moved with her family to Plymouth last summer from Washington, where she was a mem ber of the state youth select team

FORWARDS

Michele Minton, junior, Salem: A second-team All-Observer performer last year, Minton became one of the state's most-feared scorers this year Minton overcame a bruised thigh that had her sidelined two weeks during the season to finish with 16 goals and 10 assists. She was a first-team Class A all-state selec-In three years, she already has scored

61 goals and added 23 assists.

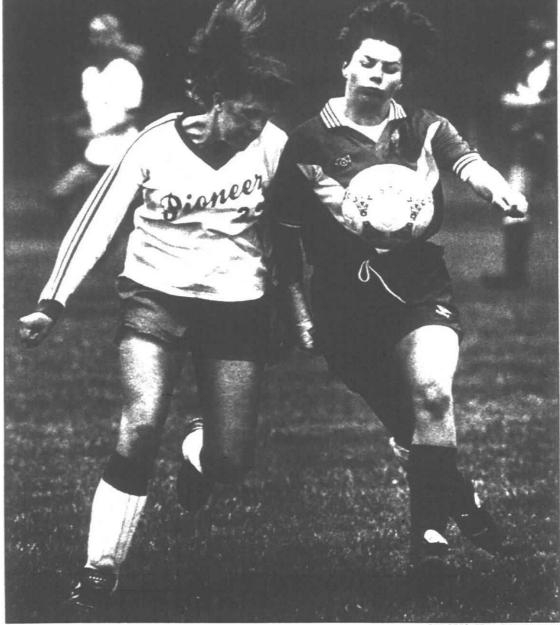

"A terrific center striker, tall and fast," coach Ken Johnson said "Michele's a good team player

Carrie Maier, junior, Farmington: Maier knows what to do with the ball, as evidenced by her goal-per-shot ratio. Maier, a three-time AH-Observer member, scored 23 goals though she took only 85 shots. A first-team Class A all-stater, Majer also tallied 14 assists for Farming ton, a team that had to spread the wealth because of its goal-scoring capabilities

Majer has scored 69 goals and 37 as sists in three years as a Falcon

"Carrie is a very skilled player," coach Cathy Cole said. "She has the ability to distribute well and can shoot off-balance with accuracy. She is a great role model and representative of women's soccer

WE LIKE HIS ability to handle budgets and his public relations skills," Carleton said.

Nowak takes over the post on July and his first step is to be as available and visible to the current SC coaching staff.

"I hope to keep things open and communicate a lot," Nowak said 'I'll review the budget, talk about fund raising and look at the equipment on hand. But my intent is not a my way or the hit the highway type of thing. Schoolcraft has a lot of good things going already and I just hope to improve upon it.

Nowak said he hopes to establish office hours for coaches and be available during the evenings as much as possible.

Once he organizes his desk, Nowak will launch a fall schedule of programs which features men's and women's soccer, men's and women's cross country and women's volleyball. (The SC volleyball team won a national championship last season.)

He also plans to meet individually

with coaches "I want the coaches to know that I'll be there to help them," Nowak said. "I also want to get the P.R. (public relations) going."

Schoolcraft has already been selected to host the Michigan Community College Athletic Association Men's Basketball Tournament (March 2-3, 1990) and the MCCAA Women's Volleyball Tournament (Nov. 10-11, 1989).

"We want to do things more like that." Nowak said.

BUT NOWAK and Schoolcraft will

be faced with some pressing needs during the upcoming season. Among the issues and tasks that

will have to be addressed include: Divisional status in men's basketball (Division I or II?), fund-raising activities (Wolverine Soccer, Ocelot Run and the annual golf tourney), along with maintaining eligibility and academic standards.

"Academics is the top priority and rom what I've seen. tem here (for athletes) is dynamite," Nowak said. "I just hope to lead them through it and make sure we're complying with the academic guide-

Nowak is a graduate of Dearborn Fordson High School and holds a master's degree in administration and supervision, as well as physical education from Eastern Michigan University.

After graduating from EMU in 1970, Nowak was employed as a teacher at Riley Junior High where he coached football, track and basketball. He also served three years as

Bentley High's JV basketball coach and later became athletic director at the school (1977-82). BUT IN 1982, with the Livonia

Public Schools plummeting in enrollment, Nowak and many of his colleagues were laid off from teaching.

He spent the next four years in the business arena, lecturing around the country for a California-based investment institute before taking on a similar position with the New York Life Insurance Co. in Southfield

In 1986, Nowak he was recalled as a Livonia teacher, serving in elementary physical education. In January of 1987 he shifted to Holmes where he currently serves as student activities director.

"I've always enjoyed education and being around kids and that's why I came back," said the new School-

Area stars figure in low score

By Steve Kowalski staff writer

Observerland stars Leo Hutchinson and Craig Murray are two reasons why Thursday's high school baseball all-star game at Tiger Stadium was so low scoring.

The West beat the East 1-0, scoring an unearned run in the third inning off Hutchinson, who pitched an otherwise flawless game.

Hutchinson, a left-hander from Redford Catholic Central, relieved starter Jim Miller (Waterford Kettering) and pitched the third and fourth innings, allowing no hits and walking two

Farmington Hills Harrison graduate Murray came on in the seventh for one inning of work, fanning two, walking one and yielding no hits.

Hutchinson, who has signed a letter of intent to attend Eastern Michigan University, said he threw fastballs 75 to 80 percent of the time and also mixed in an occasional curve and knuckle

TWENTY-THREE of Hutchinson's 39 pitches were strikes, although he wasn't excited about his control. This was Hutchinson's second appearance in Tiger Stadium, so the jitters weren't to blame.

"I was wild, trying to overthrow on 0-2 pitches," said Hutchinson, who was 15-3 for the Shamrocks, a Class A semifinalist. "I don't know what it was. I was all over.

"It's still a big thing for everybody. You come here and your eyes are lit up. When you first get out there, the big stadium and atmosphere gets to

you, but after the first couple pitches you're fine The West scored the game's only run in the

third. Mount Morris' Scott Winterlee walked with one out, and he scored all the way from first when shortstop Bob Valicevic threw wildly to first trying to throw out Eric Dan Apilis on a grounder. That's what happens - that's how it starts

with walks or errors," said Hutchinson. Murray and Hutchinson agreed the best thing about Tiger Stadium is the pitching mound, which is cared for like a baby by the Tigers grounds

"IT'S MINT - plain and simple," Hutchinson said to Murray in the dugout after the sixth in-

Murray, a right-hander who posted a 9-1 record for Harrison, responded: "It's pretty sweet compared to the mound I played on. Murray made that comment before entering

the game, and his impression of the mound didn't change much afterward. "It was nice," he said. "I wish I could pitch off it a lot. The mound is really high. There are no

holes at all." A banquet to honor the players and induct 10 coaches into the Michigan High School Coaches Association was held Wednesday night at Zuccaro's Country House in Mount Clemens. Ron Hellier, a long-time coach of Livonia Franklin and

Livonia Adray's sandlot team, was one of the in-

"T'll never forget it," Murray said. "The banquet was real nice and then to come out here." BIRMINGHAM Country Day coach Frank Or-

lando was elevated to head coach Thursday, be cause the East's head coach, Dan Griesbaum of Grosse Pointe South, was taken to the hospital Wednesday complaining of stomach pain.

Orlando praised the effort of Hutchinson and

"They're both excellent pitchers," Orlando said. The key to the whole game is coming to Tiger Stadium. Controlling your emotions is one of the most difficult things

"I guess the last couple all-star games have been high-scoring games. This one turned into a pitcher's duel. I don't know if it was the (overcast) weather or that the pitcher's were on top of the game. It was a great game. An error here and there caused the difference."

The West's most valuable player was Midland Dow second baseman Bob Juday, headed to Michigan State on a baseball scholarship. The East honor went to Milford's Jeff Irish, who collected two of the six East hits.

Immediately after the game, Irish signed a professional contract with the Toronto Blue Jays, who selected him earlier this month in the major league draft. Irish had signed a letter of intent earlier this month with Central Michigan.

The other nine inductees into the MHSCA Hall of Fame were Dick Banovic, East Jackson; Frank Clawsen, Royal Oak Kimball; Ron Engels, Wyoming Park; Larry Gall, Flint Carman/Ainsworth; Marvin Mittlestat, Flat Rock; David Petrosky, Bay City Handy; Harry E. Potter, Muskegon; Bob Stoppert, Midland; and Ron Teasley, Detroit Northwestern.

Ex-Patriot coach inducted into Hall

By Steve Kowalski staff writer

Ron Hellier, the long-time Livonia Franklin and Livonia Adray baseball coach, was one of 10 inductees Wednesday into the Michigan High School Coaches Association Hall of Fame.

But at age 49, Hellier says his coaching days might not be entirely

Currently the Mount Clemens Chippewa Valley High athletic director, Hellier guided Franklin to a 149-106 record from 1968-78, and he has an overall record of 365-182. He last coached Adray in 1987, leading the Livonia-based team to its fifth straight national tournament appearance

Hellier, who lives in Troy, is thrilled by the honor, but says he's contemplating returning to coaching. Adray reached the AAABA final four in 1985 and his goal is to win the tourney

"It's super, whenever you get honored by your peers," said Hellier, who attended the eighth-annual high school all-star game Thursday at Tiger Stadium. "It would be fun to return. Stu (Rose, the Adray Appliance coach and former coaching assistant) wanted me to coach with him. and I almost did, but it was just too far to go.

"My goal originally was to reach the Final Four and when we did that: my wife said, 'Now you want to retire.' And I said, 'No, my goal was to get to the Final Four, now I want to win the championship'. Stu will get it one of these days."

Is this avid exerciser getting enough protein?

Partrich

Dear Myrna: I am a thin man who loves to work out. I spend my lunch hour working out rather than eating lunch. I generally eat one piece of toast and juice for breakfast. I eat a light, well-balanced dinner. I'm concerned that I don't get enough protein in my diet. Am eating enough by the two meals a day? P.S. My workout at lunch is important. I won't give it up!

I do understand your lunchtime workout being important. It's a great stress releaser during the day and also will help rejuvenate your brain for better productivity. That has been proven!

As far as your diet is concerned, if you eat a well-balanced dinner. can assume there is some protein in your daily diet. Most Americans consume significantly more protein than their bodies require. You probably are getting enough protein.

If daily caloric needs are not met, your body will use dietary protein for your energy needs - your lunchtime workout. An adequate complex carbohydrate intake is necessary to maintain that glycogen storage you have

part of what lawn bowling is all about lately the sunny days have been few and

Between the raindrops, and on some of our rare sunny days, lawn bowling is an active and organized sport at the West land Lawn Bowling Club. This game is played on the green with a perfectly manicured-Rink-Of-Pen-Cross bent grass cut to three-sixteenths of an inch.

The format for lawn bowling is to roll a "Jack" which is the small white ball at least 75 feet away from the starting mat It is then up to the players to place the balls as close as possible to the "Jack" to score the points, the scoring system being somewhat similar to horseshoes.

The balls themselves are about the size of a softhall made of a Mineralite mate. rial and weighing about 31/2 pounds. The balls are biased so they will curve either o the right or left, depending on how they are held. Scoring is usually up to 2 points in a game, but that can vary de ending on the situation.

The game of lawn bowling is highly organized both nationally and worldwide and enjoys considerable popularity in most of the English-speaking countries

The Westland Lawn Bowling Club, located near Ford and Newburgh roads, is one of two clubs in Michigan, the other being in Flint. They are sanctioned by the American Lawn Bowling Association which sets the guidelines for competition and runs the various tournaments broughout the country. The ALBA is to lawn bowling what ABC is to 10-pin bowl

Some coaches are rebuilding, others are refining and a few more are restructuring their Oakland University teams as recruiting season draws to a close.

OU's men's swim team, the NCAA Division II runners-up the last three years, must replace seven swimmers. They have; coach Pete Hovland has signed eight. The women's swim team lost just Ginnie Johnson (from Plymouth Canton) to graduation. Three new additions should help immediately.

Last year, baseball coach Paul Chapoton couldn't find any pitching prospects worth signing. Now, coming off a 31-16 campaign, he has already signed three pitchers and prospects are good for adding a few

IN SOCCER, the story is different. Coach Gary Parsons must rebuild his defense after losing three starters and midfielder John Stewart. Also, starting forward Sel Eren has decided not to return to school. Parsons has five recruits to offset the losses, including two from Trinidad.

KNEE INJECTION BEFORE SURGERY

It hardly should need repeating, but the njection of steroid medication into the knee joints needs to be undertaken thoughtfully. The concern among physicians is that an extra injection may accelerate deterioration of bone.

However this reservation concerning injection disappears when you nd your doctor agree that knee replacement is in order. This difference in outlook is similar to how you might feel once you decide o re-sod your grass. While waiting to put in the new turf, you don't need to be as strict as you formerly were in keeping people off the old

Once you are convinced of the necessity for knee replacement, the oncern over further possible deterioration of bone is not an issue What becomes of primary importance is keeping you active and walking, then you can undergo the operation in a state of maximal nealth. If knee aspiration and injection help you stay active, then such

Bat at 50: Still 'big' with fans

JOHN STORMZAND/staff photographe

Doug Henderson of Detroit checks out a free "Batman" poster in a fan magazine. He believes the caped crusader has "that sense of part revenge and a drive for justice regardless of whose toes he has to step

By Keith Postler staff writer

The streets are dark

Tires squeal in some corner of the city, unable to grip the rain soaked pavement.

It could be any city - yours, mine. But it's not. No. this time, it's Gotham City.

Along one of its main avenues, a woman wrestles with an umbrella that has been grabbed by a gust of wind. It tugs at her arms, gently dragging her into a darkened alley where laughs and heckles suddenly melt into silence.

She doesn't see her attackers. They have waited for her - in the shadows

Soon, they are upon her A winged creature, dressed in black, swoops down from a fire escape. It is huge. Several of the attackers

tumble to the ground. They can hear it breathe 'Hey, man it's . . "one of them says. "It's the Bat! In an instant, they are gone. Their feet pound the pavement. They are lucky. They escaped.

The creature - really only a man - fades back into

the night This is Gotham City, a smoldering hot bed of crime and corruption. It is also home for the legendary crime fighter, Batman

THIS YEAR marks the 50th anniversary of DC Comics' caped crusader, the Batman. It also highlights

surge in sales of comic books, T-shirts, posters, and the release of the much anticipated Batman movie

'My friends like him, and I like him because he's a dark character," said Chris True, a 14-year-old Batman fan from Redford Township.

But where did it all begin? Avid Batfans know the answer. They can probably recite it for you religiously

The story began in 1939 when an 18-year-old artist named Bob Kane was asked by the editor of DC Comics to create a character that would rival its Action Comics' Superman. Kane, a fan of pulp magazines and old Zorro movies, sat down one weekend and whipped up a mysterious, cape-draped figure modeled after a

But unlike Superman, Kane's character, named the Batman, would be vastly different. No leaping over buildings or slapping away a volley of bullets. Batman would possess no super powers, nor would be a lawabiding citizen who happened to bag criminals and hand them to the police

He is a dark, brooding character, obsessed with stopping crime before it destroys Gotham City and its citizens. His alter ego, billionaire Bruce Wayne, is haunted by ghostly visions of his parents - murdered before his eyes when he was only a boy.

That scene, played over in his mind when he is least prepared, was the impetus that launched his career Driven to avenge his parents' death, Wayne trained his body and mind to become hard, almost indifferent.

HE BECAME the Batman and adopted the black and blue costume (originally black and gray) as a means to frighten criminals. He is a vigilante, driven by revenge

The Batman, by all accounts, is a man in great pain, whose actions teeter on the edge of psychosis. Criminals push him, but the memories are the real force.

'He's got that sense of part revenge and a drive for justice, regardless of whose toes he steps on," said Doug Henderson, 32, of Detroit. "With him, the end justifies the means, and the end is always justice. Politics don't enter into it."

But why is he so popular?

"I think it really ties into what's going on in America today," said John Curtis, manager of Livonia's Classic Movie and Comic Center. "People are sick of crime and drugs and corruption, and I think secretly they'd like to be able to be Batman and fight crime."

Batman works mostly at night. He combs the tops of skyscrapers like a vulture swooping over a tree, waiting for helpless prey. His methods border on criminal acts, but as one fan said recently, "he gets the job

Rob Horn, president of Comics Archives Inc. in Detroit, said Batman is so popular because he is differ-

Everybody has some sort of criminal act done to them, and Batman can take action about it," Horn said. "He beats the snot out of people and makes them pay in his own way. I think his vigilante image is what attracts people, even if it is outside the law.

BATMAN'S ETERNAL nemesis is the Joker, a nameless villian who covets crime as much as a normal man covets oxygen. The Joker, too, is a borderline psychotic.

In the comic books, he was a failed stand-up comedian blackmailed into being a criminal. He was set up, fell into a vat of paint used to decorate playing cards and became Bruce Wayne's darker side.

Together, they are shadowy reflections of one another. One obsessed with crime, the other with stopping it. Both have been pushed over the edge.

'I think he fits the times more now as a vigilante, a loner out on the streets," said Joe Rzeznik, 27, of Redford Township. "If you look at the police, they can't seem to do anything right. Even if he is a comic book character, people can still believe in what's right.'

"I think Batman always had a different impact than Superman, Superman is an icon, pure," Rodger Shomo, owner of the Right Stuff in Westland said. "Batman went through a tragic change when he was a child. I heard someone say once that Bruce Wayne died when his parents died, and he's been Batman ever since. Batman is only playing Bruce Wayne, it's a psychological thing.

'He's a little nuts, schizophrenic, basically," Curtis

Fifty years later, Batman is one of comics great success stories. He is enduring because his battles reflect reality - about what average men will do, if hit hard enough

Pow! Zap! Holy Batman

The dynamic duo of Batman and Robin, along with their foe the Joker are back, but this time instead of being on television, it's "Batman" the movie, now showing at theaters across the country.

But Hollywood producers aren't the only ones smiling about the anticipated millions of bucks expected at the box office. The makers of Batman clothing are also geared up to rake in lots of cash.

From T-shirts, hats and dolls to pajamas and suspenders, "Batman" apparel is where it's at. Early shipments of merchandise focused more

Not to worry, there are plenty of shops with loads of Batman to choose from. Brody's in West Bloomfield has decorated the entire front window with the merchandise. Even the major discount stores like Mervyn's has a wide array of "Batman" items, including sun visors and boy's underwear.

A fad? A flash in the pan? Well, perhaps . but for now "Batman" clothes are the hottest trend going and sales are booming.

Holy fantasy, 'Batman,' where's the pow, zap?

Expectations often are more rewarding than realization and "Batman' (C+, PG-13, 120 minutes) is a perfect example of that premise.

Despite its excellent, stylized look and Jack Nicholson's first-rate performance as the Joker, the caped crusader flounders through two hours of questionable plot that's weak on continuity and credibility. Most of the acting is uninspired and the heroics are laughable while the script generally isn't.

Anton Furst's production design is apprpriately dank and gloomy, an mage of urban decay and corruption set somewhere in "no-time" between 'Metropolis" and "Blade Runner.' That exactly fits heroic fantasy not dependent upon specific history or echnology, and Furst's heavy, gothic forms are among "Batman's" best

Jack Nicholson as the Joker may be the villian of this piece, but from a viewer's point of view, he's the real hero. "Batman" only sparkles with excitement and electricity when the Joker is on screen. Exit Nithat one out on your decoder ring,

Nicholson plays the Joker with manic delight and such verve that tale of bad table manners and a even stupid lines like "You wouldn't hit a guy wearing glasses, would you?" are delightfully energized. As well, he gives new meaning to the old cliche about "bats in the belfry." Nicholson alone is worth the ticket

Michael Keaton, however, is dull and leaden as Batman with one of the lowest energy levels to appear on screen in a long time. The inteldoesn't work here.

THE SAME is true of Kim Bas inger, who puts on glasses and tries to play intellectual photojournalist/ love interest. The sensuous comic style she displayed in "My Stepmother Is an Alien" is totally absent .

The film's major faults, however, are murky continuity and a strange mixture of comic books, heroic fantasy and realism. The mixture doesn't work unless the performances are inspired which, with the exception of the Joker, is not the case.

The entire conclusion of the film tuens on one unlikely pistol shot by this does not make good movies. It's the Joker which doesn't work, given all the technology at Batman's command. There are a number of other questionable plot structures and the story of Batman's childhood is told twice - and the two versions disagree. Sorry, guys, I can't decode that

on my ring. "Honey, I Shrunk the Kids" (B+, PG, 105 minutes) is a cute and clever update of the several "Incredible Shrinking . . . " movies with Rick Moranis as the nerdy head of the Szalinski household who's suffering from some minor marital strife because Mrs. Dian Szalinski (Marcia realize her potential while Dad is off in his own, inventive little world.

slows down the film's opening. Once the snotty kid next door, Ron Thompson (Jared Rushton), hits a baseball through the window and sets off Father Szalinski's Incredible Shrinking Machine, proceedings are off and running. Ron and his brother, 'Little Russ' Thompson (Thomas Brown), come to apologize and suddenly, along with the Szalinski kids, Amy (Amy O'Neill) and Nick (Robert Oliveri), they're reduced in size and forced to fight their way home through the backyard "jungle." It's an exciting, good-spirited trek.

THE FOUR are excellent in their portraits of a cross-section of childhood without condenscension and stereotyping. The parents are also well-done characters although "Big

Russ" Thompson (Matt Frewer) is overdrawn without realizing the comic potential of his character Rick Moranis also could have gotten a bit more mileage out of the nerd inventor cliche while the two wives Marcia Strassman and Kristine Sutherland as May Thompson lack definition and intensity

The kids struggle through a back yard jungle which is visually excellent although a little too obviously plastic. Plants do look different under extreme magnification but some of the blades of grass just didn't look natural. Despite these minor complaints, "Honey, I Shrunk the Kids" ought to swell box office coffers.

Such is not the conclusion about "Crusoe" (D+, PG-13, 100 minutes). If you get past some overly artistic sea boulders, "Crusoe" is a visually beautiful portrait of the Seychelles Island location but excruciatingly slow in pace. Aidan Quinn in the title role does

fairly well with what little he's given, but face it, an isolated man has little to do and less to say Movies cholson and out go the lights. Figure rarely capture a person's internal

inson Crusoe. This time out it's the man, stranded, without sun block, on a tropical island, who never gets a tan. Go figure. (Reviewed by Su-

Patience is the key to finding en joyment in "Vampire's Kiss" (B-, R, 90 minutes). The payoff is a surprisingly strong insight into the disintegration of one man's fragile psyche Nicolas Cage's performance burns up the screen. His frenetic enlectual, philosophic approach just ergy is passed off as eccentric behavior until the true implications of his delusions come to light.

> ELIZABETH Ashley brings her formidable presence to the proceedings with earthy sophistication. In fact, style seems to be a major consideration in a "Vampire's Kiss." Therein lies an inherent problem. For all its style "Vampire's Kiss" is missing quite a bit of substance as

logical questions run rampant. This is a film which is better upon reflection for a lot of its humor and message is focused more on the the context of the big picture than in the telling of the tale. As a general rule, usually a helpful to give audiences clues about the proceedings before

the final half hour. The upside of "Vampire's Kiss" is that it not only expects viewers to be thinking persons, it actually provides something to think about. (Reviewed by Susan Fincham.)

This is his third LP on Reprise Record and as Isaak himself jokes: If you have my last two records, don't buy this one." He uses the same producer, Erik Jacobsen, as his previous record, and his band, Silvertone, is the same line-up as they have had since their inception in

Isaak, who is fast becoming as hip for his fashionably good looks as his music, resembles an early Elvis Presley both visually and to a lesser extent, musically. This may be no surprise as he claims that his first ntroduction to the heady world of rock'n'roll was when he heard the original Sun Sessions. Prior to that he listened primarily to country and

construction defects. Our condo association is having a very difficult time getting our plans and specifications from the developer. The city building inspector seems to be stalling as to turning over whatever documents the city has. What can we do?

A. Contact the chief building department official and request in writing under the Freedom of Information Act copies of the plans and specifications for the project. Also contact the head of the engineering department by written request. The city should have the plans on file, which are a matter of public record. Some municipalities are reluctant to release architectural plans, since they claim that the architect retains a copyright on it.

On the other hand, they should be subject to review and perhaps copying under the Freedom of Information Act, and if the city balks, you should attempt to contact either the mayor or city manager or the board of trustees, as the case may be, concerning the unwillingness of the city to discharge its legal responsibilities. It may become a political as well as legal matter, particularly when it appears that the municipality is unwilling to turn over documents that it should have no reason not to do.

Q. One of the residents in our condominium is an abusive alcoholic who drives the woman beneath his unit crazy by throwing things against the wall, being loud and otherwise abusive. The person has complained to the board of directors and I, as managing agent, am concerned that the board is unwilling to do anything about it.

A: This is an extremely difficult question because it appears that the problem relates to only two co-owners in the condominium and it does not affect the rest of the condominium project. Many boards have taken the position that when only two co-owners are involved for a relatively subjective item such as noise or, in this case, alcohol abuse, they will not get involved because, as a practical matter, they cannot do a thing about the alcoholism even if they were to get a court order.

A co-owner does have the right to seek redress against another co-owner based on the restrictions of the condominium documents. Whether the board has an absolute obligation to pursue an individual co-owner because of a complaint by another coowner, when the common area is not necessarily affected, is a subject with which I have debated with other community association lawyers throughout the United States at various seminars we have attended throughout the years.

Perhaps the board can serve as an intermediary between the two co-owners initially in an attempt to resolve the matter amicably, if at all possible. If not, the board must then consult with legal counsel as to the necessity and/or propriety of bringing legal action against the alcoholic co-owner or otherwise seeking help for the sickness of

Prune with care

How a tree is pruned in its first few years of life will affect its shape, strength and even its life span.

An illustrated, easy-to-follow guide called "How to Prune Young Shade Trees" has been prepared for homeowners. It can be obtained free of charge by writing the National Arbor Day Foundation.

The how-to-prune guide includes step-bystep illustrations showing how proper pruning in the early years of a tree's life can save money in the long run and result in safer, more beautiful, healthy, easy-tomaintain trees

The booklet is filled with illustrations showing you how to make a pruning cut, how to prune for desired form, how to strengthen your tree by removing certain branches, how to maintain the tree's health by removing trouble spots . . . when to leave temporary lower branches, and when to cut them.

The booklet even shows how to hold a pair of pruning shears and how to make pruning cuts at the proper angle.

You'll learn how to shape and guide a shade tree when it's young so that it's tall, straight, strong, and healthy when it's old.

The design of the booklet makes it easy to browse through to pick up tips. You'll discover why tree paint isn't necessary, even on large cuts, how to select and care for pruning tools, how to prune according to the tree's function.

To obtain your free copy of this booklet, send your name and address to: How to Prune, National Arbor Day Foundation, Nebraska City, NE 68410.

condo queries Anti-junk mail campaign gaining

UMEROUS letters arrive daily on my "Less Is Better" campaign to decrease junk mail by having bulk mail returned at the sender's expense. All but two (both from bulk mailers) heartily support this effort. Here are some samples:

"You are my heroine for taking on the junk mail forces! This one column has made my subscription to the Observer worthwhile. I called (a mailer) to get my name off their list and was told advertisrs have a right to send out mail and the Post Office has to deliver it and I have no choice but to accept it. He said the only chance I have to reduce it would be to rent a post office mail box. (I got one little letter and one big piece of junk mail addressed to "Resident" the first day I had my P.O. Box.) Don't I as a homeowner, have some rights to not have mail delivered against my will?

JHS - Plymouth

'As a working mother, I have little time to shop so I order many things by mail. Now I am inundated with anywhere from 10-40 catalogs

3. I do enjoy receiving:

every day - up to eight of the very same ones in the same mailing. I am nearly ready to go back to shopping, even with three kids. Thanks for working on this.

JM - Birmingham

IEB - Rochester

"1) Design the bulk mail stamp to include a "refused" box to be checked and include cost of return postage for each piece of junk mail. 2) Allow only recyclable materials to be used on junk mail. 3) Tax each piece of junk mail, then use proceeds to pay for disposing of it.

LM - Bloomfield Hills

These last ideas merit special consideration. If the Postal Rate Commission won't allow bulk mail to be returned at the sender's expense, perhaps Congress could tax it to help pay for disposing of the two billion pounds of unwanted waste it creates

YES, I SUPPORT "LESS IS BETTER"!

1. I receive too much junk mail: Yes___ No_

annually (not counting the other 34 of "wanted" bulk mail.)

This would be in line with the EPA's Feb. 89 report on solid waste which states that the United States is running out of landfill space, causing a "burgeoning problem." It under-

scores the need "for a fundamental change in the nation's approach to producing, packaging and disposing of consumer goods American consumers have no incentive to limit their waste generation because they are not charged for disposal according to the amount of waste they produce." Source reduction is a major focus of it's agenda for action.

My strategy is to test the response to this column at the local level. If overwhelming support comes from our community, I will appeal for a national letter writing campaign to the Postal Board of Governors just before the next postal rate hearings. If you care, clip or photocopy this form and return it - or just write to me - and encourage others to do

Now is the time to clear out those closets, attics, basements and garages

How do you plan a garage sale?

It's easy!

Just follow these simple guidelines:

and make some quick cash in the process.

1. Gather together the items you have for sale. Sort them into appropriate categories and price them fairly.

2. Place a classified advertisement in The Observer & Eccentric by calling one of the numbers below.

3. Hang signs throughout your neighborhood alerting residents to the upcoming sale.

4. Decide what to do with all the money you'll have after your sale!

Or, if you love to bargain-hunt and would rather shop then sell, be sure to look for our special garage sale listings every Monday and Thursday in your hometown newspaper. Observer & Eccentric classifieds make it easy to earn money and save money. Discover for yourself, today!

SPREE

Scenic Lake is ideally located, half way between U of M and EMU. The setting's rolling and peaceful. The heat is free. And the best surprise happens when you see it all for yourself.

"I finally found a townhome as large as a home.

"I looked long and hard to find a 2000 sq. ft., cathedral ceiling elegant threebedroom townhome (Of course I could have chosen a two or three-bedroom ranch.) With my own two-car attached garage, my own private basement and patio. And-luxury touches like deluxe kitchens and whirlpool tubs plus landscaping that I love. Nothing could get me to move from Covington. Nothing."

GARDEN CITY
COMMUNITY
FESTIVAL
In the Park

Thursday—Sunday
June 29-30—July 1-2

Banner event

A new banner was created for the Festival in the Park event and displayed O'Rourke, Bob Kleinbrook, Michele Szezepanik, Ronald Hughes, Donald by committee members Peter Tavormina (left), Raymond Wiacek, Val McNulty and Vivian Jeziorski.

Community Festival will move into City Park for the weekend

Festival has a new time and location

The latest of four names is Community Pestival in the Park and will be held in City Park, on Cherry Will; east of Merriman, from Thursday through Sunday, June 29-July 2.

That's a big change from the previous eight festivals which were held the last week in May or the first week in June in the city's Ford-Middlebelt downtown business section.

But the festival committee hopes to have good weather and attract thousands of persons to its varied events.

The committee is planning live performances by country/western and big band sound groups, a carnival, Las Vegas night, flea market, display of hot rods, arts and crafts displays, antique engines, "sidewalk" sales of retail merchandise, entertainment, and karate demonstration.

There will also be a diaper derby for infants, clowns, and food and beer

The festival was moved to the park

and parking. The new time and location are major changes,

IT WAS started in early 1981 by the Garden City Chamber of Commerce as "fun event" to attract residents to the downtown business section and its renovations and improvements.

At first, it was called the Flower and Garden Festival to reflect the city's name and the spring season.

A few years later, it was renamed the Garden City Spring Festival and attracted tens of thousands of visitors to the downtown area. Then it was renamed the Community Festival.

Initially, it was planned by the chamber board of directors who also served on the festival committee. Then several years later, the committee began branching out with representatives of community service clubs and associations serving as members.

CHAIRMAN OF the 1989 committee is Bob Kleinbrook. Other members are Michele Szczepanik, recording sec retary: Val O'Rourke, publicity ald McNulty, Vivian Jeziorski, cochairperson of the raffle;

Also, Mary Jane Schildberg, Ken Bucci, Tim Graham, Gregg and Juanita Price, Frank and Jill Mikolajczyk. Peter Tavormina, and Ronald Hughes. Garden City officials working with the committee are Mayor Vincent Fordell. Maplewood Center Val O'Rourke, recreation director Raymond Wiacek, and City Manager Ion Austin

Festival hours will be noon to 11 p.m. Thursday through Saturday and noon to 10 p.m. Sunday. Most of the park facilities will be used including the Civic Arena and pavilion.

One new event will be a seminar on appliance repairs and consumer protection by consumer activist Ioe Gagnon. who owns a Garden City appliance sales and service business. He has gained recognition in recent years through radio and TV appearances promoting consumerism.

THE SEMINAR is scheduled 10 a.m. to noon. Saturday in the Civic

There will be the arts and crafts displays coordinated by the Garden City Business and Professional Women's Club, flea market, carnival rides, food booths, raffles, entique engine displays and customized cars' displays.

At the pavilion, the Big Band Ex press will perform for listening and dancing at 7 p.m., Thursday.

The Larados, a popular band at area social events and benefits, will perform at 7 p.m. Friday under the sponsorship of Crestwood Dodge.

The WACO country/western band will entertain festival-goers at 6 p.m. Saturday, sponsored by Gordon Chev

Country Rhythm will perform at 6 pm Sunday with Stu Evans Lincoln-Mercury being the sponsor.

Sponsored by the Garden City and Redford Jaycees, a Las Vegas night will also be held from 6-10 p.m. Saturday and Sunday in the Civic Arena.

Square dance club to perform

The Li'l Devils square dancing club. a Garden City organization, will entertain festival patrons at the Community Festival in the Park 2-5 p.m. Satur-

The dancers will perform free in the City Park, Cherry Hill east of Merriman, during the annual festival.

"We would like to share the fun and square dance with other people at the festival." said a club spokesman

The club plans to start square dance classes for new dancers at Memorial School in Garden City, starting in September. The club will start dancing on the fourth Friday of the month, also starting in September at Cambridge Adult Education Center, 28901 Cambridge, south of Warren Road and east of Middlebelt

Anyone interested in the club may call 422-3506 or 427-4582.

Karate coming

A karate demonstration is scheduled for Sunday afternoon at City Park, Cherry Hill at Merriman. It is one of numerous events scheduled as part of the Community Festival in the Park, to be held Thursday-Sunday.

How we sell is just as important as what we sell

This is no self-serve operation. Never has been and never will be. Along with top quality lumber and building materials, you get personal service from a knowledgeable sales staff. We'll answer your questions and help you find things. We can special order any item you want and custom cut lumber to the size you need. We'll even deliver to your home or place of business. These are just some of the extra services you get at Maplewood. Stop in and see us, we're here to help you
