Courthouse wins first approval

A permanent home for the 35th District Court moved a step closer last week. The court, which serves Canton, will be built on the existing site in Plymouth. That courthouse was destroyed by fire last July 2.

Plans for a new 35th District Court have won approval from Plymouth city planning commissioners.

But further city planning commission and zoning board of appeals approvals are needed before the go-ahead for construction is given.

On Wednesday, city planning com-missioners reviewed a site plan for the new court, presented by architect Najim Saymuah and Court Administrator Kerry Erdman.

The court serves five communities, including Canton.

The old court building was destroyed by fire last July. The courthouse is housed in a temporary facility across Plymouth Road.

While commissioners said they generally liked the plan, it needs some fine-tuning, they said, particularly along the west side of the court facing the Riverside Cemetery entrance.

Saymuah presented a plan to have police vehicles bringing prisoners to the court to use Riverside Drive, also the cemetery entrance, just west of the

But some planning commissioners raised questions about what those entering the cemetery would see to the east as they approached the cemetery gates

"I fear we're going to change the character of the entrance of Riverside Cemetery, a place of peace and reverence," said Planning Commissioner Glen Mackie.

"I share Commissioner Mackie's con-

Educating homeowners, business key to cleanup

With potential federal mandates looming for local governments of the Rouge River, officials in Canton and Plymouth are attempting to heighten public awareness so that the issue of stormwater management doesn't become a drain on taxpayers.

So far, Canton has received \$174,333 in federal grant money to improve the water quality in the Rouge River. The money is administered through the Wayne County Rouge Program Office (RPO).

The majority, \$111,000, has been split with Plymouth Township and spent for awareness campaigns for residents and businesses and on various consultants to tighten restrictions on new developments.

One grant of \$33,300 to construct a wetland detention facility for a proposed theater complex and commercial center at Ford Road and I-275 was returned to the RPO. The designs already

million in federal grants from the RPO for a sewer separation project, which resulted in the Western Townships Utility Authority (WTUA).

WTUA was formed in 1993 by the townships of Canton, Plymouth and Northville to tackle environmental problems with combined sewer overflows and stormwater drainage problems

Currently, Canton and the Plymouths have applied for voluntary stormwater permits and joined other communities within the Lower 1 and Middle Rouge watershed to work jointly on a strategy to address river restoration.

Last year Canton and Plymouth townships also decided to investigate whether detention basins are working to potential to prevent flooding

Please see ROUGE REVIVAL, A4

About 100 Canton Township residents turned out June 6 to support Rouge Rescue '98. It was the first Canton contingent since the 1980s.

"It's important for people to understand the Rouge River is a valuable resource," said Kelly Kelly, project engineer for Canton Township. "And this is an effort on our part to help educate people and get them back to the river.

Volunteers, ranging from elementary children up through senior citi-

zens, helped clean up "the Rouge River's negative image" by stenciling storm drains, cleaning out log jams and pulling out trash starting at Beck Road, north of Geddes and headed east to the Lower Rouge. The group also worked their way down to Fowler Creek and back up again.

Canton Township supports rescue efforts

Just what did they encounter in their 5 1/2 hours of work?

Kelly said the most unusual things they "found was a couch and car parts.

Recruiting efforts for this year's effort in Canton Township was minimal according to Kelly. Letters were mailed to local neighborhoods boarding Rouge Rescue spots, flyers were distributed randomly and word-ofmouth brought some. She suspects the biggest draw however was the reputation of the Rouge Rescue annual event.

"People are coming to realize the

Homeowners hit the deck with problem builder

Adonna Wright is planning a family reunion at her Canton home June 19. She envisioned a sunny day sitting outside on her new deck sipping cool drinks.

She began planning for it in early May by hiring a local contractor to build a multi-level, 500-square-foot deck onto her new home in the Huntington subdivision. So far, she only has four wood poles.

Her mother also hired the same builder, Roy Mason, for a smaller deck at her home. Mason's business, Mason and Co. or Innovative Construction Co., operates out of his Canton home.

"He has \$12,313 between my mother and myself," said Wright.

On Tuesday Eve Glowacz of nearby Brookside Village subdivision, filed a small claims lawsuit in 35th District Court after repeated promises from Mason to return to finish her deck

She also has four poles and a few floorboards.

"I've given him seven opportunities to finish that deck," she said.

Glowacz and Wright have been to Mason's Southgate Street home to demand a refund, but to no avail.

All three hired Mason from an advertisement he left on their doors. They paid 30 percent of the costs upfront and another 40 percent when he started the job. He hasn't been back since.

Please see PROBLEM BUILDER. A4

Decked out:

Eve Glowacz has filed a civil suit in 35th District Court over the unfinished deck on her home in the Brookside Village subdivision.

Canton Building Inspector The killing point is Alex Mamo said the Building Department can't do much to help the residents get their money back but will assist in filing state complaints against Mason. The Michigan Department of Consumer and Industry Services could repeal his license. Canton also could fine Mason under a local law for not obtain-

ing permits to construct the Mason did not return phone

calls from the Observer. Mamo said Mason had one for not obtaining a permit.

he never even pulled a permit. It's just been one lie after the next.'

- Adonna Wright

Wright said she has been given various excuses by Mason, such as he was having a problem getting the wood delivered, then, the truck with the wood broke down and he had to get another complaint against him last year truck to get the wood from that truck. His daughter also had an

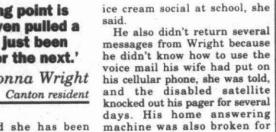

Smokers: Using a pill, gum or patch? Smoke Stoppers is a great match.

The patch, gum or the new Zyban™ prescription pill work to curb your craving for nicotine. But they can't help you with your behavioral habits that can be really hard to break (like smoking with friends or having a cigarette with your morning cup of coffee). That's where the Smoke Stoppers program fits right in to help you win your battle against smoking.

Free introductory session

Call to set up a free, no-obligation session. You'll meet one-on-one with a Smoke Stoppers instructor. If you choose to sign up, individual programs with flexible scheduling options are available. Care Choices HMO members are eligible for reimbursement of half of the program cost.

awhile, Wright said. Glowacz said she heard sim lar excuses from Mason. "I've been through nine weeks

of hell over a 12-by-16 deck - a one-day job - and I'm out \$1,855. He never returns phone calls," she said.

An answering machine at Mason's business says a repre sentative of Innovative Construction is unavailable although messages are checked periodically throughout the day. Callers can expect a call later

that day or early the next day. "The killing point is he never even pulled a permit. It's just been one lie after the next, Wright said.

"I just hope other people don't get ripped off because he's left brochures on all the doors in Canton since there's so much new development," Glowacz said. John Weyer, director of Canton's Building Department, said residents can protect themselves by checking to see if a builder is licensed before hiring him. Call the Builders Association, Better

Business Bureau or check with Canton Township Building Department to see if the company has done work in the area Mason is a licensed builder.

All deck construction requires that Canton's Building Depart ment issue a permit, Weyer said.

Builders also are required to hang the permit in the window of the home while construction is in process. Inspectors also are required to inspect deck construction prior to the posts being put in the ground to ensure the poles will be installed deep enough for safety reasons. They also look at the designs and foundation plans.

All three residents have hired other builders to finish the decks while they attempt to get a refund from Masor

The basins have been required of developers since the late "Most detention basins are designed to deal with the quanti-

and control storm water.

Rouge revival from page A1

ty issue and not quality," said James Anulewicz, director of Plymouth Township Public Works. "There needs to be some retrofitting there." Many of Plymouth's basins are 20 years old and were developed

with low-maintenance-type designs, said Mike Bailey of Dietrich, Bailey and Associates. which conducted the inventory and assessment for Plymouth Township

Bailey said, "Basins have generally performed their function. I don't think there was one that ever failed. Some filled up because of debris but never flooded.

Minimal problems also were reported in Canton after its study was completed by ETC Consultants, according to Kelly. Canton also hired Wade Trim

& Associates to draw up an ordinance to require specific design standards on new detention An ordinance was adopted by

officials in March 1997 requiring developers and builders to pay \$300 per lot in residential projects or per unit in condos. The money is put into a special fund to address various stormwater nanagement issues.

"The money allows us to do street sweeping, clean storm sewers and minor maintenance on detention ponds," said Kelly. Canton also is considering

another law that would require specific types of plants to be used n detention ponds to better help filter pesticides and other pollutants before entering Rouge trib-

utaries. "Plymouth is pretty much and by storm drain mainte-Canton rescue from page A1

clean water. How clean is clean?'

as making residents mindful that what they do affects the Rouge. Going to a car wash instead of washing the car at home where the soapy water goes down the sewer is just one way residents can help, he said. "Right now, changing the pat-

terns of residents and businesses is the way to go. If that doesn't work, then we're looking at more costly options," said Anulewicz.

Tom Yack said, "Breaking up into subwatershed groups is the way to go. We'll be looking at different forms of treating stormwater, and there will be costs associated with that. How much, I don't know The problem is there aren't any standards for clean water. How clean is clean? In absence of a target, we're not sure what's next."

The city of Plymouth is expected to join the Middle Rouge subwatershed group in June, said Paul Sincock, director of Public Works.

County helps funnel federal clean-up money here

The Observer is publishing stories in today's edition focusing on the Rouge River. The articles focus on the Rouge

Rescue, what sewer improvements were completed and what residents can expect under the new stormwater permits. Educational programs also have been highlighted in this package. Here is a summary of the Rouge River Wet Weather Demon-

stration Project. In 1972, Congress passed the Clean Water Act, which was aimed at cleaning up the nation's waterways. The Great Lakes

Water Quality Agreement would later identify the Rouge River as one of 42 areas of concern or pollution "hot spots" within the Great Lakes Watershed. Area residents were angered about the condition of the Rouge

River and demanded the Michigan Department of Natural Resources do something. The DNR eventually devel-

oped a Rouge River basin strategy, which led to the Rouge River Remedial Action Plan. The original plan was a nine-volume document published in 1989 with input from communities, citizens, businesses, industries and local governments.

Today the Michigan Department of Environmental Quality is responsible for overseeing the development and implementation of the action plan.

Problems and solutions Homes built near the Rouge were connected to combined sewer overflows (CSO), which combined sanitary and storm sewers. These CSOs sent some raw sewage to the Detroit Wastewater Treatment plant, but also would empty millions of gallons into the Rouge after a heavy rainstorm.

As communities grew stormwater runoff also increased with the construction of parking lots and roads, which increased the levels of oil and road salt and eventually fertilizer used on lawns added to the runoff mix. Septic tanks later leaked, and

More work needed Other western Wayne County communities in the Observer eadership areas have completed the following CSO work during the first phase:

Garden City separated its sanitary and storm sewers for \$33.9 million; Westland separated sewers for \$12.9 million with about the Rouge watershed. Part of

\$7 million in grants. Plymouth did the same for \$1.1 million Livonia completed a \$1.5 million sewer separation in the south end of the city, near Franklin High School and just north of Ann Arbor Trail.

Federal grants paid for about half of the improvements, and the remainder - about \$600,000 - was financed through the water and sewer funds' capital provements

Canton, Garden City, Livonia, Plymouth and Westland do not have work scheduled for the second phase to control CSOs, but other communities that need to build more basins may be socked with the costs of expensive mprovements, namely Redford and Dearborn, \$120 million; Dearborn Heights, \$41.9 million:

and Inkster, \$39.5 million. Detroit needs to improve sew ers and build basins to the tune of \$643 million.

Communities must continue to address leaky septic tanks and illegal downspout connections to storm drains, which municipali ties could have as many as a few hundred in their jurisdictions.

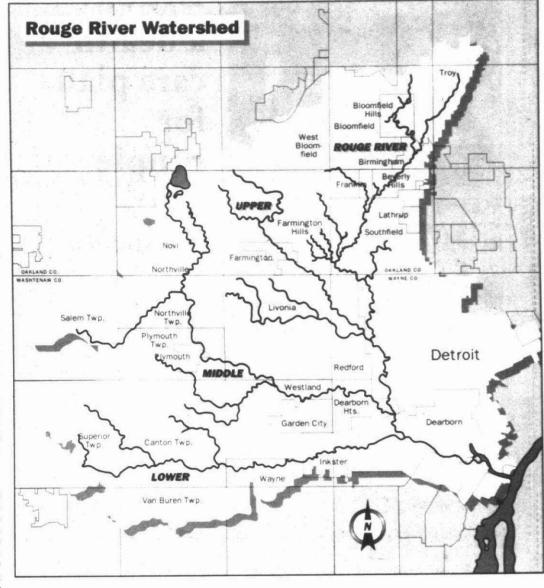

Western Wayne County communities are expected to focus considerable energy on stormwater management over the next few years and on how they can meet permit requirements.

Permits discussed

In the 1980s, U.S. District Judge John Feikens was involved with the Rouge project during his court hearings with debates between communities and the Environmental Protection Agency over the Rouge's water quality before the Remedial Action Plan was first proposed. In September 1997. Feikens indicated he may issue a show cause order requir-

ing establishment of watershedwide authority and a geographic information system. In October 1997, Wayne, Oak-

land and Washtenaw counties and Detroit requested a 14month time period to show progress in working toward improving water quality within

be completed under the new stormwater permits. Right now, the Michigan Department of Environmental Quality is making it "easier" for communities by allowing them the option of a voluntary

stormwater permit right now. instead of federal mandates that will be stricter at a later date. Communities must make

care plan

On paper, it looked like a big victory for the arts. The Michigan House on June 9 approved, 74-26, a bill amending the Metropolitan Council Act that would allow southeastern Michigan to fund the arts with a halfmill property tax.

But much of the opposition came from Oakland and western Wayne counties, where voters would have to approve any tax.

"Supporters of the arts and other cultural organizations should seek voluntary support from patrons, not impose higher property taxes," objected Rep.

Greg Kaza, R-Rochester Hills. "When Proposal A was approved by the Legislature and voters in 1994." he went on. "one fear that a few of us expressed was that, over time, new property taxes would be enacted that would erode the benefits of the school tax cuts. This could lead to higher property taxes at the county level."

Voting no with him were Bob Brown, D-Dearborn Heights, the governor for signing. Deborah Whyman, R-Canton, Penny Crissman, R-Rochester Barbara Dobb, R-Union Lake, and Andrew Raczkowski, R Farmington Hills.

Eileen DeHart, D-Westland, and Tom Middleton, R-Ortonville, missed the vote - the equivalent of voting no.

Voting yes were Lyn Bankes, R-Redford, Gerald Law, R-Plymouth, Tom Kelly, D-Wayne, Patricia Godchaux, R-Birmingham, Nancy Quarles, D-South field, and Shirley Johnson, R-Royal Oak.

Lawmakers got "the word" in favor of a cultural tax during the May 30-31 weekend when they were entertained by the Greater Detroit Chamber of Commerce on Mackinac Island.

The annual event usually is followed by a flurry of activity in Lansing on issues favored by the chamber. Much of the chamber's activity this year center on the Senate version of the arts tax, sponsored by Michael Bouchard. R-Birmingham.

Most proposals call for support

Cranbrook art and science museums, and Oakland University's Meadow Brook offerings. Refer to House Bill 5797 (approved by the House) and

Bouchard's Senate Bill 1136 when writing to your state legis lator in Lansing.

Casinos out The House gave 103-0

approval to a package of bills preventing casinos from getting many tax benefits. Sponsored by Sen. Mike Bouchard, R-Birmingham, the bills will:

Deny casinos any "renaissance zone" status with accompanying tax breaks. Eliminate casinos from

breaks in Detroit's city income tax and city utility users tax. Deny casinos any "enter

prise zone" tax breaks. Exclude casinos from prop-

erty tax exemptions in renais sance or enterprise zones. SB 583, 586-7, and 590-1 go

IRA protection

A small financial item in her Sunday paper gave Rep. Judith Scranton, R-Brighton, an idea for a bill that has been passed by

"It said that if you have several Roth IRA accounts, only one is protected from garnishment or attachment," Scranton said. "My bill adds the 's' - it protects all your accounts."

Her House Bill 5648 amends the code of civil procedure to protect from creditors one's individual retirement accounts. The House on June 9 passed it 90-9, with all area members voting yes except Greg Kaza, R-Rochester Hills, Deborah Whyman, R-Canton, and Kirk Profit, D-Ypsilanti

Her bill goes to the Senate. Meanwhile, Gov. John Engler

is expected to sign her first bill into law. It exempts summer employees - such as lifeguards, soccer referees and Little

Come see the softer side of Sears

League umpires - from payroll deductions for retirement.

"We don't know that they're going to become full-time employees. And it saves the state \$60,000 in administrative costs," said Scranton, who got the idea from a district parent.

Swamp tax up

Over suburban opposition, the House passed two bills to raise the so-called "swamp tax" which the state pays to rural townships that have state lands.

House Bill 4816 raises the townships' take from \$2.50 an acre to \$2.86. HB 5812 empowers the treasurer to adjust the amount each year for consumer price inflation

It applies to hundreds of thousands of acres of tax-reverted forest and recreation land the state accumulated during the early years of the Great Depres-

Lawmakers split sharply over the cost. Don Gilmer, R-Augusta and ranking minority member on the Appropriations Committee, said the cost would be \$3 million. He warned that many budget bills were far higher than available revenue.

"He greatly exaggerates." replied Rep. Kirk Profit, D-Ypsilanti, chair of the House Tax Policy Committee which produced the bills. Profit put the cost at \$150,000 to \$200,000.

Rep. Allen Lowe, R-Grayling and sponsor of one of the measures, strongly defended it: "If they (the state) are going to take these acres off the tax rolls, the state should reimburse the

Among the 12 members voting no were area Republicans Greg Kaza of Rochester Hills. Patricia Godchaux of Birmingham. Andrew Raczkowski of Farmington Hills, Barbara Dobb of Union Lake and Lyn Bankes of Redford.

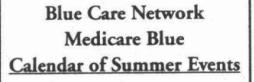

Said Kaza, explaining his no vote: "It's a tax increase.

KELLI LEWTON

Cooks relish flavorful new condiments

he word condiment is a combina-tion of Latin and French, meaning to season or pickle. As defined in the "Chef's Companion 1994," a relish or pickled seasoning is highly aromatic, and accompanies food at the table to stimulate the appetite

A condiment is added or offered post production, otherwise, its use would be considered an ingredient. I can't imagine life without condiments. Coffee with no cream? Tea without honey? Would it be worth waking up for cereal with no milk?

Where condiments have taken center stage, and have been experiencing fame and fortune, are those that accompany our summer grilling.

Whether you are smoking fish in your Weber Kettle, tossing a New York Strip on to your high gloss steel turbo barbecue with side burners, or going hibachi style on the beach, it seems all grillers are searching for the same thing - perfect condiments.

Thanks to our backyard gourmets, our ethnically diverse population, and of course, us hardworking creative chefs and cooks, the classic condiment of yesteryear is breaking the jar, so to speak.

Mustard

Mustard, often referred to as "the spice of Nations," has been cultivated all over the world for centuries. In many European countries during the 1500-1600s, mustard seeds were considered as valuable as gold. Today, mustard includes some New Age ingredients - apricot, wasabi, champagne, chipolte, honey and onion.

These magnificent mustards are used on upscale deli sandwiches, slathered on fish, poultry and meats before and after grilling, and whisked into sauces and dips.

"Ketching-up"

Ketchup is also catching-up from its origins in China where a pickled fish sauce called ketchup was a popular condiment. The sauce traveled through Asia incorporating new ingredients along the way until it was met by an English sailor who shanghaied it home to spice up the dishes of his homeland.

Colonists in America later added tomatoes. What would Mr. Heinz say today to the flirtatious varieties of ketchup gaining speed such as peach, blueberry, cherry, salsa style, smoky and more. Chefs across the nation are bottling their own brands due to the demand for variety from those who want to add a little zip to an old favorite.

'l'aste

about one in

every ten Americans has an illness caused by food.

Each year,

CTERIA

Don't get a stomach ache

FOOD SCARE

BY PEGGY MARTINELLI-EVERTS REGISTERED DIETITIAN

Boy, it sure seems like every time we turn on the news there is another food scare. First there was hamburger contaminated with E. coli, now a new strain of antibiotic resistant salmonella has made its way into chickens. Strawberries, alfalfa sprouts and

apples are just a few examples of the types of produce that have been shown to harbor contaminants.

Each year, about one in every ten Americans has an illness caused by food. Most of these cases result in sim-ple stomach aches, diarrhea, or the "24 hour flu." Some are more serious, and about 9,000 people die each year because of food borne illness

But wait, there is no need to fear the food you eat. Americans have the safest food supply in the world. At each step in the food chain, from the farm to your grocery store shelf, there are regulations in place to keep food safe. However, with our global marketplace, we increasingly have available to us foods from countries not so highly regulated. We need to handle food properly, cook it thoroughly, store it safely, and reheat it completely. Thanks to modern technology, and good old-fashioned bleach, keeping food safe is easier than you may think.

growth. This is why fruits are generally considered safe. However, fruits can have other pathogens on their surface, which is why it is important to thor-oughly scrub all fresh fruits before eat-

ing. Dairy products such as yogurt and buttermilk are also acidic, but can still be unsafe if they become moldy. Meat, fish, poultry, eggs, dried beans and nuts have nutrients to support rapid bacteria growth. It is probably best to assume that they, in fact, do contain contaminants, and to treat them carefully. Breads, cereals and grains when dried - are usually safe. However, once hydrated, items like pasta and rice can harbor bacteria. Vegetables, especially cooked vegetables, also contain nutrients that bacteria and molds need to grow.

Oils flavored with raw garlic, ginger or other herbs can support the botulin toxin. Don't make your own flavored oil unless you plan to use it all immediate-

Don't worry, the beans in your pantry, and chicken in your freezer, won't make you sick if you learn how to fight "bac" (bacteria).

Safety guidelines

Clean food starts with clean hands. Wash your hands frequently with soap and water, especially after touching raw meat, fish, poultry or eggs, and before handling any other foods. Be sure to wash the handles on your faucet, refrigerator, and any cabinets that you may have touched with hands that also handled raw meat.

toxins are stored.

Purchase meats, poultry and fish only from reliable markets.

Always buy food in good condition. Avoid produce with cuts or bruises, cans with dents, partially melted ice cream or frozen foods, or other foods

that have packaging that is not intact. Remember F.I.F.O., "First In, First Out." Always rotate your foods and eat the oldest things first. Another adage from the food service business, "When in doubt, throw it out," also makes good food safety sense.

Use a food thermometer to determine the doneness of foods. Hamburger should be cooked to a minimal internal temperature of 160°F., pork to 160°F, and poultry to 165°F ground, 180°F whole

Don't thaw food on the kitchen counter, or in the sink. Raw meat drippings can contain bacteria that can contaminate any other food to be prepared on the counter. It is best to thaw meat in the refrigerator, tightly wrapped, so drippings won't spill onto shelves or other food.

Never leave perishable food out for more than two hours.

Reheat foods thoroughly to at least 165°F.

Freeze or refrigerate leftovers com-

People who are at greater risk for foodborne illness

Tips

- A tablespoon of spicy or fruited
- mustard in a 1/2 cup of yogurt will give you a Heart Healthy sandwich spread with personality.
- To perk-up tired old sandwiches or salads, try adding fresh herbs, diced sundried tomatoes, or olives.
- Add a few tablespoons of mustard, a 1/4 cup of balsamic vinegar, and pinch of fresh black pepper and herbs to your next bottle of Italian alad dressing. You can call it your made summer vinalgrette.
- Mix 1/4 cup of your favorite spicy mustard, a pinch of black pepper, and fresh herbs with 1/2 cup of olive oil. Brush on meats, poultry and fish as you would barbecue

LOOKING AHEAD

What to watch for in Taste next week: Pasta importers Focus on Wine

How does it happen?

Bacteria are present everywhere around us - on our skin, in the soil, on our animals - so it is normal to have bacteria on our food. However, if food is mishandled, this bacteria can multiply rapidly and cause problems. Bacteria needs time, and the right conditions, to grow. Bacteria love temperatures just about 40°F to around 140°F. This is called the temperature "danger zone." Bacteria can double in number every 20-30 minutes if food is left in the danger zone.

Acids in food can stop bacteria

MAIN DISH

Don't use the same knife or cutting board for fresh food that you used for raw meat.

Read food labels for storage, cooking or heating and handling instructions

 Avoid eating raw meat, raw fish, poultry or eggs. Do not eat the internal organs of animals since this is where

etely. If you are chowder or sauces, transfer them to shallow pans for rapid cooling in the refrigerator. The temperature should drop to 70°F in two hours, and 40°F in another four hours.

Sterilize your kitchen sponges every day in your dishwasher, and change dishcloths and towels daily. You can also sanitize a wet sponge easily in the microwave on high for 45 seconds.

Inexpensive household bleach (1-2) teaspoons in 1 quart of water), can be an effective household sanitizer. Put it in a spray bottle to make it easy to use.

Please see **HEALTH**, B2

Treat dad to meaty halibut with fruity salsa

Summer is usually synonymous with vacation - from the kitchen for MIRACLE the family chef. The outdoor grill attracts not only the cook, but hope fully, the culinary interests of other family members. If you're lucky, the man of the house will take over some food preparation chores. I suspect barbecuing appeals to a latent masculine fascination with cooking.

particularly when it is a "meaty" fish that stands up well to the heat of the grill.

The steak-like quality made swordfish my choice last year for Father's Day, and the grilling season. Unfortunately, this quality has also led to the overfishing of North Atlantic swordfish. Therefore, I tried several other fishes before settling on this recipe for

Please see DAD, B2

GRILLED HALIBUT WITH SUMMER SALSA

- 1.1.7.4 nounds Halibut steaks, cut into four pieces
- 1 tablespoon ofive or canola oil
- 1 tablespoon lime juice
- 1 tablespoon Worcestershire sauce

Brush fish with Worcestershire sauce and lime juice, and then oil. Place fish on hot grill that has been brushed with oil or use an oiled grill basket about 4-6 inches above the heat. Grill 1-inch steaks 2-4 minutes on each side

Fish is done when it turns opaque and is firm to the touch. You can use a paring knife to probe the center of the thickest part of the fish to make sure the flesh is solid white, but translucent.

Serves 4. Serve immediately with the Summer Salsa

Food Values: Calories, 140; Fat 7.1g; Saturated Fat, 1.0g; Cholesterol, 44mg; Sodium, 131mg. Food Exchange: 3 lean meat

SUMMER SALSA

- 1/2 cantaloupe, washed, peeled, seeded and diced
- 1/2 honeydew melon, washed, peeled, seeded and diced
- 1 mango, washed, peeled, seeded and diced
- 2 tablespoons fresh lime juice
- 2 tablespoons fresh mint
- 1/2 jalapeno pepper, washed and diced
- 1/4 red onion, peeled and diced

Combine the ingredients in a medium sized bowl. Cover and chill for an hour. Salsa can also be prepared up to one day ahead. Serves 4.

Food Values: Calories, 64; Fat, Og: Saturated Fat, Og: Cholesterol 0mg; Sodium, 9mg. Food Exchange: 1 Fruit

Dad from page B1

Grilled Halibut with Summer sauce. You don't need these Salsa

The price of halibut, one half that of swordfish, was no small consideration. Cost, combined with the requisite meaty texture, makes this fish perfect for grilling. I used Worcestershire sauce to emphasize the meat-like qualities. I prefer not to mari- red. Peel and slice parallel to the nate fish because the acid in the large flat mango pit. marinade will partly cook the fish flesh before you ever get near the heat. Overcooking is one of the reasons people don't like fish.

the nutritional virtues of fish. Halibut is one of the lowest fat fishes. It has half the fat, onetenth of the cholesterol-raising saturated fat and one-half of the to wash the melons before you cholesterol of an equal amount of cut into them. In these days of a lean strip steak. This, of course, holds true only when it's not cook washes the outside of fruits cooked in fat or accompanied by and vegetables. a fat laden sauce such as tartar

when you have a really fresh piece of fish. Fresh fish does not smell or taste fishy. Know your fish market, and trust your nose. For the Summer Salsa, pick mangoes that give slightly but are firm to the touch. The skin should be yellow with touches of

Your nose is also a good guide to the ripeness of the melons. The cantaloupe rind should have a yellow background as should Of course, you're familiar with the honeydew. The melons

should yield to slight pressure. If you find the melons are not quite as ripe as you would like, a teaspoon of sugar helps. Be sure global food supply the cautious

demonstrates proper food handling from refrigerator to service plate. Even if you don't use the recipe, it is good to read it and follow the safety tips to fight. "back!"

CONFETTI CHICKEN CHIPOTLE 4 chicken breasts

1 tablespoon olive oil 1 cup any commercial barbe-

cue sauce 2 tablespoons canned chipotle peppers, including luice. (Since this pepper has a hot, spicy, smoky flavor, you may want to increase or decrease the amount of peppers you use according to taste. The balance of the can can be mixed into mayonnaise for a spicy sandwich spread or added to tortilla soup)

2 ears sweet corn 1 red bell pepper

1 green bell pepper

1 small sweet onion Flat leaf parsley (small bunch,

finely chopped) For chicken and sauce:

Remove chicken skin and discard. (Be sure to clean all surfaces and utensils that the chicken touched with bleach and water. Refrigerate fresh chicken or thaw frozen chicken on lower shelf of refrigerator to avoid juices from dripping on fresh food).

Divide barbecue sauce and chipotle into two bowls (one suit able for the microwave), mix well. Refrigerate the microwavable bowl to use later for plating chicken. Use the other bowl for the barbecue sauce. (We prepare two separate mixtures of barbecue sauce to avoid contaminating the sauce for plating with the sauce used to

brush on the raw chicken.) Rub breasts lightly with oil and place on a clean hot grill. Brush

Recipe for Confetti Chicken Chipotle that demonstrates proper food handling

To prepare corn: Peel back the husks, but leave them attached. Remove silk and wet the cob. Replace the husks around the cob and wrap the ear in foil, husk and all. Place on the upper rack of the grill and turn ccasionally while chicken is grilling. Hold for plating. Just before chicken is ready, open corn and cut kernels off the corn. Set aside for plating.

To prepare peppers and onion: Finely chopped the red and green peppers and onion. Sauté in a hot pan (lightly wiped with oil) for a couple of minutes. Vegetables should still be crisp and crunch. Season lightly with salt and pepper to taste, remove from pan and set aside for plating.

To serve: Microwave a second portion of sauce for 15 seconds, stir and puddle sauce on the center of 4 plates. Place one grilled chicken breast on top of sauce. Sprinkle corn kernels, peppers and onions around the perimeter of the plate. Sprinkle with parsley all

Wash your hands thoroughly during the preparation of this recipe. Disinfect the area where you skin the chicken with bleach and water and wash the utensils used for chicken preparation before preparing the vegetables. Remember to use 2 cutting boards. 1 for preparing raw meats and the other for the fresh vegetables. Serves 4.

the Mediterranean island of out with their first flavored mayo "honey mayo" last year. U.S. chefs stopped hearing "hold the mayo" when we turned it into dill, sun-dried tomato, calamata, herb, pesto, and the list goes on and on.

Relish and Chutneys

Not long ago you would only find relish in dill or sweet, in grandma's potato salad, ham salad, and of course, at any espectable barbecue where hot dogs and hamburgers were being served.

Now, only your imagination is the limit. At 2 Unique Caterers. Chef Jeff makes a fabulous Nectarine Plum relish that would perk up any pork chop or tender oin hot off the grill.

How about an apple, caraway, onion chutney? Or a fruited relish on your next tuna steak? Relishes, chutneys and salsas in nundreds of varieties are finding their way around the open flames to be united with fresh rilled meats, fish and veggies. Relishes, chutneys and salsas can often be a great condiment to your grilling affair, lending taste, style, and texture.

cyclist fidgets with his bike amongst a ing aspect is to stay within your own fitness level. Some people try and work too hard at it. It's fun." That's right, fun and Pratt's not alone in his thinking as the Spinning rage makes its way here from creator "Johnny G's" home state of California. Originator John Goldberg invented Spinning, or

more generically called studio-cycling, in the late 1980s. A special stationary bike, marketed by both Schwinn and Reebok, accommodates the gear-shiftdemands from its riders.

The steel stationary bike has a 40-pound flywheel of tipping over. The option to stand or be seated leaning chest open in a forward position - allows you to pound the pedals and change gears to keep up with a verbal roadmap without fear of slipping gears and spinning wildly out of control like a traditional cycle.

Pratt, who became a certified Spinning instructor in November, says he first saw studio-cycling at a physically draining, but oh so appealing, as Pratt's fitness conference in Ft. Lauderdale, Fla. and sub-

Program (computerized immunization registry and call-back system) that has "achieved an impressive 92 percent rate of upto-date immunizations for children up to two years of age," according to the study.

"We need to look for opportunities to work together in light of diversity and differences in multiple communities," Brock said. Cash, Youth Living Center CEO, addressed family issues such as lack of parental supervision, teen sexuality and domestic violence. Children arriving home after school to an empty house are getting involved with guns, gangs and sex. More than 6 percent of children ages 11-17 are believed to have had sexual intercourse, while rates of teenage girls giving birth are higher than that of Michigan as a whole.

"Is this acceptable? What's the message here?" Cash asked. "Our children are our living messages we send into the future."

Dr. Trevor Hancock, a public health physician and Healthy Communities leader, encouraged the audience to use the data to form community capital and partnerships.

"Healthy communities must meet the most basic of needs first, including food, water, shelter, income, education, public health care and transportation in an effort to succeed as a community and a society," he said

Hancock said he was inspired by 82 percent of the respondents who said their neighborhood has an equitable amount of city programs and services. "That's high and very encouraging," he said. Also, 90 percent of residents believe their neighborhood welcomes diversity, but in contrast, more than 18 percent of all

respondents reported problems over racial, religious and cultural issues. Forty-two percent believed that they did not have much connection to their neigh-

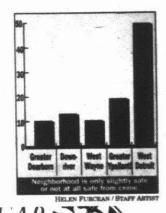

"How do we encourage neighborliness and the establishment of community roots in a rootless society?" Hancock asked In closing, Dr. Jeffrey Devries

director of Children's Health Services at Oakwood Healthcare System, said many of the statistics would be upsetting to everyone in the room, but it would be that feeling that would motivate the audience to take action.

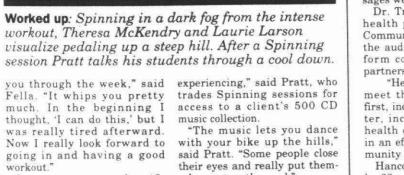

"Our communities currently offer many programs and services that are aimed at addressing some of the key problems identified through out data collection efforts. Our region is blessed with some of the finest community public health institutions and academic health service research organizations in the U.S., which should be cultivated as partners in our community-wide efforts," Devries said.

Internet job hunting: A case history

MEET AND GREET WALDO AT F.Y.E. "FOR YOUR ENTERTAINMENT" Saturday, June 20 at 11, 12, 2 & 3

WONDERLAND MAL Plymouth and Middlebelt Roads, Livonia Monday - Saturday 10 am to 9 pm, Sunday 11 am to 6 pm

734-522-4100

Oakwood's Cancer Center of Excellence

The grim-faced managers meeting in the closed conference room. The dwindling office supplies in the cabinet and the nervous stalling from the boss' secretary when asked to order new stock. The lack of pressure to keep working.

Call it what they want, downsizing, involuntary reductions in the workforce, service separation ... whatever ... Fletcher knew he was about to lose the one job he held since graduating from college three years ago. It was coming, any day now, and he needed to get a jump in the search for a new job

That night, on his computer, he began writing his resume. On the Internet. Three weeks later, he had a new job.

Fletcher is one of thousands who have searched cyberspace for the latest job postings. I met him during research for my book, "The No Geek-Speak Guide

to the Internet" and, when I checked back this week, he told me he was still employed in his new job and very happy. "The Net made it happen," he

said. How he got the job is a great

story from cyberspace. That night he was convinced his old job was doomed, he sat down at his computer. Dialing into his Internet Service Provider, he opened his web browser and found the home page of a company called Resumix, a subsidiary of Ceridian Corp., a \$1.3 billion information services and defense electronics firm. A few clicks through the Resumix site and he found it: The Resume Builder (www. resumix.com/resume/resumeform.html)

The 26-year-old Fletcher began typing away, entering all the standard information about his name, education, experience and goals. It took him three minutes. As he scrolled up and down to make sure there were no spelling errors and that his writing was crisp and clear, he clicked on a button labeled "format." In two seconds, up popped a professionally styled resume. He saved it to his computer hard disk and printed out a paper copy

Before leaving the site, he went back to the form and clicked a second button, labeled "Submit." This filed his resume

with Resumix. He was now officially looking for work. But he wasn't done yet. Fletch-

er went to one of the biggest, CareerSite (www. careersite. com) and filled in another Resume form, this one for the CareerSite site.

Back on the site's main page, he clicked on a link that allowed him to search for jobs by location and category. Fletcher used "management" as the category, and "contracts" as the keyword to search on. In seconds, a list of 25 companies looking for management people to work with contracts filled his screen.

Over two hours, searching that site and others, Fletcher had posted his resume on employment sites seen daily by more than 100,000 prospective employers. He applied for 17 different jobs.

When the official lavoff notices for his department came down three weeks later, Paul Fletcher had already been offered a new, better-paying job from an Illinois firm that manufactures and sells electronic navigation and communication aids to the military. It was the first job offering he saw on the Internet during his single night of online searching.

After he cleaned out his desk and was on his way to his car, he recounted to me how a coworker, also laid off, joined him. They were both carrying boxes.

"I "Man," said the coworker.

don't know what to do." "Try the Internet," suggested Fletcher.

"Huh?" asked the friend. "The Internet? Why would I want to work for the Internet? The only thing I know how to do with a computer is write a memo."

Fletcher stopped himself from shaking his head. Instead, as he climbed into his car ready to drive off to his new life, he managed a smile. "Never mind. Good luck."

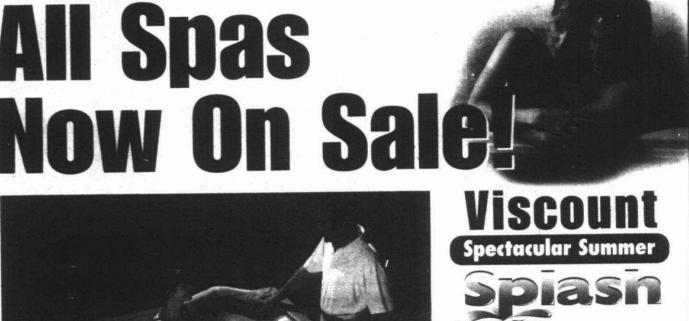

Here are some other great jobhunting spots on the Internet:

The Job Connection (http:// www. wdiv. com/ jobs/ job. htm) - This is an Internet service sponsored by WDIV-TV and metro Detroit's top companies. It's concise, informative, personal and easy to navigate.

The Monster Board (http:// www. monster. com) - A huge site listing more than 50,000 jobs to search for online, along with a search agent that will go out and electronically look for you.

Online Career Center (http:// www. occ. com) - Well laid-out and searchable by company and industry.

Career Path (www. careerpath. com) - An online matchmaking service for employers and employees. It requires you to register and links you to more than 275,000 job listings, many taken from newspaper classified ads

Cancer Risks Can Be Inherited

By: Julie Zenger Hain, Ph.D., FACMG

One in three individuals will develop cancer at some point in his or her lifetime. Once a family member has been diagnosed with cancer, it is natural to ask, what is my risk of developing cancer? Medical researchers have proposed that some inherited factors or genes must play a role in starting cancer because some

families have multiple cancer víctims. Researchers have identified genes that increase one's likelihood of developing certain forms of cancer, however, inheriting one of these genes does not mean the individual will necessarily develop cancer. Genes have been identified in some forms of breast, ovarian, colon, thyroid, and kidney a cancers. Only approximately five percent of all cancers appear to · be inherited.

Cancer develops from a cascade of genetic changes in a single cell where the regulation of the cell's normal activities is altered. These changes result in uncontrolled growth and a cancerous tumor may develop out of that one cell. The vast majority of cancers are not inherited and non-genetic factors (i.e. dict, viruses, environmental exposures) are involved in the initiation of the cascade of genetic changes that lead to the development of cancer.

Routine physical examinations by your doctor and following the American Cancer Society's guidelines for early detection of cancer are recommended for everyone. If you have multiple family members with cancer and some of these relatives developed cancer when they were under the age of 50, there may be a genetic predisposition for developing cancer in your family

If you are concerned about being at increased risk for developing cancer talk with your family doctor to determine appropriate screening for early detection and treatment

Dr. Julie Zenger Hain is the director of the Cytogentics Laboratory at Oakwood Hospital and Medical Center - Dearborn. She is a boardcertified cytogenticist and Ph.D. medical geneticist.

Art camps spotlight summer fun

manda Centkowski can't wait for the eighth annual Summer Art Camps at D & M Studio's Once Upon An Easel in Canton. The 7-year-old, who took an Egyptian theme art workshop during Easter break at D & M, loves art and dogs. This year's theme, "North to Alaska the Iditarod," explores the great Alaskan territory and the dog sled races through drawing, painting, papier-mache, pastel, charcoal, sand art, ceramics, printmaking, weaving, wood painting, jewelry, cartooning, foil relief and more.

The D & M camp is but one of the art camps parents can send their children to this summer to introduce them to the visual arts, drama and music.

"I'm looking forward to painting," said Centkowski. "I love to paint. It's my favorite thing to do."

Amanda originally began taking art classes in September at D & M after watching Bob Ross paint on Saturday mernings on TV.

"She likes all of kinds of art," said mom Sandy Centkowski. "That's why we enrolled her in the classes because I'm not an art person and couldn't teach her."

Please see CAMPS, C2

Mummy art: Sharon Dillenbeck points to the Egyptian mural students painted during last year's art camps at D & M Studio.

Nancy Hole wishes her father were here to see her exhibiting paintings at the Liberty Fest Fine Art and Fine Craft show in Canton's Heritage Park June 20-21.

Hele will tell you when she turned 40 in May it was time to "get serious" about painting. But the primary catalyst for the Plymouth artist's decision evolved from the death of her father last year. He always encouraged her to develop her painting and drawing skills. She was in fifth grade at Nankin Mills Elementary School in Westland when her father recognized her talent after she drew the "Twelve Days of Christmas."

"When my father died last year is when I decided to do my art. My father always pushed me with my art."

For the last 24 years, Hole worked as a waitress, and continues waiting tables at the Coffee Studio in Plymouth. Since making the decision to become a professional pet portrait artist, she

cians in junior high, 8:30 a.m. to 2:30 p.m., Monday-Fridays, July 6:10 and July 13:17, 5701 Canton Center Road, (north of Ford Road), Canton. For more information, call (734) 453-7590, Ext. 222, \$240, scholarships available on a need basis.

A Jump on Jammin' camp gives kids (ages 5-7, 7-9 and 9-11) the basics of music on electronic keyboards, Monday-Friday, Aug. 17-21. \$95. For information, call (734) 453-7590, ext. 700.

Plymouth Community Arts Council – Whistle Stop Players Drama Camps take place 10 a.m. to 2 p.m. Monday-Friday, July 13-17 and Aug. 10-14 at the Joanne Winkleman Hulce Center for the Arts, 774 North Sheldon Road (at Junction), Plymouth; for ages 5-15. \$75 for Plymouth Community Arts Council members, \$100 non-members. At the end of their week on Friday evening, students give a free workshop performance for parents and the public (7 p.m. Friday July 17 and Aug, 14). For more information, call (734) 416-4ART.

Fried's strings attached to ultimate 'good vibe'

A few weeks before she was scheduled to perform at the Great Lakes Chamber Music Festival, violinist Miriam Fried was on her way to Finland.

453-3710 for information

Traveling with her husband meant that she made reservations for three. Naturally, the third seat was booked for her Stradivarius with a Holy Grail history that'd make musical scholars tremble to think of the possibilities.

The violin, according to legend, was once cradled by Wolfgang Amadeus Mozart, a reluctant violinist who composed a Sonata in B-flat for Violin dedicated to the woman who owned the instrument. WHAT: Great Lakes Chamber Music Festival, a program of Beethoven, Mendelssohn, Tower an Dvorak WHEN: 8 p.m. Tuesday-Wednesday, June 16-17 WHERE: Temple Beth El, 7400 Telegraph, (at 14 Mile Road) Bloomfield Hills. TICKETS: \$26, call (248) 362-6171.

"It has a good vibe running through it," said Fried, in a typical understatement.

For this Tuesday and Wednesdays concerts at Temple Beth El, Fried is also bringing a familial vibe. She'll be joined by her husband, violist Paul Biss, and her 17-year-old son, pianist Jonathan Biss.

The program features "Sonata in D Major for piano and violin, Op. 12, No. 1" by Beethoven, "Quartet in a minor for strings, Op. 13" by Mendelssohn, "Quartet in E-flat Major for violin, viola, cello nd piano" by Dvorak, and Platinum Spirals" by composer-in-residence Joan Tower.

Fried and the Bisses will be joined by cellist Paul Katz and the St. Lawrence Quartet.

Reel action: The Lunker Bass game will lure

Tools and toys make dad's day

BY DONNA MULCARY SPECIAL WRITER

I don't know about you, but for me, Father's Day is always the hardest occasion to shop for. Maybe it's because, in my experience, women tend to be more forthcoming with gift ideas than men. Take my mom for example. Ask her what she'd like for Mother's Day or any holiday, and she'll eagerly give you a whole long list of ideas, God love her.

Ask my dad and his first response is always, "Save your money. Don't get me anything." Press him on the issue and his answer is usually "socks or handkerchiefs." Now c'mon I don't care if he wants them or needs them, there are only so many socks and handkerchiefs you can give a man before that gets

really old.

My husband is a

little better about

providing gift ideas,

but in the past three

years I've gotten him

only one Father's

Day gift that he

actually liked -- a

white T-shirt with a

small embroidered

logo that says

"Detroit Red Wings

Stanley Cup Champions." I found it at

JC Pennev last year. Father's Day soon is next Sunday, June 21. And since my track record is shaky, and since the men in my life are tight-lipped on the subject, I decided to ask other people what would make the perfect Father's Day gift.

I accosted three total strangers who were shopping in the hardware department at Sears in Novi and asked them what they'd like for Father's Day, if they had children.

Frank Dwyer of Walled Lake, who was shopping with his sons, said he'd like the Crafstman Cordless Tool Workshop set, but added that "it's too expensive." The set includes a drill, circular trim saw, a pivot light, two interchangeable batteries and a charger, all in a red plastic storage case for \$99.99.

Larry Stack of Wixom said he'd like, "a really good cooler. A family can always use a good cooler." Preferably one on wheels, he added.

Robert Mantooth of Canton said the Quinch Craf Buffer Polisher (\$69.99), because he enjoys working on his car. "And like most guys I know," he said, "I have a lot of tools, but they're not organized, so I could use some tool organizers.

My Uncle Travis, who likes nifty gadgets and electronic items, said he'd like anything from Brookstone or The Sharper Image. Both stores have locations at Twelve Oaks Mall in Novi and the Somerset Collection in Troy. I asked salespeople there what they'd recommend.

Julie Holmes, store manager of the Brookstone in Novi, said the Lunker Bass fishing game (\$30) is new for Father's Day. You hold it the way you would a fishing pole and use normal casting and reeling notions to "hook" fish on the electronic screen. (It's available at The Sharper Image, too, for the same price.) Holmes also recommended a golf cleaner (\$10); a coin vault money sorter (\$45); a wireless headset that lets you hear your indoor stereo outdoors up to 180 feet away (\$99); and an 18-piece barbecue tool set (\$100).

Angel Emrick, senior sales associ-ate for The Sharper Image in Novi, recommended the Mini Torch Light - a powerful, rectangular, pocket-size flashlight (\$6.95); and a credit-card size golf tool kit (\$20).

She also recommended the Deep Pocket wallet, which is thin enough to be tucked in a front pants pocket (\$39-\$44) and the Palm Pilot III ectronic datebook and organizer, for

P.S. Thanks to Dr. Maggie Pringlemeir, who said that you can get chimineas for \$30 at The Pottery Fac-tory, via Mexico, in Farmington Hills, phone (248) 855-4955.

Jag: driven to excellence

aguar - it's an object of desire, like a Tiffany diamond or a Burberry coat. No one actually needs a Jag, but devotees wouldn't settle for any other luxury car. They share a keen appreciation for style and elegance. They also share high expec-

tations of their dealership. They want superior customer service - the same kind of satisfaction they receive from their retailer of choice

For that reason, Mike Dale, president of Jaguar Cars North America, instituted a unique cultural change initiative titled "Exploring Retail Excellence." Developed for Jaguar by Visual Services Inc. in Bloomfield Hills, the program partnered Jaguar dealers from across the country with Somerset Collection retailers.

On Wednesday, the car men and women met the clothiers, jewelers and home decor experts for a discussion centered around delivering exceptional customer service. They spent the morning shopping for ways to improve the car buying experience.

"The Somerset Collection is an excellent learning labora- Sharing strategies: Jaguar President Mike Dale chats with Nordstrom store manager Greg Holland in tory for Jaguar," said Dale. the Nordstrom Pub. "The instant you enter the

Collection, you know you're in a very special place. We want our cus-

tomers to feel the same way about visiting a Jaguar dealership. "The stores we're visiting are known

for being customer focused and doing whatever it takes to make sure their customers are satisfied. 'Exploring Retail Excellence' offers the company and its dealers a unique way to go beyond the boundaries of the traditional automotive environment and meet with some of the best retailers in the world."

Participating Somerset retailers that Nordwere Nordstrom, Neiman Marcus, strom's Burberry's, Tiffany & Co., Rand McNally, Pottery Barn and Ralph Lauren/Polo

Greg Holland, manager of Nordstrom, spoke of his company's cultural evolution. "Everyone starts at the bottom," said Holland. "Even the presidents of Nordstrom started as stock boys." There is no formalized customer service training, but the Nordstrom credo empowers sales associates to "use their best judgment in all situations" to ensure outstanding customer service. We never say no, we say no, but..."

C8(OF*)

TRAVEL They've left a lighthouse on for you on Great Lakes technology.

BY DORIS SCHARFENBERG SPECIAL WRITER

Historic beacons and keepers' dwellings are glowing in a stronger light this summer as lighthouse preservation buffs and chambers of commerce put their interests together. Recent years have seen 13 out of 104 Michigan light stations turn into small marine museums.

Sixteen of them let you cross thresholds of long-empty quarters to feel the echoes of a maritime past. Eighteen towers are open to intrepid climbers.

The lighthouse at Big Bay on Lake Superior even invites you to spend the night (strictly by reservation) as it lives a new career in the bed and breakfast league.

It's hard not to love these symbols of courage in times past. High and handsome gems of functional architecture always camera-ready against changing skies or moods of surf. Getting to a lighthouse means getting to a prime vacation area.

Tales of heroism and ghosts cling to the stones of signal towers like moss on wintering pines. More than 8,000 ships have gone down in the lake storms taking thousands of lives. Huron Pioneer City and at Sleeping Bear Dunes had light plus Coast

Presque Isle: This is one of two lighthouses just north of Alpena, serving an important harbor between Port Huron and the Straits.

For more information: **Great Lakes Lighthouse** Keepers Associa P.O. Box 580, Allen Park, MI 48101 The Great Lakes Historical Society 480 Main St. Vermillion, OH 44089

(216)967-3467 National Park Service,

Maritime Initiative P.O. Box 37127

Washington, D.C. 20013-7127

(202)343-9508 (Maritime Initiative is a database containing information about lighthouses in the United States).

Guard stations with crews trained to row out to rescue the perishing. You are invited to inspect their boats and buildings containing their gear.

Lighthouse history comes tightly braided with economics and the sheer size of these freshwater bodies. The Great Lakes are big enough to affect weather and clearly visible from the moon yet shipping channels are relatively narrow. Long carriers lack the maneuvering room of an ocean and choppy lake waves plus dangerous rocks make matters worse. Before radar and satellite locating systems lighthouses were as essential to trade as road signs are to highways.

The first steadily tended Great Lakes light was put up by the British on a roof of Fort Niagara, New York, in 1771. Lake Erie has two lights by 1810. Michigan's first rose at Fort Gratiot, Port Huron, in 1825. A Detroit lawyer named George McDougal left his practice to tend the light. That took nerve. It was a rickety affair and fill in as McDougal feared it would. A sturdier structure took its place in 1829.

Eventually, Michigan had a third of all U.S. Great Lakes lights

Candles or whale oil provided the flame before lard or natural gas had their turn as favorites. A venturesome Michigan lightkeeper tried kerosene, only to blow the lantern out the tower and set his clothes on fire. Ignoring bad starts, kerosene did the job until electricity changed

All beacons became flashier after 1822 when French scientist Augustin Fresnel devised a system of prisms to gather light and refocus it into one concentrated beam. At Minnesota's Split Rock Light on Lake Superior, a Fresnel-focused beam glows every Nov. 10 in memory of the vanished freighter Edmund Fitzgerald. An automated, high-power

signal does the real job. It may be a tad remote, but this is the light aficionados put at the top of their list. In the 1800s, north shore deposits of iron ore made ships' compass needles twirl. In one horrific storm more than 30 wrecked and sunken carriers put the construction this lighthouse near Two Harbors into gear. Then the struggles to bring materials to the top of an isolated 120-foot cliff made a hair-raising storm on its own.

The result is clearly the cover girl of all lake lights. A sturdy octagonal yellow brick tower on a majestic escarpment, it has become one of America's bestknown lighthouse image. Entrance off U.S. 61 east of Two Harbors. Lighthouse, foghorn building, keeper's house, information center open long hours until Oct. 15.

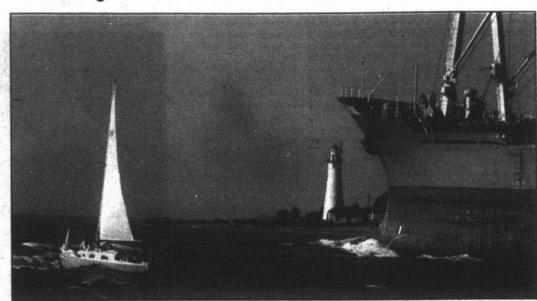

More winners:

The Iroquois Point Light west of Sault Ste. Marie on U.S.F.S. Road 3150 has a town open to climbers plus a small museum and lots of information. Ideal spot to watch long ships

passing or having a picnic. Pass through Paradise on the 30-mile drive to Whitefish Point to find one of the finest small marine museums anywhere. An excellent presentation with videos recalls details of Jacques Cousteau's "Calypso" visit and National Geographic searches for answers to the Fitzgerald loss.

At the tip of the Keweenaw Peninsula, the Copper Harbor lighthouse has a newly restored keeper's cottage to show off this summer. Come the first week in August for the fun highlights.

Two lighthouses await visitors to Presque Isle, north of Alpena off U.S. 23. The oldest dates to 1840 serving 30 years on an important harbor of refuge between Port Huron and the Straits. Tower walls measure

First light: Michigan's first lighthouse was at Fort Gratiot in Port Huron in 1825. The current light went up in 1829.

four feet thick with the interior addition of stone block steps.

The Tawas Light is a part of Tawas State Park, a long spit of land that has built up considerably since the lighthouse was first built in 1853. Popular with campers, bikers and a bird watcher's haven.

The lighthouse on the Thumb at Pointe Aux Barques is one you can enter and the Lighthouse Museum in Port Huron invites visitors to climb aboard.

Looking over Lake Michigan on Aug. 22, the Grand Traverse Lighthouse in Leelanau State Park will celebrate lighthouses, the community of Northport and the joys of summer. Lighthouse keeping was less cramped in these spacious quarters at the tip of the state's "little finger." Call (616)386-5872.

The light on South Manitou is part of the Sleeping Bear Dunes National Lakeshore where seekers find another museum and the charms of an undeveloped island. A little to the south, the Point Betsie Lighthouse was the last staffed light station on the east short of Lake Michigan.

Keep going south as near to the coast as possible. The black and white tower encased in steel plates at Big Sable Point in Ludington stands amid shifting dunes on a super scenic strand.

The bright red tower on the South Haven Pier in the morning or other pier lights against a setting sun will eat up your film. Unusually short and boxy, the Michigan City, Ind., light-

house was operated for years by

a woman of independent spirit. Close to I-94, I-80 and east-west travel.

Lightning strike

The Canton Lightning under-14 boys premier soccer team reached the state finals in the Michigan Youth Soccer Association State Cup competition, falling in the championship game 3-1 to Vardar III May 30. The Lightning defeated the North Metro Rangers from Rochester, Lakeshore from Muskegon and Grand Valley Premier from Grand Rapids in the preliminary rounds, then knocked off Genessee Star from Grand Blanc 8-1 in the quarterfinals and Capital Area United from East Lansing 3-1 in the semifinals.

Team members are Jeffrey Bennett, Jai Bilimoria, Nick Houdek, John Kaczmarek, Brent Kwiatkowski, Daniel Longpre, Pat Meyn, Tavio Palazzoli, Randy Palis, Jason Priebe, Aaron Schmidt, Kevin Schopieray, Carl Space, Kevin Strucel, Ben Wielechowski and Jamie Zdrodowski. The Lightning is coached by Watson Allan Zdrodowski, Leroy Schopieray and Michael Longpre, and are trained by

Ed McCarthy. Also: the Lightning has openings for players for next fall's team. Try-outs are scheduled for 6 p.m. Tuesday and Wednesday at Field Six in Canton's Heritage Park. Call Watson Zdrodowski at (734) 459-0927 for further information

Cheerleaders stunt

The Plymouth Salem cheerleaders will sponsor a Universal Cheerleaders Association-staffed stunt camp from 9 a.m.-4 p.m. Saturday, June 20 at Salem HS's gymnasium. Cost is \$25 per participant.

The camp is open to all middle school and high school students, both male and female (no residency requirements); those interested must pre-register. Partner stunts, pyramids, transitions and safety techniques will be taught.

For further information, call UCA at (800) 969-4876, or JoDee Dillon at (734) 459-3393.

Soccer tryouts

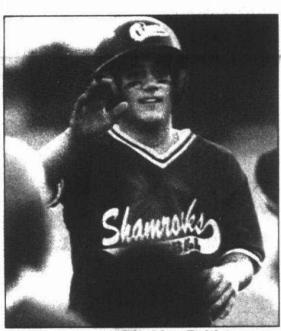

•The listing of the Plymouth Parks and Recreation Association soccer tryouts in Thursday's Observer left out the under-12 boys select team tryouts, which will be at 6 p.m. Tuesday at Heritage Park and 6 p.m. Thursday at Tanger Elementary School. For information, contact Randy Leslie at (734) 459-1071.

•The Plymouth Lightning under-16 girls premier team still has a few openings. Tryouts are from 6-8 p.m. June 20, 21 and 25 at East Middle School in Plymouth. All players are requested to arrive 15 minutes early to register, and should bring a No. 5 ball, shin guards, water and both light and dark T-shirts. For further information, call Dan Schilk at (734) 459-8826 or at (734) 481-6949.

Ing: Detroit Catholic Central assistant coach Al Moran (No. 18) discusses strategy with Bob Malek (second from right) as Chris Woodruff (left), Dave Lusky and Mark Chapman (right) listen in.

Summit meet-

Shamrocks lose state semis

The state Division I baseball playoff semifinal lasted into the 11th hour Friday night - but unlike some famous negotiations there was no guarantee both sides would benefit.

In a game that ended about 11:30 p.m. after a threehour rain delay, Detroit Catholic Central lost to Saline, 10-9, on a two-out, two-strike single in the bottom of the seventh inning by freshman pinch-hitter Eric Millsap at Nichols Field in Battle Creek.

The two runs came against the Shamrocks' fifth pitcher of the night, Dan Duffey, but were charged to Bob Malek, who had to be removed with one out after the CC coaches made too many trips to the mound.

Duffey got two quick strikes on Millsap, who watched the third pitch go by for a ball. He calmly ripped the next pitch into right field to score two runs and erase a 9-8 deficit.

Incredibly, Millsap is 3-for-3 on the varsity, all in pinch-hitting roles, after coming up from the junior varsity

"I just hung in there and drove it," Millsap said. "He threw the first one real hard. Coach (Scott Theisen) told me to take the first strike and if I like it (the second strike) go after it."

DIVISION I SEMIFINALS

Woodruff not been nursing a sore throwing hand, according to CC coach John Salter.

"We should have had the double play on the come-backer but Woody's hand is sore and he didn't want to risk throwing it away." Salter said.

The four-run rally capped a wild game that featured 23 hits, including 12 by CC. The win sent Saline, 27-14-1

overall, into Saturday's championship game against Midland, a 3-1 upset winner over Brighton in the other semifinal.

CC, trying to win its first state championship since 1987 and second in John Salter's 18 years as coach, finished 28-7 overall.

Mark Cole started for CC and was relieved by ace

Searcy is top trackman of '98

If you succeed, you will be rewarded. That could be the theme of the 1998 All-Observer boys track and field team, which is filled with seniors and members of the area's top squad - Plymouth Salem.

The Rocks had a fantastic season, winning a regional meet, the Western Lakes Activities Association title and the Observerland Relays champi-

onship.

Salem ended its season by taking eighth place in Class A state competition, which proved to be one of the fastest meets in history. Leading the

Salem all-area contingent of three individual athletes and three relay

teams is senior Ian Searcy - the 1998 Athlete of the Year. Searcy made the squad with his performance in the 800-meter run (1:53.6), but he also excelled in the 400 (50.9) and 1,600 (4:37.0) and is a member of Salem's outstanding 1,600 and 3,200 relay teams.

Searcy was one of the many seniors to be honored this season. Only three non-seniors made the team in individu-

1

al events (Farmington Harrison's Derek Laskowski, Livonia Churchill's Ryan Kearney and Plymouth Salem's Nick Allen),

The 1998 team also includes five All-Observer repeaters: Searcy, Kearney. Westland John Glenn's Harden James, Harrison's Keith Battle and Livonia Stevenson's Rob Block

FIELD EVENTS

Kirk Moundros, N. Farmington (shot put): As a sophomore, Moundros showed promise in the shot put with a throw of 42 feet.

He fulfilled that potential this season by improving nearly 10 feet and becoming one of the area's best shot putter. His top toss of 51.6 occurred in the Observerland Relays.

"He catapulted us (to first place in that event) and was a prime factor in us taking third overall at the relays." North coach Todd Schultz said.

Moundros was second at the regional in the shot put and second in the WLAA in the shot put and discus (155-2). He finished first in both throwing events at the Farmington city meet.

"Kirk did a tremendous job," Schultz said. "He worked hard in the off season and extreme ly hard during practice. He has great athletic skills, and his drive will make him successful in anything he does."

Moundros (6-2, 205) was a tailback in football and will try to earn a spot on the University of Michigan team this fall as a preferred walk-

¥.

Kevin Kell, Plymouth Canton (discus): There was little question where the best thrower in the area was this season. He was at Plymouth Canton

Keil had an incredible year with the area's best throw in the discus at 162-2, and he also set the Canton school record in the shot put with an Observerland top toss of 53.2.

In his record-setting senior season, Keil won the WLAA title in the discus (155-9) and shot put (52.9.1/2). He also won both events at the regional and finished sixth in discus at the Class A championships with a distance of 154-

Kevin dedicated himself for his last year to become a champion in the discus and shot put." Canton coach Bob Richardson said. "His deter mination and hard work helped him return to the state meet again in 1998.

Keil will be a member of the indoor and outdoor track teams at Central Michigan Universi-

Tim Moore, John Glenn (long jump): With David Jarrett graduated, Tim Moore took it upon himself to make sure the league's long jump title remained at Glenn

Moore took the WLAA title with a leap of 21 7, which was a half foot better than his best jump of 1997.

'Tim was a technically perfect jumper. Glenn coach Jess Shough said. "He was an outstanding, versatile athlete and will definitely be missed

and we will miss him tremendously." Battle will run at Bowling Green Ohio) State University next season. Andy Briggs, Ply. Salem (400): Briggs

and teammate Ian Searcy proved to be'a potent one-two punch for the Rocks. In the 400, Briggs won the WLAA and

ioneer Relays titles and shared claim o the area's best time (50.9). He also vas part of Salem's all-state 1,600 and 3,200 relay teams. Briggs' resume also includes an eighth-place finish in the 800 at the state meet

"Andy is a very hard worker and was a great asset to the team." Salem oach Geoff Baker said.

lan Searcy, Ply. Salem (800): As the other part of the talented duo, Searcy proved to be one of the state's best niddle-distance runners.

Searcy took second at the state meet n the 800 and owns the school record of 1:53.6. He also won the WLAA, regional and Mansfield (Ohio) Relays itles. Searcy showed his versatility by run-

ning 22.8 in the 200, 50.9 in the 400, 43 flat in the 300 hurdles and 4:37 in the 1.600. He also was one of the state's top cross country performers. inishing third at the state meet with a

time of 16:10. "Ian is a great athlete and a great person to be around," Baker said.

Nick Allen, Ply. Salem (1,600): Allen demonstrated in the state meet why he will be one of the athletes to watch next year Allen is one of the area's best dis-

tance runners, taking first in the 1,600 and second in the 3,200 at the regional the host Southfield Padres on meet. He also was first in the 3,200 and second in the 1,600 at the WLAA championships Allen capped the season by shatter striking out seven and allowing

ing the school record in the 3,200 run (9:32) with an eighth-place finish at the state finals. In the 1,600, he ran a personal-best time of 4:25.6.

In addition, he was a member of Salem's record-breaking 3,200 relay team

"Nick's hard work paid off as he had 3,200 and helping to set the Stevenson a great junior year." Baker said. "We're looking forward to an even better year in his senior season.

Block also qualified for the state at the West Bloomfield Invitational and ended his career at Stevenson by run cross country meet each of his four third at the Mansfield Relays. ning his best time of 9:30.5 in the years at Stevenson. He will run track at

Lansing Community College next year "He was our best runner for the last nree years," Stevenson coach John Gores said. "He's a hard worker and a one-of-a-kind runner.

RELAY TEAMS

400 relay, Farmington Harrison: The oursome of senior Jerrard Johnson, Batle, sophomore Kevin Woods and junior Andre Davis recorded an area-best time of 43.6 and finished ninth at the state neet

"We are proud of our tradition of strong relay teams at Harrison," Reed said. "Our relay ran six deep with sprinters. We could have put any four of them together and fielded a strong team at any given time."

800 relay, Plymouth Salem: Juniors Mike Shull, Chris Mason and Mark Sheehan and senior Scott Kingslien set the Salem record (1:30.1) with a time that was 1.5 seconds better than any other team in the area.

The Rocks won the regional title and qualified for the state meet. They were first at the Observerland Relays and sec ond in the conference meet.

1,600 relay, Plymouth Salem: Briggs. Kingslien and Searcy combined with sophomore Gabe Coble to dominate this event. Their best time of 3:23.8 was nearly seven seconds better than any other Observerland team.

The Rocks were third at the state meet after winning regional. WLAA and Observerland Relays championships. 3.200 relay, Plymouth Salem: The

locks were virtually unbeatable in this . event. Briggs. Searcy, Allen and junior Bobby Cushman took third place in the state with a school-record time of :49.9, which was more than 21 sec onds better than any other area team.

Salem captured regional, conference and Observerland Relays champi onships. The Rocks also finished second

Chiefs baseball camp

The Plymouth Canton basebal coaching staff and players will sponsor the Canton Chiefs Base ball Camp, for kids 7-14 years old, from 9:30 a.m.-1:30 p.m June 15-19 at the Canton base ball field.

Included in the camp will be group and individual instruction in throwing, filding, pitching, base-running, etc. Cost is \$85 per participant if received before June 7; at-the-gate registration is \$90. Included is a T-shirt and lunch. The camp is limited to the first 125 players.

Also - a one-day camp for eighth graders will be held from 9:30 a.m.-1 p.m. Saturday, June 20 at the Canton field. Cost is \$15; lunch will be included.

For information regarding either, call Mike or Diane Kwiatkowski (981-2024), Doug or Debbie Cortellini (451-1525) or Dick or Ellen Tucker (416-8376)

·Co-ed sand volleyball leagues are now being formed by the Canton Parks and Recreation Services. Cost is \$40 per team (eight player maximum; four play at a time). Registration begins June 15 and ends July 2, at Canton Township Parks and Recreation, 46000 Summit Parkway (phone: 397-5110).

There is a six-team maximum per league; there are no residency requirements. All games will be played at 6, 7 or 8 p.m. on July 7 through Aug. 19, at the Heritage Park sand volleyball

elk permit for either of the

ber hunt and a December hunt.

apply again, under a new rule adopted recently by the state Natural Resource Commission. The Natural Resources and Environmental Protection Act authorizes the NRC to make orders related to the taking of

Elk hunters who received a

NRC chairman Keith Charters said the new ruling was a result of a DNR evaluation of repeat winners of elk licenses and recent findings of a state audit. "The audit concluded that the drawing process used by the DNR is fair and unbiased, but auditors clearly illustrated that the "luck-of-the-draw" will result in a growing number of repeat winners just because of the growing number of past win-

upcoming hunts in July 15. ners," said Charters. In the past, successful Michi-Help out at Pocket Park gan elk permit applicants had to wait one year before again like working with children, the applying for a permit. Under the new regulations hunters who receive an antlerless permit must still wait a year but State Fair. hunters who receive a hunters choice permit will be ineligible to apply for another Michigan elk license for 10 years.

In other related actions by the Park's fishing pond at the State NRC, the Commission approved Fairgrounds in Detroit. two elk hunts for this year. This will allow the DNR to continue fishing clubs with members who based. the selectively reduction of the would like to come down and

Division communications repreelk herd, in keeping with the sentative. "Individuals who objective to have between 800 would like to volunteer are also and 900 elk in the winter herd. welcome to help." The first hunt this fall will be

Volunteers will work under the supervision of a DNR employee and may assist in a variety duties ranging from helping untangle fishing lines to tak-

ing a fish off the hook. The pond, which will be stocked with hybrid bluegill, will have an 80-foot fishing platform where as many as 20 people can fish at one time. Volunteers are expected to work from 9:30 a.m.

to 6 p.m. and will receive free admission and parking Anyone interested in lending a hand for a very worthy cause can call the DNR at (734) 953-1539

or (734) 953-1528. Help name peregrine chicks

Three peregrine falcon chicks that hatched around Mother's Michigan Department of Natural Day in a nest at the Book Build-Resources wants to reel you in. ing in Detroit need names. The Aug. 25-Sept. 7, at the Michigan Michigan DNR, in keeping with tradition, has announced that That's when volunteers are children can once again this year needed to help children learn to name the birds. fish at the new DNR Pocket Names which have some relevance to peregrines and their Maple, Birmingham, MI 48009, Fax characteristics are preferred.

"We're especially interested in Names do not have to be gender-The word "peregrine" means 901-2573.)

work the pond as a group for a wander and these falcons day or two," said Denise Mogos, migrate great distances each ONR Information and Education year. Peregrines are one of the most admired birds of prey as well as one of the top predators An endangered bird, peregrines are powerful hunters and prey on other birds. When they dive or "stoop," for prey they can reach speeds of up to 200 miles per hour.

> Detroit is a popular nesting spot for peregrines since the Detroit River is a natural migratory corridor and the tall build ings in the city provide suitable nesting habitat.

Pop and Judy, the parents of the three chicks, have nested in Detroit for the past seven years.

Children ages five through 13 who wish to name the chicks can send their suggestions to: Peregrine Names, Michigan Department of Natural Resources 38980 Seven Mile Road, Livonia MI 48152. Entries should include names for the chicks along with the child's name address and telephone number. Entries must be received by

June 22 (Anglers and hunters are urged to report your success. Questions and comments are also encouraged. Send information to: Outdoors, 805 E. information to (248) 644-1314, send e-mail to boarker@oe.homecomm.net or call Bill Parker evenings at (248)
