## Teens take to 'street' to raise awareness of homeless issues

BY CAROL MARSHALL STAFF WRITER cmarshall@oe.homecomm.net

A group of local teens spent a night freezing in cardboard boxes. While that sounds miserable to most of us, they say they did it for a good cause - and higher calling.

On Dec. 26, Boxing Day, the Geneva Presbyterian Church youth group headed out into the cold at 8 p.m. in order to raise awareness about homelessness and collect clothing for people in need.

The Rev. Bryan Smith, the church's pastor, said community response to the drive has been phenomenal. Two local television stations showed up to cover the story, and the church put a sign in front to solicit donations.

As a result, the church has filled three rooms with clothing, blankets and toiletry items donated by members of the Canton community.

Sarah Baum, Plymouth Canton High School senior, has participated in the outing four of its seven years.

Baum reported this year was the coldest night by far.

The group of 15 teens and five adults kept warm by gathering around a garbage can fire and huddling in their cardboard boxes, wrapped in blankets.

But Baum didn't mind the temperatures – which dipped down into the low teens that night – much. While Baum endured the coldest 11 hours of ■ 'We can't give every homeless person a coat or a blanket, but we can show people that are basically ignored by the government that we care.'

her life, she had an epiphany.

"I guess in the past, I've thought of this as a way to raise awareness and collect clothes," she said. "But I realized this year, that the really important message we get from this is we are expressing to the homeless that we care about them."

Baum said that by spending a night out in the cold, the teens give those without homes something even better than a blanket.

"We might not have been able to help everyone. We can't give every homeless person a coat or a blanket, but we can show people that are basically ignored by the government that we care," Baum said. "That's the highest calling we have as Christians, to show people they have eternal value."

Early Friday, the students packed a 20-foot truck with the blankets, coats and love before it rolled away to take the items for distribution.

## Report: Gunman strikes in restaurant washroom

A 38-year-old Garden City man said he was robbed New Year's Eve in Don Pablos Mexican Kitchen.

The victim told police he had gone to the washroom and noticed someone enter behind him. The assailant went briefly into one of the stalls in the men's room, then emerged, grabbing him and pushing him into the stall, the victim said.

The assailant produced a semi-automatic handgun and demanded the victim take his wallet out and give him all his cash. The victim pulled his wallet out and handed the assailant \$130 in cash. The assailant also grabbed the man's driver's license.

The thief told the man to wait for a half hour in the men's foom, or he would go to the victim's house and kill his family.

The assailant then left. He was described as a white man, about 6-feet tall, 180 pounds. He was wearing a blue or black knit hat, a blue waist-length coat with a design on the back, and beige or khaki pants.

#### Fire injures homeowner

A house fire Tuesday resulted in about \$35,000 to a home on Lynn St., and the homeowner, a 43-year-old man, received second degree burns on his hands during the fire.

Canton Township fire chief, Michael Rorabacher, said the fire began in the ceiling of the home when a recessed light fixture overheated.

"Apparently, there was insulation around the light fixture, which may have caused it to overheat and cause a fire," Rorabacher said.

The home owner burned his

#### Embezzlement

Canton police are investigating an embezzlement complaint from a local commercial food distributor.

The suspect, a 34-year-old man employed by the company, failed to make a deposit of \$1,680 in cash and checks. The employee makes deliveries and collects payments for deposit.

When police contacted the employee, he said he wasn't sure what happened to the money, but thought he may have given it to his wife for deposit. The wife was not home and was unavailable for questions.

The case is still under investigation.

#### Teen domestic violence

A 16-year-old Canton girl was treated New Year's Day at St. Joseph Medical Center after being injured in a domestic fight.

The girl had been visiting with her older sister who stopped by to celebrate the holiday. The sisters had an argument before the teenager left the house.

When she returned 45 minutes later, the argument resumed. The sisters' mother and father also joined the argument.

#### **S** The teenager then struck her older sister. The girls' father stepped in, and smacked her in the face with an open hand. The father and daughter wrestled for re a few minutes before the father

of the house, so she went upstairs to pack some of her belongings and called a friend to pick her up.

When her ride arrived, the teen said her sister shut the door on her, so she began pounding on the front door.

As the girl was walking away from the house, her father demanded, "Why did you just do that to my door?"

He pushed his daughter down in the snow, and struck her on the face again.

The girl's friend took her to St. Joseph for treatment for a perforated eardrum. She also had abrasions around her left eve.

The victim said this was the first time her father had hit her. The girl's sister confirmed the story, and stated she thought her father hit her to quiet her down because she was backtalking him.

The father admitted he had hit his daughter three times, and he didn't mean to hit her in the ear. Both parents said the girl had "a major attitude problem lately" and had been very disrespectful.

Police noted that the girl's father is left-handed, and he stated he hit the girl with his left hand, but her injuries were on the left side of her head, which the reporting officer said was "odd." Detroit. The diverse church communities will unite for an evening of song and liturgy, personal reflection and repentance.

King from page A1

The program will be held 7 p.m. Monday, Jan. 15, at the church, 5835 N. Sheldon Road at Ford Road. The evening will include scripture readings, songs, readings from children's' letters to Dr. King, and a liturgical dance to I Have a Dream/We Shall Overcome. The celebration is open to the public and people of all cultural representations are invited.

The celebration was born after two ministers, the Rev. Bryan Smith of the Canton church and Dr. Joe Stevenson, pastor of New Liberty Baptist, were put in contact with each other by Canton Township Supervisor Tom Yack. Smith was one of the township's loudest critics when the Canton Township Board of Trustees voted against closing its offices for the federal holiday. When Smith approached the supervisor to discuss the issue. Yack gave him Stevenson's phone number and encouraged the two to meet.

#### **Coming together for King**

"As pastors, we decided we are certainly free to do something, even if the township doesn't recognize the holiday," Smith said. "We decided to get our congregations together to embody what Dr. King taught, which is that racial distinctions should not divide people."

The two pastors decided to bring the congregations together at the Canton church because Detroit recognizes the holiday, and Canton does not.

"Most people in Canton don't see this as a significant day because they're mostly white and may not realize the issues," Smith said.

Yack said of the township's

decision not to give municipal employees the holiday off, "It's not happening this year, but I would never say never."

Yack said it's not the township's practice to give the day off to its employees for holidays which recognize a person.

"We don't recognize a single individual with a day off except Christ, and that's as much tradition as anything else," Yack said. He said Canton employees work on Columbus Day and Presidents Day, for example.

"It's more symbolism than substance," Yack said of giving employees the day off for King's birthday. "The issue for most of us was that the best way to show respect was not necessarily to give a bunch of government workers the day off."

#### Supervisor's concerns

Yack stated many Canton employees had said to him, "What would I want a day off in January for?" He said these comments illustrate that because the holiday is celebrated on the third Monday in January, and not necessarily on King's birthday, the holiday is more about a day off than King's ideals. This year, the holiday does fall on King's birthday, Jan. 15.

Last summer, the board initiated the formation of an 11member Human Relations Commission, which will meet for the first time Jan. 16.

"The Human Relations Commission can look at activities and programs we currently sponsor, such as Liberty Fest, and reach out to minority groups and attract them to participate," Yack said.

Yack said the Human Relations Commission may need

some changes already, even though they haven't met yet.

Upon examining the list of the volunteers' names, Yack said while he could not determine the members' ethnicity simply by reading surnames, there are no obviously Asian or Indian names on the list. Yack said Canton has significant Indian, Chinese and Japanese representation among its residents.

"As they look across the table at each other, they may want to ask why none responded," Yack said. "They may have to recruit if they want to be truly representative of the community."

Jim Netter, member of the Western Wayne County NAACP, said the township's commission is not enough, and calls Canton's refusal to recognize the holiday "an embarrassment" and "politically dumb."

#### Ballot initiative planned

Netter will launch a ballot initiative during the 2002 general election in order to force communities to close municipal offices on King's birthday.

Netter said he will have his work cut out for him, as only nine communities in Wayne County recognize the holiday by closing their offices. Netter said Belleville, Dearborn, Detroit, Highland Park, Inkster, Romulus, Sumpter Township, Van Buren Township, Wayne and Westland are the communities that will close their offices for the holiday.

"It's clear these other communities have no intent to respect this holiday, if they haven't done it in 16 years," Netter said. The bill that recognizes King's birthday as a federal holiday was signed in 1986 by President Reagan, and Netter calls Canton's refusal to follow suit, "a slap in Ronald Reagan's face, as far as I'm concerned."

Netter said he plans to attend the celebration at Geneva Presbyterian.

"Eleven o'clock Sunday morning is the most segregated hour in America," Netter said. "How are we supposed to go to heaven together if we can't even go to church together?"

order on those," he said.

Although the price increase for first-class stamps is the most obvious change, postal rates are increasing throughout the system.

"When we put in a rate increase, it is an increase across the whole product line, including Priority and Express mail and parcel post rates," Quinn said.

He said the average American mails between 200 to 500 pieces of mail per year, which amounts to a \$2 to \$5 increase in his or her yearly postal bills.

"All in all, a one penny increase is more of a psychologi-cal increase," Quinn said.

Many people are avoiding the postal system altogether and are paying their bills online.

"We're definitely seeing an decrease in first-class letter mail," Quinn said.

The Postal Service has also entered the online bill e-pay

market.

"There has been some controversy about it. There are others (competitors) there who don't want to see the Postal Service online.

Quinn said that although no one really likes a price increase, they are necessary. "The Postal Service does not use any tax money whatsoever. We are entirely self-supporting.'

The funds raised from the price increase will be invested in automation and ways to speed up postal service, he said.

The new stamps are widely available at Post Offices, Postal Stores, contract stations, community post offices and from self-service vending machines. They are also available online

from the Postal Service Web site: www.usps. com.

"Anything that we offer you can now get online," Quinn said.

## Carriers raise cash

#### BY ALICE ASHMORE STAFF WRITER

Despite the heavy Christmas mailing season, postal employees in Canton, Wayne and Westland went beyond the call of duty and raised nearly \$38,000 for charity.

"I am quite proud of the postal employees of the Wayne, Westland, and Canton," said Postmaster Charles Quinn. "Their continued generosity is shown throughout the year with their participation in a variety of community and charitable activities.

The donation represents a dramatic increase from the \$25,000 raised in 1999.

Statewide, the Combined Federal Campaign (CFC), the Postal Service equivalent of the United Way, raised a record \$3 million for charity.

The CFC supports a variety of local and national charities. "We only need to watch the nightly

news to recognize the multiple services that depend on support from CFC programs," said Kim

Clark, a Carrier Technician at the Westland Post Office who was in charge of the local campaign.

Government employees can choose from over 1,5000 charitable organizations to receive their donation from the CFC, said Quinn.

"I actually got a thank you note for my contribution from the local Boy Scout troop," Quinn said. "Having local organizations is a tremendous help because people know where their money is going."

Clark added, "A lot of employees have heard testimonials from people that it (the CFC) has actually helped.'

That makes Clark's job go a bit smoother. "It is not easy going to people to ask them to give part of their paycheck," she said.

outside management consulting firm to assist the exiting employees with job seeking and resume writing.

Office Depot is working with an independent liquidator, said Garvey, and the Canton store was closed on Thursday for inventory.

The doors didn't close permanently, however, and the site is expected to remain open for about eight weeks, said Garvey.

Canton Township supervisor Tom Yack said new businesses interested in occupying the 41690 Ford Road property should act fast.

He said he suspects Office Depot does not own the property it occupies, and the owner of the property would likely be interested in finding a new tenant for the building before two shopping centers open nearby this autumn.

"Whatever business that moves in there now could have quite a few months with no competition," Yack said.

#### 'It's amazing to me how some companies make their decisions.'

-Tom Yack. Canton Township supervisor

Westland's economic development director, Scott Veldhuis, was recently on vacation. Thursday, he heard the news that the Office Depot in Westland Crossing on Warren is closing its doors for good.

"That project has experienced some vacancies," he said of the site at Wayne and Warren roads. Officials will work with a broker to fill the location, he said, adding he was unsure of the arrangements at the site.

Veldhuis said Westland's overall tax base is healthy, although there is the issue of job loss with Office Depot closing.

"The retail climate is very competitive." Wards is going out of business, and retailers often must reinvent and reposition themselves, he said.

Garvey said while the stores targeted for closure have been identified as "underperforming," that does not necessarily mean that every closing store was not performing. "It didn't make sense for us to be in certain areas and perform competitively" Garvey said. She added that nearly all the stores that are closing are fewer than two years old.

Yack echoed Garvey's statement.

"It's amazing to me how some companies make their decisions," Yack said. "Who is in charge of their marketing research, and what research supported that that's where [the store] should go?"

Garvey said this year Office Depot is opening 50 new stores in their more profitable markets around the country.

## Kay Beard re-elected vice-chair of county commission

#### BY RICHARD PEARL STAFF WRITER rpearl@oe.homecomm.net

Kay Beard of Westland, the longest-serving member on the Wayne County Commission, was unanimously re-elected Wednesday by her peers to a fifth consecutive two-year term as vicechair of the commission.

It happened during the annual swearing-in of the 15 county commissioners. The ceremony in the Wayne County Building drew an overflow crowd of 500, including commissioners' families, friends and fellow officials, some of whom viewed it via closed-circuit television.

Beard, a Democrat, has served in the county's legislative branch since 1978, when she was appointed to fill an unexpired term on the old Board of Commissioners. It became the Wayne County Commission in 1983 under the home rule charter the only such in Michigan.

Despite her longevity, the 79year-old Beard was sharp. When 18th District Court Chief Judge C. Charles Bokos of Westland, in giving Beard the oath of office. put her tenure at 23 years, Beard quickly corrected, "Twenty-two and three-fourths.

"And I've enjoyed the whole

#### Kay Beard

time," she said. "It's always been a challenge, but it's also been very rewarding.

She's "humbled" by voters' faith in her, said Beard, whose 12th District includes Westland. Garden City and Inkster.

Beard has been the commission's No. 2 leader since 1993.

Its No. 1 – Ricardo Solomon, a Detroit Democrat - also was reelected to a fifth consecutive term as commission chair Wednesday.

Although mentioned as a possible Detroit mayoral candidate, Solomon focused on leading the commission.

#### Done 'on time'

He vowed to help the county's juvenile justice program "work the way we want it to," promised to push for "on time" completion of the new midfield terminal at **Detroit Metropolitan Airport and** stated that, despite differences between the commission and county CEO Ed McNamara, "We all agree the operation of the airport should remain under Wayne County" and not be taken over by the state.

Re-elected to a second term as chairperson pro tempore was Jewel Ware, D-Detroit.

Lyn Bankes of Livonia, the commission's lone Republican, abstained from voting for Solomon because she is "disappointed" about things the commission didn't accomplish.

"With all the pressure Lansing is putting on the airport, why don't we pass a procurement document?" she asked, referring to one the commission has drawn up but has failed to act upon.

She also is upset, she said. that a rules committee "met two years ago but no rules for (commission) meetings have ever been put up for a vote."

Bankes, whose 10th District includes most of Livonia, all of Plymouth and Plymouth Township and most of Northville and Northville Township, also said she had changed her mind about retiring after this term, her second.

She'd planned to do so, "But that was before I got the Hines Park project," which she doesn't think can be completed this term. It involves having district schoolchildren research and write the park's history as part of an historical automotive heritage project.

#### **History made**

Bankes made history of sorts Wednesday by taking the oath of office from two of her grandchildren, rather than from a judge, as is commission tradition.

She said it's a Livonia tradition to have family members participate in the swearing-in. "And besides, it will give my grandchildren such a historical education," she added.

Doing the honors were Lauren Bankes, 11, and brother Tom, 9, children of John Bankes II and wife Deborah of Walled Lake.

Swearing-in: County Commissioner Lyn Bankes of Livonia is administered the oath of office by grandchildren Lauren Bankes, left, and brother Tom at the Wayne County Building on Wednesday.

The children will give reports at school, their grandmother said.

The other two western Wayne County commissioners – new 9th District Commissioner Philip M. Cavanagh and second-term 11th District Commissioner John J Sullivan – took the oath while accompanied by their young children.

Cavanagh, whose district covers Dearborn Heights, Redford Township and eastern Livonia, was sworn in by U.S. District Judge Arthur Tarnow, for whom Cavanagh had clerked before running for office.

## Michigan Child Care challenge recognizes employer innovations

#### BY RICHARD PEARL STAFF WRITER rpearl@oe.homecomm.net

Know of a company in Wayne County that helps its employees meet child-care needs through inventive ideas and solutions?

State Rep. Laura Toy, R-Livonia, is encouraging employees and managers of businesses both large and small to nominate their firms for the 11th annual Michigan Child Care Challenge.

The challenge recognizes Michigan employers that provide child-care benefit plans and other "positive alternatives," a spokesman said. There are seven

categories of nominations and the entry deadline is March 9, 2001.

All nominees will be recognized at the annual awards ceremony May 8 at the Michigan Chamber of Commerce in Lans-

"We are seeing more families where both parents or a single parent is supporting the family," said Toy, a member of the sponsoring House Republican Task Force on Child Care.

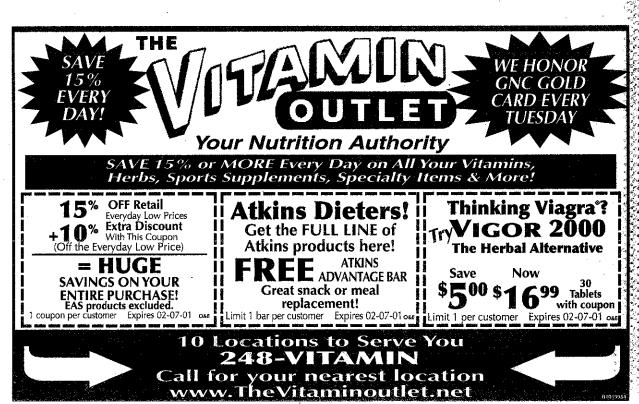

"In these situations, child care is essential," she said. "I think employers are starting to recognize that and are working to provide affordable care."

Toy and Lansing Rep. Susan Tabor are members of the task force, which is chaired by Rep. Pan Godchaux of Birmingham.

More than 400 organizations have been honored since the program began in 1989.

The seven categories are best on the block, new kid on the block and the grandparent, helping hands, incubator, innovator and partners awards.

For nominating forms or more information, call Godchaux's office at 517-373-0824. There is no fee.

## Population shift will mean changes in county districts

BY RICHARD PEARL STAFF WRITER rpearl@oe.homecomm.net

Redistricting isn't on the agenda of Wayne County Commission members for 2001, but it's definitely on their minds.

The delicate balance of power on the 15-member commission seven suburban districts, seven Detroit districts and one that is a combination - will get its requisite once-per-decade redrawing this spring by a special apportionment commission, after federal census figures for counties and municipalities are certified.

And with Detroit generally expected to have lost population and Canton Township and some other municipalities to have gained, there likely will be changes in who represents which communities.

There might even be some power-shifts between Democrats and Republicans, according to one commissioner.

1 "I think we could pick up one

II 'I think we could pick up one or two Republican seats.'

> Lyn Bankes R-Livonia

or two Republican seats," 10th District Commissioner Lyn Bankes of Livonia stated, with a reasonable optimism.

"The Republicans are in charge of everything except the Wayne County government," said the lone GOP member on the Democrat-dominated commission.

Besides, "If the Republicans don't like" the way the district lines are redrawn, it "will probably be appealed.

"Ultimately, it goes to the Supremes," she said, referring to the state's highest tribunal, "and they are Republican. Not that they would ever be partisan."

Bankes thinks Canton and south Redford Township should be Republican. The latter is in incoming Commissioner Philip M. Cavanagh's 9th District.

#### No argument

Bankes gets no argument on Canton from 11th District Commissioner John J. Sullivan, a Democrat.

Although Sullivan won Canton by 10,000 votes in his November re-election bid, the largely GOP township was a major battleground for him and he could see losing part of it.

Sullivan's district is the county's largest in both size and pop-

people than most of the other commissioners," he said - and he anticipates "losing part of something ... Something's going to have to be moved out of here."

He mentioned possibly losing his hometown of Wayne to another district and perhaps northern Canton to Bankes' district.

Overall, he said, "If the redistricting (countywide) is done fair," said Sullivan, it "would mean one more seat for the suburbs" which "makes a difference in how things get done."

However, he expects Detroit's commissioners to "fight tooth and nail to make sure they keep their power."

The Wayne County Charter states the districts must be redrawn within 12 months after the census is certified. The apportionment commission that will attempt to carry out the "one man. one vote" principle consists of the county clerk, trea-

ulation - "I have 20-30,000 more surer and prosecuting attorney in the County." and the county's Republican and Democratic party chairpersons.

Ben Washburn, county commission counsel, said because Wayne County doesn't have a Democratic Party chair, the representative will be picked by the party's district chairpersons.

#### Within 30 days

The apportionment commission is to approve and file its plan with the county clerk and the secretary of state within 30 days after receiving certified census numbers.

"The districts shall be contiguous, compact and as nearly square as practicable, without regard to partisan political advantage," the charter states.

It also requires districts to be drawn so that each municipality "has the largest possible number of complete districts within its boundaries, and to assure proper and adequate representation of racial and language minorities

Any registered voter in the county disagreeing with the apportionment may seek a ruling from the state court of appeals, according to the charter.

At present, only one commissioner - the 1st District's Christopher Cavanagh - represents both suburbs (the Grosse Pointes and Harper Woods) and the city (far northeastern Detroit).

**Commission Vice Chair Kav** Beard, D-Westland, thinks her district, which also includes Garden City and Inkster, "might stay the same. In the 1992 redistricting, it didn't change at all."

But then there's SEMCOG's estimates which, while claiming Westland lost only 139 people during the '90s, Garden City lost an estimated 2,600 and Inkster 3,300.

That gave Beard pause. "Who knows?" she said.

### County takes applications for weatherization services

érization services are being accepted by Wayne County.

The services for low-income eligible residents include weather-stripping, floor insulation, storm windows and other health and safety measures, according to the county's weatherization office, which is part of the county's jobs and economic development department.

Special funding from the federal government, available until March 2001, will allow qualified residents to have furnace repair and replacement and roof repairs also done on their houses at no charge.

Studies show that a 15-30 percent reduction in heating costs

Applications for home weath- are realized when homes are appropriately weatherized, an office spokesperson said.

> Both renters and homeowners are eligible for repair services.

> Residents living in mobile homes who meet the income criteria can also receive weatherization services.

Among those eligible to apply for services are low-income residents of Redford Township, Garden City, Livonia, Westland, Canton Township, both the city and township of Plymouth, Belleville and Van Buren Township.

For additional information or an application, call the Wayne County weatherization office at (734) 727-7297.

#### Goalie of the week

Chad Davis of the Compuware Ambassadors has been selected as the North American Hockey League's goaltender of the week for the final two weeks of December.

Davis earned the distinction by turning away 82 of 87 shots in three games for a 94 percent save average, with the Ambassadors winning two of the three games. One of those wins snapped the Soo Kewadin Indians 13game win streak; Davis stopped 28 of 29 shots in the 3-1 victory.

Thus far this season Davis has played in 18 games, winning 12 of them with a 2.69 goals-against average and a 90.4 save percentage.

#### **College standouts**

■ Holy Cross University evened its women's basketball record at 7-7 Wednesday with a 79-69 win over host Hartford. Leading the way for the Crusaders was Amanda Abraham, a junior forward and a Plymouth Salem graduate, with 18 points.

For the season, Abraham is averaging 12 points, four rebounds, 2.5 assists and 2.3 steals a game, connecting on 45 percent on floor shots and 37.5 percent on three-pointers.

In the first weekend of December, Abraham was selected as the Most Valuable Player of American University's AU Tip-Off Classic in Washington, D.C. She scored 37 points in a pair of wins, 69-55 over Delaware State and 67-62 over host AU.

■ Wayne State's women's basketball team slipped to 4-7 overall and remained winless in the Great Lakes Intercollegiate Athletic Conference at 0-4 with a 54-43 loss Thursday to Michigan Tech at WSU. Tiffany Grubaugh, a freshman from .'lymouth Salem, led the Warriors with 13 points and seven rebounds.

For the season, Grubaugh is averaging a team-best 12.4 points a game; she is also grabbing 3.6 rebounds a contest. Her best game to date came during WSU's 74-71 win at Florida Tech Dec. 29 — she scored 33 points.

Alma College opened its Michigan Intercollegiate Athletic Association season with a 60-56 victory over Adrian last Wednesday at Alma. Janell Twietmeyer, a sophomore forward from Plymouth Canton, scored 16 points, grabbed seven rebounds and had two steals as the Scots improved to 6-4 overall. For the season, Twietmeyer is averaging 11.9 points, 4.6 rebounds and 2.2 assists per game; she has converted a team-high 20-of-45 three-pointers (44.4 percent).

## **Good enough** Canton holds on to defeat Stevenson

#### BY ED WRIGHT STAFF WRITER

Plymouth Canton was on the verge of giving away a comfortable, fourthquarter lead in its Western Lakes Activities Association basketball opener against Livonia Stevenson Friday night before the Chiefs visited a place where many struggling, down-on-theirluck teams go when their backs are against the wall — the *charity* stripe.

Canton's Jerry Gaines and Brendan Murphy combined to drain five clutch free throws in the final minute to offset a surging Stevenson comeback and topple the host Spartans, 43-37.

The dramatic — but sloppy — victory improved Canton's record to 2-5. Stevenson dropped to 2-4.

"In our league this year, a lot of games are going to be up for grabs like this, so every win is critical," said firstyear Canton coach Jeremy Rheault. "We're improving in a lot of areas, but we didn't execute as well as we can. We committed too many turnovers tonight (19) and we missed a lot of makeable shots.

"Defensively, I thought we played well. We forced a lot of Stevenson turnovers (24), but we didn't always take advantage of them like I would like us to do."

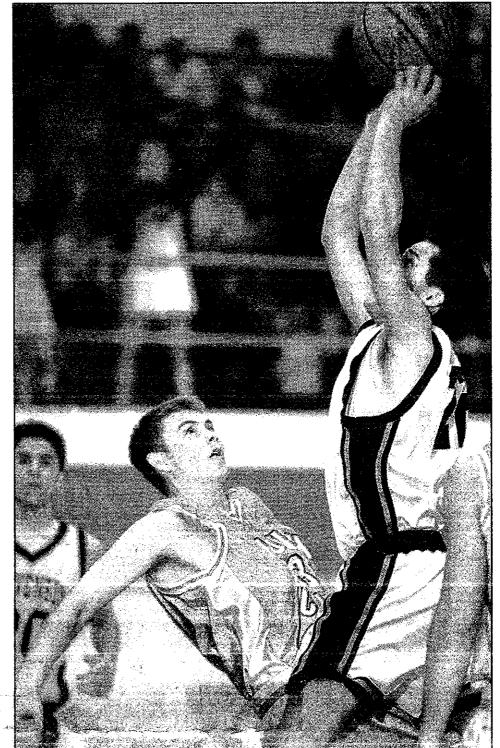

Stevenson coach Bill Dyer was proud of the way his team chipped away at the visitors' lead before finally succumbing in the final seconds.

"I like the way we hung in there and kept competing right to the end," Dyer stressed. "We have a young team that is improving every game. We're starting to make plays without thinking about it, which is something we weren't doing in'our first couple of games.

"We missed a lot of lay-ups and free throws, but other than that, I thought we played hard."

Less than two minutes into the final quarter, Canton owned a 35-26 lead. However, the hustling Spartans took advantage of Canton's shaky shooting touch (3-for-21 from the field in the second half) to close to within 38-37 on Matt Bartnick's three-point shot with 59 seconds to play.

Murphy, who had missed his first four free throw attempts, was fouled with 48 seconds left and calmly sunk two shots from the line to make it 40-37. Following a Stevenson time-out, Bartnick hit nothing but air on an offbalance three-point shot with 29 seconds to go. Gaines snared the rebouned, was immediately fouled and hit nothing but net on his two free throws to put the Chiefs up 42-37. Gaines, who paced the Chiefs in scoring (12 points) and rebounds (12). sealed the win with another rebound and subsequent free throw with five seconds on the clock. Senior guard Nick Cabauatan netted seven points for Canton and Oliver Wolcott had six. Murphy finished with only four points, but he pulled down six rebounds. "I thought our inside guys - Gaines, Murphy and (Andrew) Holmes played well tonight," Rheault praised. "They pulled down some huge rebounds down the stretch.'

Standing in there: Canton's Andrew Holmes (left) withstood the charge of Stevenson's Peter Pinto in Friday's game. The Chiefs also withstood the Spartans late surge to earn the win.

### PREP HOCKEY Chiefs, Pats battle to a 3-3 draw

Plymouth Canton started fast. Livonia Franklin finished that way.

The end result in Wednesday's Western Lakes Activities Association hockey game, played at Edgar Arena, was a 3-3 draw.

The result left Canton at 7-3-2 overall, 3-3-1 in the WLAA and 2-1-1 in the Western Division. Franklin retained its unbeaten status at 4-0-4 overall. The Patriots are 3-0-3 in the WLAA and 2-0-2 and in first place in the Western Division.

Franklin, trailing 2-1 after two periods, knotted it at 2-all on a power-play goal by Adam Bierley 2:37 into the final stanza. Andy Garbutt and John Nichol assisted.

But the Chiefs regained their lead less than three minutes later when David Bak knocked a shot past Franklin goalie Chris Garbutt at the 5:32 mark. Ryan McCabe and John Bockstanz assisted.

The goal that salvaged the tie for the Patriots came from Andy Garbutt, his second of the game, following a steal. His unassisted score and his third point of the night came with 5:02 remaining.

Canton took the early advantage, scoring the first two goals in the first 10 minutes of the game. Brad Wolf got the first at the 5:40 mark; Brandon Collop and Bockstanz assisted. Mike Carson scored the second at 9:52, from Wolf and Sean Depp.

Franklin managed to narrow the deficit to 2-1 after one period on a power-play goal by Andy Garbutt with 3:03 left, from Sam Dismuke and Bierley.

Canton goalie Brad Arzsnov kept the Chiefs in the game, making 32 saves. Chris Garbutt had 19 stops for the Patriots.

Stevenson 7, Salem 4: The Spartans spotted the Rocks three goals and Christmas break before roaring back to win the Western Lakes Activities Association game. "Plymouth had a very good game plan," coach Ed Shepler of Livonia said. "We started out slow. But our kids finally woke up a little bit from their two week layoff.

Stevenson was paced by junior guard Lindon Ivezcj, who poured in 12 points. with nine points and nine rebounds.

"I thought Severson played a solid game for us," Dyer said. "He does a lot of the little things that don't always show up in the box score.'

Canton jumped out to a 10-6 lead after the first quarter and led 25-15 at the half.

Stevenson carved its deficit to 30-26 at the end of the third quarter thanks to a last-second three-pointer by Ivezci.

Both teams' shooting regressed as the game progressed. After connecting on nine of their first 25 shots, Canton went in the tank in the second half. shooting just 14 percent (3-for-21) in the final two quarters. The Chiefs made 17-of-27 free throws (63 percent), including 8-of-10 in the critical fourth quarter.

The Spartans made 13-of-42 field goals (31 percent) and 8-of-17 from the line (48 percent).

Canton outrebounded Stevenson, 30- $\mathbf{28}$ 

Agape 57, Macomb Christian 22: Canton Agape Christian started strong and finished even stronger Friday at Macomb Christian.

The Wolverines outscored the host Crusaders 10-1 in the first quarter and increased their lead to 23-9 by halftime. But, after outpointing Macomb 10-7 in the third period, they really poured it on in the fourth with a 24-6 outburst.

The win kept Agape's record perfect at 4-0 and kept the Crusaders winless at 0-4.

"Defensively, we set the tone early," said Agape coach Chuck Henry of his team's man-to-man defense, "and we finished with a good fourth quarter."

Paul Anleitner's 17 points paced the Wolverines. Steven Tong added 15 and Josh Anthony scored 11 and grabbed nine rebounds.

Bob Wilkie topped Macomb with eight points.

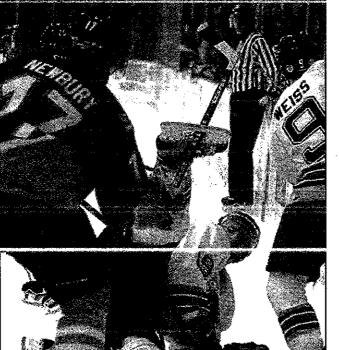

"They started playing disciplined hockey and came back strong."

Plymouth played its second game of the week while Livonia was taking the ice competitively Friday for the first time since the holiday break.

Salem (4-6-1, 1-5, 1-1 Lakes) scored three times in a span of 2:52 in the opening period to take a 3-0 lead.

the summer, the Sarnia Sting

never saw the windshield coming Wednesday when the Plymouth Whalers in an Ontario Hockey League game at Compuware Sports Arena. The result was a mess no car wash could ever clean up, a 6-1 Whaler win - their third-straight over the Sting.

The Whalers hustled to take a 4-0 lead through two periods, an edge that kept them undefeated

Stephen Weiss opened the scoring for the Whalers at the 5:38 mark of the first period, his 24th goal of the season, on an assist by Cole Jarrett.

At 8:38 of the second Stacey Britstone, third among the OHL's plus/minus leaders at plus-28, made it 2-0 with his first of two on the evening, assists going to Weiss and Rob McBride. Brit-

stone's power-play goal was the result of quick passing down low in the Sting's zone, leaving an uncovered Britstone who easily found the net for his 15th this season.

Whalers knock off Sting

Rookies Gregory Campbell and Karl Stewart paired to make it a 3-0 game at 14:05 of the second period on a play that started with a turnover in the neutral zone. Stewart dished the puck to a waiting Campbell at the left side of the net, and he tipped it past Sting goalie Robert Gherson.

Britstone then finished the period the way he started it, scoring his second of the game and 16th of the season at 19:57 to give Plymouth a 4-0 lead. McBride and Ryan O'Keefe assisted. Through two periods, the Whalers had a 32-18 advantage in shots on goal.

The Sting averted a shutout when Julius Halfkenny got a goal at the 11:21 mark of the third period, narrowing Plymouth's lead to 4-1. But goals from former Mississauga Ice Dog Chad Wiseman and Stephane Gervais, each in their second game as Whalers,

scored in an 11-second span provided the Whalers with their winning margin.

Tomas Kurka assisted on Wise man's goal at 12:24, his 18th of the season. Gervais scored his first OHL goal at 12:35, assisted by Campbell and Stewart.

"It was a good game for us tonight," said Whalers' coach Pete DeBoer. "We got things going offensively and the rest of the toam filled in with good play defensively. Rob Zepp was strong back in net as well. It's always good when you can pick up two points within your divison.

With the victory, the Whalers edged closer to the OHL lead, which is currently held by the Erie Otters. Plymouth improved to 25-6-4-1, good for 55 points and first place in the OHL's West division — two points behind the Otters.

## COLLEGE SPORTS Madonna jolts Eagles; SC rolls

Cornerstone University's women's basketball team had to be feeling pretty good about its chances after winning 13 of 16 games prior to its Wolverine-Hoosier Athletic Conference opener Wednesday at Madonna University.

Certainly the Golden Eagles weren't feeling that way afterwards.

The Lady Crusaders simply shot down the Eagles in the opening half, converting 19-of-35 of their shots (54.3 percent) — including all four of their three-point efforts --- to build a 15-point lead by halftime. That was more than Cornerstone could overcome, losing 82-71 at Madonna.

The Crusaders improved to 6-8 overall, 1-0 in the WHAC. Cornerstone is 13-4 overall, 0-1 in the conference.

While Madonna was putting 44 points on the board in the opening half, Cornerstone was limited to just 29 on 13-of-34 shooting (38.2 percent) - 2 -of-10 on triple tries.

Four players reached double figures in scoring for Madonna, led by 19 points from I WOMEN'S BASKETBALL

Kristi Fiorenzi (from Plymouth Canton). She also had six rebounds and five assists.

Carissa Gizicki turned in a superb allaround game, collecting 17 points, seven boards, eight assists and five steals. Kathy Panganis added 16 points, eight rebounds and three assists, and Lori Enfield finished with 13 points, six boards and two steals.

Mahogany Fletcher (Farmington Harrison) and Michelle Miela added eight points each, with Fletcher grabbing six rebounds.

Cornerstone got 18 points from Julie Vogelzang, 15 from Laura Yonkers and 14 from Amy Popielarz. Madonna trailed in the first half until a

Gizicki three-pointer with 12:45 left. The game remained close for the next eight minutes, until a three by Miela 4:39 left got the Crusaders rolling. In the last 6:48, Madonna outscored Cornerstone 20-4.

The Eagles got to within four once in the

second half, a triple by Kami Main with 8:03 left narrowing the gap to 64-60. But Madonna answered with baskets by Panganis and Enfield to double its cushion, and Cornerstone never got closer than six after that.

#### **Ocelots rout Alpena**

Too much.

That's what Schoolcraft College had over visiting Alpena CC Wednesday. The Lady Ocelots opened up a 13-point lead by halftime and never relented, ripping the Lady Lumberjacks 77-51.

SC improved to 8-2 overall, 1-0 in the Michigan Community College Athletic Association's Eastern Conference. Alpena is 1-9 overall, 0-1 in the conference.

Four players reached double figures in scoring for the Ocelots: Ra'Sheida Edwards with 17 points (and eight rebounds), Angelica Blakely with 15 points (and nine boards), Rachel Eley with 11 points (and 11 rebounds and nine steals) and Zalika Davis with 10 points.

## Ocelots crush Alpena; Madonna falls

Defending champion Schoolcraft College took no prisoners in its Eastern Conference men's basketball opener Wednesday against Alpena.

The host Ocelots ran their overall record to 11-1 with a lopsided 112-72 victory over the Lumberjacks.

Bolstered by a 16-0 start, Schoolcraft raced out to a 56-22 halftime advantage and cruised to victory

Sam Hoskin, a 6-foot-8 center, 260-pound center from Redford Bishop Borgess headed to DePaul University, led Schoolcraft with 26 points and eight

#### rebounds.

Derrick Bird, a 6-4 guard from Ypsilanti, chipped in with 25 points, including 19 in the opening half when he connected on three triples.

Nick Evola, a 6-7 center bound for Western Michigan University, added 18 points, while pointguard Dave McGlown chipped in with 13. Colin Wilkinson and Keanan Weir each added nine points.

Second-year forward Dwight Windom pulled down 16 rebounds to pace SC.

Alpena, which slipped to 4-7 overall and 0-2 in the conference, got 14 points apiece from Justin Chapman and Josh Walker. Shawn Hines added 11.

Schoolcraft made 30 of 39 free throws (76.9 percent), while Alpena was 12 for 23 (52.1 percent).

•CORNERSTONE 89, MADONNA 59: Things didn't go well for Madonna University (4-12, 0-1) in its Wolverine-Hoosier Athletic Conference opener Wednesday in Grand Rapids against host Cornerstone (15-4, 1-0).

Five players scored in double figures as the Golden Eagles rolled to a 30-

point victory.

Cornerstone, which led 45-27 at halftime, got 18 points - all on three pointers - from guard Brad Gray. Center Mark Zichterman also scored 18 points, Others in double figures included cen-

ter Justin VandePol (15), gaurd John Lanser (12) and forward Andrew Swadling (11).

Vandepol also grabbed 10 rebounds. Narvin Russaw scored 19 points and grabbed eight rebounds to lead MU. Dan Kurtinaitis and Mike Massey added 14

apiece. MU was just 23 of 64 (35.9 percent) from the field, while Cornerstone was 38 of 74 (51.4 percent).

Madonna was outrebounded, 50-31.

## Rockers end their skid with win over Attack

At least they didn't bid farewell to the year 2000 without claiming another victory.

The Detroit Rockers used a strong fourth quarter to overtake the host Kansas City Attack and gain a 16-13 win on Dec. 29. The win snapped a 12-game losing streak for the Rockers.

Unfortunately, they were unable to build much on that victory. The following night in Wichita, they fell behind 11-4 by halftime and could not recover, suffering a 20-11 loss to the Wings.

The split left the Rockers with a 2-14 overall record. Wichita improved to 9-7: Kansas City fell to 4-11 with its loss to Detroit.

In the win over the Attack, the Rockers displayed the kind of diversified offense in the final quarter that coach Brian Tinnion had been hoping to see, Three different players scored goals as they overcame an 11-9 deficit after three quarters.

After Martin Nash knotted it for Detroit with a two-pointer 1:05 into the guarter. Kansas City's Wes Wade scored a deuce to make it 13-11 in the Attack's favor with 10:20 left.

The key goal came with 6:52 to play, when Marty Knowles scored a three-pointer to give Detroit the lead for good. Sean Bowers assisted. Joe Malachino added an unassisted two-pointer 1:17 later to boost the Rockers lead to three.

Nash, acquired in the dispersal draft after the Edmonton Drillers folded, had his first big game for the Rockers, collecting a three-pointer and a two-pointer.

Malachino finished with two

two-pointers and an assist, and Bowers and Stuart Black contributed two-point goals. Droo Callahan chipped in with two assists.

Dan Illie Diac gave up nine points and made 11 saves for the Rockers. Warren Westcoat allowed 16 points and had 15 saves for the Attack.

Against Wichita the next night, the Rockers showed very little offense as the Wings scored the game's first eight points and eventually built their first-half lead to 11-2 before Bowers scored with 24 seconds left in the half.

The Rockers did rally in the second half, closing to within 15-11 on a two-pointer by Neil Gilbert with 8:28 left in the fourth. But a triple by Braedan Cloutier — he had five points in the game — and a deuce by Jamie Harding clinched it for the Wings.

Bowers had a goal and two assists for four points to pace the Rockers. Dennis Brose, with a goal and an assist, and Knowles, with a three-pointer, had three points each. Joel Shanker also scored a goal for Detroit.

Illie Diac allowed 18 points while making 20 saves in goal for the Rockers. Jim Larkin allowed 11 points, making 14 saves for Wichita.

Andy Cyrus also had five points for the Wings.

The Rockers return to action with hopes of turning things around at 3:05 today when they host Wichita at Compuware Arena.

Chuck Olson decided to tinker with his Plymouth Salem swim team in a non-conference meet and came away with mixed results.

Salem was nipped, 94-92, Thursday at Novi in a meet that had several highlights for the

Rocks, now 1-1 in dual meets. 'We tried to move some people around (to different events)." the Salem coach said. "Then there were vacations, some guys sick, things like that.

The Rocks also got state-cut performances from Ben Dzialo in the 100 butterfly — a 55.39 along with their 200 medley

## Shamrocks repel Notre Dame charge Hockey

It was not the game that Redford Catholic Central basketball coach Rick Coratti really wanted to see.

Actually, it wasn't the game that just about any coach would want to see — his team squandering a six-point lead in the final minute.

But Steve Larkin's free throw with eight seconds left proved to be just enough to hold on as the Shamrocks held off Harper Woods Notre Dame, 83-82, in the Catholic League opener for both schools.

"It shouldn't have been that close," said Coratti. "We didn't play the end very well. They had two shots at the lead in the final seconds."

After the Shamrocks (5-2) led by six, the Irish (2-4) chipped away until Marcus Young's 3-pointer with 14 seconds left tied the score at 82-all. But Larkin, who wound up with seven points and 11 rebounds on the night, saved the day.

Four Shamrocks were in double figures as Ryan Celeskey had 23 points, while Mark Willoughby had 21, Anthony Coratti had 17 — including five 3-pointers and Tom Jakacki had 13. Young had 33 points to lead Notre Dame, while Brian Biggs and Tom Mazzocco both had 10 each.

originally snowed out on Dec. 12. The make-up, played last Wednesday in Monroe, had Canton sloshing through a poor fourth quarter, and it led to defeat.

"We gave the game away," said Chiefs' coach Jeremy Rheault. "Or they took it from us. We didn't execute with the lead very well."

And the Chiefs did have a lead. After trailing 27-25 at halftime, they put together a strong third quarter to take a 41-35 advantage into the fourth.

"We turned it around in the third quarter, but then we didn't hang on in the fourth," said Rheault, reflecting on Monroe's 22-12 fourth-quarter scoring surge.

The Chiefs did well on the boards, outrebounding the Trojans 28-24, but they didn't do well taking care of the ball, committing 28 turnovers.

Jerry Gaines paced Canton with 15 points and nine rebounds. Nick Cabauatan added 11 points, including three three-pointers, and Jay Sofen scored 10.

Jake Loop topped Monroe with 19 points. Will Longsworth contributed 12, eight coming in the fourth quarter.

guard Matt Mikel scored a game-high 23 points to lead host Farmington to the victory in the Western Lakes opener for both teams Friday.

Mikel made three three-point field goals and eight of nine free throws in helping the Falcons improve to 4-2 overall.

Curtis Tillman, who was 6-of-8 at the line, tossed in 14 points and Mike Griffie 10.

Farmington led all the way, holding leads of 14-8 after one quarter, 27-23 at halftime and 42-34 through three periods.

Mike Copeland scored 11 points and Joe Ruggiero 10 and eight rebounds for Franklin, 0-1 and 1-4.

The Falcons enjoyed a big advantage at the charity stripe. They made 19 of 28 free throws and the Patriots three of nine.

"Farmington is pretty athletic, but for us it came down to rebounding and execution," Franklin coach John Santi said. "We played hard, but we didn't do a very good job defensively and we didn't execute and play smart against their 2-3 zone in the second half."

W.L. Central 79, Churchill 56: Unbeaten Walled Lake Central (6-0, 1-0) was hitting on all cylinders Friday, roaring out to a 42-20 halftime lead against visiting Livonia Churchill (1-5, 0-1) in a WLAA

Steve Horn led the victorious Vikings with 17 points, while Mark Bortz added 13.

Senior guard Will Pendergrass led and all scorers with 20. Brandon Dziklinski added 10.

"They jumped on us early and scored on every possession it seemed, they hardly missed," Churchill coach Rick Austin said.

Flat Rock 55, Lutheran Westland 41: Lutheran High Westland fell from the ranks of the unbeaten Friday at Flat Rock.

The Warriors couldn't recover from a 32-20 halftime deficit as the Rams gained a 55-41 non-league boys basketball victory.

Flat Rock, now 6-0 overall, got 12 points from Kyle Fater and 10 from Tom Oestrike.

"They have those eight seniors who play well together, play good defense and they do a good job of executing their offense," Lutheran Westland coach Dan Ramthun said. "They're a good team and this was a good test for us. Hopefully we learned something from it."

Luke Kasten and Brent Habitz scored 12 and 10, respectively, for the Warriors. in a 28-second span before the period ended and added five in a row in the middle period to take

## **CC**, Mercy slalom to season-opening wins

Redford Catholic Central and Farmington Hills Mercy were the undisputed leaders of the pack as expected in their first skiing competitions Thursday.

B4(CP)

Both teams, coached by Tom Gable, started the 2001 season with victories in a slalom meet at Mount Brighton.

Catholic Central, with senior Matt Gable leading the way, took first place in the boys division with 30 points to easily outdistance runner-up Brighton, which had 57.

Mercy, a little less of a favorite than CC entering the season, got

four top-10 finishes, including a third and a fourth by a freshman and sophomore making their varsity debuts, to finish first by a 20-63 margin over Brighton.

"That was absolutely astounding," Gable said. "The secondplace team was 43 points behind them.

"That's amazing. They definitely made a statement on the hill. It was a real surprising result."

The Marlins' top finisher was freshman Elizabeth Kujula, whose combined, 39-second time was good for third place. Kujula, a product of the Central USSA ski program, turned in slalom runs of 21.55 and 17.45.

Sophomore Nicole Zaleski had runs of 22.74 and 18.22 for a fourth-place combined time of 40.96.

"That's two brand new high school racers, and their results are phenomenal," Gable said. "Our returners, Nikki Anderson and Laura Burek, came in nice and steady, fifth and eighth.

"That's quite a score for an opening meet. I believe they can hold their intensity level.'

Anderson had a combined time of 41.96 while Burek clocked 42.49. Marcy Godlew was 15th with a time of 46.5, and Melissa Desautel finished 27th at 51.57. "As with the boys," Gable said,

"all six girls finished. As a coach, that's what you like to see."

The Catholic Central skiers saw Matt Gable finish first overall with a combined 31.54 in the slalom. His first run was 13.61 and his second 17.93.

his first run and 19.76 in his second for a combined 34.65 that was good for third place.

"The boys are odds-on favorites this season," Gable said. "They had a bit of a slow start but won the meet quite convincingly.

"Matt Gable skied well and John Goebel was right behind him."

Joe Murray finished 12th with a combined 39.41 on runs of 17.48 and 21.93, and Ryan

John Goebel clocked 14.89 in Boudreau was 14th at 40.15, turning in times of 17.01 and 23.14 on his two runs.

Che Martinez was 16th overall at 40.76, and Eric Sullivan 34th with a 40.76.

"There's a lot of pressure on these boys," Gable said. "I think they're going to have to learn how to handle that pressure and perform.

"Some of them can ski a little faster but they will. Murray and Boudreau will move up. Martinez did a good job in his first varsity race as a sophomore."

## Ice fishing season hitting full stride

wind lashed out at the side of my face as I tended to the duty at hand. Though my fingers and face were both half-frozen, I barely noticed the cold as I instinctively dialed in on the subtle, yet distinctive, tap on the end of my line. I prefer to fish for

running over my finger tips rather than through a spring bobber, although I admit spring bobbers do have their merit. It's just that old habits are hard to break, and I enjoy "feeling" the bite as opposed to "seeing" it with a spring bobber.

When that first slight nudge from down below was transferred from the end of my line to my fingertips, a surge of adrenaline shot through my veins like a thoroughbred leaving the gate.

There's something special about the first bite of the ice fishing season. It warms the soul and kindles the fishing spirit. After a long layoff from fishing

A brisk northeast for the fall hunting seasons, the first still use caution when venturing out. bite of the ice fishing season is welcomed like a long-lost friend.

In my excitement, I tried to bully my quarry to the surface and the battle ended quickly as my two-pound test monofilament snapped like a brittle twig.

"Rookie!" I thought to myself. "Never caught a fish before?'

But all was not lost. A short distance away, my friend Steve Sims emerged from the warmth of a portable shanty and made a quick, but cautious, dash across the snow-covered ice toward the orange flag wavering in the distance. He gazed down into the hole for a moment to see of the fish was still taking line, then slowly raised his tip-up out of the water and took a firm grip of his 15pound braided dacron line. After a quick tug and a short fight a beautiful 26-inch Northern pike was flopping in the snow.

While re-tying a tear drop to my line, I heard some commotion to my right and turned to see another friend, Tim King, reeling in a "slab" bluegill.

Ice fishing season is in full gear in southeastern Michigan. Most area lakes are covered with a solid layer of ice. But Check with a local bait shop for updated ice conditions, especially if the warm weather we've had over the last couple days lingers.

It's been a long time since we've experienced a winter like we've had so far and there's no reason to stay cooped up in the house whining about it. The fish are biting. Get out there and enjoy the season.

#### **Dove bill fails**

In case you haven't heard, House Bill 6147, which would have changed the status of a mourning dove from a song bird to a game bird, which it really is, was defeated in the state Senate.

The bill, which would have opened the door for a dove hunting season in Michigan like there is in 39 other states, had already passed the House. It fell one yote short of passage when the Senate voted 19-15 in favor of the bill. It needed 20 votes to pass.

Representative Susan Tabor (R-Lansing), who sponsored the bill, vowed to bring the issue back to the legislature.

**Turkey permit applications** 

#### available

It doesn't seem like time to start thinking about this year's hunting seasons, but if you want a crack at one of the 75,900 licenses the DNR is issuing for the spring turkey season the time is now. The application period runs through Feb. 1.

Permits are available at the 1,700 authorized license dealers statewide, at most DNR offices including the district headquarters in Livonia, and via the internet at www.michigandnr.com.

"This year, for the first time in modern history, at least a portion of every county in the Lower Peninsula has an area open to spring wild turkey hunting. Five counties in the Upper Peninsula also are open to spring hunting during the 2001 season," said Al Stewart, DNR upland game bird specialist.

### Bird feeders *lure vast array* of hungry flyers

eighborhood birds sure are taking advantage of our feeding station. Black-capped chickadees are bouncing back and forth, from branch to feeder and back again. It has always been amazing to me how such a tiny ball of feathers can survive in such cold temperatures.

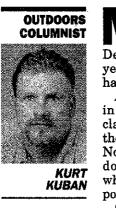

I was very pleased to see our Carolina wren the other day, too. In the past, winters with deep snow and prolonged cold temperatures have caused Carolina wrens to die. That is because they are more adapted to a warmer climate like that found in the southern states. Maybe a constant, easily accessible food supply, like my bird feeder, can provide enough energy to allow them to survive.

But one of my favorite feeder birds is the white-breasted nuthatch. This is the small bird that constantly goes headfirst down the tree trunk. They have a black or a gray cap to their head. Males have the black cap, females the gray cap. Their back is a blue-gray color and as their name indicates, they have a white breast. Below the bend of the wing there may be a smudge of rusty-orange.

A close cousin that visits southeastern Michigan from northern Michigan and Canada is the red-breasted nuthatch. It has a dark line that passes through the eye from the base of the bill to the back of the head. The whitebreasted nuthatch has a large white cheek area with no black line.

White-breasted nuthatches are sedentary, they stay around all year, unlike the red-breasted that moves south during winter every two to three years. In fact, there are white-breasted nuthatches nesting in our yard, or very close. During the summer they visit our feeders regularly. They even bring their young to our feeders and show them what to eat and where they can eat. Nuthatches nest in a small tree cavity made from a branch that broke off which created a hole where it was once attached. They may even use an abandoned woodpecker hole. I have watched them conduct minimal excavation on a cavity. Like the chickadee that nests in a cavity, they cannot excavate the new hole because their bill is not strong enough. They can only improve on an existing hole. A nuthatch uses its bill to probe under the rough texture of tree bark to search for insect eggs, spider eggs, dormant insects or spiders, and any other small invertebrates. When they come to my feeder, they take a sunflower seed and wedge it into the bark where upon they proceed to extract the kernel from the husk. If they do not eat the seed they will secure it in a crevice and return later to eat it, if another bird does not find it first. Their curious habit of searching tree trunks by moving down the tree is thought to improve their chances of finding food undiscovered by other kinds of birds. Woodpeckers and creepers typically move up a tree trunk. Nuthatches searching in the opposite direction may find food the other birds did not see. To help them hang downward, nuthatches have an extra long nail on their backwards pointing toe. This nail provides extra purchase when there is only one anchor point that holds most of the weight. Nuthatches are neat little birds. Their slightly upturned bill and stocky body reminds me of a feathered dart flying through the air toward my bird feeder. I hope you are enjoying those attracted to your feeders. Livonia resident Tim Nowicki is a naturalist with Independence Oaks Park north of Clarkston in Oakland County. ## Mother of all buck poles inspires this deer hunter

onday marked the end of deer hunting season in Michigan. According to estimates from the Department of Natural Resources, this year generated the second largest deer harvest in the state's history.

A trip I took to a well-known buck pole in Dexter seemed to validate the DNR's claims. I visited the town that straddles the Huron River just west of Ann Arbor on Nov. 16, the day after opening day. Just downtown sits Dexter Sporting Goods, which erects one of the state's largest buck poles

On the night of my visit there were about 50 deer hanging from makeshift wood beams. A number of the deer were the size of mules with incredible antler racks, some of which were 12 points or better. Just magnificent animals.

I'd never visited the pole before, but being a deer hunter I was curious to see it — not only for the large number of deer it holds, but for the crowd of anti-hunting protesters it normally attracts.

The night I was there, Dexter was flowing with hunters who came to catch a glimpse of an animal that eluded the vast majority of them. It was obvious many of the guys had just come out of the woods, still wearing their camouflaged clothing. However, a lot more were there with their families — not just sons, but wives and daughters.

The sight of such a large number of women and children, many of whom were taking photographs and video footage, was evidence many men are making hunting a family activity, which is great for the future of the sport.

I must confess, though, I was somewhat disappointed that no animal-rights activists were around during my visit. I always enjoy trying to understand why a certain aspect of society opposes hunting, and this buck pole would have provided a heck of a backdrop for such a discussion.

While the arguments against hunting vary, at the core of the opposition lies the notion hunting is a barbaric bloodsport. Most anti-hunters see the blood and death involved, and they must avert their eyes and turn their heads, because that is all they focus on.

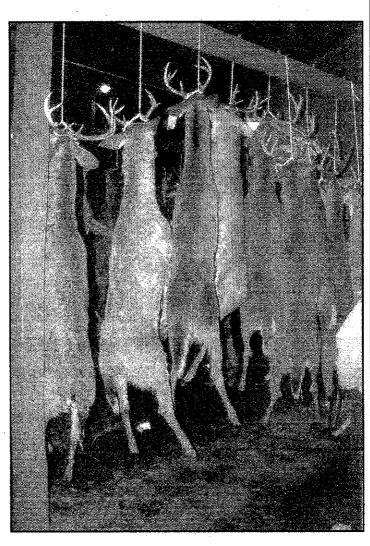

In the process of taking the life of another animal to nourish ourselves, we humans have been participating in the ebb and flow of life since before we were small mammals with bushy tails.

During every second of every day, there are billions of predatory actions taking place on earth. Whether it be a pack of wolves taking down a moose, a spider eating a fly, a virus invading a cell, or even a hunter shooting a deer, everything is involved in the transfer of energy. While it isn't the most pleasant thought, we are nothing more than the foodstuff of tomorrow's worms.

Hunters accept it, but do the activists?

To field dress and butcher a deer, a hunter's hands must get bloody. While that is true, the hands of all those who oppose hunting are far from clean.

Those who condemn hunting but eat meat are hypocrites. They cry foul when a hunter shoots a deer, but never bother to look at the deplorable conditions chickens endured to provide Chicken McNuggets. At least the deer runs free during its lifetime.

ment. The deer is certainly one such animal.

And to support the comfortable lifestyles we all enjoy, constant economic growth is a necessity. This leads to such calamities as urban sprawl and global warming. Countless animals and whole ecosystems are destroyed in the process. Yet, few see the actual killing and fewer still raise their voices in opposition.

The fact is, hunters are easy targets. Stories like Bambi, which give animals human qualities, only exasperate this. Sure there are aspects of hunting that are less than perfect, but what in life is?

There is nothing honorable about trophy hunting or poaching, nor the activities of those who would commercialize hunting. But make no mistake, hunting is a sport, and there is great pride to be had in outmaneuvering an animal that has evolved with refined survival skills and instincts verv unlike our own.

Ours have been lulled by such things as electricity and pre-wrapped fast food. To do the things necessary to make such a kill is a celebration of recapturing some of those instincts.

As I walked around that night in Dexter, I realized the

buck pole offered a scene not unlike one within a meat packing plant, with the dead animals hanging about. Yet, I knew it was somehow different.

#### What about the vegetarians?

To grow the crops to fuel a vegetarian diet requires vast farmlands, which are plowed over and planted. Men, young and old alike, stood around the pole and admired the deer not only for their beauty, but also for the fact that they allow us hunters to be participants in the natural world.

## Weed family surrounds Harrison; Redford bowler will be missed

ast Friday night there were three **TEN PIN** generations of Weeds bowling right next to me, on both sides. Mildred Weed, the long-time secretary of the Greenfield Mixed League, was bowling with her grandson, Mike. Mike was filling in for an absent bowler. To my AL HARRISON right, were Mildred's son, Bill, and his wife, Sandy.

Things got interesting as the night went on. The younger Weed, Mike, had the first 10 strikes, using his unusual no-thumb delivery. His attempt for the 11th one went astray and he settled for a 289 game which followed a nice 249 in game one.

ALLEY

His dad, Bill, bowling on my right, was also lighting them up, firing a 268 in the opening game, followed by his 225 and 247 for a 740 series, just shy of the 746 by his son, Mike.

Sandy Weed also got into the act with a 194 game and 547 series, not bad considering that she has been fighting leukemia for several years now and seems to have fully recovered.

Now we add Mildred to the equation, for one of her games was 189, a good 50 pins over her average. The league president is Katie Szonye, and she was bowling against Mildred and Mike and came up with a third game score of 277. The lanes were hot and all of the Weeds were hotter yet.

#### Uses for a gun

Have you heard about new gun law just passed in the Michigan State Legislature and signed by the governor? It will make it easier for people to obtain concealed weapons permits. Maybe that's not a bad idea, after all. If you are bowling and the 1 pin stays up you could quickly whip out that .38 special and fire a quick shot at the pin before the rack comes down. There is no ABC rule that specifically forbids this. The bowling bags will be re-designed to have a holster compartment. There are numerous other good uses for handguns, like if you need to quickly drill a hole in something and can't find a drill, or you cannot locate the off button on the teenager's stereo.

#### •Missing a friend

Harry Ackerman of Redford passed away last week, and bowling lost a true devotee. Harry never lost his enthusiasm for the game even though the years took their toll on him. He was bowling at the age of 82 in the Wednesday Senior Men's Classic and the Fri day Morning Seniors at Mayflower, Lanes in Redford when he was first sidelined by cancer a few weeks ago. Harry was a real student of the game. He read everything he could get his hands on, and he could tell you all about things like track flare, axis rotation, radius of gyration, core torque and more whether you wanted to hear about it or not. Harry understood all of this and seriously applied this knowledge to his game. Harry was a good bowler but not a braggart. He was a team player and a member of several winning teams. His conduct was exemplary. He showed a lot of class and never criticized or berated another player, because, above all else, Harry Ackerman was a gentleman. He is survived by his wife of 48 years, Virginia and his two daughters, Anne Acker man and Catherine Duncan.

LINDA ANN CHOMIN

### Students design cars of the future

arah Dixson thinks young, and that's exactly the type of designer Ford Motor Company is trying to attract to its ranks. As a fourth year Industrial Design student at Center for Creative Studies, Dixson, a Livonia resident, is frugal with her money while keeping one eye on the future. Those qualities were what she and the 13 other students in Mollie Fletcher's Color and Trim class kept in mind when re-inventing a Ford Focus wagon last semester.

Ford donated the car to the school and gave students a free hand in redesigning the color, trim, interior and exterior of the vehicle. In keeping with the theme of sophistication, students named the car, the Ford Focus FAZE. It will be on exhibit at the North American International Auto Show Saturday, Jan. 13, through Sunday, Jan. 21, at the Cobo Center in Detroit.

"We wanted it to be a car you would use when you first get out of college and then start a family, sort of like a mini van but more stylish," said Dixson. "We chose a brown exterior to go with the theme and for the interior went with a palette of dark brown, light blue with accents of copper. With interiors you can be a little more conceptual.

"We tried to bring in something you don't see. You don't see many brown colors anymore and you never see copper accents. You see a lot of brushed metal and shiny steel or chrome but not copper."

Dixson learned about more than color and trim in the class, though. She experienced what it was like to work with a client and suppliers in addition to a design team.

"We learned how to work with peo-

omance never goes out of style. When the shimmering blue moonlight descends on the Russian National Ballet's production of Swan Lake, a hushed silence will follow as the classic love story unfolds. Ever since the ballet was first performed in St. Petersburg in 1895, audiences have packed theaters to see the choreography Marius Petipa and Lev Ivanov created for Tchaikovsky's beautiful score.

"It's a romantic story," said artistic director Sergei Radchenko who brings the Russian National Ballet to the Fox Theatre for two performances Sunday, Jan. 14. "We need a romantic story in our technology century to soften it a little bit."

English audiences especially love *Swan Lake* because of their conservative nature, said Radchenko. The Russian National Ballet began its tour Nov. 12 with 56 performances in London. They arrived in Wilmington, Del., Jan. 2 for a four-month tour of the U.S.

"I watch the reaction of audiences in England," said Radchenko. "They love the classics Swan Lake, Sleeping Beauty and Nutcracker and invite us back every year. New works come and go but these they will stay for a long time."

Radchenko is not tampering with success. He's returned to the original choreography for the company's second trip to America. The Russian National Ballet performed Swan Lake, Sleeping Beauty and Carmen Suite on a tour in spring 1999. Founded in Moscow in the late 1980's the company focuses on "upholding the grand national tradition of the major Russian bal-

let works and developing new talents."

"Our *Swan Lake* is traditional and purified," said Radchenko. "It's the classical story, absolutely traditional, without anything modern. The only new in this version is by the technicians.

"It opens with Prince Siegfried walking and meeting friends and then appears the evil Rothbart behind him. He is invisible to Siegfried then suddenly Siegfried sees Odette, one of the maidens Rothbart turned into a swan, and falls in love. I love everything about Swan Lake. The best is the second act and the third act. Swan Lake is one of my favorites next to Carmen Suite." Radchenko danced Carmen Suite and Swan Lake when he was a member of the Bolshoi Ballet, Russia's premiere dance company. The spirit of the Bolshoi Ballet will no doubt be felt when the Russian National Ballet performs in Detroit. Several members of the Russian National Ballet come from the Bolshoi School. For more than 25 years, Radchenko danced with the passion and spirit for which the Bolshoi company is known. For the Detroit performances, he is flying in principal dancers Elena Andrienko and Evgeny Kern from the Bolshoi Ballet. Andrienko, who dances the role of Odette/Odile, joined the Bolshoi in 1991. An award-winning dancer, Andrienko was born in Kiev, Ukraine and is a graduate of the Moscow State Academy of Choreography and the Moscow State Institute of Choreography. Kern (Prince Siegfried) joined the Bolshoi Ballet in 1993 as a soloist. He is known for his breathtaking technique, powerful elevation and daring stage presence.

ple to do one project," said Dixson, a graduate of Churchill High School in Livonia. "Now I know what it's going to be like in the business world. It's hard to get 14 to 15 people's opinions. The majority won after a lot of talk and pushing your ideas on other people like a salesperson."

#### **Concept cars**

Having experienced what it was like to work as a team, Dixson is excited about seeing what professional Motor City designers have come up with this year. She tries to never miss an auto show because she likes seeing the concept cars.

"It's amazing to see not only the cars but the lighting and graphics," said Dixson. "You get a sense of what's new in design and colorwise. They determine colors four years back. We used a color palette that would be used by a car company in 2004. There's a lot of deep chocolate brown like Godiva, not much gray, and a vibrant orange and yellow. People are opening up more to color. Before now people were afraid to put

Radchenko also attracted the best conchase a secondary artistic director — his wife Elena Radchenko. Working together helps the Radchenkos ease the loneliness and longing they feel for their home in Moscow while on the road. The couple, who were married more than 20 years ago, first worked together at the Bolshoi Ballet.

"We completely know the details of each other so we know what the other is thinking," said Radchenko.

Their closeness also shortens the long days openin rehearsals which began six months ago in Moscow. Dancers practice from 4-10 p.m. Each new city brings a rehearsal to learn the stage. Performances follow 45-minutes later.

"We always rehearse before performing," said Radchenko. "Each stage is different. Some are deeper. We must adjust dancers for this type of change. I try my very best to bring "he best Swan Lake to the stage."

## The Three Doctors perform classical music to benefit kids

#### BY LINDA ANN CHOMIN STAFF WRITER lchomin@oe.homecomm.net

Drs. Joseph Kaufman and Tor Shwayder seem totally at home as they rehearse Beethoven's *Kreutzer Sonata* for a Jan. 14 concert to benefit the kids at Camp Discovery.

Their dedication to the music and children attending the northern Minnesota camp, is matched only by their talent on piano and violin. Shwayder believes so strongly in the camp that helps children with serious skin diseases overcome the rejection they feel on a daily basis that he's volunteered his time for the last four years. He jokes, music lovers won't want to miss the afternoon concert of music by Beethoven, Mozart, Chopin and Liszt because it's an opportunity "to hear local talent at reasonable prices, and see physicians do something besides give you shot."

But a seriousness takes over as Shwayder begins to show slides of the children attending Camp Discovery. He's seen first hand the joy the weeklong getaway brings to the children who are scarred and suffering from epi-

On daily rounds as director of pediatric dermatology at Henry Ford Hospital in Detroit, Shwayder deals with the children disfigured by diseases that cause their skin to blister, turn into scales or cost them their fingers and toes. He relayed the story about his experiences at the camp and as a doctor in *Call of the Loon*, which was published in the Journal of the American Medical Association in October 1998.

"The camp is a time for being touchy, feely and just being accepted for themselves and not what their skin looks like," said Shwayder, a Farmington Hills resident. "There's arts and crafts, campfires, archery, and a skit night which gives them the opportunity to participate in activities like normal kids. A teen camp run the last three years is in jeopardy. Whether it continues this summer all depends on funding."

Kaufman and Shwayder began playing classical music together a few years ago and except for infrequent performances before family and friends, they play for the pure pleasure of hearing Beethoven.

Both have studied their particular instruments for many years. Kaufman began playing piano at age 10 and took private lessons. He's been a guest pianist with the Redford Civic Symphony and the Novi Concert Band.

a red chair in their living room. Now they realize it can be a focal point. Different materials are being used also. That's what I try to introduce to my art."

Dixson still hasn't made up her mind to go into the auto field. She also enjoys designing furniture. But she never would have even considered industrial design if it hadn't been for a teacher at the William D. Ford Technical Center where she took classes in architecture and visual communications during high school.

"Ed Hubert recommended that I go to CCS," said Dixson, who began taking art classes at age 8 at the Art Store and More in Livonia, D & M Studio and the Village Potters Guild in Plymouth. "Back then I didn't even know what industrial design was. I took a welding class at CCS - Materials in Process which offers wood shop, metal shop, silk screening. I picked welding and ended up loving it. It's relaxing, stress free. I like making furniture and like to weld furniture plus also introduce different materials such as rocks, sand and coal into a design."

Mollie Fletcher thinks whatever field Dixson and the other students choose, they will be as successful as the car they designed. She especially was attracted to the 24 copper button tie-downs which craft students hand made for the project.

"The seats are really beautiful," said Fletcher, an adjunct professor of fiber design. "They

used sky blue and put a twist in it. It was a pretty daring color palette. They also put in an enormous sunroof.

"In a lot of ways the project was a trial by fire for anyone interested in working in the auto industry. They worked with suppliers and corporate, learned about the manufacturing process and saw how all the parts play and come together. They had deadlines and a short amount of turnaround time. It was career making or career breaking as far as if they would want to go into the field after that."

When it rolled into town in 1999, Artrain USA attracted more than 3,000 viewers to its Ann Arbor stop. This year, Debra Polich, president and CEO of the 30-year-old nonprofit gallery on rails, hopes to break that record.

"When it was in late December, it was harder for schools to schedule visits because of vacation breaks. In early January, there are no holidays to compete with and things are generally quieter," she said.

Artrain USA will be touring school children through the train's exhibit, Artistry of Space: The NASA Art Program, Jan. 10-12. Then it will be open to the public from 10 a.m. to 5 p.m., Saturday, Jan. 13 and 11 a.m. to 5 p.m. Sunday, Jan. 14 at 1100 N. Main Street in Ann Arbor.

The exhibit features 78 works from NASA and the National Air and Space Museum that capture the wonders of the space program as seen through the eyes of some of the late 20th century's leading artists.

From Andy Warhol's kinetic Moonwalk (which later became an MTV icon), to Peter Max's candid oil painting of the Man on the Moon, to Henry Casselli's portrait of John Glenn as a 77-yearold astronaut on the Space Shuttle mission, the exhibit includes paintings, drawings, sculpture, music and fiber art created under the program between 1963 and 1999.

"NASA had always photographed its space missions, but in 1962, it realized the value of

inviting artists to the scene,' said Laura Drew, communications manager of Artrain. "The camera could capture the scene,

but only through art can you capture the human side." The exhibit is divided into

three rail cars, which represent three eras of space exploration. The first, entitled Power to Go, opens with an oil painting by Norman Rockwell. In it, an astronaut is taking his first tenuous step on the moon, much like the nation witnessed when Neil Armstrong took one small step on July 20, 1969. But the painting is dated 1966, which leads viewers to realize that Rockwell not only could capture idyllic American lifestyle, but predict it as well.

George Weymouth's watercolor The Start shows abandoned train tracks leading to the launch pad of Freedom 7. While linking the two modes of transportation, the 1963 painting clearly signals the dawn of a new era.

Section Two deals with The Second Giant Step — that is, the Space Shuttle program. Both the triumphs and sadness are represented here, most notably with Greg Mort's memorial to the astronauts of the Challenger, which exploded just minutes after its launch on Jan. 28, 1986.

The first musician to participate in the NASA Art Program, Jane Ira Bloom, captured her impressions of the Space Shuttle program's return to flight in 1988 with a composition for a 32piece chamber orchestra with iazz musicians.

## 'What do we do now?' Authors offer tips for estate administration

#### BY DOUG JOHNSON STAFF WRITER

A longtime Farmington Hills resident, Rob Downie, has coauthored a book on estate administration.

What Do We Do Now? A Practical Guide to Estate Administration for Widows, Widowers and Heirs gives you tips, checklists and easily understood guidance on administering someone's estate.

The book has wide margins for note-taking, many Internet resources, and short, sometimes humorous, references to court cases.

Icons alert you to time-sensitive actions (alarm clock) and to things to do to keep peace in the family (a dove in flight).

The whole thing is in layman's terms, utilizes excellent graphics, and includes copies of the numerous forms used in Michigan probate courts. Chapters cover routine matters like Social Security and veterans' benefits and the tougher topics including estate taxes.

Downie's long experience at National Bank of Detroit trust tax department as a vice president, among other things, recently led him to join a major Detroit law firm, Barris, Sott, Denn & Driker.

There he specializes in estate administration. Downie is not an attorney but holds a bachelor's degree from the University of Michigan and a master's in business administration from Michigan State University. He has lectured in the master's program at Wayne State University.

Downie's co-author is an attorney at the firm, Robert Kass, a frequent speaker on tax topics, including appearances on CNN. Downie's wife, Nancy, is an estate planning attorney and

works in the Bloomfield Hills office of another firm, Dickinson Wright. The tax liabilities estates cre-

ate is one of the topics the congressional leaders and President-elect George Bush have said they will tackle this year.

At issue will be the current \$675,000 in assets (cash, homes, pensions, stocks, art, business interests, insurance, etc.) limit

Author: Rob Downie, coauthor of "What Do We Do Now? A Practical Guide to Estate Administration for Widows, Widowers and Heirs"

tax-driven," Downie said. "Tax laws and estate laws are closely meshed together. Congress may raise this exemption but they won't eliminate it entirely.

The current law sends the exemption gradually to \$1 million in 2006.

Downie said the book is not just about taxes but the entire process, and is useful for three types of situations:

Someone has died and now the clock is running.

Someone is terminal and planning should begin.

Someone is helping you plan for your eventual estate.

"The reason most people don't get around to planning is because it involves contemplating your own death," Downie said.

"People who do not plan are not well served. Heirs can't cash checks. They can't sell a house. They can't distribute the estate." The book will not keen you

Although the book is not about making a will, Downie definitely feels a "simple will" will not serve most people. "Quite simply, there are other documents. A durable power of attorney. A health care proxy. You should come out of any meeting (about a will) with an attorney with a number of documents," he said.

He explains in the book that certain professional fees are an inevitable part of estates. "Consider them an investment" he says in the book, and don't begrudge those who do the work their due.

"In the end without them it will cost more. This is a highly specialized field with a lot of tax implications and probate law implications. This is not a do-ityourself book. A person would be foolish to do this themselves,' Downie said.

Among the book's endorsements are comments from the late Ira G. Kaufman, one-time chief judge of Wayne County Probate Court:

"This book is a detailed yet practical guide, in plain and simple language. People are perplexed and confused by the legalities... I highly recommend this book for all the answers, (it is) a valuable and complete source on estate administration."

Chapters include Getting Started, Funeral Arrangements, Notifying Key People, Grief Support, Gather Important Documents, Who Should Administer the Estate, Social Security Benefits, Veterans' Benefits, Where to Turn for Help, Inventory of Assets, Are There Liabilities, Keep the Beneficiaries Informed, To Probate or Not to Probate, Protect and Preserve Assets, Putting the Horror Stories in Perspective, The Tax Man Cometh, Should You Take Fiduciary Fees, Transfer Remaining Assets to Beneficiaries, Avoiding Loose Ends, and Financial and Estate Planning for Survivors and an extensive appendix of addresses for reference including Michigan probate courts.

Downie and co-author Kass will sign copies of the book during an appearance 2 p.m. Sunday, Jan. 14, at Borders Books on Orchard Lake Road in Farmington Hills. Their book is reviewed on the Barnes and Noble Web site, and can be ordered directly from Carob Tree Press, 211 West Fort Street, 15th floor, Detroit, MI., 48226 or purchased at the Farmington Hills Borders.

Artistry of Space: The NASA Art Program is an exhibition of 78 artworks that explore and celebrate the history of the American space program as seen through the eyes and imagination of artists. Curated from the collections of NASA and the National Air and Space Museum, the exhibit features the work of Norman Rockwell, Andy Warhol, Peter Max, Robert Rauschenberg, Robert McCall, and other artists. Car 1 covers NASA's formative years during the Mercury, Gemini and Apollo mission. Car 2 explores the mystery of the Space Shuttle and Car 3, the solar system and distant areas of the universe.

tions to make exercise a more integral part of their new year, finding gear on the Net promises to be no sweat. Whether diving into kickboxing, yoga

For those who

or Pilates, looking for something specific, or just in the market for a new work-

out outfit, let me steer you to a few useful web sites with products designed and geared for women.

With its bra search function and whimsical fashion illustrations, *lucy.com*, is as refreshing and fun to read as your favorite issue of Mademoiselle magazine. The site suggests the proper workout gear and bra for every sport and offers a choice selection of clothes that fit and flatter different body shapes.

You can also search by activity, making this site a great source for warm weather gear, if a trip to the beach is in your forecast.

In addition to giving style and fit tips, don't miss the link where yearend indulges are reduced in price. There are free returns and exchanges here - an important feature when buying such body-conscious clothing.

If you or someone you know plans to exercise during pregnancy,

mothers-in-motion. com is a mega site of must-have knowledge. With links to suggested books and videos, and articles published on practical exercise during pregnancy, this well organized site founded by mothers-tobe, includes great tips and honest testimonials.

The "on-line maternity catalog" icon leads you to dozens of adorable, practical pieces guaranteed to give your maternity closet a makeover.

The only virtual negative here is the return policy. Mothers In Motion will exchange any item for the same in-stock item in a different color or size, but the guarantee does not include sale items.

Also, items must be in original condition (not laundered or soiled makeup, body lotion, perfume and deodorant included). Hang tags must still be intact, and returns must be made in the original protective polybag used for shipping. The company will refund the garment purchase price minus a \$2 restocking fee, but can not refund shipping and handling fees. While the return policy is a bit of a drag, workout clothes that fit well and free advice for pregnant women is still just a click away.

## **Retailing women** It's not just fun, it's a business

Among friends: Cheryl Hall Lindsay, Saks Fifth Avenue's regional director for fashion, publicity and special events, hugs a mannequin at the retailer's Troy store at the Somerset Collection. She has been with the company since 1979.

#### Story by Nicole Stafford

For the first in a three-part series about local women in the retail industry, we sat down with Cheryl Hall Lindsay, Saks Fifth Avenue's regional director of fashion, publicity and special events.

As a veteran retail executive, active member of the community, former model and devoted wife and mother. Chervl Lindsay Hall, 44, has a unique perspective on women working in retail.

Are more men in retail? The answer is absolutely

**Q:** In the past, the retail industry was viewed as a catch-all for women who wanted to work. Has that image changed?

HL: I do think one of the reasons that retail attracted women when I joined the company and before was that it offered flexible hours. Today, there's less focus on whether there are flexible hours or not or whether fashion is something that attracts you or not. There's more of a focus on the business of retail and the financial opportunities, if you like that environment.

changed, and women who were in other kinds of jobs like banking and finance are saying 'you know what? I only want to work three or four days' and so it's becoming more flexible on that side. I think other industries are catching up. ... We're learning to take some cues from other industries, but more often than not I think other industries are taking cues from us.

Merchandise: If  $\mathbf{the}$ mind/body connection is your thing go to yogazone. com. From mouse pad to yoga pad, you will find all the yoga essentials you will need to begin your tranquil practice at home or in a studio on this web site. There's also a catalog. For either destination, add the yoga zone hipster pant (item # AP14700) and muscle tee (item # AP 17100) to your shopping cart and head confidently into your new stance.

Highlights: The site connects to the Yoga Zone television exercise show on Web MD Television/The Health Network. Hosted by Yoga Zone founder Alan Finger, Yoga Zone airs at 7:30 a.m. Monday-Friday. Click on the "TV Show"portion at the top of the site, and view actual clips from the show, which is shot in sunny Jamaica.

Navigation: Browse through the sites - 11 departments - like "Gifts" for journals, incense and "Meditation" for music to benches. Whether a newcomer to the sport or a seasoned yoga junkie, this site gets you in the mindset to relax and release last year's toxins. It also leaves you feeling inspired to stick to your fitness resolutions. The only Net negative here: no posted return poliсy.

"When I first started here we were still writing out our sales checks," says Lindsay Hall, who lives in West Bloomfield where she grew up and attended high school.

Her career at Saks started early as a "Teen Girl" for the Troy store and Junior Department model. She also worked as a professional model for many years.

After earning her bachelor's degree in advertising from Michigan State University, she returned to Saks as an executive trainee in 1979. She soon became Teen Fashion Coordinator and, in 1983, was promoted to director of fashion, publicity and special events for Saks' Fairlane Town Center store in Dearborn. The retailer appointed her to the same position at the Troy store in 1986. She became regional fashion director in 1992.

Her job's focus has changed in recent years, she says. "The focus of the public relations position is more of a community liaison. My job is to communicate the trends both to my associates here in the store and to the community and do it in a way that provides good visibility for Saks Fifth Avenue not just as a good corporate citizen but also as a retailer that wants to help you fit fashion into your lifestyle."

In 1999, Hall Lindsay was honored as the area's Stylemaker of the Year by the Fashion Group International's Detroit group. Among her volunteer work, she is a lifetime member of Project Hope, which awarded her a Michigan Woman Lifetime Achievement award last June.

Q: Historically, the retail industry has been very open to women. Is that still the case?

HL: It is still very friendly towards women. For instance, there are five top-level executives in this store. Three are women, including the highest level executive, our vice president and general manager.

**Retail, style and special store events** are listed in this calendar. Please send information to: Malls & Mainstreets, c/o Observer & Eccentric Newspapers, 805 E. Maple, Birmingham, MI 48009. Q: Is work in retail more of a chosen profession for women today?

HL: Absolutely right. It's a business. We're not in the business of filling our hours with people who just want to work but with quality people who want to be here and who want to handle their position like a small business.

Q: Since other industries are now more open to women has the retail industry had to change to continue to draw and keep women?

HL: I think the workplace in general has

Q: Women can do anything today, why choose retail?

HL: It offers the opportunity to be creative and still be very much involved in the bottom line. ... We have to be in contact with our clients, the trends, our city and what's going on in our industry and that's very exciting. I don't know how close you would be to the community in other industries. If you took a job at one of the Big Three, how close would you be to the beat of the city? It's also like running my own business. A retail store is like its own business even if you're part of a big chain. You are running a business. So for the most part we are women running a business, and it's almost like a family.

**Q:** Women are increasingly being recognized as an important target market, has that affected your job or women's role in the business of retail?

HL: I think that it has. It's more women in key positions. It's more women in marketing, more women closer to advertising campaigns. I've seen tremendous growth for women in all the areas that relate directly to the public and corporate image.

**Q:** Do women bring a specific perspective or set of strengths to the retail industry?

HL: First and foremost, we are shoppers and shop more than our male counterparts. We have a whole realm of experience before we even get here and that helps a lot. But I also think we have a better sensitivity to our core client – women. We know what we want, we know how we want to be treated.

... From my perspective, I'm out there in the community, I'm a career woman. I'm also raising children. I'm also a volunteer.

**Q:** Would a man do your job differently?

HL: I think it would be a very different position. If a man was in it, you would lose the networking and the community to a certain extent.

the 20th century, Tiffany & Co. was commissioned to design presentation trophies that immortalized the winners on the field, track and court.

One of the best known of these trophies is the Vince Lombardi Super Bowl Trophy currently with the National Football League for presentation to this year's Super Bowl winner. Tiffany & Co. has produced the coveted Super Bowl award since the first game in 1967. In 1970, the trophy was renamed after Vince Lombardi, the late Green Bay Packers coach.

Tiffany & Co. designed its most elaborate trophies for the sponsors of yachting races, so the exhibit includes the legendary Goelet Cups for Sloops yachting trophy. Also included is an interactive video to inform visitors about the design ingenuity and standards of Tiffany awards.

Tiffany & Co. is located at Somerset South and open 10 a.m.-9 p.m. Monday-Saturday and noon-6 p.m. Sunday. For more information, call (248) 637 - 2800.

## Feel like newlyweds again with trip to France

BY LARRY RUEHLEN. STAFF WRITER

lruchlen@oe.homecomm.net

knew I was in trouble when every man in Allard's restaurant was wearing a tuxedo but me.

It was 8 p.m. on New Year's Eve in Paris, France, and my wife, Carol, and I were celebrating our 10th wedding anniversary in a grand, traditional French kitchen where English was not on the menu.

We were greeted like the first guests at a party with bon jour and wide smiles all around. I had never had occasion to visit an eatery that offered a \$900 dollar bottle of wine, so the fact that we were the only customers in the place was cause for concern. Two thoughts came to mind: Either I had inadvertently committed financial suicide by renting the whole place or the locals thought it wasn't worthy. I silently hoped for the latter as we were escorted to our table.

With great flair, our waiter gave us a menu with a maneuver that he had obviously perfected in front of a mirror. Aperitif? He asked. Carol recognized the word (she took French in college) and gave me a tacit nod that said an aperitif was a splendid

idea. After several painful minutes of me talking at the waiter and he not understanding a word, he brought us each a drink and begrudgingly uttered his first and last words of English for the evening — GIN FIZZ.

#### Language

Until now our tenuous grasp of the native language hadn't caused many problems. We had been in France for five days and managed to see the Louvre, the Eiffel Tower, that Big Arch (the Arc de Triomphe for you purists) the gardens of Palais de Luxembourg and the great cathedral, Notre Dame, with little trouble. That very morning we had toured Louis XIV's house -Chateau de Versailles — without

incident because the velvet ropes and lasers that herded tourists through room after garish room chanced nothing.

Unfortunately, the Allard's menu and wine list were not so helpful. Carol scoured the pages for Poulet (chicken) and I looked for *Boeuf* (beef) but neither were part of the seven-course culinary extravaganza we were about to experience.

The fixed menu was a relief but ordering wine when you don't know what you are about to eat isn't easy. I tried to convey my trepidation to the waiter and he quickly summoned his boss like a baseball manager calling for an ace reliever with the bases loaded in the bottom of the ninth. He easily understood we were partial to white grapes and suggested two bottles that would be suitable for the meal. I chose the more expensive (\$90) figuring it had to be good.

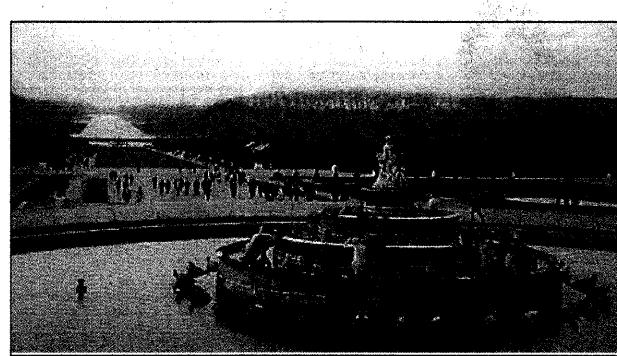

Since much of the wine I consume is of the boxed variety, my endorsement could easily be called into question, but this wine was better than good, and I was content with our decision to spend whatever it took to celebrate our big night in style.

Soon after our first glass was empty other people began to arrive. By 8:30 p.m. every seat in the house was filled with nattily attired couples. Carol struck up a conversation with the only other Americans in the place who just happened to get the table next to us. They were Texans who had been to Paris last year and they navigated the menu with ease.

#### **Best friends**

They were our best friends for the next four hours as course after course of delectable but unfamiliar food was served. As I ate lobster bisque, pheasant and a mystery meat bathed in cognac, I periodically gazed into the pyramid of sliced potatoes and beets before me and wondered whether I could ever eat a \$3 fast-food sandwich again.

By the time dessert was served it was 11:30 and we had intended to see the fireworks at the

Place de la Concorde, the very spot where thousands of people had lost their heads to the guillotine including Louis XVI, Marie Antoinette and Mme du Barry, who reportedly went kicking and screaming the entire way.

After settling l'addition (the bill) we ran the four blocks to our hotel and changed into jeans and sweatshirts. It was raining so we grabbed our umbrella and raced to the spotlights that encircled our destination two miles away. Traffic on the city's streets was

#### at a standstill.

Just as we approached a bridge crossing the Seine, a bunch of revelers poured out of a tiny car like clowns in a circus. They each had a bottle of champagne and they were shaking them with vigor. The motion had the desired effect as bubbles and foam soon chased corks into the Paris sky.

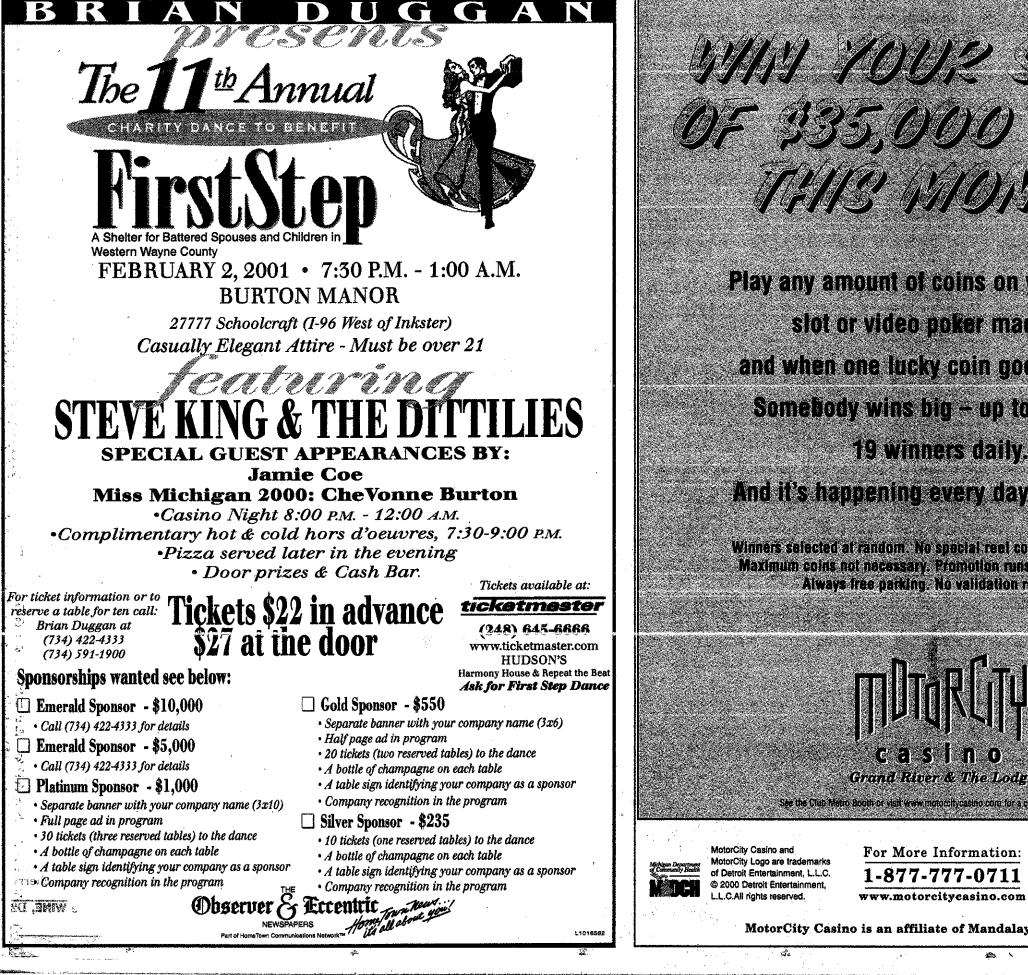

It was surely too soon — we were still a mile away from the spotlights but drenched people were kissing in the streets and

on sidewalks and bridges. Boat horns blared and fireworks launched so we paused for a kiss and a few well wishes with the locals before proceeding.

The rain washed out the fireworks but we eventually joined the thousands of people at the Place de la Concorde who were bringing in the new year with a light show, music, dancing and hundreds of bottles of champagne. In a mere 15 hours Carol and I were home.

We went straight to Arby's.

### Weighty decisions: what works and what doesn't

ave you wondered why after following your "diet plan" to the let-ter, you're still having a hard time losing weight? Let's find out why.

🖀 "Diet plans" don't work. What may work for some, may not work for others. Everyone has different body chemistry and needs to use it to their advantage.

Beth Stone, 40, of West Bloomfield was a carbohydrate junkie. She read that a high carb diet knocked the weight off one, two, three. After three months of little progress, she switched to a moderate carbohydrate diet focusing on whole grains, lean protein foods such as chicken and fish, and eliminating all refined sugars. If a product lists more than 7 grams of sugar on the label, she leaves it on the shelf.

Stone has also eliminated wheat and corn products from her diet because of her suspected sensitivities.

"I feel great," she said. "I don't have that insulin rush from all of those 'carbo's' so I am not crashing after meals. I am now making progress and even got rid of my heartburn!"

#### Cut the hunger

Eating yogurt and salad for lunch just doesn't cut it. Many individuals skimp on lunch in attempts to eat light. At around 3 - 4 p.m., they become ravenous and binge out on

#### What's your beef?

Many of us knowingly grin about our carnivorean ways.

It's easy

Roasting beef is easy. Season it, place it in a pan, surround it with a colorful array of vegetables and shut the oven door. Or you can use braising, stewing or simmer the roast in liquid if you buy a less-tender cut of beef. Recipes vary on how to cook the roast, but a basic recipe calls for using one envelope of onion soup mix for a 3-pound boneless chuck roast with 6-8 small redskin potatoes, one medium quartered onion and one package of peeled baby carrots. Barbara Scholl, who won a cooking competition last month at Oakland Community College, uses chili sauce, a bay leaf and thyme in her recipe. Valerie Boguslawski of Farmington Hills, who participated in the same competition and is also an OCC student, uses garlic powder, cayenne pepper and paprika. "Sometimes I'll stick in some thyme," Boguslawski said. "You can also make sauces and gravies with the meat, and there's so many different ways and methods, depending on what you want to put in it," Boguslawski said. Deglaze the cooking or roasting pan with wine and saute shallots in it, or make a cream sauce and add spices. Creating a roux with flour and butter also makes an excellent basic gravy, Boguslawski said.

Different ovens vary in temperature, so they may run hotter or colder than indicated on the unit's thermometer.

"I use a meat thermometer to help me out," Boguslawski said. (To use a meat thermometer correctly, insert it into a roast so that the bulb of the thermometer rests in the center of the thickest portion of the meat. It should not rest in the bottom of the pan or touch bone.)

Broome, who has taught adult education cooking classes in Plymouth-Canton community schools, recommends using the round-bone pot roast, instead of the blade or

#### Never too late

Theresa McDonald, 59, of Livonia says it's never too late to start an exercise program. "If you can move you can exercise. All through my life, I have done little exercise, but in past year I have worked harder on my exercise program than I ever have in my life."

Since McDonald has started working out on a treadmill and working with weights, she has noticed her waist is getting smaller as her clothes are getting baggier.

■ Don't be in a hurry to shed those pounds. Remember slow and steady wins the race. Too many people focus on the numbers versus the process. If you don't change your eating habits, von will never maintain vour weight loss on a long-term basis.

Winter recipes

When buying beef, select beef with a bright red cherry color without any grayish or brown biotches. The exception is vacuum-packaged beef which, in the absence of oxygen, has a darker purplish red color and turns bright red when exposed to air. Look for beef that is firm to the touch, not soft.

Make sure the package is cold and has no holes or punctures. Choose packages without excess liquid. Be sure to buy before the "sell-by" date.

Know your labels! Prime beef has the most marbling. It is produced in limited quantities and usually sold to fine restaurants and specialty meat markets. Choice fails between Prime and Select. Of these three, Select has the least marbling, making it leaner, but often not as tender, juicy or flavorful as the other two top grades. Most markets today offer a selection of Choice and Select cuts. When cooking beef, leave the thin layer of fat on steaks and roasts to preserve juiciness, then trim fat after cooking. Partner your beef with a variety of fla-

vors without more calories, such as lemon juice, hot and sweet peppers, onion, garlic, tomatoes and ginger. Beef is one of the best sources of iron

and zinc. Zinc helps you maintain a healthy immune system and iron gives you energy and helps prevent you from feeling run down and fatigued.

arm cuts of beef.

"I recommend getting the largest one or two smaller ones, because the whole idea is to cook once, then serve twice or even three times,' Broome said.

#### **Great leftovers**

Broome isn't afraid to use canned mixes in her cooking. For the roast, she mixes cream of mushroom soup with dry onion soup mix for the roast or adds a jar of brown gravy.

"It's great for leftovers, too. You can cut it up and use it for stew or scrape off the top of it and cook green bell peppers, onions and barbecue sauce with it. Barbecue beef on a bun is awesome."

"If I have a busy day, I like to set it up the night before," said Broome. Leftover beef can be placed in the freezer for yet another meal and stretches that food dollar even further.

For Broome, pot roast is, well, awesome.

"Pot roast in a Crockpot is awesome. When it permeates through the air, it's awesome."

#### pieces Pot Roast Gravy

Trim excess fat from meat. Coat all sides of meat with flour. Brown meat slowly in about 2 tablespoons cooking oil on all sides or about 10 minutes. Sprinkle with salt and pepper.

Add water or desired liquid, basil or thyme, and Worcestershire. Cover, and bake in a  $325^{\circ}$  F oven for 1 to 1 1/2 hours.

Add vegetables, and continue baking about 45 minutes or until vegetables are tender. Prepare Pot Roast Gravy as follows:

Remove meat and vegetables to platter, and keep warm. Pour meat juices into a large glass measure, and skim fat. Measure 1 1/2 cups juices and return juices to Dutch oven. Stir 1/2 cup cold water with 1/4 cup flour: stir into pan juices. Cook and stir until thick and bubbly. Cook and stir about 2 minutes more. If desired, add several drops Kitchen Bouquet. Season to taste.

## Sonoma county's old vine zinfandel is red hot

Though wine disap-FOCUS ON peared from most American tables during the early part of the 20th century as a result of Prohibition and the Depression vineyards planted in the late 19th century have survived, even flourished, and continue to produce excellent wine grapes HEALD to this day.

Most survivors are zinfandel vineyards, planted by Italian immigrants, the first to grow grapes and make wine in California. We owe Sutter Home Winery for saving these vineyards by using the grapes to make white zinfandel in a time, not so long ago, when red zinfandel fell out of favor. Now red zin is red hot!

Saucelito Canyon vineyards are in the Arroyo Grande appellation of San Luis Obispo County south of the Edna

Valley. William Greenough bought these vineyards in 1974 and discovered they had been planted in 1882. A 120-year-old vineyard is still producino

#### Sonoma County

Today, most "old vine" zinfandel comes from Sonoma County, especially the appellations of Sonoma Valley, Russian River Valley and Dry Creek Valley. We recently met with the winemakers from several of the best old vine zin producers who use Sonoma County fruit.

Put these names on your shopping list: Ridge, St. Francis, Fanucchi, DeLoach, Alderbrook, Ravenswood, Dry Creek, Joseph Swan and Eric Ross.

According to these wineries, old vine zin is from 40- to 110-plus-year-old vines that are dry farmed (no irrigation). These vines produce balanced

zinfandel. Most age the wine in American oak that offers a bit of spice. Old vine zin descriptors include blackberry, sepherry cassis currant

pepper, chocolate, clove, licorice, plum, mint and leather. Although the wines are delicious when released. they age well for about eight years.

We believe that you should drink them when you like them best. On the other hand, try to cellar a couple of bottles to judge how the aromas and flavors mature after a few years.

Most old vine zin producers use blending grapes. When questioned, they admit that many of these old vineyards were originally interplanted with other, complementary varieties such as carignane, petite sirah, mataro (mourvedre) and alicante bouche.

If a back label says the wine is a "field blend," that may mean that the

fruit that makes great red identity of the complementary varieties is unknown.

#### Picks of the pack

We recently tasted many old wine zins from 1997 and 1998. The following are our top picks. Some require a search, but it will be worth it. Prices are approximate retail.

🖩 1998 Dry Creek Vineyard Old Vine Zinfandel, Sonoma County, \$22, includes plums, dark cherries, all imaginable black fruits plus brown spices and pepper. The big mouth feel and structure call for grilled meats.

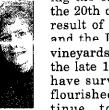

1996 Mazzocco Zinfandel, Cuneo & Saini Vineyard, Dry Creek Valley, \$22, isn't labeled old vines, but they are 85 years old and qualify in a wine with elegant black fruit flavors and long, pleasing finish.

■ 1997 Ravenswood Monte Rosso Vineyard, Sonoma Valley, \$29, is a fruit bomb of blackberry, black cherry

### Health policy focuses on vegetables

(AP) - The year 2001 will see Heart specialists joined cancer an increasing interest in vegetables and fruits in the nation's homes, restaurants and food markets, say health specialists at the American Institute for Cancer Research.

Pour gravy/sauce on top and enjoy.

This reflects the new prominence these foods are enjoying in public health policy, they say.

specialists in placing consumption of fruits and vegetables first on lists of dietary guidelines for disease prevention. The USDA's "Dietary Guidelines for Americans" were revised to lend added emphasis to vegetable and fruit consumption.

The National Cancer Institute

reviewed the 5 A Day program (which encourages Americans to consume five or more daily servings of fruits and vegetables) and called for its expansion.

The AICR's New American Plate program recommends that at least two-thirds of a person's plate feature vegetables, fruits, whole grains and beans.

Recipes courtesy of Beverly Price. Soba noodles, tamari and texturized vegetable protein are available at health food stores. See related column on Taste front.

#### SPICY VEGETABLE LO MEIN

- 2 teaspoons hot chili oil
- 2 teaspoons minced ginger root
- 2 cloves minced garlic
- 3.5 ounces shitake mushrooms
- 1 medium red bell pepper, cut into thin strips
- 2 cups chopped bok choy, leaves and stems
- 1/2 cup canned vegetable broth
- 6 ounces sugar snap peas
- 2 tablespoons tamari

8 ounces soba noodles

- 2 tablespoons seasoned or regular rice vinegar
- 1 tablespoon sesame oil
- 1/4 cup chopped cashews

Cook noodles according to package directions. Meanwhile, heat oil in large skillet over medium heat. Add ginger and garlic; cook 30 seconds. Add mushrooms, bell pepper, and bok choy; cook 3 minutes, stirring occasionally. Add broth and sugar snap peas; simmer until vegetables are tender-crisp, stirring occasionally, 3 to 5 minutes. Add tamari and vinegar. Drain noodles; add to skillet with vegetables.

Add sesame oil; cook 1 minute, tossing well. Sprinkle with cashews. Makes 6 servings.

### Finish the roast dinner with this dessert

Valerie Boguslawski of Farmington Hills offers this recipe for banana cream pudding as a nice "comfort food" for winter or to end your pot roast dinner with a great dessert.

#### BANANA CREAM PUDDING

Sauce:

1/4 cup light Karo syrup 1/2 cup packed light brown sugar 1 tablespoon butter 1/4 cup heavy cream 1 tablespoon pure vanilla extract 4 bananas, peeled and diced 4 tablespoons almond slices, toasted

In a small saucepan, stir together Karo syrup, brown sugar, butter and cream over medium heat. Bring to a boil, stirring constantly. Remove from heat. Cool 5 minutes, then stir in vanilla, bananas and almonds. Reserve for use later.

Pudding: 1/2 cup sugar

2 tablespoons all-purpose flour

4 tablespoons cornstarch 2 large eggs 2 cups warm milk 6 tablespoons butter 1 tablespoon pure vanilla extract

In a large mixing bowl, whip together sugar, flour, cornstarch, and eggs until smooth and fluffy, about 3 minutes. Slowly pour in warm milk. Then pour the pudding mixture into a large saucepan and whisk constantly over medium heat until it comes to a boil. Immediately remove from the heat and whisk in the butter and vanilla.

To assemble, spoon half the pudding into a serving bowl. Spoon the banana caramel sauce on top. Finish with the remaining custard. Chill.

To garnish just before serving, whip 1-cup heavy cream until 90 percent whipped. Then add 2 tablespoons sifted confectioners sugar and continue whipping until cream forms into soft peaks. Smooth the whipped cream over the top of the pudding. Serves six.

#### **Hospital volunteers**

Ď4 (F★)

To attract more volunteers to the Garden City Hospital Guild, the hospital will hold a "Coffee Break" 12:30-3:30 p.m. Saturday, Jan. 20, in the Garden Cafe, located in the main lobby of the hospital. Free coffee and cookies will be served while the benefits of volunteering are explained.

Almost as old as the hospital itself, the Guild was formed in 1949. Guild members work in various settings throughout the hospital, such as the gift shop, Garden Cafe and other fundraising venues managed by the Guild.

Volunteers also are needed to help at the surgical desk and deliver patient mail. The Guild's biggest yearly fundraising event is the Garden City Hospital Strawberry Festival, which attracts hundreds of people each summer

All funds raised the Guild are donated back to the hospital. Such items as medical diagnostic equipment and patient care supplies have been purchased by the Guild over the years.

### Flu shots

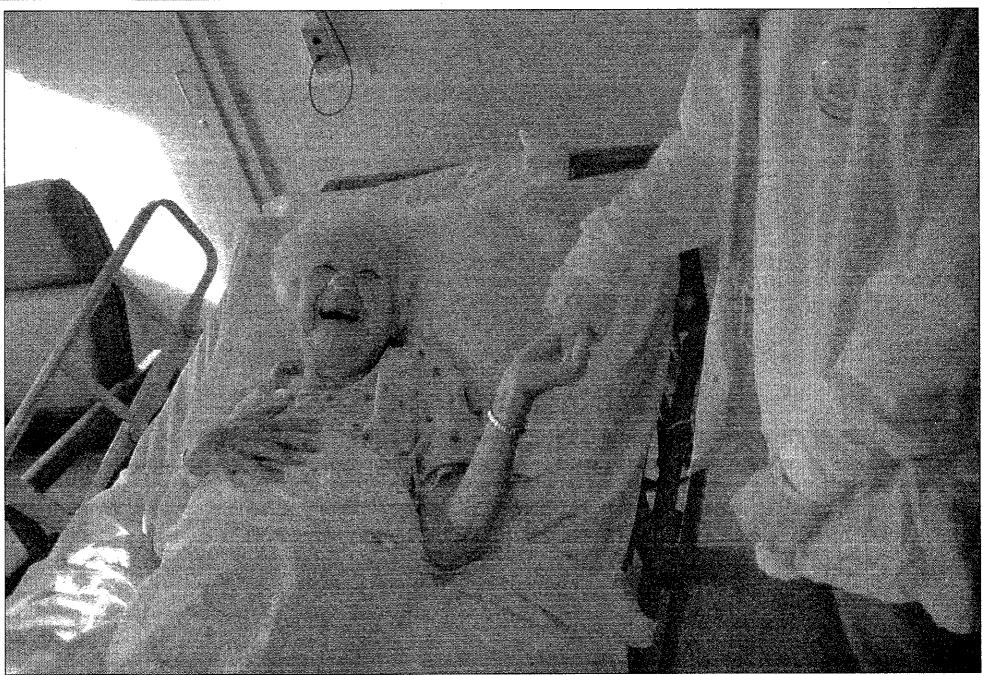

It is not too late to receive adequate protection from influenza. Michigan's peak flu season doesn't occur until late January or early February. Persons vaccinated in the coming weeks will not only help protect themselves and loved ones from the peak season, but from the chances of infection in early spring.

According to Michigan Visiting Nurses, many doses are now available. They urge the public to be patient, but persistent in their efforts to get flu vaccine. There is now a sufficient amount of vaccine for all person seeking vaccination against the influenza disease.

MVN has announced its updated public calendar for influenza and pneumonia immunization. Call the office at (800) 880-0020 or check the MVN Home Page (www.UMVN.com) each week for a complete list of sites and locations.

Flu shots are \$10 and pneumonia vaccinations are \$25.

Note: The MVN is unable to vaccinate those under 18 and those who are or may be pregnant regardless of a

### Chemotherapy

The side effects of chemotherapy nausea, infection, neutropenia and hair loss - are more manageable than ever before. Gilda's Club, The Leukemia & Lymphoma Society and the biotechnology company Amgen are sponsoring a free open forum on how to improve the chemotheraphy experience 5:30-8 p.m. Wednesday, Jan. 31, at Gilda's Club, 3517 Rochester Road, Royal Oak.

Oncology experts from the Detroit Medical Centers, Dr. Roy Baines, director of bone marrow transplant and professor of medicine and oncology, and Kathy Moreland, RN, MScN, will discuss how to prepare for chemotherapy, managing the emotional and physical side effects, and resources for patients and caregivers. Attendees will have the opportunity to ask questions throughout the program.

Patients, their families and medical professionals are invited. This program is a supper/lecture and space is limited. To RSVP, please call (248) 577-0800.

man Rockwell paintings line the hallways and adorn the rooms.

For the unit's elderly patients, it's a temporary home away from home.

"The people are very kind and very attentive. Beautiful pictures. It feels more like a home than a hospital," said patient James Henry, 83, of Dearborn.

The NICHE unit the acronym stands for Networking to Improve Care to Hospitalized Elderly – began at Oakwood Hospital & Medical Center in Dearborn in December 1999 with 14 beds and the goal of preventing the decline so often experienced by older people who enter the hospital. The unit now has 32 beds.

Resting: Marilyn Damian, 73, takes a moment to rest before lunch Tuesday in the NICHE unit at Oakwood Hospi-

tal.

There are also NICHE units at **Oakwood Annapolis** Hospital in Wayne and Oakwood Heritage Hospital in Taylor. Each unit has its own specialty: Oakwood Dearborn specializes in acute confusion and

falls; Oakwood Heritage deals with functional ability; and Oakwood Annapolis focuses on skin care associated with immobility and poor nutrition.

The goal of the NICHE units is to recognize and respond to the special needs of older adults, who often experience a decline upon entering the hospital.

"We're trained to immediately identify anxiety feelings of powerlessness, family stress and loneliness," said Marnie Renwick, a veteran geriatric nurse at OHMC-D. "When someone is attentive to them, it can make all the difference."

Something as simple as a blanket warmer may enhance recovery. The warmth not only has a therapeutic effect, it also connotes comfort, especially for the elderly, who often feel cold. When they're given a warm blanket, many do not need sleep medication, say unit nurses.

Dr. Cecelia Hissong, chief of the Department of Family Practice at Oakwood in Dearborn praises the care her patients receive in the NICHE unit.

"Really, they are much more in touch with each patient's needs. They do really make an attempt with each patient to see what their interests are rather than making something that fits everybody," she said.

Dr. Cecelia Hissong ------ Chief of the Department of Family Practice at Oakwood

#### Encouragement

Most of the NICHE unit patients suffer from debilitating conditions common to old age: dehydration, sepsis, and pneumonia. Some patients are recovering from strokes. All have mental and emotional needs as well as physical. All are vulnerable.

Research shows the elderly often suffer from acute confusion upon being admitted to the hospital. The sudden change in environment and routine can be overwhelming. Many elderly are reluctant to even go to the hospital for fear they will not be able to maintain the former level of independence.

In a traditional hospital setting, this fear was sometimes justified.

"Usually we put these people in the bed and raise the side rails as their mobility declines, their mental function declines and their nutritional status declines. Everything starts to slide down, even after only a day of hospitalization," said Renwick of the standard treatment of the elderly in most hospitals.

In the NICHE unit, nurses encourage their patients to sit up, get out of bed and move, even if they feel weak and tired. Regular movement and good skin care prevent bedsores, a major complication among the hospitalized elderly.

"They really encourage you to get up and walk around," said patient Marilyn Damian, 73, of Dear-

born. "They are really great here," said Damian. "You're not a number. You're a real person. I guess it's just the caring. They're just so warm."

Patients also are encouraged to visit the family lounge, which has a television and a stock of vintage movies, Big Band tapes, stuffed animals for cuddling and games and puzzles designed for low-vision needs. Also, families can buy dinner in the hospital cafeteria and bring it to the lounge to share it with patients.

"The lounge provides an opportunity to bring the little kids in to see the patients in a less threatening environment," said Monna Kay, clinical manager of the NICHE unit.

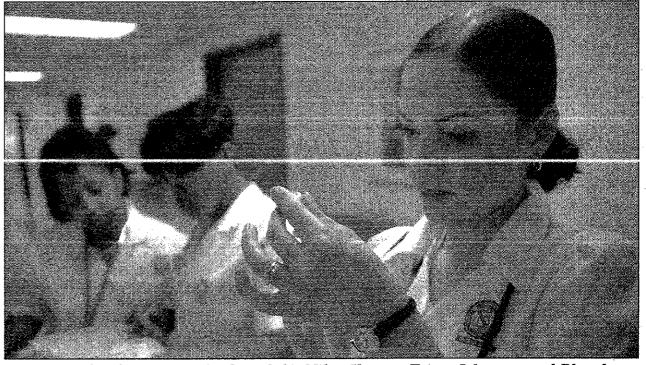

#### Details

If NICHE personnel seem more traditional in their dress, it's true. There are no flowered smocks; instead the staff wears white lab coats since the elderly associate white with nursing care.

In addition, doorframes and baseboards in the NICHE units are painted a deep, contrasting color to help patients with depth perception, and different colors designate different room functions. Each room has a large clock and calendar to track time and a rocking chair to provide more relaxed seating.

There are also shades on patient room windows

Please see CARE, D5

instead of institutional blinds since the elderly are more familiar with shades. "They like to pull their shades down at night before they're tucked in," said Monna Kay, nurse manager of the unit. "Everything here has been research based.'

But the NICHE unit is much more than white coats, rocking chairs and shades on the windows. It's a philosophy of care for the elderly.

The NICHE interdisciplinary care team includes physicians; nurses; physical, occupational and respiratory therapists; pharmacists (if there are more than 8 medications involved); dietitians; case managers; social workers; and special volunteers. The team makes its rounds daily.

#### Results

The Oakwood NICHE units are based on models developed at New York University and the University of Iowa. Although the objective in establishing the units was to improve care, they have turned out to be cost effective as well.

Within the first six months, the average hospital stay for NICHE patients declined from six to three days, the number of falls has declined, and more

patients are discharged to home or an assisted living facility, rather than to a nursing home.

The use of restraints also has been cut dramatically, said Kay. "We use 1 percent of what we formerly used." (Sensory tapes. placed on beds alert the nurses desk if a certain amount of weight is not detected after a five-minute delay.)

Patient Mary Twardus, 87, of Dearborn has enjoyed her stay in the NICHE unit. She's felt secure. "It's perfect. I get good service in anything. You see, I even have a maid," she said, affectionately grabbing the hand Tracey Ryckman, assistant nurse manager.

Dr. Abraham Slaim, NICHE medical advisor at Oakwood Heritage Hospital, says programs like the NICHE units are important because the elderly have specialized needs.

"Just as you don't treat a pediatric patient like a small adult, you can't treat an elderly adult the same way you would a middle-aged person," he said. "They usually have multiple medical problems... The staff need to be trained to deal with these problems. They also need a little more tolerance and patience." Dr. Cecelia Hissong, chief of

#### THIS WINTER AND ARTHRITIS

By the indications to date, this winter promises to be cold, long, and hazardous. If you have arthritis, you will need to take precautions to avoid making the next three months even more harsh than nature intends

You must expect an increase in aching. The extreme cold causes blood vessels to constrict to preserve heat to core organs such as the heart, lungs and brain. However, such protection occurs at a cost. The body, by diverting blood supply usually aliotted to the muscles and joints, brings on the stiffness you attribute to the cold. When you have arthritis

the stiffness comes on faster and lingers longer than if you had no impairment. The extreme cold forces you to wear mittens, boots, and thick jackets. Putting on all this clothing strains arthritis joints, and carrying the extra load burdens them. Prolonged sitting in cars as you work through traffic jams and snow covered roads is the source of additional joint strain

Taking more arthritis medicine will not counter the stress of winter. Your best response is to change your attitude so that you accept that it will take more time to accomplish less work. You need at hand an exercise regimen you can do indoors at home for those days when the wind, cold, snow, and ice make outdoor walking or traveling inadvisable

You should keep in mind, that your goal is to be ready for spring, not just survive to reach it.

Do you keep your opinions to yourself because you are afraid to speak out in front of others?

## Treat ice dams now

This winter has produced conditions unlike those we have seen for many winters. The usual freeze-thaw cycle and smaller quantities of snow have prevented this type of extreme condition – until last month. This winter, we've had just a few moments of above-freezing temperatures, with most days much colder.

These result in "ice dams." The condition is caused by heat escaping from our homes, warming the attic enough to cause partial melting of now on the roof, only to have the water refreeze when it reaches the colder overhang.

Even roof color causes melting. Dark colors, used on most roofs, increase the heating on sunny; days.

As technology has progressed, an "ice and water shield" layer has been added below the shingles. These help but do not provide an ironclad guarantee of eliminating leaks. Just as the use of "seal tab" shingles has cut the amount of wind-related damage, they are only effective some of the time.

Contrary to other articles I've read, ice dams will occur regardless of whether you do or do not have gutters.

If you have lots of ice, don't wait, act now before the damage occurs. That ice usually has a pool of water sitting behind it, unable to drain off the roof. It will eventually find its way through the singles and into your home.

Do not attempt to clear this up yourself. Hire a roofing, gutter or even a painting contractor, any contractor accustomed to working on ladders.

The best short-term cure is to remove the snow from the first few feet of roof and spread calcium chloride on the ice. Roof rakes are available and can be used on single-story homes.

The best long-term solution is to install electric heat tapes in a repeating V pattern in the problem areas. The tapes only need to be plugged in for enough time to melt a path for the water to run off.

Some insurance companies may cover the damage, after a deductible. Others do not cover an owner for this type of damage. New home warranties do not cover this type of damage.

Larry Cohen of West Bloomfield has been a residential home builder for nearly 30 years. Would-be buyers may now place deposits on the last and perhaps best lots at Lakewood Knoll, the Hills portion of the residential development in Genoa Township.

"This is probably the nicest piece of property here," said Paul Del Giudice, president of AMP Building. "This piece should remain secluded with the lake on one side, golf course on the other and slices of wetlands here."

The 15 lots, which average half an acre in area, range in price from \$100,000 to \$150,000.

The Lakewood Knoll community, on Laton north of Grand River (Exit 141 off I-96), also offers attached condominiums and houses on smaller lots.

A house plus lot in the Hills probably will start at \$400,000 to \$500,000, Del Giudice projected.

Any of seven floor plans offered by AMP Building in the single-family part of the sub probably could be built in the Hills, he said.

Those plans range in price from \$208,400 for a ranch of 1,650 square feet with three bedrooms and two baths to \$283,900 for a 3,000-squarefoot colonial with four bedrooms and 2-1/2 baths.

All include at base price two-car garage, first-floor laundry, basement, fireplace, range and dishwasher, wood foyer, ceramic baths and carpeting throughout.

Ranches are selling especially well now, he said.

The Parkwood, a ranch under construction, features a den that could be converted to a bedroom, great room/ dining area and kitchen with breakfast bar open to the great room.

The ranch also showcases a master bedroom with vaulted ceiling, separate tub and shower, double vanity, dressing table and two wall closets, a second bedroom and a full bath on the main floor.

Del Giudice plans to finish the lower level walk-out of the Parkwood to include a great room, bar, exercise room, two bedrooms and two baths.

The house - 3,100 square feet would run about \$330,000 without lot, he projected.

About a dozen lots, most with walkouts, are still available in the singlefamily section of Lakewood Knoll. Just under 100 were laid out.

Also, about 10 units in the attached condominium portion of the community (a partnership between AMP and Uniland) remain to be sold.

They range in price from \$148,850 for a standard townhome of 1,300

**Parkwood Model:** AMP Building is constructing a ranch similar to this at Lakewood Knoll. The ranch will include four bedrooms, four baths and a lower-level entertainment center.

square feet with two bedrooms and 1-1/2 baths to \$238,695 for a ranch of 1,645 square feet with three bedrooms (one upstairs) and three baths.

Both plans include at base price twocar garage, first-floor laundry, basement, air conditioning, range, dishwasher, carpeting throughout and textured ceilings.

Vinyl siding and brick are primary exterior materials at both the houses and condos.

Genoa Township has been discovered since ground was first broken at Lakewood Knoll, the principals there maintain.

"You can get everything you need in this community – medical facilities, plenty of restaurants, plenty of shopping, plenty of churches," said Rex Rosenhaus, Uniland vice president.

Lakewood Knoll is about halfway between Brighton and Howell with their quaint downtowns, he added.

"You can't get closer to modern conveniences – access, location – to shopping and the expressway," Del Giudice said. "The big attraction is space – there's breathing space," said Anita Blender, sales and marketing director for Uniland.

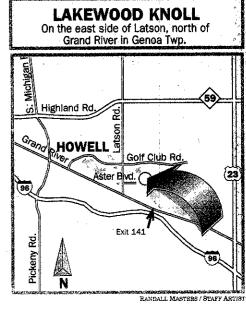

"There's a beautifully wooded area, a lake. You're accessible to things you need – expressways, shopping, restaurants – but it's not crowded," she said. It's not "Torture Lake."

Lakewood Knoll is served by city water and sewers. It's within the Howell school boundaries.

The property tax rate is \$20.18 per \$1,000 of state taxable value, half of sales price for new construction. That means that the owners of a \$500,000 house in the Hills there would pay about \$5,000 the first year.

The monthly association fee at the condos, which includes water, is \$95. The associationfee at the platted sub and projected for the Hills is \$100 initially, then \$50 per year.

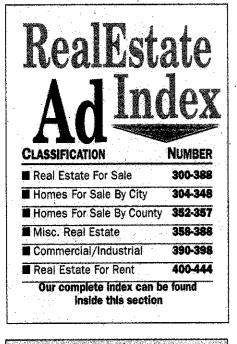

The sales office/ models at the condos, (517) 545-0600, are open noon to 5

p.m. daily, the platted sub, (517) 548-0020, noon to 6 p.m. Saturday through Wednesday, closed Thursdays and Fridays.

"A commitment to creating distinctive homes, and a longstanding promise of providing the finest communities in which to live." That is the mission statement that drives each and every home built by Triangle Development.

Heritage Meadows of Hartland is one of the latest communities being developed and built by Triangle Development. Conveniently located in Hartland Township, it is just seconds away from M-59 and US-23. Although close to major thoroughfares, the feeling of tranquility and beauty is unmatched by any other development. The sense of community is further perfected by the neighborhood's sidewalks, street lights, and protected open spaces. Heritage Meadows is located within the highly acclaimed Hartland school system, which offers many newly built facilities. Not only does the area create a sense of peacefulness, but it is also easily accessible to major freeways, shopping areas and restaurants.

In addition to developing a fine community, we offer tremendous value with each of the home plans specifically selected for Heritage Meadows. We have five unique floor plans to choose from, ranging in size from 1,500 s.f. to 2,400 s.f. and varying in price from \$189,900 to \$242,900. We are sure there is one that is just perfect for you!

Hurry in now to Heritage Meadows!!! We are located on Clark Road, on the north side on M-59, less than a mile east of US-23. This project has been very successful since opening last year and prices will be increasing on January 15, 2001. We still have many beautiful lots available, or you can choose from one of our spec homes for quicker occupancy.

Many creative financing programs are available that will make your payments more affordable than you may think. So come in now and purchase a home before prices increase! This truly is a magnificent community that you will be proud to call home!!!

## Sunrooms provide flexible space for changing needs

(IHIT)-With today's everchanging family, many new demands are put on the home.

From elderly grandparents joining the fold to college students who return home after graduation, to blended families with wide-ranging age gaps among children, the family has never looked so different.

On top of that, many household heads are earning their wages at least partly from

their home.

These changes are requiring more flexibility in the design and function of the home. One remodeling choice that is increasingly popular is the sunroom addition.

It meets the demands of the new millennium home because it is highly versatile and cost effective. Glass enclosures cost less than full construction additions and are wise choices

because their uses can evolve as the family does.

According to Patio Enclosures, Inc., today's family is putting sunrooms to good and creative uses.

#### We get letters

"We often receive e-mail from our customers telling us how the simple addition of a sunroom solved their unique family situation while adding a fresh look

to their home,' explains Rick Jones, president of Patio

Enclosures, Inc.an installer of custom sunrooms.

"During the holidays, we never seem to have enough room. We decided the most economical and appealing way to expand our home was to add a sunroom. Now I use the room as my home office - it's to fulfilling not to use everyday," says Dori Smedley.

"While my daughter and grandson are living with us, the sunroom has become a much needed respite from the additional commotion in the house now," says Ilene Jones.

"We added a sunroom for a family that practically lives on a runway. The enclosure became a personal aviation watchtower and a great place for family and friends to relax and observe," said Darrell DeVantier of DeVantier Construction, a Patio Enclosures Inc. dealership in El Paso, Texas.

From romantic spas and dining areas to playrooms and home offices, sunrooms are beautiful, airy rooms that can easily and cost effectively adapt to the changing demands on the home and family.

Sunrooms can be added onto a home, typically off the side or back. A more cost effective option is to convert an existing deck or patio into usable space. Solariums, the most dramatic sunroom style, are all glass

with a curved or angled roof and can be used year round. Three-season and year-round insulated rooms can have a solid gable or single slope style roof with glass roof panels for a view of the sky. All options add much-needed living space with uses that are as unlimited as the families who enjoy them.

Whichever options or style of sunroom you choose let your imagination enhance how you use your room. You can see many different styles of sunrooms by checking out the photo gallery at www. patioenclosuresinc. com or by calling (800) 480-1966 for a free booklet about sunrooms.

## Don't leave the door open to crime when you leave home

(NAPSA)-Thanks to a strong economy and ease of travel, nearly 45 million people hit the roads during the winter holiday season.

In other words, millions of homes, newer and older, were left empty, unsupervised and waiting for burglars. Each year in the United States, five million homes - one out of 10 - are burglarized. That's one every 13 seconds.

Because 90 percent of these crimes are preventable, Lowe's Home Safety Council suggests that you take some basic home security measures.

"In our survey, The State of Home Safety In America, we found that home security and crime prevention is an issue important to consumers," said David Oliver, executive director of Lowe's Home Safety Council. "However they need more useful information to keep their home safe from breakins.'

According to the safety council, homeowners can greatly reduce the risk of being burglarized by taking simple steps while spending a small amount of money.

#### Lock Up

Did you know that in almost half of all residential burglaries, thieves simply breezed in through unlocked doors or crawled through

from being lifted off the track, drill a hole through the slide door frame and the fixed frame. Then insert a pin in the hole.

■ "Pin" double-hung windows by drilling a small hole at a 45-degree angle between the inner and outer frames, and then insert a nail that can be easily removed in the event of a fire.

#### Who's at the Door?

Install a peephole or wideangle viewer in all entry doors so you know who is at the door before opening it.

All outside doors should be metal or solid wood. A good lock on a weak door defeats any effort to improve your locking system.

If your doors don't fit tightly in their frames, install weather stripping around them.

**Keeping Intruders Out** 

Look at your house from the outside and think about how you would break in.

Burglars avoid bright lights. Install outside lights and keep them

ment after dark. ■ Keep your yard clean. Prune

back shrubbery so it doesn't hide doors or windows. Cut back tree limbs that a thief could use to climb to an upper-level window.

■ If you travel, purchase timers that will turn lights on and off in different areas of your house throughout the evening. A consistently dark house signals an empty house.

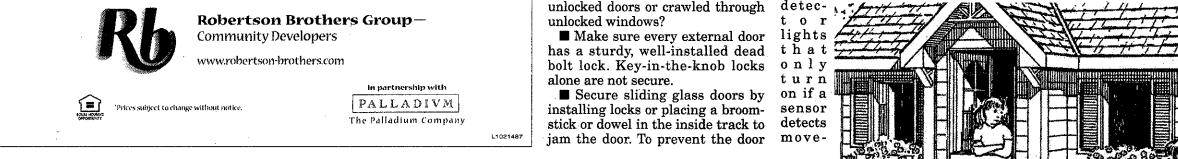

■ Manage your mail. Call the post office to stop delivery while you are on vacation or have someone collect it.

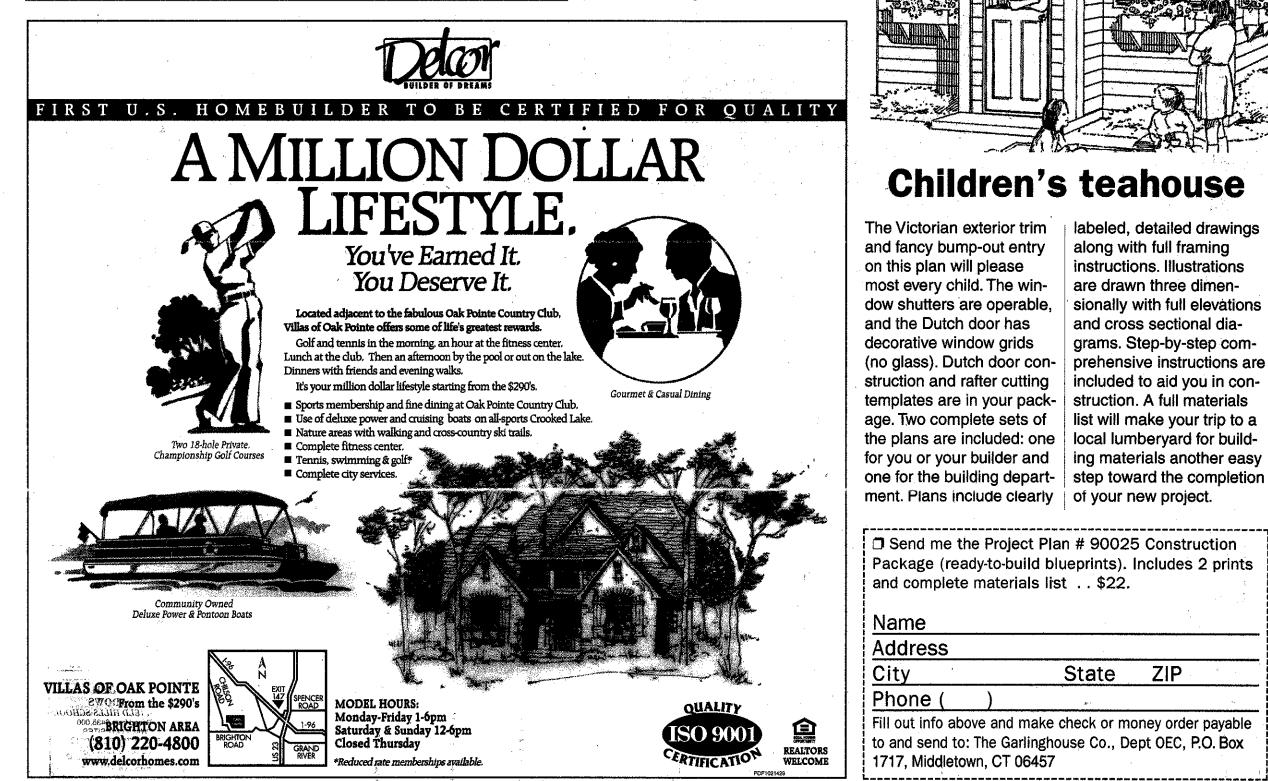

While home crimes are down slightly, you should still do what you can to protect your home.

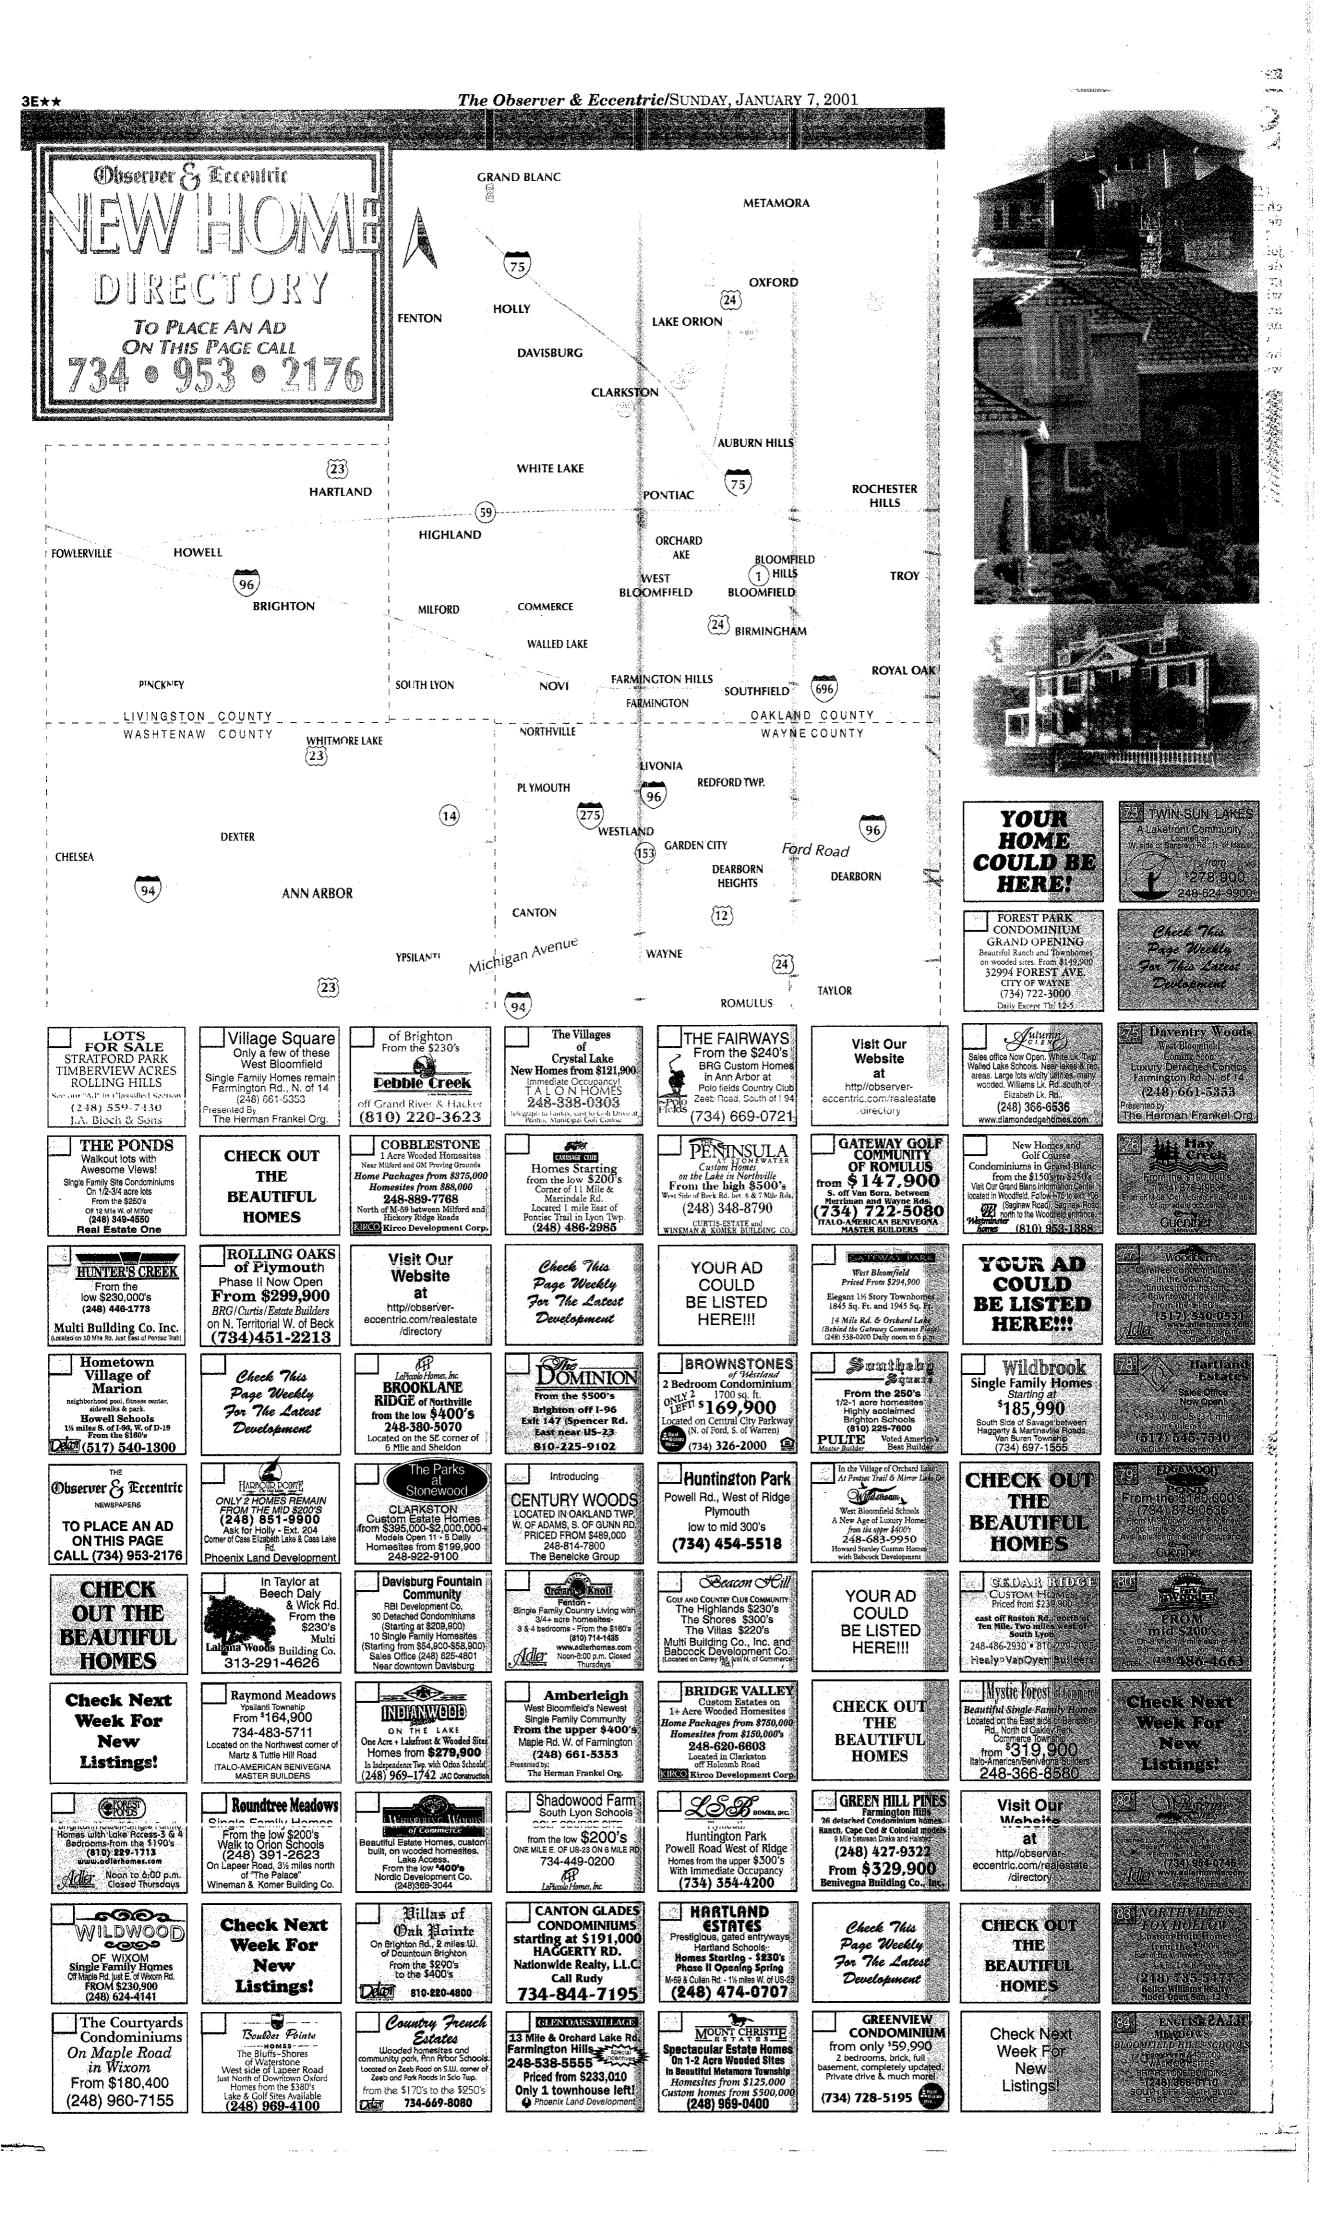

In fact, some security experts say the reason for this reduction in crime may be that Americans are more involved in home safety.

## Interesting angles highlight 3-bedroom ranch

Angles accent the shape of in the rear. the Rooks (407-14) and add to It has a the unique look.

Numerous windows and a large three-car garage provide a contemporary look for this 2,147-square-foot home.

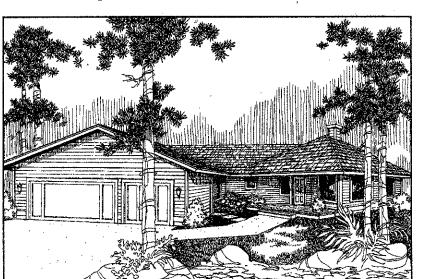

Entry into the Rooks opens into a large vaulted great room with a rear dining room, also vaulted. There is a center fireplace and many windows bathing the area in sunlight.

The dining room has a door that opens onto a verandah in the rear. The vaulted nook overlooks the verandah as well. The kitchen angles off the nook

It has a centrally located walk-in pantry, along with a center island containing the cook top and an eating bar. Over the double sink is a garden window, ideal for growing herbs or flowers.

The entire left side of the Rooks is dedicated to bedrooms and the utility room. Around the corner from the kitchen is a linen closet with a full bath across the hall.

Bedrooms 2 and 3 are adjacent to the master suite, which doglegs out on the rear of the home. Each bedroom has its

own wall closet and large windows. A hall closet for storage is located next to the closet for bedroom 3.

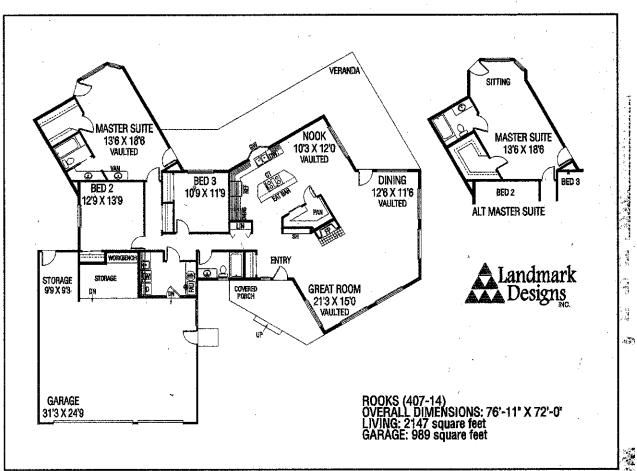

Down a hall between the two spare bedrooms is the master suite.

As it is laid out on the floor plan, it is vaulted with a vanity and single sink along one wall, extending into the tub room. Behind this area is a large corner walk-in closet. The windows form a bay with a door opening into the backyard. There is also another door that opens onto the verandah.

As an alternate plan, the bedroom would have full sitting room in the rear, a larger walk-in closet in the front, and a corner bath in the rear. This plan would no longer include the vaulted ceiling nor the vanity.

The utility is located across from the two spare bedrooms and is large in width. A door opens to the three-car garage, which has two separate storage areas.

One storage area has a workbench and could be used as a shop. The other storage area is ideal for keeping lawn mowers, tillers, or bikes, as it

is accessible through a door the backyard.

## Right tools, prep work make for good paint job

#### BY POPULAR MECHANICS FOR AP SPECIAL FEATURES

That new home won't always be new. Here are some tips on painting woodwork. Things we'll look at here include brushes, buckets, rollers and preparing the woodwork.

For quick touchups, use a small, inexpensive foam brush. Avoid the wide foam brushes because they tend to drip when loaded with paint.

Consider brush shape when you're buying your supplies. A sash brush with its bristles cut at an angle is designed for painting thin areas and getting into hard-to-reach corners. It's

your best choice for cutting in (painting up to a line) and painting windows. A square cut brush is best for painting door panels or wide trim. Brushes with a long pencil-style handle give you a good grip and provide balance.

You should own at least three brushes: a 1-inch and a 2 1/2inch sash brush and a 2 1/2inch straight brush. Buy the best brushes you can afford. Properly cared for, they will last indefinitely.

You can use a paint roller to work wide sections. such as flat doors. Use a roller with a nap length recommended on the naint can.

Open paint cans by prying around the lid with a wide-tip screwdriver. Pour the paint into a paint pail or a clean paint can and stir it to make sure it's evenly mixed. You can pour some of the paint back into the paint can and work out of that, or work out of the pail. If you use the can, don't fill it back up right to the rim.

It's a messy and inefficient way to work. Also, puncture the lid of the can in several places using a 4d finish nail to help drain the paint back into the can.

In preparing the woodwork, keep in mind that paint sticks better to a dull surface.

One way to remove its gloss is with a chemical solvent deglosser. Rub on the deglosser with a clean rag. This is strong stuff, so allow plenty of ventilation.

You can also use 120-grit sandpaper with a sanding block or an electric palm sander to dull a surface or smooth out chipped areas. Feather rough areas smooth.

Remove several layers of deteriorating paint with heat guns or chemical strippers. Your paint store should have a variety of these strippers, among them low odor and water-soluble types. Stripping is a messy job, so protect the

floor and surroundings with a dropcloth. Wear old clothes and protective glasses.

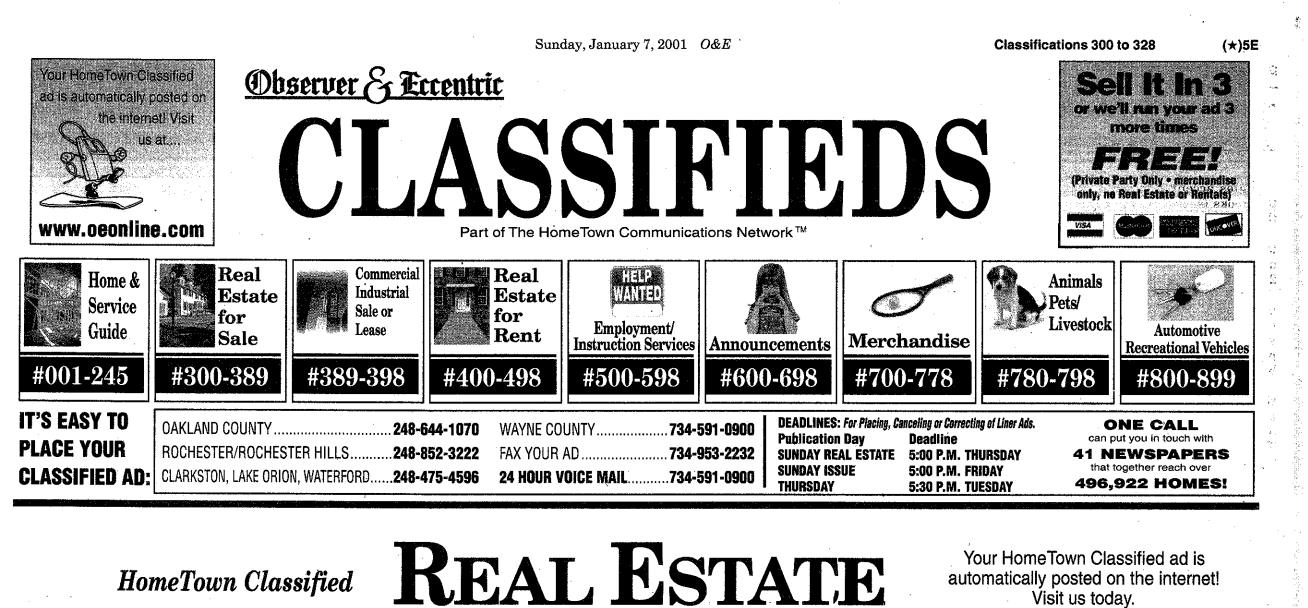

Let the gun heat up and hold it about a foot from the paint. When the finish bubbles up, scrape it away with a paint scraper. Move the gun slowly forward, and you can keep the paint hot without burning it. Keep a fire extinguisher handy when using a heat gun, and never set it down on a flammable surface.

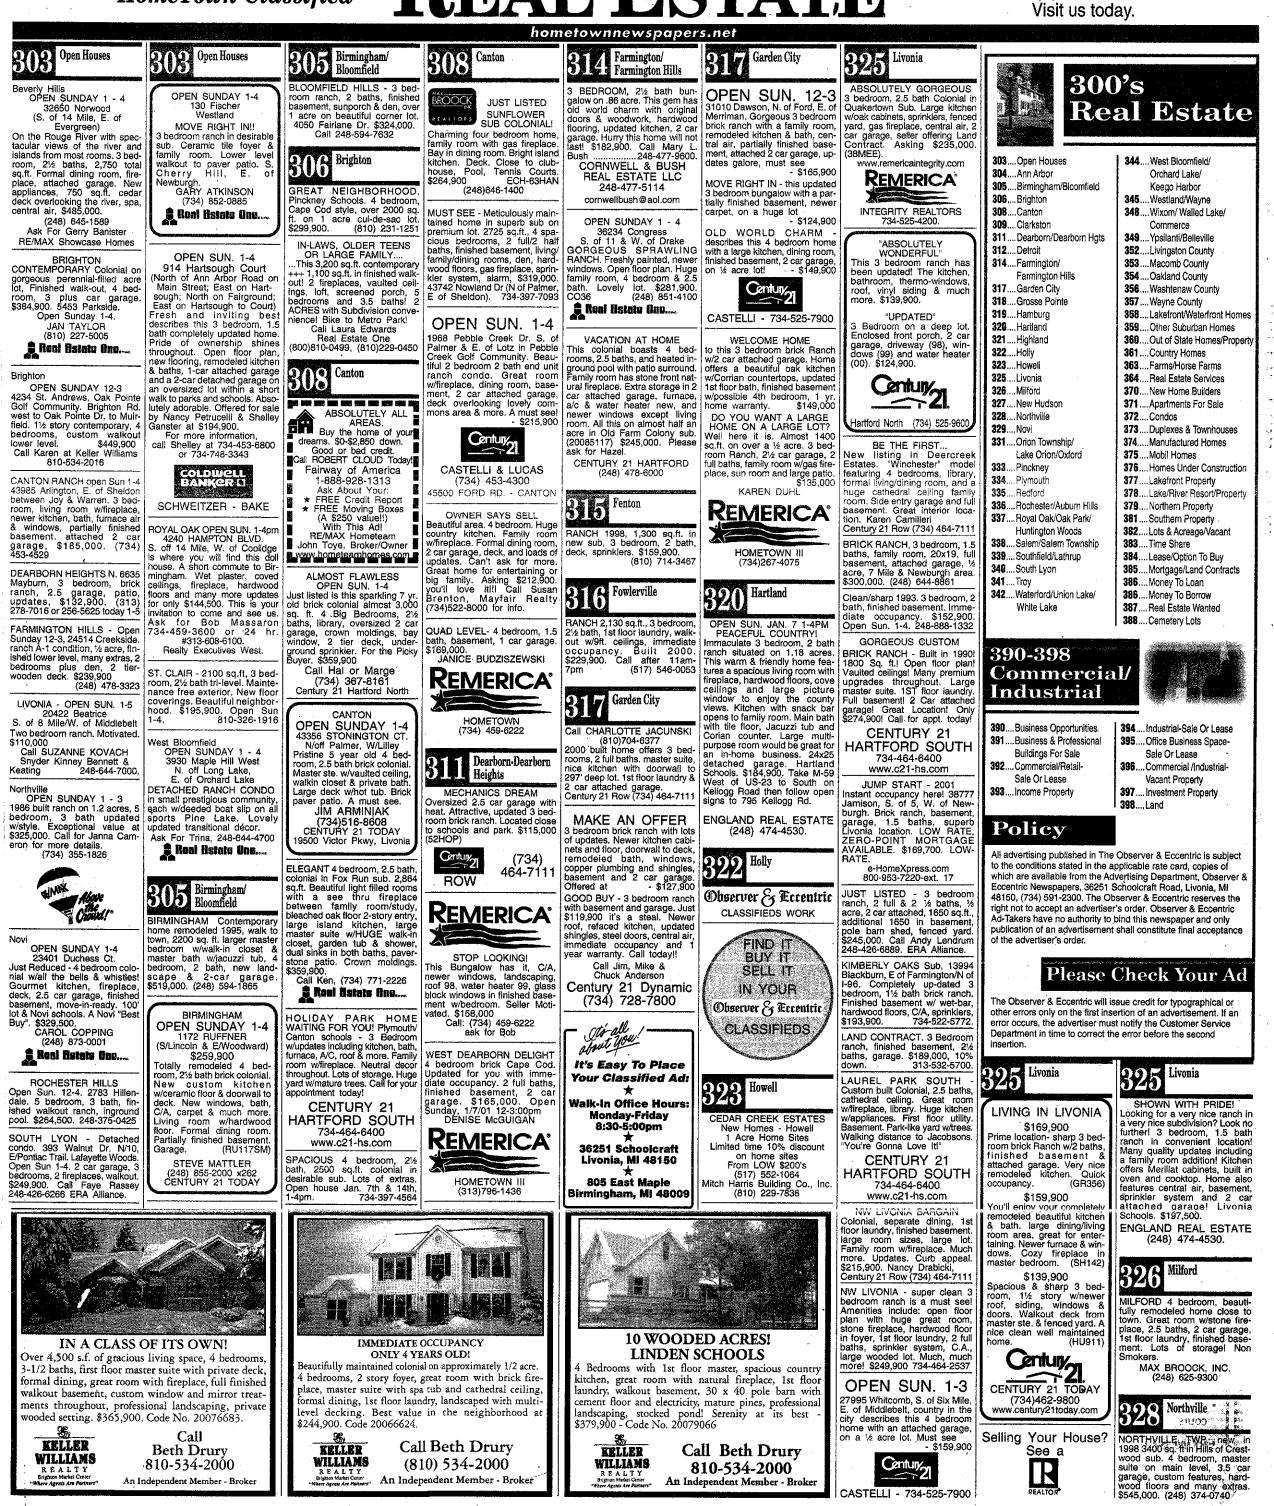

Apply chemical strippers with an old paintbrush. When bubbles appear, use a scraper and steel wool to remove it. Clean off the residue on the scraper using the sides of a sturdy cardboard box. A second application is often required. Let the surface dry, then sand lightly.

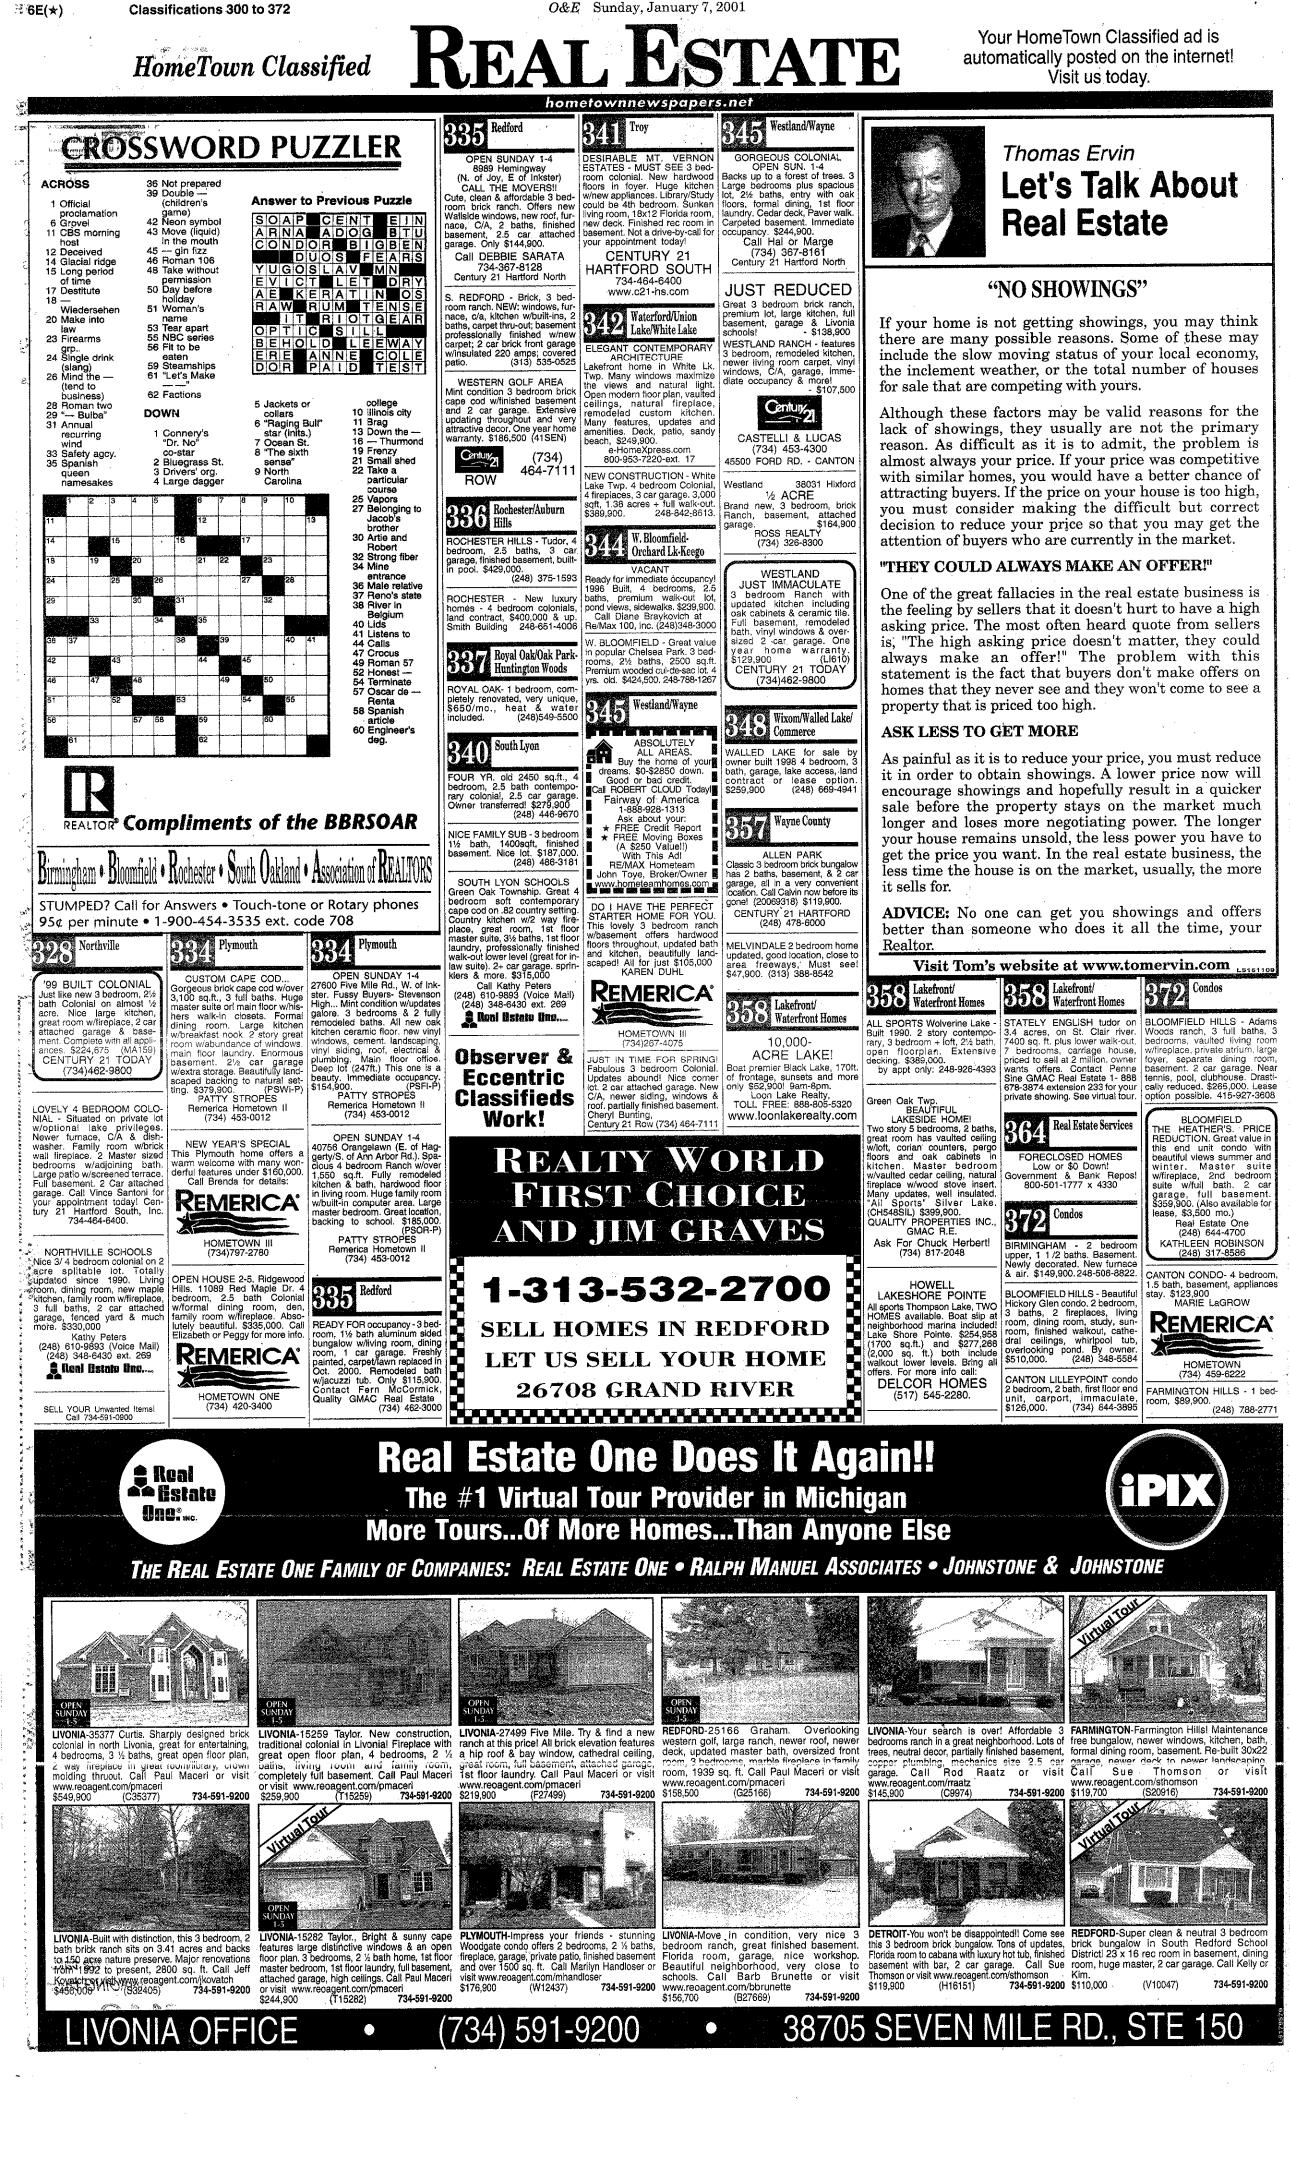

Most trim has some cracks and holes in it that should be filled with spackle or wood filler before applying paint. Spackle, premixed or 2-part fillers are applied with a small putty knife. Just overfill the hole or crack, smooth the filler and let it dry. Sand the filler flush, and its ready for paint. You might have to use two coats on large repairs as some fillers shrink.

to protect Good job: Scott Schneider of Plymouth, 15, bags groceries at Hiller's Market on Five Mile and Haggerty in Plymouth Township, young workers where he works part-time after school.

BY DIANE GALE ANDREASSI SPECIAL WRITER

cott Schneider, 15, works as a grocery store bagger with visions of buying a car someday.

He's among a legion of kids 14 to 16 years old who launch their employment career early. State guidelines are in place to make sure they're treated with special care considerate of their tender age

"I wanted to make some money so I could get a car," explained Schneider who has worked for six months at Hiller's Market in Plymouth.

Two months from getting his driver's license, Schneider said, it's been tough trying to save money. He plans to pay for his dream vehicle on a monthly basis.

A strong student at Plymouth-Salem High School, Schneider said, the work doesn't get in the way of homework, but it does cut into his social life. He works 16 hours a week.

"Every time I want to do something, I have to say: 'Wait, I have to work," Schneider lamented.

His advice to other young people considering a job is: "Stick to it and it always pays off when you get enough money even though you get sick of being there all the time."

Schneider and anyone else under 18

in Michigan is required to have a work permit. It's difficult, however, to track how many 14 to 16 year olds actually hold

jobs in the state, according to Maura Campbell, spokesperson for the Michigan Department of Consumer and Industry Services.

"It changes a lot," Campbell said. "Kids take a job and leave a job."

She stressed, however, that these young workers need to be treated differently than the rest of the work force.

"We get adults everyday who call in and say I didn't get a break," Campbell said. "Unless they're represented by a union, there are no rights set by law. It's set by you and your employer."

Young people, however, are required to get breaks; must not be left to work alone and have other considerations afforded to them set by the Youth **Employment Standards Act.** 

They're banned, for instance, from taking certain hazardous jobs, like working on scaffolding or operating power machinery.

"The primary thing that most people need to be focused on is education and that they are young and growing and need protections," Campbell said. "The number one challenge that we have is making parents aware that there are specific laws pertaining to young people and work and that this really needs to be a partnership between the parents, the school and the state."

Today, the challenge is that there are more jobs available than ever before and the chances of a young person having more than one part-time job increases. This also raises the likelihood of exceeding the number of hours allowed for a young person to work.

"There's a temptation for ambitious kids who want to make a lot of money and they're working a lot of jobs," she added. "It starts with the parents and being aware of what our kids are doing, asking questions and making sure that their employer is following the law, not putting the students health in jeopardy and making sure they have supervision," Campbell said.

While there are jobs for kids younger than 14, like working as a golf caddy and in some agricultural positions, 14 is usually considered the magic age of becoming eligible for getting on a company's payroll.

Brad Whetstone, regional supervisor of Hiller's Market, likes to meet with a potential young employee a few times before he actually hires that person.

They fill out the application, he has them return with work permits and other information to make sure they're committed to taking on the responsibility of holding a job.

Employees 14 to 16 are delegated to pack groceries, retrieve shopping carts, light janitorial work and customer assistance.

But developing a work schedule for these busy kids can be challenging. There are 18 young employees working in the Plymouth store.

"They're minors," he said. "They have a lot of family requests and a lot of things they have to do with families,

State law sets the following guidelines:

(**★**)1G

AGE OF EMPLOYMENT Minimum age of employment for most jobs is 14 years of age.

A youth 11 years of age or older may be employed as a golf caddy, bridge "caddy" or youth athletic program referee. A minor 13 years of age or older may be employed in farming operations involving corn detasseling, hoeing, or similar work involved in the production of seed or as a trap setter for sporting clay shooting.

WORK PERMITS

Teenagers must have a work permit or training agreement, unless employed as a corn detasseler or exempt from the Youth Employment Standards Act, before starting work. The employer completes the intent to employ portion of a work permit, listing the teenager's name, occupation, hours of work, and rate of pay. The teenager must get his or her school district's approval and return the work permit to the employer before starting work.

Exemptions: The work permit, hours and hazardous work regulations do not apply to:

A 16/17 year old minor that has completed high school. A 17 year old minor that has

passed the GED test. An emancipated minor (e.g., a mar-

ried teenager).

Employment under a contract between the employer and school board (a co-op student).

Employment in a business owned and operated by the parent.

Work on a farm planting, cultivating or harvesting crops or tending livestock

MINIMUM WAGE

Covers employers who employ two or more persons 16 years of age or older. (Federal law covers employees 14 or older who make goods for sale out of state or employees of businesses that earn over \$500,000 per year. The minimum rate is the same for covered employees under state and federal law.)

Provides a minimum hourly rate of \$5.15.

Provides an hourly training wage

school and so on. I have to be extremely flexible and I am. I have them write me notes with requests.

"The excuses run the gamut, like, 'My mom won't let me work past 9 p.m.' and 'My dad won't let me work weekends," Whetstone said adding that he always looks for workers with a good attitude.

That's exactly what Sue Riley, day manager at Bates Hamburgers in Livonia, wants to see in young people who apply for jobs.

Usually she hires people under 16 for clean up jobs. She always has to keep in mind that they come to her with absolutely no experience.

"They don't have the work habits there," Riley said. "They all need guidance. Some put a little more effort into the jobs and others don't.

Appearance means a lot, too.

"Sometimes they come in and want to do more than what the job is," Riley said. "If they're involved in sports after school that causes a problem with scheduling and they should be up-front when they come in to apply. A lot of places can work around that and other places it's more difficult."

Parents who are interested in taking an active role in their child's employment should talk to the school counselor and call the Michigan Department of Consumer and Industry Services Wage and Hour Division to learnif a perspective employer has a good employment history. That number is (517) 322-1825. of \$4.25 to employees age 16-19 for the first 90 calendar days of employment.

Guidelines from page G1

■ Provides a minimum hourly rate of \$2.65 to tipped employees if the amount of tips received plus \$2.65 equal the minimum wage rate.

■ Provides an overtime rate for employees of 1-1/2 times the regular rate of pay.

TYPES OF WORK

Teenagers can be employed in jobs that are not hazardous.

TEENAGERS CANNOT BE EMPLOYED IN THE FOLLOWING OCCUPATIONS:

■ Vehicle drivers (e.g., pizza delivery) and work as an outside helper on a vehicle.

Construction site work involving new construction, excavation, street, highway, bridge construction or demolition.

Cccupations using lead paint, lead solder, varnish, or hazardous chemicals, cleaners or solvents.

■ Slaughtering, butchering, and meat cutting.

Operation of elevators, hoisting equipment, and power industrial trucks.

Occupations using power driven equip-

ment, tools, and machinery (e.g., power saws).

• Occupations involving the use of power

operated food processing machines (e.g., mixers, meat slicers).

■ 14- and 15-year-olds cannot use ladders, scaffolding, or their substitutes, or operate power driven lawnmowers.

■ 14 and 15 year olds may not work in occupations involving brazing, welding, soldering, heat treating, ore reduction, and casting metals.

Teenagers may be employed in a business where alcoholic beverages are sold or consumed if the sale of food or other goods is at least 50% of the total gross receipts. 14- and 15-year olds cannot work in the part of the business where alcohol is consumed.

■ 16 and 17 year olds may do construction work under special, approved conditions.

■ Minors must be supervised at all times by a person that is at least 18-20 years of age.

HOURS AND BREAKS Combined hours of school and work cannot

exceed 48 hours in a week. Work cannot exceed 48 hours if the minor is not attending school.

■ Work cannot exceed 6 days in a week, 10 hours in 1 day, and an average of 8 hours a day for the week.

■ 14- and 15-year-olds can work between 7

a.m. and 9 p.m., outside of school hours. (Federal law is more restrictive and may apply to some businesses.)

■ 16- and 17-year-olds can work between 6:00 a.m. and 10:30 p.m. during the school year and 6:00 a.m. to 11:30 p.m. during the summer. Special approval may be applied for if longer hours are needed.

A minor cannot work more than 5 hours without a meal or rest period of at least 30 consecutive minutes.

■ Special hours apply to agricultural processing and corn detasseling.

PAYMENT OF WAGES

■ Wages should be paid on a regular basis. An employer can pay weekly, every two weeks, bi-monthly or monthly.

An employee that quits or is discharged must be paid on the regular payday following termination.

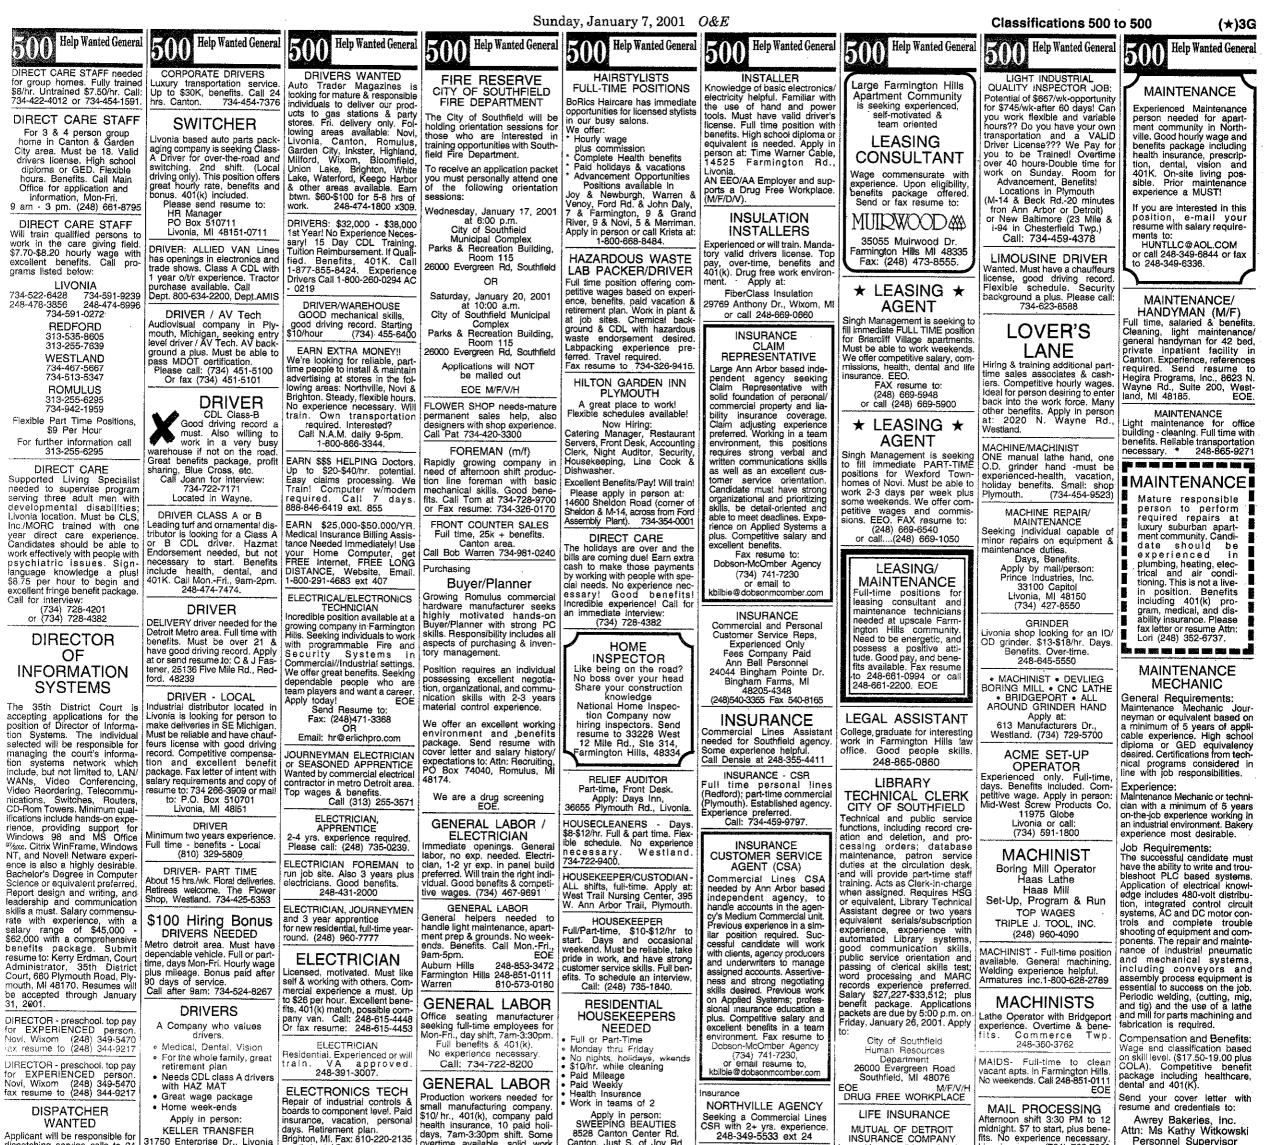

Deductions other than those required by law (income tax, social security, garnishments) require a voluntary written authorization.

Fringe benefits (holiday, vacation or sick pay) earned pursuant to a written contract or policy must be paid according to the terms of the contract or policy.

# Kion concept car debuts in this year's auto show

# BY EILEEN MCCARVILLE STAFF WRITER

he new Kion has enough gadgets to make anyone exclaim, "What a concept!" That's exactly the right word for it. The Kion is one of 34 concept vehicles premiering at this year's North American International Auto Show, which begins Saturday at Cobo Center in Detroit. The Kion was unveiled in October, at the Mondial de l'Automobile show in Paris.

"This is its North American debut," said Debbie Lacey, communications specialist for Johnson Controls, a global automotive interior supplier with its world headquarters in Plymouth. The company developed and designed the car in Europe.

Most of the concept vehicles will be available for public viewing, said a spokesperson for the auto show, although the Kion will be housed in a private room, for by-invitation only showing. Access is limited because the Kion is advanced technology and a prototype, Lacey said.

"We're actually the only complete interior supplier that exhibits at the show. We're really selling our interiors as opposed to a vehicle," Lacey said, adding that other concept cars at the auto show are displayed by automobile manufacturers.

Nevertheless, the Kion could become the car of the future.

The concept vehicle is designed to "blur" the lines between car and home, with Internet service, video games, TV, telephone and more. According to Johnson Controls, the goal is "enhanced comfort, functionality and flexibility" for small to mid-size vehicle users.

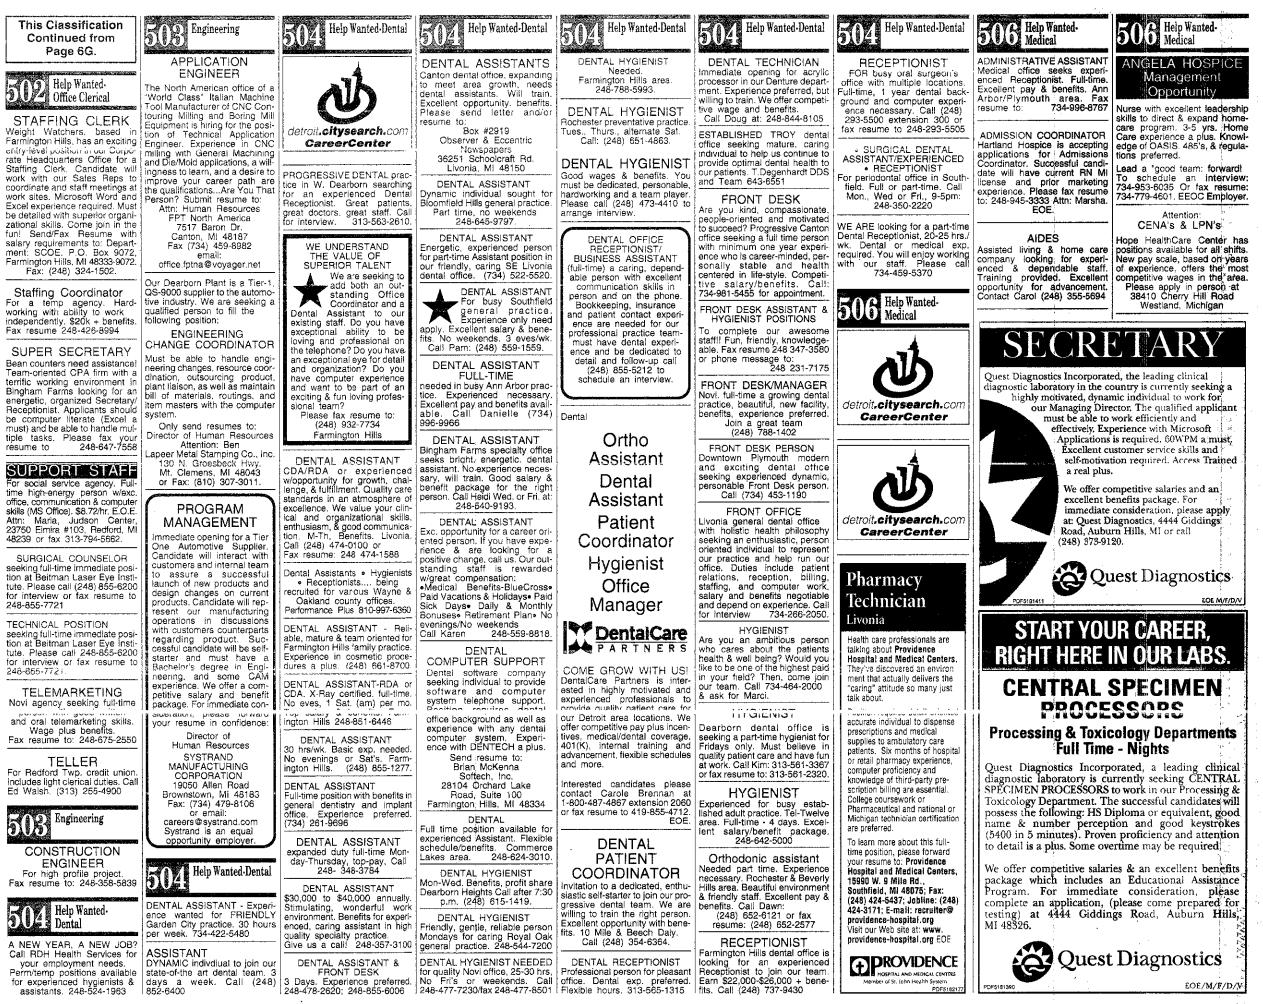

The company conducted extensive research, including polling its European users on what they most want to do in their cars. It also eyed the future, considering tomorrow's society will be more fastpaced than ever. Thus, the Kion is an extension of the home or home office. It suits the needs of global networkers, or those who simply want to relax while traveling, as sort of a "mobile home."

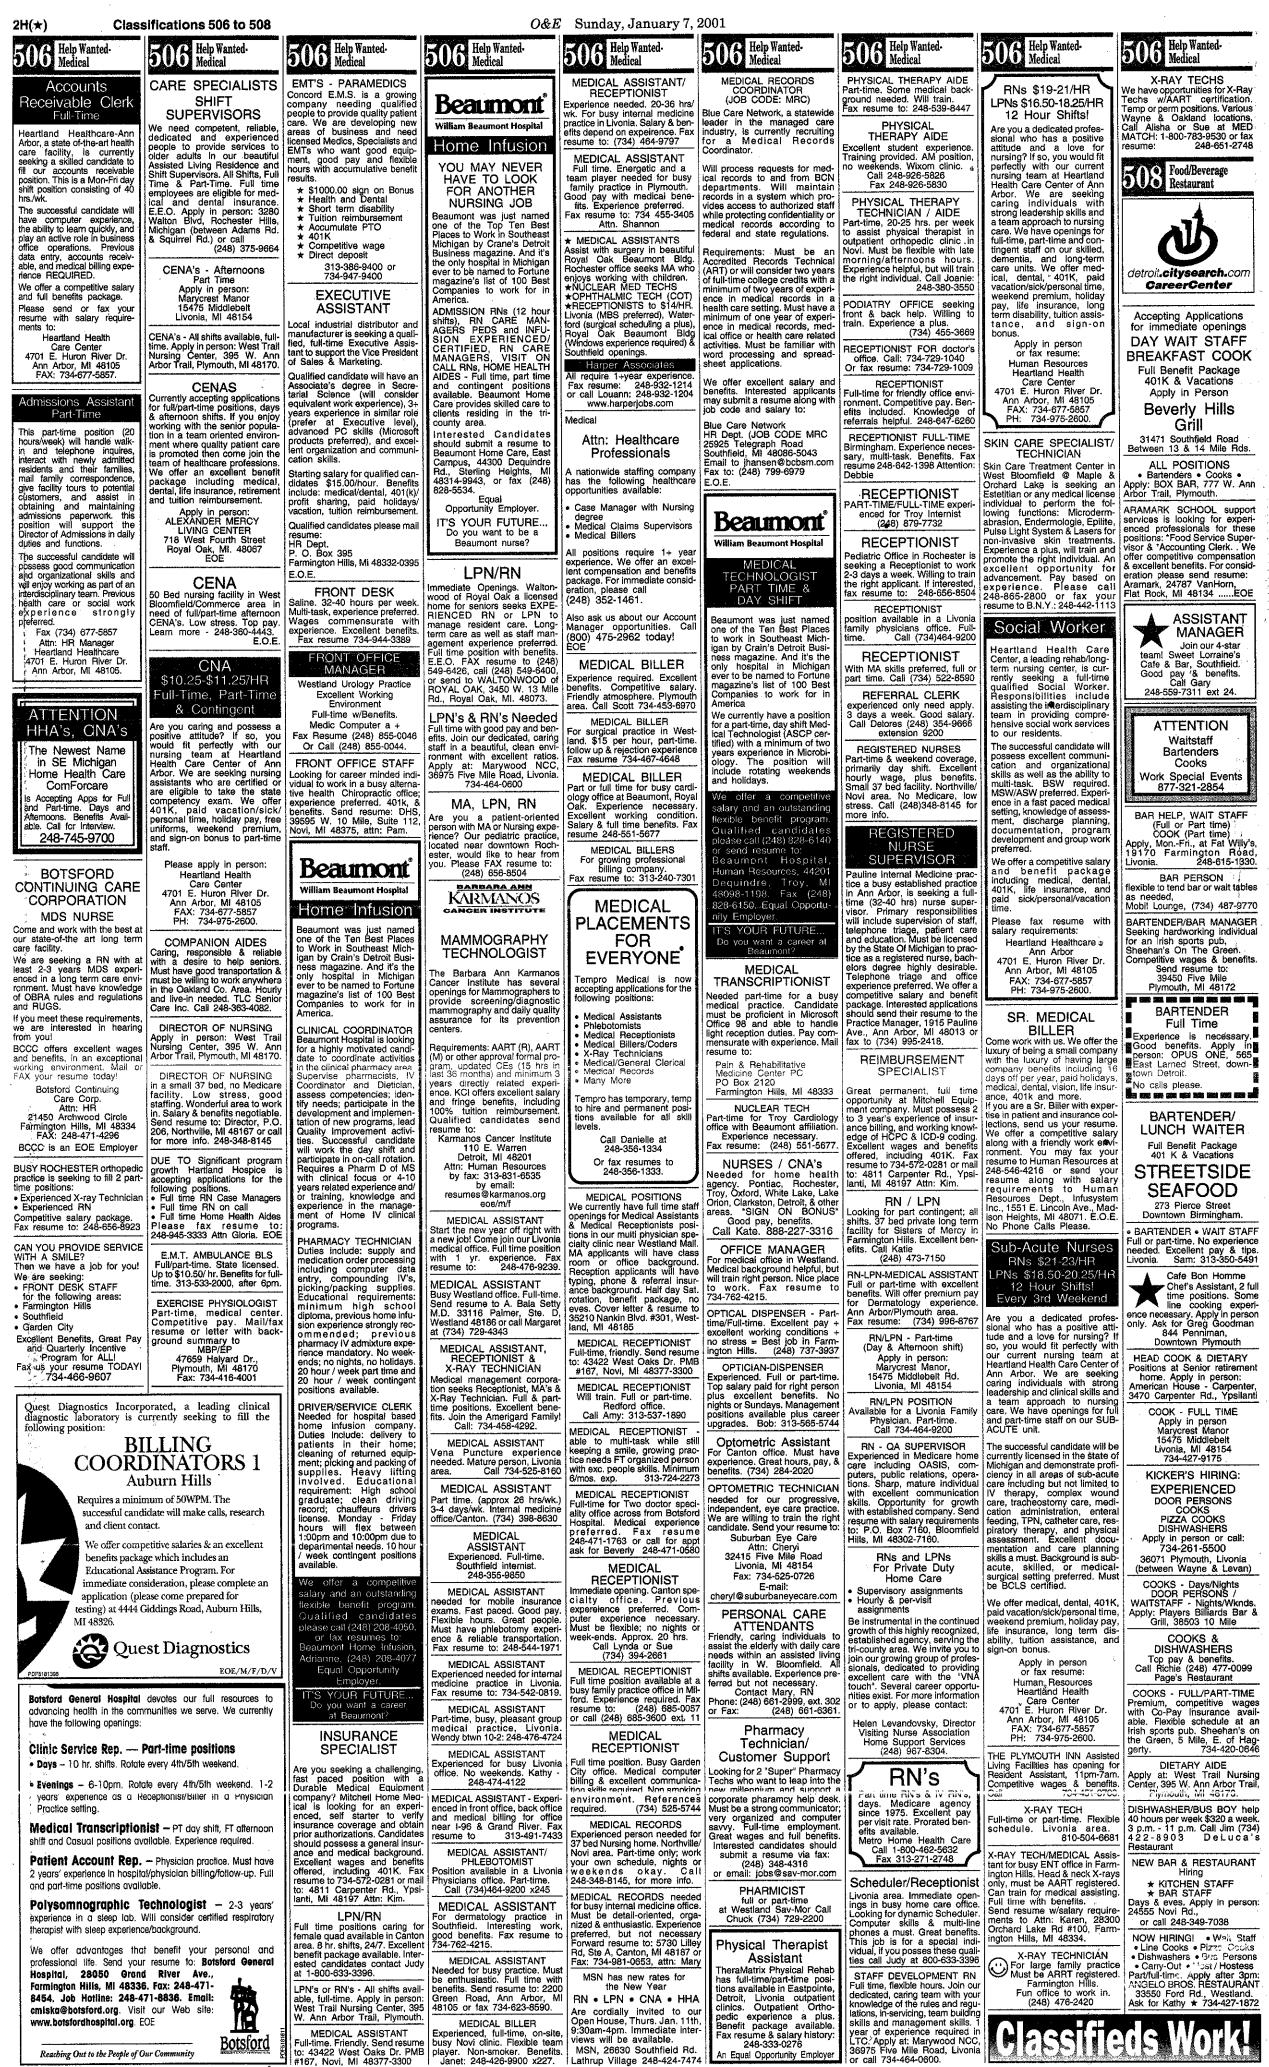

"We have investigated how people will live, workand spend their leisure time and used these insights to create Kion," said Thomas Patzelt, general manager of product business development for Johnson Controls. "We developed a concept car interior which we believe will meet both the fundamental requirements and desires of consumers in the near future."

What's most unique about the Kion is its "coffee table" concept, which acts as the social and electronic hub of the car — a veritable living room with a curved, back-seat "sofa" and lighted pillars in each corner which resemble living room lamps.

Each of the four infotainment system communication pillars --- located to the left and right of the instrument panel and on the sides of the rear seat create links inside the car and to the outside world. Each pillar is equipped with a display monitor, microphone, loudspeakers, laptop computer and electronic notepad connection ports.
