It took awhile, but Plymouth Salem's softball team found its stroke in the final two innings as it dispatched of host Livonia Stevenson 5-2 in a Western Lakes Activities Association Lakes Division game Friday.

The win, the Rocks' fourth in a row, boosted their record to 6-3 overall, 3-0 in the division. Stevenson is 4-5 overall, 1-2 in the division.

The Spartans got three of their five hits in the game in the first inning, and it resulted in both their runs. Amy Hollandsworth doubled over Salem center-fielder Kelly Jaskot's head and went to third on Julie Vecchioni's single. Amanda Jankowski's fielder's choice put runners on second and third; one run scored on Lindsay Hollandsworth's sacrifice fly and a second came home on Debbie Gaiesky's single.

It remained a 2-0 game until the sixth inning, when Salem struck for four runs. The key blow in the rally came from Maggie Tudor, who doubled in two runs. Alicia Murawski, who had two hits in the game, and Janesse Chapman added run-scoring singles in the rally. Chapman knocked in the fifth run with a seventh-inning double.

The Rocks' Mandy Bradley was 3-for-3 at the plate with a double.

Jill Posler got the pitching win, allowing two runs on five hits and two walks, striking out two in seven innings. The loss went to Vecchioni, who surrendered all five runs on nine hits and two walks, with two strike-

"It was a great week," said Salem coach Bonnie Southerland, whose team also got wins over Plymouth Canton and Westland John Glenn, "but next week is going to be a really difficult week with North Farmington, (Walled Lake) Western and (Walled Lake) Central."

Churchill 2, Canton 1: Livonia Churchill scored twice in the first

inning off Plymouth Canton starter Michelle Roelofs, and that was all Chargers' ace Meghan Misiak needed to subdue the Chiefs in a WLAA Western Division showdown Friday at Canton.

Churchill stayed unbeaten, improving to 9-0 overall, 3-0 in the division. The loss left Canton at 4-3 overall, 2-1 in the division.

The Chargers got their first-inning runs on a double by Sally Kuratko, a

walk to Sarah Pernak and a passed ball that allowed them to move up to second and third. Sarah Carter's fielder's choice scored one run and Ashley Crawley's sacrifice fly scored the second.

Canton retaliated in the fourth inning with a run, Jonelle Brown doubling in her team's only run.

Canton offense crushes Churchill, 10-3

After a slow start, Plymouth Canton got its bats going, eventually pounding out a 10-3 victory at Livonia Churchill in a Western Lakes Activities Association Western Division baseball game Friday.

The win gave Canton a 9-4-1 overall record, 2-1 in the division. Churchill is 4-6 overall, 0-3 in the division.

The Chiefs trailed 2-0 entering the fourth inning, but struck for three runs in the fourth and added three more in the fifth. Andy Howald's two-run single was the key blow in the fourth-inning rally; Mark Hanson started things off in the fifth by clubbing a solo home run.

Hanson also had a triple, finishing with three runs batted in. Matt Staley was 3-for-3 at the plate with two doubles and two RBI, Joe Kondratek had two hits (including a double) and an RBI, Nick Musselman had a double and an RBI, Matt Kay and Brent Kwiatkowski each had two hits, and Chris Pirch had two hits and two runs scored.

Brad Proemba led Churchill with two hits; Tim Knight added a single and an RBI.

Carl McDevitt. Musselman pitched 5 1/3 innings, allowing one run on two hits and two walks, striking out seven.

The loss went to Jim Krygowski, in relief of starter Jon Morairty.

Stevenson 7, Salem 5: Pitcher Billy Rabe ran his record to 4-0 with a four-hitter as Livonia Stevenson (6-2 overall, 3-0 in the WLAA's Lakes Division) downed host Plymouth Salem (7-5 overall, 1-2 in the division) in a WLAA-Lakes Division game.

Rabe struck out four over seven innings. Salem starter Neil Kowalik, who went four innings, took the loss.

Stevenson built a 4-0 lead, by Salem battled back to tie it with a four-run fourth inning. Andy Thackaberry singled in one run, another scoring when the ball got past the Spartan outfielder. Andy Boyer followed with a two-run homer, tying the score.

But Stevenson got one run in the fifth and added

two more in the sixth to open up a 7-4 lead. Kowalik and Jon Gordon singled in the sixth, with Thackaberry's sacrifice fly scoring one run, but the Rocks could draw no closer.

Bill Marsack led the Spartans with two hits and an RBI.

Agape 6-11, St. Agatha 0-5: Canton Agape Christian swept a double-header from Redford St. Agatha Friday at Griffin Park, David Donaldson's one-hitter in the opener providing the spark for the Wolverines.

Donaldson walked three and struck out six in earning the victory.

Agape had two-run innings in the fourth, fifth and sixth innings. Josh Anthony led the attack with three hits (including a double) and one run batted in; Johnny Estrada and Matt Ratcliff each had two hits, Estrada knocking in a run, and Rob Hough hammered a two-run double in the fifth.

In the second game, Agape improved its record to 7-4 behind a 14-hit attack. Mike Bommerito got the

Injured knee won't deter Wisniewski

He sat there at the top of the bleachers, somewhat separated from everyone else, watching a game he wished he was playing.

Baseball was the only high school sport James Wisniewski could compete in. And he was very, very good at it — good enough that the Plymouth Canton coach he played for for the previous three seasons, Scott Dickey, thought he could generate "three or four more runs for his team a game." By himself.

And yet, baseball was just a sport Wisniewski played for the heck of it. It wasn't his sport.

His sport is hockey.

Wisniewski signed with the Plymouth Whalers two years ago. He has been considered an outstanding talent ever since, his stock as a 5-foot-11, 187-pound defenseman rising game by game. In his first season, Wisniewski totaled six goals and 23 assists for 29 points; last season, he had 11 goals and 25 assists for 36 points, and his plus-39 rating was best on the team and among the best in the Ontario Hockey League.

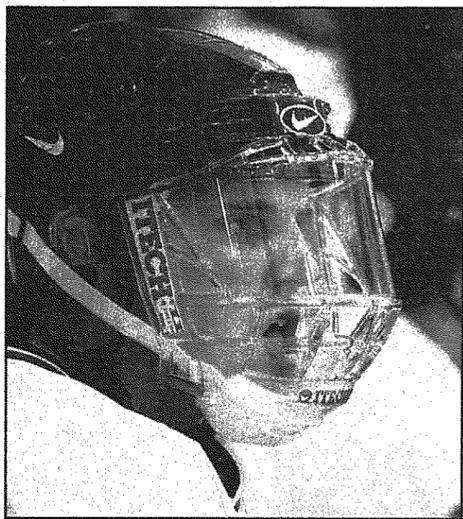

But those are just stats.

Also consider the Whalers' team Wisniewski played for was the OHL's regular-season champion the past two seasons.

Highly-regarded

Those factors all seemed to point toward a high position for Wisniewski in this June's NHL draft. Even when the Whalers were shocked by the London Knights in the first round of the OHL playoffs, Wisniewski seemed safe. After all, the day after the Whalers' season ended, he was contacted by the coach of the U.S.'s under-18 team.

"Coach (Alex) Roberts told me, 'They want you bad,'" Wisniewski recalled. Two days later he was on

a flight to Slovakia, site of the under-18 World Championships.

"I thought I was going to be playing baseball (for Canton)," Wisniewski said. "I was looking forward to it. But this is the most scouted tournament before the NHL draft."

In other words, he had to make the trip. In his third tournament game, against Finland, after U.S. victories against the Ukraine and Belarus, it happened — any athlete's most terrifying nightmare came to pass for Wisniewski.

■ **'It was in the second period. Two guys fell on me and hyperextended it. I knew it was something bad right away.'**

*James Wisniewski
Defenseman, Whalers*

"It was in the second period," he recalled. "Two guys fell on me and hyperextended it. I knew it was something bad right away."

Wisniewski had injured the anterior cruciate ligament in his right knee. "When I went off the ice, the team doctor told me my ACL could be torn," Wisniewski said.

When he returned home, doctors confirmed those fears. Wisniewski will undergo surgery later this week.

Injured, but determined

What timing. A senior at Canton, Wisniewski was left watching Canton's baseball team battle Salem's from the bleachers instead of the dugout. He sat in the stands calling the pitches — "It'll be a curve" — instead of swinging at them from the batter's box.

"I was going to quit baseball after this season," Wisniewski said. "So it's pretty disappointing."

So is going into what should have been the best part of his high school career — graduation — on crutches. But all that pales by comparison to what

Crusaders split twinbill with Saints

Madonna University's softball team let one get away Thursday.

The Lady Crusaders gave up two runs in the top of the seventh inning in Thursday's first game against Wolverine-Hoosier Athletic Conference rival Siena Heights and lost 4-3. They rebounded in Game Two, making two first-inning runs stand up for a 2-1 victory.

The double-header split left Madonna at 20-22 overall, 12-12 in the WHAC. Siena Heights is 15-26 overall, 9-18 in the conference.

A three-run fifth inning in the first game gave the Crusaders a 3-2 lead. Arin Fowler

COLLEGE SOFTBALL

had three hits in the game and Emily Cunningham had two (including a double). Jamie Bobrowski had a single and a run batted in.

Missy VanDoorn took the loss for Madonna, allowing four runs (two earned) on nine hits and two walks, striking out four in seven innings as her record slipped to 12-10. Emile Ondrus was the winning pitcher for the Saints; she gave up three runs (one earned) on seven hits and three walks with

two strikeouts in seven innings. Her record is 3-8.

In the second game, Jenny Tenyer handcuffed Siena Heights with her second sterling effort in a row, tossing a two-hitter — two days after beating Spring Arbor with a one-hitter. She gave up one unearned run and no walks, striking out four. Her record improved to 8-12.

Jamie Rennert absorbed the defeat for Siena Heights, lasting just one inning and allowing two runs.

Cunningham had a double and an RBI to lead Madonna's offense.

Spring Arbor finishes off Madonna in restart

Maybe this one should have just been left as "incomplete."

Finishing it certainly did nothing for Madonna University's baseball team, which trailed 7-3 when its game against Spring Arbor was suspended in the top of the sixth inning by the weather April 12.

The Crusaders managed to add a run to their total in the bottom of the sixth and pull to within 7-4, but three Cougar runs in the top of the seventh made the deficit too large to overcome as Spring Arbor won, 10-4 Thursday at Livonia's Ford Field.

COLLEGE BASEBALL

Madonna is 16-19 overall, 9-9 in the Wolverine-Hoosier Athletic Conference. Spring Arbor improved to 18-19 overall, 9-11 in the WHAC.

The Crusaders managed just six hits in the game, two of them (one a double) by Sterling Mintzer, who also had a run batted in. Neil Wildfong (from Plymouth Canton) and Joe Pruchnik (Lutheran Westland) each

had a single and an RBI.

Cory Parrott and Jason O'Neal were the big guns for the Cougars, collecting three hits and three RBI apiece.

Roy Rabe (Livonia Stevenson) started and took the loss for Madonna, falling to 1-3. He worked five innings and surrendered seven runs (five earned) on nine hits and two walks, striking out five. The win went to Jamie West; he gave up three runs (two earned) on five hits and three walks, fanning three in five innings for Spring Arbor.

Canton scores 1-1 draw with Northville

After getting blanked by Livonia Stevenson two nights earlier, the outlook for Plymouth Canton's soccer team was bleak entering Wednesday's match against second-ranked Northville.

But the Chiefs responded, limiting the Mustangs to just one goal and scoring one themselves to earn a 1-1 draw in a key Western Lakes Activities Association match played at Canton.

The result meant Canton and Northville could end up tied for first in the Western Division. The Chiefs are 3-2-2 overall; both teams are 1-0-1 in the division.

Rachel Perry got Canton's goal. Northville responded with a goal by Lindsay Miglio.

Salem 0, Farmington 0: Last Monday, Plymouth Salem forced its match against Westland John Glenn to be stopped prematurely after the Rocks

SOCCER

had put 10 goals on the board.

On Wednesday at Farmington, they couldn't get anything going in a WLA Lakes Division scoreless draw.

"It was kind of an ugly one," admitted Salem coach Joe Nora, his team at 2-1-3 overall, 2-0-1 in the Lakes. "Farmington dominated the first half and we dominated the second.

We hit three crossbars.

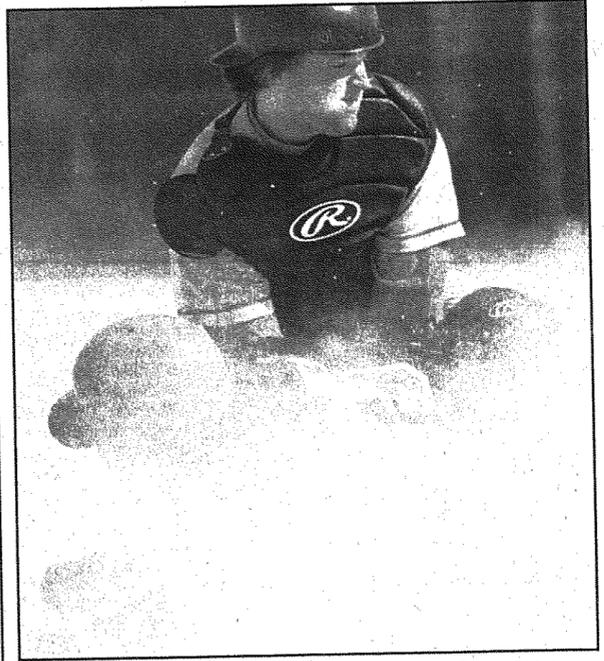

"It was a tough-fought game in the midfield. Farmington played very, very well, and we failed to win a lot of 50-50 balls."

PCA 3, Bethesda 0: Sara Moriarty scored twice in the second half to secure Plymouth Christian Academy's victory over Detroit Bethesda Thursday at PCA.

The win gave the Eagles a 2-1-1 overall record. They are 2-1 in the Michigan Independent Athletic Conference.

Sara Roberts got what proved to be the game-winning goal in the first half, on an assist from Katie Polera. Rachel Rudzisz assisted on Moriarty's first goal.

Val Boruta had two saves in goal to earn her first shutout. Christine Cleary's defensive play was a major contributing factor.

pitching win, the first of his prep career, allowing five runs (two earned) on 10 hits and two walks, striking out 10. The loss went to Dan Boulter.

The Wolverines trailed 3-1 entering the bottom of the third, but five runs in that inning followed by four more in the fourth led them to the victory.

Paul Chrenko led the attack with three hits and two runs scored. Anthony added two hits (including a triple), two RBI and two runs scored; Hough had two hits (including a double) and two RBI; Estrada had two hits and two RBI; and Mike Ossana had two hits (including a double).

The Aggies, plagued by five errors in the game, fell to 3-6 with the two losses.

Redford CC 8-5, U-D Jesuit 5-8: The scores were the same in Wednesday's doubleheader, but the winners were not.

Redford Catholic Central split a Catholic League twinbill

with University of Detroit-Jesuit, winning the first game 8-5 while losing the second by an identical score. The Shamrocks fell out of first place in the league with the split, and now stand at 12-3 overall and 8-2 in league play.

CC sprinted out to an 8-0 lead in the first game, thanks in part to the hitting of infielder Todd Tindle, who went 4-for-4 in the game with 2 RBI.

"Todd can play any infield position and he's a smart player," Salter said. Tindle, who has been hitting second in the order, is batting .318 on the season.

Pitcher Jeff Niemiec (5-0) got the win, going six innings while allowing one run through five.

Eric Vojtkofsky went 2-for-3 with a home run and 2 RBI. He has now clubbed five homers on the season.

Vojtkofsky went 3-for-4 in the team's game two loss, clubbing a pair of doubles. Tindle drove in two runs in the game.

3. Card of Thanks

PRAYER TO THE HOLY SPIRIT

Holy Spirit, you who make me see everything and who show me the way to reach my ideal. You who give me the divine gift to forgive and forget the wrong that is done to me. You who are in all instances of my life with me, I, in this short dialogue want to thank you for everything and confirm once more that I never want to be separated from you, no matter how great the material desire may be. I want to be with you and my loved ones in your perpetual glory, Amen. Thank you for your love towards me and my loved ones. Persons must pray the prayer 3 consecutive days without asking your wish. After the third day the wish will be granted no matter how difficult it may be. Then you must promise to publish this prayer as soon as the favor is granted. L.D.

2. In Memoriam

In Loving Memory
 God saw you were getting tired and a cure was not to be, so he put his arms around you and whispered, "Come with me." With tearful eyes we watched you suffer and saw you fade away. Although we loved you deeply, we could not make you stay. A golden heart stopped beating, hard-working hands did rest. God broke our hearts to prove to us He only takes the best. (Author Unknown)

In Loving Memory of Robert Lee Wilks who celebrated his 45th birthday on April 20, 2002 in Heaven with his Lord. Bob was promoted to Heaven on October 13, 2001 after a six month battle with cancer. Bob is missed by his Dad, Mom, Sisters and Children very much, but they all look forward to being with him again one day. They send him this message:
Happy Birthday, Bob... Until We Meet Again!

Coach's comments: "Hat's off to the Franklin people," said Canton's John Venning. "We had to run a double-dual meet (due to a damaged track at Canton) and it was a very cooperative effort, and it didn't take much longer to run than a normal dual meet."
 "The wind conditions were bad. We told the kids they'd have to work through their turns and they adapted real well."
Dual-meet records: Canton, 2-1 overall, 2-0 WLAA Western Division; Franklin, 0-3 overall, 0-2 WLAA Western Division.

just two hits and no walks in the game, striking out 14. The loss went to Roelofs, who allowed two runs on four hits and three walks with four strikeouts in five innings. Renee Ross relieved and pitched the final two scoreless innings.

Kuratko led Churchill with two hits.

Salem 3, Canton 1: Plymouth Salem got two of its three hits in the first inning against Plymouth Canton, and it proved to be just enough Wednesday night at Massey Field.

The Rocks scored all three of their runs in the first inning, thanks in great part to Mandy Bradley's two-run triple, which scored Maggie Tudor (who had walked) and Alicia Murawski (who had singled). Bradley scored the third run on Rachel Heid's groundout.

That proved to be enough for Jill Posler, who throttled the Chiefs with a six-hitter. She gave up one run and two walks, striking out three. The loss went to Renee Ross, who allowed three runs (two earned) on three hits and a walk, fanning three.

Canton scored its run on a walk to Maggie O'Connell, a wild pitch that moved her to second and a single by Caitlin McNicholas. The Chiefs had a chance to score a run in the first, but Salem centerfielder Kelly Jaskot threw the runner out at the plate.

"It was a good game," said Salem coach Bonnie Southerland. "It's always a good game (at Massey). We got our hits in a timely manner, and that was the difference."

"It was a good win. It picked this team up."

Risak from page C1

Wisniewski may lose in draft position.

"They're saying it's going to hurt me, but very little," he said. "Hopefully, it won't affect me very much. Two or three years down the road, will I improve — I think that's what they want to know."

The road ahead won't be easy for Wisniewski. He faces a rehabilitation period lasting between four and six months. He won't be midway through that stretch when the NHL conducts its draft.

Late first round or early second? That was all he had to

worry about before traveling to Slovakia. Now there's uncertainty.

"With the draft, you never know," Wisniewski admitted. Then he added with a maturity beyond his 18 years, "I just have to keep a good attitude. I can't worry about things I can't control."

Wisniewski's career was dream-like until March. Two straight seasons at the top of the OHL with the Whalers, within a couple of victories of the OHL title in 2001, three trips abroad to international tournaments with national teams, all of them

earning gold medals — including this last one in Slovakia.

"Three tournaments, three golds," Wisniewski said after watching his baseball Chiefs stumble and lose to Salem. "Not bad, eh?"

He smiled as he turned and walked away, limping slightly, wondering about the draft but convinced his hockey career was far from over.

C.J. Risak is the sports editor for Plymouth and Canton. He may be reached at cjrisk@oe.homecomm.net.

MEDICAL BRIEFS

Organ donation

April is Michigan Donor Awareness Month, and state Rep. Laura M. Toy is urging local residents to consider signing up as organ donors. Last year, 547 Michigan residents received life-saving organ and tissue implants, including 27 children.

"These people got a second chance because of someone else's generosity," said Toy, R-Livonia. "When you become an organ or tissue donor, you can help spare another family from the tragedy of losing a loved one."

An average of 17 men, women and children die in Michigan each month while awaiting organ transplants. Barely 4.2 percent of Michigan's population has signed up as donors, well short of the 35 to 40 percent achieved in other states. Each donor can help up to 50 different people through life-saving and life-enhancing organ and tissue transplants.

"I'd like to see more Michigan residents become organ donors," said Toy. "Since April is Donor Awareness Month, I encourage anyone who hasn't already signed up to do so. Countless lives could be saved."

Clinical trials

good medicine, good business

■ 'Patients hear the word 'trial' and they automatically assume they are getting superior or novel treatment. That may or not be the case. The reality is the reason we are conducting the study is to determine whether or not that drug or treatment is really better.'

Michael Hudson
Co-director of the
Henry Ford Clinical
Trial Center

BY CAROL MARSHALL
SPECIAL WRITER

It's part hope, part science and part big business, and without it, the medical world would still operate in the Dark Ages. It's the practice of clinical trials, and for every new drug or therapy available to patients, there is a trial that proved its effectiveness.

"Our motto is 'Today's clinical trial is tomorrow's standard of care,'" said Veronica Decker, Beaumont Hospital's director of Oncology Support Services. "What we've found in so many areas is the reason your doctor can turn to you and say this is the standard of care because of a clinical trial that worked."

The trials test new drugs, medical devices and treatments, and can include just a handful of participants or more than 10,000 patients.

Even before the trial begins, it's closely examined, said Michael Hudson, Henry Ford Health System's director of Cardiac Intensive Care Unit and the co-director of the Henry Ford Clinical Trial Center.

"More and more we're seeing a shift in which pharmaceutical companies sponsor the trials," Hudson said.

Sponsors

Approximately 80 percent of the 1,200 studies Henry Ford Health System conducts each year are sponsored by drug companies. The other 20 percent is funded by the National Institutes of Health. Beaumont's cancer trials are funded largely by the National Institutes of Health, with only 20 percent funded by drug companies. However, 70 percent of Beaumont's general research trials are funded by drug companies and 30 percent by the National Institutes of Health.

"Before a clinical trial can be approved, the hospital typically collaborates with the sponsor to write a protocol, which must then be approved by an institutional review board to be sure it's ethical and protects the patients in the study," Hudson said.

Once the approval is in place, doctors are notified and may offer participation to patients who meet criteria. Patients may either choose to participate in the study or may opt for the hospital's current standard of care. Once the available patients are identified, the selection process begins. Selection is random, and patients have no choice in whether they are part of the group that receives the new treatment or drug, or if they receive standard care.

tive therapy, the care they receive is not always better than what they would have if they didn't participate, and that's important for them to understand," he added.

The nature of clinical trials has the potential, however, to lead to better care even if the treatment or drug tested is not more effective than the current standard of care, said Decker.

"When you participate in a study, your records are being reviewed by

Deeper motivation

Still other patients participate for altruistic reasons.

"We're so lucky to have this kind of community," Decker said. "Our patients often participate even if they don't believe the study will benefit them because they believe it can benefit the community, or they might help other people or their children's generation."

Such was the case for Sam Reider of West Bloomfield. Reider, a healthy 69-year-old, agreed to participate in the Henry Ford Hospital SELECT trial, which will determine the effectiveness of selenium and vitamin E in preventing prostate cancer.

The study requires a 12-year commitment from participants, and Reider plans to continue to get check-ups every six months for the duration of the study.

"I'll stay in it if I last that long," joked Reider. "It's really no inconvenience at all, and when it comes to finding prevention and cures, sooner is always better than later, so maybe I'm helping someone else by being part of this study. Maybe it'll make a difference for future generations."

Reider recommends involvement in clinical trials. "I feel the same way now as I did when I started with this six months ago. There should be more people coming forward to do this. Every person can help."

Hospital reward

While most patients and participants are involved for personal reasons, it's often a business decision for a hospital to become involved in clinical trials.

Doctors are often eager to participate in order to offer patients cutting-edge treatments, but a hospital's interest in trials ranges from good medicine to notoriety to money.

"We have been finding more and more that patients expect good hospitals to be involved in clinical trials, so the hospital feels the need to

Michael Hudson

"It may or may not help them individually if they participate, but it helps in the study," Hudson said.

About half of Henry Ford Health System's eligible patients participate in trials when they are offered, according to Hudson.

Better care

Patients choose to participate for many reasons, but often they believe they will receive better treatment.

"Patients hear the word 'trial' and they automatically assume they are getting superior or novel treatment. That may or not be the case. The reality is the reason we are conducting the study is to determine whether or not that drug or treatment is really better," Hudson said.

"Even though in all studies patients need to get safe and effective

doctors from around the world," she said. "And often, you do get better care. Say the standard would be that you normally would receive one CAT scan, but because you're in the study, you might get two. Or you might get to see another specialist, or an additional doctor or nurse who normally you wouldn't get to see just because they're involved in the study."

The hospital's follow-up is also more diligent with patients in clinical trials, she added.

"We will really hound patients if they are scheduled to come in for a follow-up visit. The study relies on complete information, so we'll call and call to remind patients to come in if they miss appointments. That can lead to better care."

Grief workshops help daughter cope with loss of mother

Arbor Hospice & Home Care will present two free workshops beginning April 28, for women who have lost their mothers.

Titled "The Memory in the Mirror: Daughter Reflecting on Motherloss," these workshops help women who lost their mothers seek a positive, ongoing connection with their mothers beyond death.

Workshop participants are encouraged to bring with them a tangible expression of their mother (a photograph, trinket, or something she created).

"While the loss of a loved-one is unique and its impact immeasurable, we recognize that the loss of a mother forever changes each woman's life, yet the bond remains," said Jacquelin Gatliff, director of Grief Support Ser-

vices for Arbor Hospice & Home Care.

"Whether the loss was last year or 25 years ago, this workshop has proven to be a source of great strength and support for women of all ages."

The workshop will be presented at the following locations:

- 2-3:30 p.m. Sunday, April 28, Ward Church, 40000 Six Mile Road, Northville.

- 7-8:30 p.m. Tuesday, May 7, Arbor Hospice Residence, 2366 Oak Valley Drive, Ann Arbor.

The workshops are open to all members of the community and are free of charge. Space is limited to 60 attendees per location. To register for the series or for further information, please contact Arbor Hospice & Home Care at (734) 662-5999, ext. 117 or register online at www.arborhospice.org.

Women at higher risk during bypass surgery

Women have as much as a three times higher risk of dying during or shortly after coronary artery bypass surgery than men, researchers report in *Circulation: Journal of the American Heart Association*.

"The younger the patients, the greater the mortality difference between women and men," says lead author Dr. Viola Vaccarino, an associate professor of medicine at Emory University in Atlanta, Ga.

"Although the percentage of bypass surgery patients who died in the hospital was relatively small, the difference in both overall mortality and the death rate for patients under age 60 was significant between the two sexes," says Vaccarino.

Coronary artery bypass surgery uses blood vessels to reroute blood flow around arterial blockages to improve the supply of blood and oxygen to the heart. Heart surgeons perform about 571,000 of them annually, including about 182,000 in women.

Statistics

Vaccarino and her colleagues were unable to determine why death rates were different between men and women. She says the explanation might be some unknown factor that increases the risk for women who have bypass surgery, or something in the surgical procedure itself that might be subject to change.

"Clearly, we need further investigation in order to determine the causes for these mortality differences," she says.

Women who suffer heart attacks have a higher in-hospital death rate than men, and the Emory group has shown that women's mortality compared to men's is particularly high among patients younger than 60. The researchers wondered if the same

pattern held true for women undergoing bypass surgery.

The researchers reviewed records of 51,187 patients in the National Cardiovascular Network database who underwent bypass surgery at 23 medical centers between October 1993 and December 1999. Of these patients, 15,178 (or 29.7 percent) were women. A smaller percentage of women than men were white, and the women were older, an average age of 67.5 compared to 64.1 for the men.

The team divided the patients in their study into five age groups: Younger than age 50, 50-59, 60-69, 70-79, and 80 and older. Before determining the risk of death for each age group, they examined the patient's health characteristics, what other illnesses they suffered besides coronary artery disease, and their heart-disease risk factors.

Overall, 5.3 percent of the women in the study died in the hospital compared with 2.9 percent of the men. In addition, 3.4 percent of women younger than 50 died compared with 1.1 percent of men. In the 50-59 age group, 2.6 percent of the women died versus 1.1 percent of the men.

Age-related

The mortality differences between the sexes declined with older age. Among bypass patients age 80 and older, the risk of death was only slightly greater for

women: 9.0 percent versus 8.3 percent for men.

After correcting for factors that might explain women's higher death rates, the risk remained quite high for younger women. Women younger than age 50 were more than twice as likely to die as men in the same age bracket. In patients ages 50-59, women had an 86 percent higher risk of in-hospital death than men.

"Women tended to have more pre-existing illnesses and risk factors in their medical history, but they had less extensive coronary atherosclerosis, and their hearts had better pump function as detected by cardiac catheterization," says Vaccarino. "It seems paradoxical, but that's what the data show." In addition, a smaller percentage of women had suffered a heart attack before their bypass.

"We initially anticipated that the higher prevalence of co-existing conditions, particularly diabetes, would be responsible for the higher rates of in-hospital complications and death in younger women," she says. Diabetes was twice as common in women among patients younger than 50, and renal insufficiency was much more common in women than in men in this age group.

However, additional ailments and heart-disease risk factors accounted for less than 30 percent of the mortality differences between young men and women.

offer as many as possible in order to attract patients," Hudson said. "But I also think it's important to know that medical research has become a big business."

On average, it costs drug companies \$500 million to get FDA approval for drugs, and the companies pay hospitals anywhere from a few hundred to upwards of \$10,000 in on-site payments for their participation in a clinical trial.

While a couple of thousand dollars seems innocuous, it adds up quickly. The University of Michigan Medical School received some \$246 million from various sources - \$176 million from the National Institute of Health - to fund clinical trials in 2000. The University of Michigan General Clinical Research Center is among the nation's largest centers, and more than 2,200 people participate in clinical trials there annually.

"There's a double-edged sword in that these companies have an investment in providing profits for shareholders, and that is con-

'We offer programs of excellence. We want to make sure that you can get the same kind of treatment here that you can get anywhere. It's so important that we can offer our patients the cutting-edge trials they can get around the country, but they can get them here in their own backyards.'

tingent on them getting drugs approved by the FDA. On the other side, the care providers are interested in providing superior care to patients. Balancing these interests can be tricky," Hudson said.

Checks and balances

While there is a potential for abuse when thousands of dollars for thousands of studies is at stake, Hudson noted a strict review process balances the interests of physicians, hospitals and drug companies.

Despite the often extensive reviews and red tape, both Decker and Hudson agreed the clinical

trials are worth the effort. Hudson reported clinical trials have led to increased survival rates for his hospital's patients, and in just the last decade, death rates for cardiac patients admitted to the hospital have fallen from 25 percent to 15 percent.

"We offer programs of excellence," said Decker. "We want to make sure that you can get the same kind of treatment here that you can get anywhere. It's so important that we can offer our patients the cutting-edge trials they can get around the country, but they can get them here in their own backyards."

New cancer drug gives patients renewed hope for survival

A new intravenous drug that uses radiation for treating a type of non-Hodgkin's lymphoma (NHL) is giving patients like Ken Norman, 70, of Troy renewed hope of living longer.

Norman was treated with Zevalin at Henry Ford Hospital as part of a national clinical trial to demonstrate the drug's safety and efficacy. Henry Ford was the only hospital in Michigan to participate in the clinical trial.

In February, the U.S. Food and Drug Administration approved Zevalin for use in treating patients with low-grade NHL who have not responded to chemotherapy. It is the first treatment approved to use radioimmunotherapy - combining localized radiation with monoclonal antibodies - to kill cancerous cells.

Zevalin works by looking for certain chemicals on certain

cells. After it finds them, it attaches itself to them and delivers a dose of radiation to the malignant cells without harming surrounding healthy tissue.

Norman's cancer was in remission for nearly three years after he was treated as part of the Zevalin study in 1997. His cancer remains in remission today.

"I feel like I won the Lotto," says Norman, a retired wood model maker and avid golfer. "I'm feeling great. I personally feel (cancer) is still there, but I'm living with it no problem. I feel like I'm 20 years old."

About 53,900 Americans are expected to be diagnosed with NHL, a cancer of the lymphatic tissue, this year, according to the American Cancer Society. An estimated 24,400 will die of the disease, the fifth most common cancer in the United States, excluding nonmelanoma skin

cancers. NHL comes in three different grades: Low, intermediate and high. Low-grade is non-life threatening while high-grade is life threatening. The standard care of treatment is chemotherapy.

Dr. Nalini Janakiraman, principal investigator in the Zevalin study for Henry Ford, says Zevalin is a major development for treating patients with NHL.

"Zevalin holds promise not only as a treatment option for patients but also as a new standard of care for treating relapsed NHL," says Janakiraman. "However, because of the local radiation involved, it may not be applicable for all patients."

The treatment is done on an outpatient basis. The standard chemotherapy treatment takes six to eight months.

over the years. It is my intention to carry on this work for many years to come," said Irene Gauthier, the institute's founder.

The new school will offer a nationally accredited massage program, an expanded community education program, and a retail store. In addition, the school will provide a student

clinic where the public can receive a one-hour massage for \$30, or \$25 for seniors.

"We decided to build this new facility when we outgrew our original Southfield location. The public's interest in complimentary care has grown dramatically, as people are wanting to take responsibility for their own health," said Kathy Gauthier,

the school's director.

"I'm so proud of my mom's accomplishments. To think she started out teaching massage in the basement of our house, and now to have the largest school in the state is really something. Although she tends to be a little modest, she is a very gifted healer. We're lucky to have her."

Maternity massage requires careful, informed approach

BY SAMANTHA CRITCHELL
ASSOCIATED PRESS WRITER

There might be nobody — and no body — whose back aches and feet hurt more than those of a pregnant woman.

But while a heavy-duty massage might seem like the easy solution, pregnant women are limited in the type of body rubs they can receive.

One of the main reasons massage is soothing to muscles is the increase in blood flow that gets oxygen traveling to sore spots, explains Glenn Teyf, founder of the Teyf Wellness Center in New York. It's a lack of oxygen that's usually to blame when muscles are tied up in "knots."

But, he says, during the first trimester of the pregnancy, it isn't desirable to redirect the blood flow from the fetus.

Teyf's advice, especially early on, is: "No body massage in the first trimester. Never massage

the stomach. Kiss it, hug it and rest your head on it. Do not massage it."

That doesn't leave partners who want to help the uncomfortable moms-to-be with many options.

Foot massages should be safe for all 40 weeks of pregnancy, says Teyf, but even that should be checked with individual doctors.

Teyf's foot massage tips include using massage, vegetable or olive oil instead of baby oil, which clogs pores; elevate the feet above the heart to increase blood flow; start at the heel up to the toes and end by slowly pressing the thumb and third finger over each toe starting with the little toe and working in.

Once a woman passes the three-month mark, there are more options for massage and during the later stages of pregnancy massage can be beneficial

beyond offering a little muscle relief, says Teyf.

The last stretch of a pregnancy, when a woman's weight has soared, her proportions change and she walks in a different posture, causes some unique physical ailments that can be helped by massage.

"The healing power of touch is the oldest form of medicine, both on the emotional and physical level," he says. "Massage will help the expectant mother feel wonderful and loved."

Teyf adds, "It's one of the greatest things you can do for someone you love."

Other bonuses, according to Teyf:

- Massage helps an expectant mother's body to eliminate waste products through the lymphatic and circulatory systems, which helps boost energy levels.
- By increasing blood circulation, massage eases the load on

the expectant mother's heart and might help stabilize her blood pressure.

■ Massage can help relieve depression and anxiety caused by hormonal changes. Reducing stress might help a pregnant woman sleep better and more deeply.

However, Teyf advises, a woman should avoid massage at any stage of pregnancy if she is experiencing vomiting, diarrhea or fever; has excessive swelling around the extremities; is inactive or has been placed on bed rest; or has any bleeding or abnormal discharge.

And while the lower back may be a hot spot for pain, massage there should be kept to a minimum and the touch should be light.

He also says that at-home masseurs should use only the strength of their hands, not their whole body, when applying pressure and no pressure should

be put on the spine. Keep the strokes smooth and flowing, and the slower the strokes, the better it feels.

A pregnant woman can't, or at least shouldn't, get into the traditional face-down massage position. Teyf says the best body position is seated with the expectant mother straddling a narrow chair with her arms, shoulders and head leaning upon a pillow placed upon a table or desk.

Teyf, who says he's given more than 20,000 massages in his career, says the following steps result in the ultimate mini-massage.

Place gentle pressure with open hands; fingers facing outward, on the back just above the curve of the buttocks. Slowly move up both sides of the spine inch by inch.

When you reach the neck, don't pinch. Grab it sideways like you are holding a tennis

racket. Continue grabbing slowly up the neck.

Very slowly, turn hands and fingers upright. Press thumbs into the spine on both sides and move slowly up the neck to the head. Continue the thumbs into the base of the skull; this can be a great release of tension but be sure to get feedback from your partner about the pressure level.

With one hand holding the head steady, the other hand grabs the total back of the head and gently pulls back, using the fingertips. Gently yet firmly, scatter your hands all through the hair, pulling back.

The woman receiving the massage has two jobs. First, to rate the pressure on a scale up to 10, which would indicate pain and, of course, should be avoided. The second task is easier: To enjoy it.

Mental stress affects blood flow to heart

Mental stress can trigger a lack of blood flow to the heart and increase the risk of death in people with coronary artery disease, researchers report in *Circulation: Journal of the American Heart Association*.

"Patients who had ischemia in response to mental stress had a three-fold increase in the risk of death compared to people without mental stress," says Dr. David S. Sheps, lead author and associate chief of the division of cardiovascular medicine. University of Florida Health Sciences Center, Gainesville. "This adds up to a growing body of evidence that links mental stress and bad outcomes in individuals with coronary artery disease."

Previous studies have shown that reduced blood flow during mental stress tests is linked to significantly higher rates of adverse cardiac events. These studies weren't designed to detect differences in death rates, however.

Researchers used an imaging test called radionuclide angiography to detect "wall motion" abnormalities in the heart's pumping during ischemia, which occurs when there is not enough blood flow in the coronary arteries. Radionuclide angiography

involves injecting a dye to label red blood cells. This lets researchers view the working heart.

"Wall motion abnormalities are specific markers of ischemia," Sheps says. "Radionuclide imaging provides us a motion picture of the heart beating. Normally there is a nice symmetrical motion of the heart. With ischemia, certain portions will contract less vigorously or bulge out."

Mental stress increases oxygen demand because blood pressure and heart rate are elevated, he says. Vascular resistance and coronary artery constriction during mental stress also decrease the blood supply.

Psychological factors such as anger or depression didn't increase the patients' incidence of death in this study. They have been shown to be risk factors in other studies.

The 196 patients in this study—Psychophysiological Investigations of Myocardial Ischemia (PIMI)—had documented coronary artery disease and exercise-induced ischemia. Patients had a more than 50 percent narrowing in at least one major coronary artery or a previous heart attack.

REFERRALS AND CONSULTATIONS
When should your doctor have you see another physician about your arthritis? You may continue with pain and swollen joints and yet not be ready for a consultation or referral. Or, you may feel your case is in order, but find your doctor is sending you to a specialist.

As an aside, the medical profession makes a distinction between a consultation and a referral. A consultation means a physician sees you one time. At that meeting the doctor reviews information about your case and examines you. The doctor renders an opinion about your diagnosis and treatment, and makes recommendations about further care. You then return to the doctor who sent you to the consultant.

A referral means that your doctor is sending you to another physician who will take over your care. In arthritis, this means you will see a rheumatologist or orthopedic surgeon who will decide on the need for, and undertake, further examinations, diagnostic tests, and prescribe new medications.

Before your doctor sends you elsewhere, he wants to gather sufficient data to define why the difficulty in your care exists. Also, the information should direct your doctor into what specialist is appropriate for you. If numbness in your leg is the result of poor blood supply, you should see a vascular specialist. If the leg numbness is the result of a pinched nerve, then the appropriate physician to call upon is a back doctor.

Finally, your doctor likely will include a letter of introduction which will tell the specialist what is wanted of him.

Monied people who want one luxurious home, a beautiful topography and the Birmingham's ZIP code with all of its amenities will love Riverside, the builders and developer there agree.

Only two spec homes and three lots are still available in the small, single-family condominium community just west of Southfield Road just south of Brown Street near downtown.

One spec - about 4,000 square feet - carries a listing price of \$1.65 million. The other, about 3,800 square feet and not quite finished, lists for just under \$1.7 million.

Two other homes under construction there, as well as a partial demolition and refurbishing of an historic farmhouse, have owners.

BRG Custom Homes and Brody Homes are collaborating here as they did in Dourdan Park in Bloomfield Hills. They're building on an alternating basis plans designed by architect Victor Saroki.

"A home like this is an indulgence," said Louis M. Beaudet of BRG. "We plan on indulging with amenities and luxury."

"Our role as the builder is to take architectural design, interact with the (interior) designers they (buyers) select and bring to reality their dream home with quality and craftsmanship," said Gerald Brody.

"This is lifestyle here," Beaudet added. "This is a turnkey development."

"The profile is these people own multiple homes in multiple areas of the world. We take care of everything so they can feel comfortable picking up at the spur of the moment and not worrying," Beaudet said.

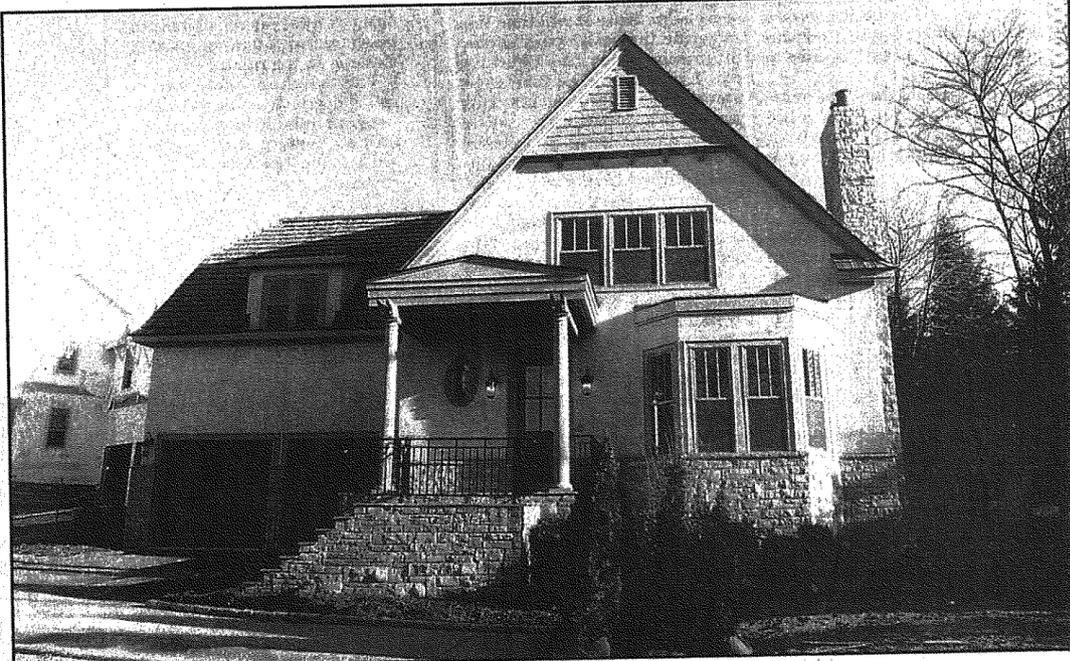

"These people are sophisticated, worldly," Brody added. "They want a house to reflect their lifestyle."

"It's very Londonesque here, like long and narrow townhomes," Beaudet said. "This is a new, old house."

Homes at Riverside, although large and close together, don't seem overbearing due to the way they're oriented on the property.

There's a 60-foot drop in grade from Southfield Road to the Rouge River at the west end of the site, Brody said.

Purchasers used to luxury in their homes will get it inside and out at

Now is the time to purchase that new home

Whether you want to buy your first home, are considering a larger or smaller house, or are thinking about buying a vacation home, now is a great time to act.

Several factors from low mortgage rates to new financing options combine to make this an advantageous time to buy a home.

Let's start with market conditions.

The inventory of new homes has edged up slightly over the past few months, which translates into more opportunities for home buyers who act now on purchasing a spec home.

Next, let's look at the numbers.

Interest rates are at an all-time low, and buyers can still lock in a low fixed-rate on a mortgage. Buyers with good credit can expect to shop for a loan in the 6-7 percent range.

With lower rates, you can afford a more expensive home without increasing your monthly mortgage payment, and renters may get their first opportunity to enter the market and become home owners.

First-time home buyers concerned about being able to save enough money for a down payment - traditionally 20 percent of the mortgage - can withdraw up to \$10,000 from an Individual Retirement Account (IRA) without penalty for use as a down payment.

Or, buyers can take advantage of new mortgage options that allow them to put 10 percent, 5 percent or even no money down.

If you're self-employed, lenders are working to reduce the additional paperwork typically required. Talk to potential lenders about making these new financing options work for you.

Buy a new home and you'll be glad when it's time to pay your 2002 taxes. The tax advantages of owning a home are many.

First of all, home buyers can

usually deduct loan points and origination fees for their mortgage, regardless of whether the buyer or the seller paid them. Since origination fees typically run 1 percent of the mortgage amount or higher, this can amount to huge savings.

In addition, mortgage interest is deductible and still one of the greatest ways to reduce your tax burden. For example, if you pay taxes in the 28 percent bracket, this provision may lower your borrowing costs by nearly one-third.

In fact, you may be surprised to find how favorably owning a home compares to the cost of renting.

It's certainly a great time to buy a new house. New home construction is better than ever, offering the latest in energy-saving technology, efficient heating and cooling systems, innovative design and a host of new features from pre-wired, high-speed data lines to high-tech lighting and security systems.

Plus, the decisions you make on layout, colors, materials and appliances will make your new home a true reflection of your individual tastes and preferences.

Remember, home equity accounts for approximately half of the total net wealth of the typical home-owning family, making homeownership the primary source of a household's net worth and the fundamental first step toward accumulating personal wealth.

About 900,000 new homes will be sold in 2002, according to national statistics. Will one of them be yours?

Large ranch features 'specialty' spaces

Looking for a home with a courtyard, or maybe one with a boat parking spot or even one with a greenhouse? The Wood (405-45) has all of these features and many more.

A brick wall around the courtyard lends itself to privacy while protecting the entry. A skylight is over the foyer.

A large, built-in hutch at the entry is ideal for collectibles to be shared with guests. A coat closet is on the right.

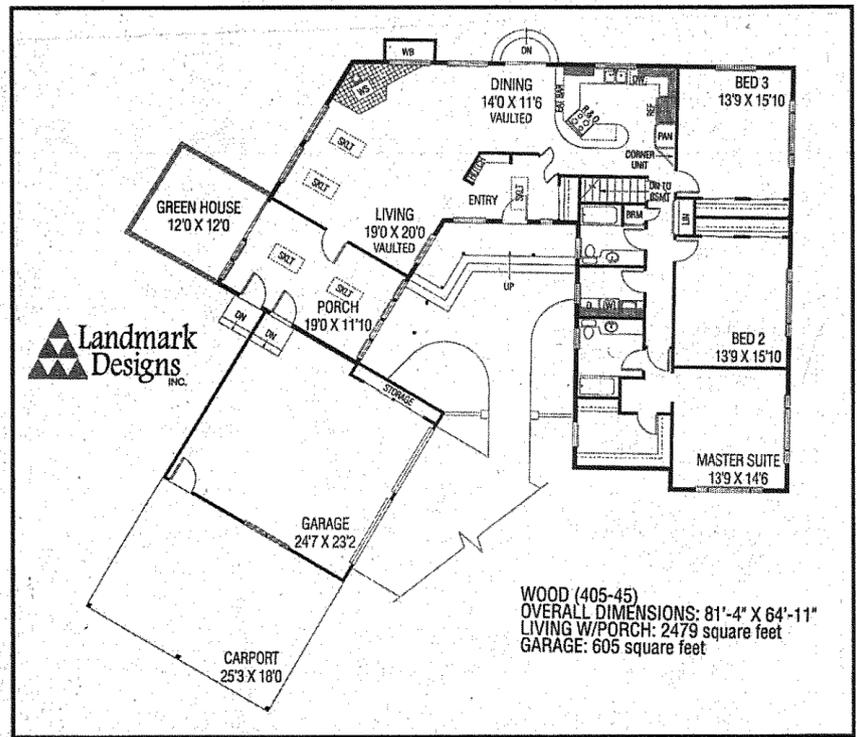

The kitchen is between swing doors. It contains a cabinet pantry, built-in dishwasher and an L-shaped eating bar separating the kitchen from the dining area.

The vaulted dining room has sliding doors that open out to the back yard. The dining room also is open to the living room, which also is vaulted.

The living room features two skylights and a corner wood stove. A wood box has been placed on the outside wall with access from the living room. Large windows on both sides of the wood stove bathe this area with plenty of natural light.

One of the interesting extras of the Wood is the built-in, enclosed porch off the living room. It has sliding glass doors to the greenhouse. It also has doors to the back yard and the two-car garage.

Both ends of the porch are lined with windows and have skylights overhead. The area is bright with natural light and

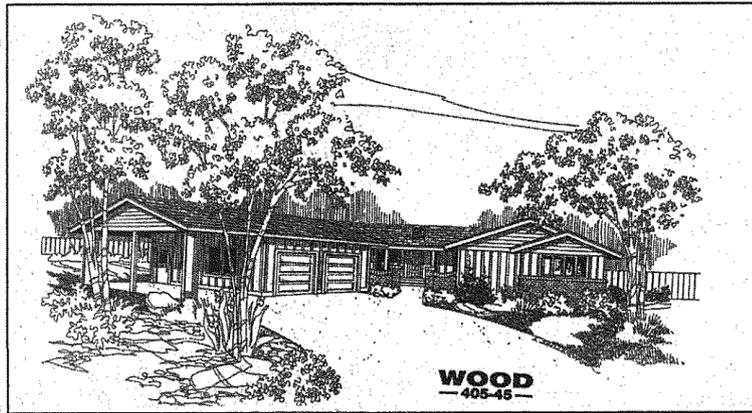

would be an ideal moving spot for the plants started in the greenhouse.

The right side of the 2,479-square-foot ranch is dedicated to the bedrooms and baths. The master suite, with huge

walk-in closet and bath with tub, is in the front of the home. Bedrooms 2 and 3 each have a wall closet, large windows and share a common linen closet in the hallway. The utility room is between

the master bath and the second full bath. Stairs to an unfinished basement are located between the kitchen and the bathroom, as is a broom closet.

Riverside

from page D1

square feet is still under construction. That home will feature a living room, dining room that opens to a patio, kitchen/ nook, den and a master with two walk-in closets and two-sink vanity. Two bedrooms sharing a jack-and-jill bath, a third bedroom with its own bath, a bonus room, media room and open computer center are upstairs.

Riverside is serviced by city water, sewers and sidewalks. It's within the Birmingham school boundaries.

The annual property tax rate is \$43.99 per \$1,000 of state taxable value, half of sales price for new construction. That means the owners of a \$1.6 million home there would pay about \$35,200 the first year.

The monthly association fee is set at \$240.

The sales model at Riverside is open 1-5 p.m. Sundays and by appointment. Call Kathy Wilson at (248) 283-0365.

Dual sinks provide quick start

FOR AP WEEKLY FEATURES

Call a truce on bathroom wars. Unless your home has a private bath for every bedroom, traffic jams begin not on the way to work, but when you roll out of bed and stumble into the bathroom.

If this is your morning routine, consider dual sinks. They allow two of you at once, rather than just one, to brush teeth and prepare for the day.

Dual-washbowl sinks adjoining a shower stall provide some of the privacy benefits of a split bath, while using less square footage.

Thomas Ervin Let's Talk About Real Estate

"BUYER ETIQUETTE"

Homeowners are often given advice on how they can make a prospective buyer feel as comfortable as possible when looking at a home that is for sale.

BE ON TIME

It can be very hard on a seller if showing schedules are not kept. It is not unusual, as an example, for the homeowner to postpone preparing a meal until after the showing.

BE COURTEOUS

Some buyers are rather blatant about criticizing the home or the housekeeping ability of the owner within hearing distance of the seller.

BE RESPONSIBLE FOR YOUR CHILDREN

Some buyers bring their children with them on showings. Although the children may be somewhat distracting, buyers may have good reasons for bringing them along.

BE CONSIDERATE

Some buyers like to show their new home to relatives and friends after signing the sales agreement prior to the actual closing.

ADVICE: Remember to treat homeowners as you would want to be treated if you were in their situation.

Michigan Humane Society ADOPT-A-PET This Week's Featured Pet. Scarlett is a four-year-old Domestic Shorthair female whose owner surrendered to the shelter when her owners got ready to move. This pretty girl has a white coat with pastel calico markings along with green eyes. She is very well-mannered and social and should fit nicely into any type of new home since she is already litterbox trained and spayed which means she can go to her new home today!
