### Eerie and dreary

The Haunted House at the northeast corner of Ford and Haggerty will open Saturday, Oct. 23, contrary to what the sign on the roof says. The Canton Jaycees have lined up a frightening array of monsters to populate the house which will be equipped with Frankenstein effects such as a Jacob's Ladder with a twofoot wide eletrical arc. The Haunted House is open 7-10 p.m. weekdays and 7-11 p.m. weekends, through Oct. 30. Admission is 50 cents for kids up to 16 and 75 cents for anyone older. Proceeds will go towards a scholarship fund and will be used to build a nature center at one of Canton's grade schools. (Staff photo by Gary Caskey)

Judging from the 500 requests for absentee ballots already submitted to the Canton Township clerk's office, it appears that a substantial portion of the electorate will be out of town on election day.

Among the absentee ballot voters are Supervisor-Police Chief Robert Greenstein. Trustee Jerry Cheske and trustee candidate Joyce Willis. They are all running on

a write-in slate. Greenstein's opponents on the Peter Bundarin ticket and the Harold Stein slate claim that the absentee voter privilege is being "critically abused" as a campaign tactic of the Committee to Re-elect the Greenstein Team.

Of 14,604 registered voters, approximately 500 people have already submitted applications for absentee ballots, according to Canton Clerk John Flodin. A "couple hundred" absentee ballot requests can be traced to the write-in effort, said Flodin

"Sure it's a campaign tactic," said Greenstein. "Just like some of the things pulled by the Wayne County Sheriff's during the primary were tactics. Except ours is legal and their's was the worst kind of smear politics."

Greenstein prefaced his remarks by saying that he wanted it understood that he is "still not active in the write-in campaign, even though I now support it."

"People are exercising a democratic right when they vote an absentee ballot," Greenstein said. "What's the difference if you stand in the cold, November rain or sit comfortably in your kitchen and take your time to study the ballot and fill it out. I don't know about you, but I get panicky when I go into that voting booth.

"State law says the write-in procedure is perfectly legal. Absentee ballots have purposely been made easy to get so everyone who wants to vote can vote. Have we taken advantage of the law by asking people to write-in on an absentee ballot? Damn right we've taken advantage of the law. Why not?

"As I said in court on the reserve issue. laws draw a line that cannot be crossed over. You can nudge it, touch it, as long as you don't go over that line. That's what we're doing here. Are we taking advantage of the law? Yep, and proudly so. We say we're abiding by the law.'

Statutory grounds for requesting an absentee ballot are: 1) I expect to be absent from the community in which I am registered for the entire time the polls are open on election day. 2) I am physically unable to attend the polls without the assistance of another. 3) I cannot attend the polls because of the tenents of my religion. 4) I have been appointed an election precinct inspector in a precinct other than the precinct where I reside. 5) I am 60 years of

age or older. 6) I cannot attend the polls because I am confined to jail awaiting arraignment or trial.

Greenstein and most of the write-in supporters have checked the first reason saying they "expect" to be out of town. Greenstein says his police schooling in

Detroit demands that he spend the entire day there sometimes. "The earliest I've been back in Canton was 5 p.m.," Greenstein said. "I never

know how late I'll be.

"On election night I'll be outside the community. I can't stand in line for three hours. The lines could take that long with the presidential ballot, the proposals and the local election with the write-in, which will slow the process even more. It's possible that by the time I got back, the lines would be so long that I wouldn't be able to vote on a machine.'

Greenstein says it strikes him as odd that his political opponents are against something that would "increase the number of people voting."

"The absentee vote is going to win this election." Greenstein claims. "So Stein and Bundarin are screaming that an absentee ballot is immoral."

Eugene Daley, candidate for trustee on the Stein slate used the word "moral" in expressing criticism for the absentee tac-

"It's just a darn shame to see people abusing the election process," said Daley. "I thought this was one area that people still held sacred. I could understand it if people came to the township hall on their own asking for an absentee ballot because they expected to be out of town for the

"But there's a moral difference between that and what the write-in group is trying. There are legitimate reasons to vote an absentee ballot. Maybe you'll be off on a deer trip, or you'll be on vacation. But convenience is not a valid reason for voting absentee. It's not designed so you can sit in your front room and leisurely fill out the hallot. If I have to stand in the rain. you stand in the rain.

Daley says the Stein slate will conduct "spot checks" election night to report

"any abuses" of absentee ballots. Peter Bundarin, Republican candidate for supervisor, was equally critical of the

absentee ballot drive. "The danger lies in soliciting votes through an irregular manner." Bundarin said. "You go to the people who favor you. give them an absentee ballot and even mail it in for them. Why open the polls at

all, we'll just mail our ballots in An absentee voter information sheet being distributed by the Committee to Reelect the Greenstein Team states: "If you have any questions about the Greentein Team or how to write them in on your ballot, just call (phone number) and we will have a trained representative come to your home immediately to help.

Critics of the write-in campaign claim that this statement leaves the door open for pro-Greenstein campaign workers to help people fill out their ballot and attempt to persuade them on how they should vote

"There's no irregularity," said Thom Carman, chairman of the write-in committee. "That's absolutely unfounded Any person can assist any other person in filling out an absentee ballot. They can verbally talk and watch them fill out the absentee ballot. They can take a pencil in hand and put an 'X' in for the person. But if they do this, they must sign the ballot and or the outside of the envelope the ballot is put in.'

ORVILLE TUNGATE, Wayne County deputy clerk, said Wednesday that only 'disabled voters' may receive assistance when filling out their absentee ballot. Tungate also emphasized that a person who checks one of the six reasons for requesting an absentee ballot is responsible for the accuracy of that statement. Any untrue statement is punishable by a misdemeanor.

Tungate said it has come to the county's attention that two partisan absentee ballots in Canton are missing

Carman and Greenstein both said that any attempt to tell people how they should vote on an absentee ballot would prove detrimental to the write-in effort.

"You show them how to vote a write-in and let their conscience be their guide.

## Twp. reserves get cooperation

Wayne County Prosecutor William L. Cahalan has recommended that no criminal action be instituted against Canton's police department after completing a lengthy investigation of the reserve unit.

In light of the prosecutor's findings. Wayne County Sheriff Department Senior Inspector Richard Novak has indicated that the sheriffs will now "provide supportive services for Canton-the same as any other police department.

Consulted in the probe were Lt. James Baird of the Michigan State Police licensing unit, members of the prosecutor's staff, members of the Wayne County Sheriff's Department, Canton's Supervisor-Police Chief Robert Greenstein, Clerk John Flodin and Treasurer Carl Parsell.

"Felony complaints and arrests referred to our department will be handled in the same manner as if originated by this department," Novak stated in a letter to

Greenstein. Novak was one of the most vocal critics of the Canton reserve police force. He said previously that the sheriff's department would have no contact with Canton's reserves because they lacked Michigan Law Enforcement Training Act (MLEOTC) certification. Novak argued that Canton was attempting to give "under-trained" officers full duties.

Last week Novak sent a letter to Greenstein which states:

"Inasmuch as we have received the summary judgment of dismissal by the Honorable Judge Joseph B. Sullivan which indicates that the Canton Township Police Department is a validly established and legally functioning police department and that the Canton Township Reserve Unit is a validly and legally functioning adjunct thereto, we are establishing the following policy immediately."

In addition to providing "supportive services" and promising to accept felony complaints and arrests made by the Canton Township Police Department, the sheriff said the new policy establishes the following procedures:

"All misdemeanor complaints and arrests originated by the Canton Township Police Department will be handled by them, including all paper work.

"Upon request, the Breathalyzer services will be available. "In accordance with the existing court

order, no prisoner from outside the department will be accepted by this department." Greenstein said the sheriff's department's inability to house prisoners could

mean that Canton might have to contract with Westland or another municipality to rent jail space for overnight lockups. A grinning Greenstein called the deci-

sion by the prosecutor and the letter from Novak "a tremendous vindication over the people who continually said we were ille-

"It must have hurt him (Novak) bad to have to send that letter," Greenstein said.

judge (Wayne Circuit Judge Joseph B. Sullivan) had to say. The only effect this new order has is that it places us in the same status we were in a year ago with the sheriff's department-before Canton politics entered the picture."

Fine points of the sheriff's new policy have not been spelled out. For instance, the sheriff's department recently instituted a policy whereby only officers with 240 hours of police certification would be able to receive and respond to radio dispatch Canton's car radios are not equipped

with the sheriff's radio frequency. However, in neighboring Van Buren, officers have the radio band and have been affected by the certification-only directive. Sheriff Novak could not be reached for

comment on the new directive. Meanwhile, Greenstein was still gushing

about the " clean bill of health" received by the reserves. You newspaper people should make

(Harold) Stein and (Eugene) Daley eat their words.

"In every mailing the sheriff's sent out for Stein, they said we were illegal. We've been vindicated on two fronts-the court on a civil matter and the prosecutor's of-

fice in a criminal complaint. "These guys in the reserves have gone through hell for six months where it seemed like everyone was against them. Greenstein said. "They were called pimply-faced kids with a love affair with guns and vigilantes. But they worked their hearts out and it's paying off."

### **Double fatality** in accident at Ford, Ridge

Two drivers were killed at 11:48 p.m. Friday in a head-on collision on Ford Road, east of Ridge, in Canton Township. Dead on arrival at Wayne County Gener-

al was Charles Lounsberry, 56, of 26725 Oakland, Inkster and Leonard Luce, 43, of 3955 Berry Road, Washtenaw County.

Each car carried one additional passenger. Francis Keiffer, of 28945 Pardo, Garden City, was riding in Lounsberry's car. He was transferred from Wayne County General Hospital to the University of Michigan Hospital's intensive care unit. His condition is listed as critical.

Gerald Luce, the 13-year old son of Leonard Luce, was released from the hospital on Saturday.

According to Lt. Terry Shenk of the Wayne County Sheriff's Department, Lounsberry crossed over the center line of Ford Road after he made a turn from Ridge Road.

Under the board's latest offer, Kee explains, individual teachers will receive additional dollars ranging from 20.7 per cent to 48.3 per cent over the three year period. The cost to the school district for the entire three-year package is a 30 per cent inall over!"

DIAL DIRECT 522-0900

THE BOARD'S LATEST proposal, dated Oct. 19. is as follows:

Teachers reject new offer

1976-77: three per cent improvement to salary schedule, 21/2 per cent contribution to retirement fund plus fringes; 1977-78: 21/2 per cent retirement contribution, costof-living at a minimum of four per cent and maximum of five per cent applied against each salary step, plus fringes; 1978-79: two per cent improvement, four to five per cent cost-of-living plus fringes.

The board's offer represents a compromise on cost-of-living as the board now is willing to apply the allowance against each step of the salary schedule-as desired by the PEA-instead of against only the base (first-year) salary

For a first-year teacher with a BA, now earning \$10,153, the board's offer would result in \$1,176 raise the first year, a \$1,878 raise the second, and \$1,730 raise the third year of the contract for a 46.5 per cent dollar improvement in take-home pay over the three years.

A teacher with a BA with ten or more years in the district now earns \$17,521 and would receive an additional \$977 this year. \$1,376 more the second, and an additional \$1,326 the third year for a total 20.7 per cent increase in take-home pay. (The figures represent additional dollars per year and aren't cumulative.)

A beginning teacher with a MA now earning \$11,108 would receive an additional \$1,377 this year, \$2,119 more next year. and \$1,963 more in the third year for a three-year take-home dollar increase of 48.3 per cent.

A teacher with a MA who has taught ten years or more in the district now earns \$20,564 and would receive an additional \$1,147 this year, \$1,615 more next year, and \$1,557 more the third year for a threevear increase of 20.7 per cent.

The figures on additional dollars include the increments (annual adjustments based on seniority and college degree) now in the contract, the improvement percentages, the five per cent retirement contribution, plus the COLA payments in the second and third year.

MS. REECE said the teachers postponed its mass meeting scheduled for Monday aftemoon, and delayed picketing, because it was hopeful of a settlement Monday night. "But the board didn't accept out offer and we don't have a settlement, so we will continue with phase two of our job action."

That job action, which the board states might lead to disciplinary action, involves teachers refusing to attend staff meetings. inservice training, after-school events which can be re-scheduled, open houses, and picketing the board office.

"Basically, the board increased its table position by one per cent Monday night but the offer was really the same as its previous offer. The only difference was an adjustment of percentages within the offerthe total dollar amount didn't change.

"Our position on cost-of-living doesn't seem to be a problem anymore. We are willing to accept a mini-maxi approach and the board is willing to apply it over the schedule and not just to the base.

"On the PEA's unfair labor charge, I would like to make it clear that Norm Kee's 'clarification' was not given at the bargaining table but was made to Derald McKinley 11/2 hours after our bargaining team left for the night. In this business, you must live with what you do at the bargaining table.

She added that the PEA's latest informal offer probably would increase total cost to the district by about 32 per cent, so both sides are about two per cent apart at this

"A problem of perspective is that people will divide the 30 per cent by three years and assume teachers are getting a 10 per cent pay hike per year," she added. "But all teachers won't get 10 per cent because many don't receive increments. Some teachers will only get an eight per cent a year raise, some only six per cent a year.

"The PEA must negotiate for all teachers, not just those who are receiving increments. It's a raise but it's not fair to all teachers.

"Those getting increments will receive

an additional \$550 a year. We now pay \$440

a year for our retirement and a two per

cent improvement is worth about \$450. So

an average teacher with increment might

get \$1,400 additional the first year. But if

the teacher isn't getting an increment, it's just \$880 more a year. That's how increments penalize experienced teachers." As of Tuesday a date hadn't been set for the two sides to meet again at the bargain-

ing table, although a date was expected to be set for sometime before this week ends.

Pursell noted his record as state senator and his commitment to education and the environment. He promised a commitment to seek more federal dollars for education, to be administered by local school districts, if he wins.

"In my opinion improvement in the quality of education is really a preventative medicine to unemployment and welfare," Pursell maintained.

Pierce, on the other hand, said his platform is based on a program of "economic

one dollar to Washington and get 65 cents back, that that's a hardship.

Pursell criticized the national health insurance program advocated by Pierce and other Democrats and maintained that the country's taxpayers could not support such a program. If elected, Pursell said, he would support establishment of non-profit health care clinics in low-income areas to offer adequate care for a minimum price.

"I would also endorse government support for major catastrophic illnesses, so a family isn't wiped out for health problems," he said.

But Pierce, an Ann Arbor physician for 16 years and founder of that city's Summit Medical Center for low-income persons, disagreed. Pierce noted the astronomical cost of medical care, many employers' failure to provide health insurance, and the low wages many employees receive.

"I don't think anyone should go broke because of illness." Pierce said. "Contrary to what my opponent says, national health insurance is working very well in other countries. We're the only one without it."

The Libertarian and U.S. Labor Party candidates see different problems facing America today.

McKenna told the crowd of about 70 Tuesday night that his party favors a laissez-faire economic policy and a non-interventionist foreign policy. Government, he said, infringes too much on the rights of the individual

We believe if you can get government off your back and the back of industry, then government can go forward,' McKenna said. "We agfree with Jefferson that the best government is ther least gov-

ernment McKenna stressed the continuity of his party's belief in a minimum of governmental regulationals in all aspects of society. Libertarians, he said, do not believe government should even pass legislation to insure the quality of the environment.

Ziegler candidate for the U.S. Labor Party, warned residents they could face a nuclear holocaust, if the platform of his party to lower the world's economic debt is not adopted.

ZIEGLER TIED what he called the "real possibilities" for a nuclear holocaust to the election of Jimmy Carter as President. Ziegler said Carter was "committed" to nuclear war, but Ziegler failed to reveal the information on which the U.S. Labor Party bases its Carter views.

In summing up his views, Pursell promised more federal dollars and control of social programs to local units of government, if elected.

After the question and answer period, residents who attended Tuesday night's session met on an individual basis with candidates for the Wayne County Board of Commissioners as well as candidates for the Michigan House from the 35th, 36th, 37th and 52nd districts.

The Canton Observer has asked all candidates seeking seats on the Canton Board of Trustees, including those on Supervisor Robeert Greenstein's write-in team, to answer a questionnaire regarding their views on township issues. The Observer hopes the candidates' responses will enable voters to make a more educated choice on

Wording of the candidates' responses is their own and appears unchanged except for spelling and punctuation changes made for clarity.

All candidates were given a five-day extension beyond the original Oct. 11 deadline to answer the questionnaire because of delays in receiving the forms through the mail. Canton Clerk John Flodin was the only candidate who did not respond by Tuesday.

This is the second part of a three-part series on candidates' responses to the questionnaire. Below are listed answers of clerk and treasurer candidates. The responses of trustee candidates will appear in Monday's Canton Observer.

Supervisor candidates' answers to the questionnaire were published in the Oct. 18

POLICE RESERVES AND THE REGU-LAR POLICE was the first subject we posed to candidates. We asked: "If elected in November, what would you do with the reserve force that exists today? Would you discontinue or expand the nightly patrols of subdivisions, streets and parks? Or would the reserves be used primarily for crowd control and emergencies? Would you require that a certified police officer be in the car with the reserve? Would you take their guns away? Open-ended question: What direction should Canton Township be heading to provide adequate police protection for its citizens? Include in your response an answer to the three possibilities that have been mentioned (i.e., an independent Canton Township Police Department; contracting with the Wayne County Sheriff's Department; a tri-community police department comprised of Plymouth, Plymouth Township and Canton) 200 words or less.

The second question concerned BUSI-NESS REGULATIONS:

State your position on the present restrictions on business signs and the requirement that businesses build berms to hide parking areas. The attorney general has ruled that Canton Township may initiate a consumer protection agency. Do you think the township should start one? Either explain the reasons why you oppose such an agency or tell what benefits a local consumers' agency might produce. 200 words

The third question asked candidates LAND USE PLAN.

Should Canton's farmland be protected under a land use plan? How do you determine what property is zoned agricultural? Should farmers receive tax incentives? Looking toward the future, how many people do you think should live in Canton? What population would be desireable and how would you prevent an excess? What plans do you have for accommodating lowincome families? Open-ended question: What steps should be taken to guarantee sensible, aesthetic development that serves all income levels? 200 words or

The fourth question asked candidates to address themselves to CITIZEN PARTIC-PATION IN GOVERNMENT:

What steps or programs would you work for to insure citizen input in the decision and policy-making process of township government? How can the Citizens Advisory Council (CAC) be made more effective and responsive? What steps above and beyond the CAC would you recommend? 100 words or less.

MISCELLANEOUS questions asked of

If you run for office on a team slate, what effect will this have on your voting record? Do you think Canton has seen an end to voting blocks by team members? 75 words or less.

Only supervisor, clerk and treasurer candidates were asked:

Do you intend to devote full-time energies (40 hours a week) to your elected job? If elected, will you be employed elsewhere, or have any other source of income? If you'll hold another job, state what it is and how much you expect to earn. 75 words or less.

At the last minute before the questionnaire was mailed, all candidates were asked to assess the write-in effort.

Certified candidates were asked what effect they thought the write-in would have on the election and were asked if they considered the write-in candidates "healthy competition.

Write-in candidates were asked why they chose to support a write-in and what effect the write-in would have on the election. Clerk candidate's responses to the questionnaire

> PAT DOMBECKI, REPUBLICAN- CLERK

POLICE RESERVES AND REGULAR POLICE-We should have the reserve police continue to check homes of vacationing residents and business establishments after hours and assist certified officers. I am glad to see these reserves continue their training to become certified officers. I don't quustion their intregrity, but I'd hate to see them shoot someone in the line of duty only to find out our township ordinance is illegal. When our taxes can withstand the impact. I would propose a metropolitan police force composed of Canton-Plymouth.

BUSINESS REGULATIONS-We should invite industrial development along our I-275 expressway to give us a strong tax We should invite commercial devel-

opment within designated areas of our township to meet the needs of our growing

Only by reducing our business signs and berm ordinance will these businesses accept our invitation. Yes. I do think we should initiate a con-

sumer protection agency to build a business standard that the consumers of Canton may depend on.

MASTER PLAN FOR LAND USE- Only viable farmland, proven by an agricultral study, should be zoned as agricultural.

PATRICIA DOMBECKI

It is questionalble whether farmers should receive tax incentives. So many tax dollars must be paid for our 36-squaremile township. If farmland is to be taxed less it stands to reason that the rest of the population would have to pick up that part of our tax bill. We need a complete study and campaign to place the issues before the people. Then and only then, we should leave it to the people's vote.

It is difficult today to give an exact number as to what population would be desirable 10 years from today. We should grow slow enough (about 500 residents per year as legally proven in Petaluma, Calif.) so that our community services such as police and fire protection ansd schools may be able to keep up with us.

I feel at this time we have provided adequate facilities to accommodate low-in-

CITIZEN PARTICIPATION IN GOV-ERNMENT-Certain hours each day would be set aside to meet with citizens for their input in the decision and policy-making process of township government.

The CAC can be made more effective and responsive by making them independent from the board of trustees. Using the CAC as a tool, I would broaden its duties such as giving them the responsibility of the investigation and issuance of building

MISCELLANEOUS-I do not run on a team slate, because I am independent in thought and outspoken of those thoughts. I feel if one has ideas, you should let them out and kick them around. You may come up with some pretty sound answers. I do run on a team ticket, because my running mates are equally as open-minded. If you know the people of my ticket, Messrs. Bundarin, Poole, Berg and Hall, you know they are open-minded and outspoken. If elected, we will put an end to voting blocks by slate members as you see in the administration of Greenstein, Flodin, Parsell and Cheske

As a candidate for clerk of our township, I have full intentions of devoting 40 hours or more a week to my position. I will not be employed elsewhere or have any other source of income

WRITE-IN-I do feel the Greenstein slate write-in will defer some votes, but only some. I do not feel it is healthy competition for the people. They voted the administration OUT in the August primary. The Greenstein slate write-in only tends to confuse those who are not knowledgeable of Canton Township politics.

JOHN FLODIN, DEMOCRAT-CLERK, did not respond to the questionnaire by the deadline. Flodin says he ould have responded, but says he doesn't remember receiving the hand-delivered questionnaire.

REPUBLICAN-TREASURER

POLICE RESERVES AND REGULAR POLICE- I would not discontinue or expand the present activities of the Canton police. I belive that a certified officer should be in each car. Certified officers should be the only officers allowed to be

Ultimately, I feel Canton will have its own police department. However, I would not encourage this until full citizen input and approval has been secured and its funding has been properly appropriated. The entire police question in Cantan

must be removed from politics and taken out of the grey area of legality before any more money is spent.

A tri-community police department at this time is far too premature to be consid-

A true citizens study of area police

needs should be made before we go any BUSINESS REGULATIONS-We have

gone from one extreme to the other on sign control. The business community would welcome an opportunity to study this problem jointly with the township and come up with an ordinance that all could live with.

The requirement of berms should be reevaluated. All business structures do not need them. I believe that each building should be evaluated for the need based on the type of business, location, type of structure and location of parking area.

I do not feel we need a consumer protection agency at this time. An opportunity should be given the business community to police itself, such as is being done now. However, if one is to be established, it should be with input from the business community such as proposed.

MASTER PLAN FOR LAND USE-Canton's farmland should be protected by a land use plan, provided the farmer wants to continue farming. Quality of the land and the potential productivity of the land should be a determining factor.

Yes, farmers should receive tax consideration when they are so close to a densely populated area. There are a number of alternatives available to us for retaining agricultural land, but they must be worked out with the farming community. Who knows better what a farmers' needs are to be successful, than the farmer himself?

Canton population should not be established by officials in office today, but will be determined by the citizens themselves as time goes on. This will depend on the demand for services and the ability to pay for them and the availability of sanitation

Low-income housing should be mixed into all areas. There is no reason why a smaller home cannot be made attractive enough to keep from devaluating the surrounding homes.

A review board of local citizens should be established to insure sensible and good aesthetic development in Canton.

CITIZEN PARTICIPATION IN GOV-ERNMENT-1. Open all township meetings to the citizens of Canton. 2. Encourage all civic and service clubs to work for common goals. 3. Work with (not against) all citizen groups to develop sound programs to make their input meaningful.

Reactivate the citizens advisory council with a true representative cross section of all Canton residents.

MISCELLANEOUS-I would never consider being part of a team, slate or pact. Independent thinking and voting has always been my forte, and I see no good reason to change. I hope Canton has seen the end of slate and team voting blocks.

Yes, I do intend to devote full time to the office, even though the salary does not indicate it to be a full-time position. Yes, I will have other income-mainly Social Security, for I have reached that time in life. I do have a small business which is operated during the summer months which can be turned over to my handicapped son to make his life more meaningful.

If elected, I intend spending some time, God willing, to bring unity, understanding and respectability back to Canton.

WRITE-IN EFFECT-Your guess is as good as mine. I consider the write-in candidates about the same as a gardener would consider the barbs on a rose bush when it is trimming season.

ANNE BRADLEY, DEMOCRAT- TREASURER

POLICE RESERVES AND REGULAR POLICE-I feel the police reserve is assisting a regular force. The regular police do not patrol from 6 p.m. to 11 p.m., but 24 hours. I would like them to be used for crowd and traffic control for the purpose they were intended for from the beginning. I would recommend a police reserve ride with a fully trained certified officer while on patrol. Yes, I would recommend to take their guns away becuase of their qualifications at this time. I feel anyone can learn to shoot. What they must learn is when not to shoot. I feel a committee should be appointed to study cost figures to form our own police department compared to the cost of contracting with the Wayne County Sheriff's Department. A tricommunity police department would not be feasible. Example, if a jail was needed, where would it be built?

BUSINESS REGULATIONS-The sign ordinance is much too restricted. I would rather see an attractive sign advertising the business than a van parked near the road, painted all over, letting the public know where they are and if they're open. Anyone who has invested in a business has the right to be identified. The berm ordinance is also too restrictive. It is hiding nothing, but a nice, new shiny building and is a safety hazard.

I see no reason to license all businesses.

ANNE BRADLEY

The Chamber of Commerce is doing an excellent job of handling consumer and business complaints. At a recent township meeting, a spokesman for the Chamber stated all complaints were handled to a satisfactory conclusion, and one is still pend-

MASTER PLAN FOR LAND USE-I think good farmland should be protected under a land use plan. If a farmer owns and operates his/her land for a livelihood, it should be zoned agricultral and given a tax break, but should not be forced to put it into a land bank when he/she wants to dispose of his/her prperty for reasons of their own. I think we all agree to a population of around 100,000, but I would like to see it spread out throughout the township. not confined to one-half of the township. Industry should be encouraged to come in our township to take some of the tax burden off the homeowner. After all, industry creates jobs and does not put children in

CITIZEN PARTICIPATION IN GOV-ERNMENT-I would propose a Citizens Advisory Committee composed of all segments of our township- business, farmer, senior citizens, mobile home owners and homeowner- to get input from their respective groups. With the above combinations and proper leadership, I believe it would be more effective.

MISCELLANEOUS-I will not be a yes person to anyone. I will do what I think is right for the community. I am a taxpayer, businesswoman and a resident of Canton. At the present time, the treasurer's posi-

tion is part-time. I will devote as much time as needed. If it takes full time, I will work full-time

WRITE-IN- I believe it will cause chaos and an extra expense to our taxpayers. I believe the people of Canton have spoken in the August primary.

> CARL PARSELL, TREASURER- WRITE-IN

POLICE- The police question is very

Canton reserves by having them attend Criminal Justice Institute (CJI) for their 280-hour state certification for police officers- as they are exactly doing at the present time. The patrol of Canton would be

The regular police department question will be totally subject to a study. NOTH-ING can be done until the Sheriff's lawsuit is settled by the Supreme Court as to whether or not the Sheriff will continue to patrol Canton at no additional cost.

Studies should be done with people such as Co. Davids, ex-commander of the State Police who lives in Plymouth Township, and Chief Ford of Plymouth plus people with accounting and legal backgrounds. In any case, complete police services should be done for less than what the Sheriff, wants of \$600,000 for just two cars! BUSINESS REGULATIONS-Berms will

stay and will continue to hide the asphalt and cluttered jungle of parked cars- not hide the business places. Berms will be improved and grassed- and be made to keep them up! This issue is another case the news media has bent out of shape. They hear and tell from only a dozen or so disgruntled people. (The majority of whom don't live in Canton.)

The truth of the matter is that almost every municipality is adopting one form of berm ordinance or another-even architects are highly recommending them!

The sign ordinance is a good one. If it is slightly too restrictive. I will take another look. But new communities are all adopting similar sign laws. Personally, I prefer the Canton look to that of Garden City or

We already have protection from the state, county and Chamber of Commerce. Even though consumerism is popular in Canton, I don't think we need such an agency until the others fail to do the job. We keep the pressure on the others to do their job. When they don't, we act!

MASTER LAND USE PLAN-The most valuable commodity that Canton has is land. You don't create it. Either you have it or you don't. America, having what looked like infinite resources, wasted too much. We should not do the same. It is not a question of whether or not to save farmland- we must save all we can get!

There is a question of equity-how best can we repay the farmer. Either by tax incentives or purchase of development rights or purchase. I believe in fair treatment-

As far as population, the zoning was made to accommodate each and every family income. Today, we have a population of 28,000. At an annual growth of 3,000, by the year 2000 (24 years from now) Canton, in its total, will have a population of 100,000.

CITIZEN PARTICIPATION-Homeowner. civic associations and all other organizations must have a platform to raise issues and to have input. As in all cases, it takes a cause to bring the people together. I honestly believe that such groups have become less active in the township, because they know their welfare is being watchguarded by the "team" in office. Evidence of this is that prior to our taking office.

complex. I would continue to upgrade the homeowner and civic associations were always meeting and coming to the board meetings to protect their intests. Now, each of these associations hardly ever have a meeting- let alone come to the meetings. As Canton grows, more people are going to have to be included in the CAC. Instead of one person from each area, it must be expanded.

> MISCELLANEOUS-Before I ran for office, the people knew what my stands were on all issues. I ran with a "team," because I not only agreed with the team program, I helped develop that program. At different times, I have joined with a combination of the other six to oppose or to support various proposals. I shall continue to act as an independent person on each and every issue

> This position has a part-time salary (\$7,500 per year). The job is what you make it. I am employed as executive director of the Police Officers Association of Michigan (statewide police association). I have, and always will accept more than just the financial duties of the treasurer's office. I have and will continue to put the total township services in a more businesslike manner for the utmost efficient production for the people of Canton.

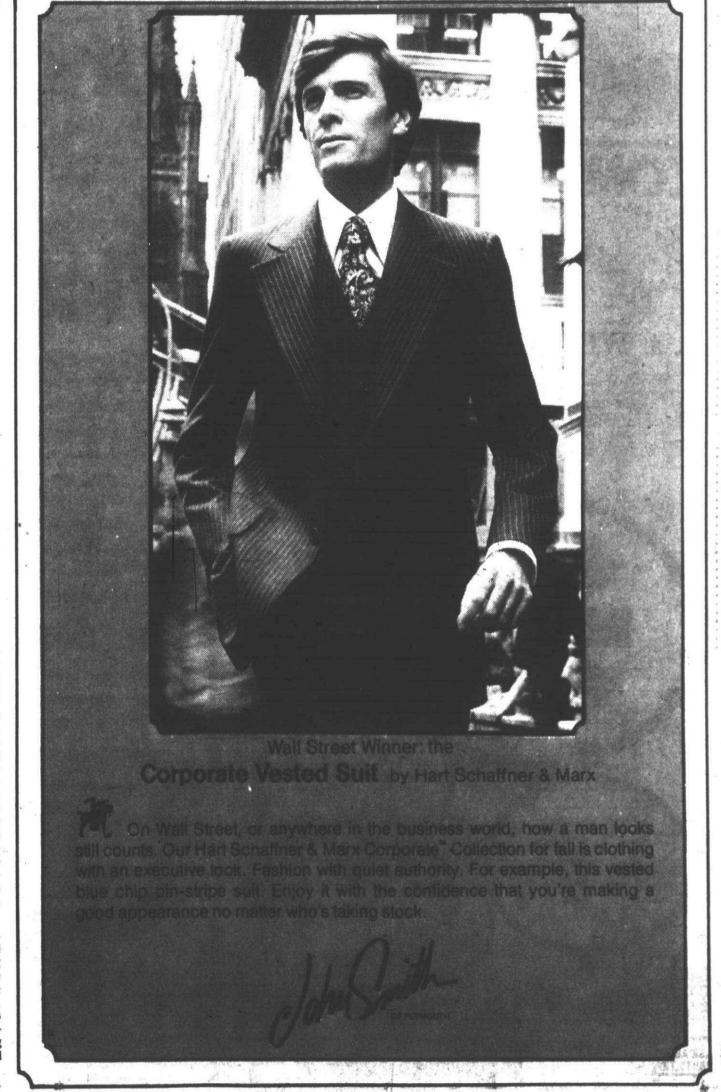

CARL PARSELL

WRITE-IN-When I lost the primary by some 40 votes. I stated that the people had spoken and I would not participate in any write-in program. I did not.

But when a group of citizens approached me and asked if I would run if they could prove that the people were behind me. I said yes. One month later, these same people came back with over 4.000 signatures, also stating that too many people were fooled by a lot of mistruths in the primary and they were not going to allow this to happen in Canton.

What was really heart-warming is that I had never seen many of these people before. I did not support the write-in just to be a spoiler- I joined to win.

As to what effect the write-in will have in the election, the people will answer this

### Signs to protect deaf, blind children

If a child with sight or hearing difficulties lives in your neighborhood, Canton officials want to know.

To eliminate the danger of traffic accidents involving the deaf or blind child. members of the township board last week agreed to install traffic signs, warning motorists in residential neighborhoods of blind or deaf children at play.

The signs, township officials hope, will instill an extra note of caution in motorists if they are aware of children who cannot see or hear oncoming traffic in their neighbor-

## A new way of buying used cars

BY GLENN BUNTING

In a day and age where an inflated economy slams the door in the face of new business trying get its product off the ground, Chuck and Bob Bashawaty have invented a service that is sure to appeal to the local

Working in used car sales won't win the Bashawatys any Pulitzers for originality. but their approach might.

A group of independent auto brokers, Cabaron (Chuck's and Bob's Auto Recon) works directly with the public in their search for a used car. Since opening their shop on 744 Wing in Plymouth, the Bashawatys have toyed with this idea before putting it into practice two months ago.

Say you're in the market for a used automobile, but have neither the time nor the know-how to purchase one. All you need do is call Cabaron, tell them the kind of car you're interested in (make, model, year, how much you want to spend, color, equipment, etc.) and give them a week to deliver it to your door at no obligation.

CABARON WILL park the beauty you requested, sparkling inside and out, in your driveway. The customer then has the option of buying the car at no obligation. The price usually represents a savings of \$200

Should one turn Cabaron down, no hard feelings. They'll turn around and sell the car for a profit, as a result of the work they put into it, at a nearby dealer's auction. If you buy the car, Cabaron will take care of the title, registration and plates.

Cabaron is a licensed dealer, giving them access to all wholesale car outlets. The cars are purchased wholesale at dealer auctions and the savings is passed on to the buyer.

In between purchasing and delivering cars to the customer's home. Cabaron cleans the car inside and out and has it mechanically inspected. When completed, the car is ready for delivery with a full 30-day

warranty. What makes Cabaron so successful (it has yet to have been turned down by a customer) is that they're the best in cleaning cars. In 1971, Bob worked from 60 to 80 hours a week managing a car wash, doing extensive clean up work.

HE REQUESTED a pay hike, was refused and opened his own shop in his

mother's garage. Chuck later returned from Germany and joined Bob in the auto reconditioning business.

The twosome worked clean-up for four years, repairing mostly dealer cars. Their hard work payed off six months ago with the acquisition of a dealer's license.

Bob has been buying cars for nearly a year now, developing an expertise that the average consumer lacks. Combined with Cabaron's knack for making a used car look like a new one, the Bashawatys are finding the road to success a bright one.

Through the years, both Chuck and Bob have become affiliated with mechanics, collision shops and other specialists in the event work is needed outside their field.

Although only in the beginning stage of this revolutionary sales program, Cabaron has encountered some difficulties. Bob Talbert of the Detroit Free Press mentioned Cabaron's unique service in his column two weeks ago. The result was a flock of callers requesting junk cars.

"WE WON'T touch anything older than a '73," Chuck said. "It's a hassle for both us and the customer. We can't stand behind a guarantee for an early model car and it's awfully hard to find one in good

Chuck added that the biggest problem with the service is the skepticism people have about the business-they think it's one big rip-off. "People can come here and get a clean, good running car for a savings. We can offer them lower prices because we don't have an overhead the size of a dealer's.

"But still people are skeptic. They say there's got to be a catch. Despite that they can save up to \$400 on a guaranteed car, they still think something's got to be wrong," said Chuck.

'We're hoping that with experience and success, people in the community will begin to trust us. We're the best at fixing cars and are convinced there isn't a better way for an individual to purchase a used

Chuck said the best customer is the frustrated one who's been shopping around for a used car with little luck. "When we deliver someone a car who is familiar with prices, he knows he's getting a deal. We're in this to make a living, not to rip people

CABARON EMPLOYS 11 clean-up specialists and three buyers. It refuses to hold cars for more than a week and also does cleaning work for consumers.

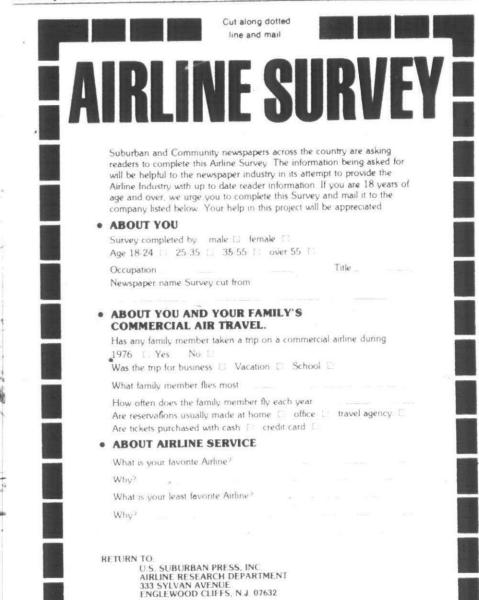

Purchasing used cars has long been a favorite pasttime for the public, especially in lieu of recent increases in the cost of new cars. Cabaron's service resembles a fairy tale-it's too good to be true.

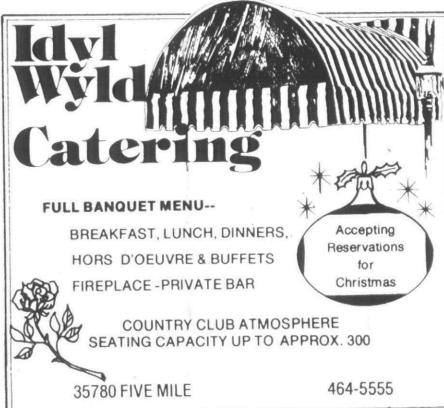

But it's for real and the Bashawatys are making a business of helping others. They say sales should increase come wintertime when it is even less convenient for people to shop around.

## Roy Smith stresses compromise in politics

Politics is the art of compromise and enacting legislation is similar to painting by the numbers.

That's how Rep. Roy Smith (R-Ann Arbor) approaches his work as state representative for the 52d District which includes Plymouth and Plymouth Township as well as Salem, Superior. Pittsfield townships and part of Ann Arbor.

Smith stresses that it takes 66 votes for a bill to be adopted in the House, a chamber in which the Democrats have a solid majority of members. And so to push legislation through, Smith maintains a working relationship with Democrats and seeks compromise when needed.

The candidate for re-election explained his method of operation while answering questions on issues during an interview with the Plymouth Observer

WHEN ASKED IF there was a need to revise the Single Business Tax, he respond-

"I voted for it in the House, but I was led to believe the schools would get everything back from what was taken away from the inventory tax, plus six per cent. But that didn't prove to be the case.

"It needs change but the concept is good. Take a grocer and a dentist, for instance. The grocer paid a lot of inventory tax on his stock; the dentist paid nothing because his saleable goods are knowledge. Another problem is we didn't give enough relief to businesses with high labor intensity, such as accountants and engineers. We also need change for businesses with intensive floor sales, such as automobile dealerships, where interest expenses are being too heavily taxed." He pointed

VISIT GREENSTEIN TEAM HEADOUARTERS HARVARD SQUARE FORD AND SHELDON OPEN 9 AM - 10 PM 397-2424 EASY AS...1-2-3

out that new car dealers in the Plymouth area are now being taxed an additional \$3,000-\$5,000 a year by the Single Business

The Single Business Tax needs to be revised. Smith added, primarily by shifting a larger tax burden back to larger industrial units, by giving more relief to high laborintensive businesses, and to businesses depending upon floor sales.

ON TEACHER STRIKES, Smith said the solution he prefers is binding arbitration.

"Binding arbitration has a proven record in Michigan as it is used by police and firefighters-it is very satisfactory to both sides. So far we have been unable to get a vote on this in the legislature. During the last term the leadership's thrust was in another area. But I think binding arbitration could pass the legislature. That way, each side would know that there would be a definite solution in sight when bargaining

SMITH SAID he felt there was a definite need for mass transit in the greater metropolitan Detroit area. He feels, though, that any transit package should be financed statewide.

"I believe rapid transit should be financed from the state general fund. There are many areas in the state which would want to provide transit systems, such as Grand Rapids or Flint, and so everyone in the state should share in the costs and ben-

"Then if another energy crunch comes, we might be better prepared. A good transit system here, though, is probably eight to 15 years away.

ON OPENNESS in government, Smith said he favors legislation similar to the Florida "Sunshine laws" in which all governmental business must be conducted in

"You will never pass enough adequate laws in this area. My opinion is that, like morality, you can never legislate openness completely. You can just go so far in forcing government out into the open, and from there on it takes a vigilant press.

'We got a bill introduced this past year to open up every single meeting of government, but it lost 49-46—got to be a partisan issue with the Democrats arguing for a lot of exclusions

'Well, I've been in government for 22 years and never once have I seen anything which had to be done in secret. Labor negotiations must be exposed at some time, why wait until the end? And on land purchases, when two councilmen know the details then many others will find out—a lot of real estate people will find out, and, others. It's the citizens we keep the facts from. And I made a motion in the House to open party caucuses, but I didn't get a

ON WORKMAN'S COMPENSATION. Smith says a total reform is needed. "It can't be done piecemeal-reform is needed, and the sooner the better.

"I have no problem voting for adequate benefits if we can strengthen workman's compensation legislation. More than half of the money paid in by business is for persons who are retired. At retirement they have no complaints. But then later, maybe 10-15 years, they complain about a job-related injury and go to court and collect."

As an example he points to the Budd Company which pays 80 per cent of its workman's compensation benefits to Michigan and, of that, 80 per cent is paid to retirees. "The last four plants Budd has opened have been in Ohio and they don't plan on expanding any operations in Michigan. We must help established industries in Michigan and seek new industry. A beginning is a complete reform of workman's compensation.

A legislator needs to maintain close and continual contact with constituents to be knowledgable of the specific nature of problems facing residents.

If elected, Sally B. Roach says she will maintain scheduled hours in her home when constituents know they can visit and discuss problems.

Mrs. Roach of Pittsfield Township is the

Democratic challenger for the 52d House District which includes Plymouth and Plymouth Township, Salem, Superior and Pittsfield townships, and part of Ann

She is a farmer, businesswoman, teacher and University of Michigan. During an interview with the Plymouth Observer on issues. Mrs. Roach said if elected she won't take any trips outside the state at taxpayer expense, that she won't decorate her office at taxpayer expense, and she will accept no gifts, meals or drinks from

THE SINGLE BUSINESS TAX legislation needs a complete revision because it contains many inequities, she says.

"I don't believe it can be made more liveable just by the governor's task force closing some loopholes. It needs a complete overhaul.'

The overhaul is especially needed, she adds, in a state where unemployment is still hovering at 10 per cent. "We must encourage labor-intensive industry, those with a large payroll expense rather than personal property inventory-those that employ people.

The Single Business Tax has proved great for large industries, but it has proved to be a great harm for some school dis-

Doctors, lawyers and other professionals have moved to a corporation status, tax-wise. These types of businesses were given an increased tax burden under the Single Business Tax which they had to pay in addition to the payroll tax."

TEACHER STRIKES must be resolved in some way, she says. "Both sides must give some.

'There's not that many alternatives-either a strike or binding arbitration. But we must be assured that each child gets an education and the voters must be assured they are getting their money's worth. But in many instances, the teachers have been taken advantage of-particularly when they are working without a contract.

We need to reach a compromise that the administration, school board and teachers can live with. Teachers have felt they must have strike authority, but we cannot afford the type of devisive strikes we have had-the effects are felt for years.

"I lean toward binding arbitration, with safeguards-that's probably the direction

THERE IS A definite need for rapid transit in the metropolian area, she said, particularly a subway-type system.

'The state had to come up with a plan that could be agreed upon to get in on the federal funding. I would have preferred to have the entire state share in the cost

SALLY B. ROACH

from the general fund. If not the general fund, my next priority would be a nuisance tax and my third choice a combination of general fund and nuisance tax.

"A much larger area than just metropolitan Detroit will benefit from rapid transit systems. But there needs to be a compromise to get federal money."

ON OPEN MEETINGS, Mrs. Roach commented: "You have to be careful. We could get so carried away with opening everything up that it would be impossible for government to conduct business.

There are some sensitive area that boards and commissions have to deal with which cannot be discussed in open forum. What it comes down to is we must have enough confidence in the people we elect to believe they are basically honest and won't do a lot of double-dealing.

"Watergate represented a very small minority of public officials. The majority aren't trying to get away with anything or to keep the public uninformed. But for government to function, certain matters such as real estate preliminary discussions and personnel matters should be excluded from open meeting legislation.

ON WORKMAN'S COMPENSATION, Mrs. Roach commented:

"I am aware of some of the abuses, particularly in the area of many retirees wrongfully drawing benefits.

"The idea behind workman's compensation is to protect workers who become injured on-the-job, particularly those who become substantially handicapped

### READERS' FORUM

### Franco not to blame for ad

a year ago.

(EDITOR'S NOTE: Our Oct. 7 editorial stated that the Anthony M. Franco firm was the advertising agency responsible for stickers calling for a vote against Proposal A. On this we were in error and have since learned the Franco firm is the public relations firm and not the advertising agency for the Committee Against Forced Depos-

It's been my experience that editorial pages of newspapers printed facts, not fiction. I must express my utter amazement at the lack of facts printed on your editorial page in "The Lobby's Propaganda."

In the first place, we are a public relations firm. The Committee Against Forced Deposits, which your editorial refers to, uses the W.B. Doner & Co. advertising agency. If you had cared about the facts, you would have telephoned me and avoid-

ed calling us an advertising agency. Secondly, you malign the Committee Against Forced Deposits in several slanted adjectives, such as "litter Lobby" and accuse them of using "every classic propaganda trick." In fact, committee members are employers and workers who pay millions of dollars to the State of Michigan in taxes. Lobbying is a proper exercise of free speech when conducted honorably. Committee members are too important to

conduct themselves dishonorably. You state the committee is "printing up a million yellow tags to stick on beer and pop containers." The fact is that your fig-

ure is wrong. You state that "the state has forbidden political advertising where alcoholic beverages are sold." It's true that the Michigan Liquor Control Commission tried to prevent free speech on a ballot proposal issue, but one commission is not "the state." There's more than a little question that ballot propositions fall in the usual definition of "political." The U.S. District Court late Friday ruled the liquor commission's action unenforceable on constitutional grounds and reaffirmed the committee's right to inform consumers about the effects of Proposal A with the use of the stickers in question.

You state that there's been an attempt at "equating deposit with tax." And you go on to explain the difference between a tax and a deposit. The stickers clearly refer only to "deposit." We think your readers are smart enough to know "deposit" means the customer can get that money

You state that our firm attempts to "conjure ugly images." We don't attempt to conjure any images. We are in the commu-

The I-96 project includes 3.4 miles of paving between Newburgh Road and Warner Court in Livonia. This will include eight paving of eight lanes and interchange ramps in addition to freeway lighting. The estimated cost is \$4.8 million with com-pletion scheduled for September of next

Construction on 1.2 miles of the M-14 freeway from one mile east of Beck Road to 0.6 mile west of Beck is expected to cost approximately \$3.3 million.

This phase of the schedule includes grading, drainage structures, paving for crossroads and service roads and construction of a bridge to carry Beck Road over the freeway. This phase of construction should be completed by November of next year.

At the same time, the highway department will be taking bids on construction of 1.2 miles of the I-96 freeway in Detroit. With completion of the Detroit and Livonia sections of the new freeway, residents in western Wayne County will have access to downtown Detroit via a freeway route.

The Detroit section stretches between Evergreen Road and Southfield Road and will cost approximately \$3.1 million. Completion of this section is set for November

American Red Cross volunteers Charles Doner and Linda Rhodehouse describe the techniques of cardio-pulminary resuscitation before a group of Plymouth residents training to become the community's first Disaster Action Team.

### Red Cross training local disaster team

If a massive disaster hit Plymouth would you be one of the victims?

Thursday, October 21, 1976

Or could you rally to the support of the victims, assessing food and clothing needs. Could you set up a relief shelter and administer first aid?

That is the challenge offered a small group of Plymouth residents undergoing Red Cross training to become the community's first Disaster Action Team (DAT).

THE FOUR-HOUR course teaches volunteers to evaluate disaster situations and offer guidance and monetary assistance to the victims. The participants are also given the chance to take the Red Cross's courses in first aid and cardiopulminary resuscitation.

At the end of the course, the participants form teams of three to 10 persons, with the captain and co-captain's names on file with the Southeastern Michigan Red Cross Chapter Office.

In case of a fire, flood, or other emergency, police can contact the DAT via the Red Cross 24-hour phone line

Once notified team members would arrive at the scene, speak with the victims, and authorize money for their immediate needs, such as food, clothing and shelter. The money is a gift, not a loan, made possible by the thousands of other people who give annually to the Plymouth Community

WHAT ARE THE odds of a disaster striking Plymouth? They can only be measured by the fact that Michigan ranks second highest in the nation for disaster situa-

Every day a team is called out som where in metropolitan Detroit," said Robert Avotte, regional manager for the DAT program. "In the past, teams from other communities have responded to emergency calls in Plymouth, since no local team

The group assembled for disaster action training got a preview of first aid techniques for Linda Rhodehouse and Charles Doner, volunteer instructors from the Red Cross Dearborn office. They demonstrated heart massage and mouth-to-mouth resuscitation on life-sized infant and adult manne-

"The more people we can get involved in training," Ayotte says, "the more we can reduce the number of deaths from

Ayotte also stressed that all it takes to become a Disaster Action Team member is one four-hour session on the evaluation of disaster situations.

A HOUSE FIRE is a typical "limited disaster." Alerted by its captain, the DAT would arrive at the scene and assess the family's immediate needs for medical services, food, clothing, and shelter.

"The assistance is based on need, not loss," Ayotte points out. "Whether the victim is an executive or a tenement dweller, he will receive the same amount of

DAT members are also trained to make good use of community resources, including other relief agencies, church groups and medical facilities.

IN THE CASE of a full-scale disaster-a hurricane, tornado or blizzard-the DAT is trained to identify and prepare a building for mass shelter. And that's not easy, for as Ayotte notes, "You must consider sleeping, cooking and restrooms; you must attend to those who get sick, panicky or troublesome; you must teach the entire gathering to look after one another instead of

This is the key to all Red Cross work: attention to the needs of others. It is the central force in each member group of the Plymouth Community Fund.

The Fund is currently involved in its yearly drive. Contributions may be made to the Fund at Box 356. Plymouth or through payroll deductions. People who are employed outside the community can designate Plymouth on their payroll deduction cards.

To find out more about becoming a Disaster Action Team member or about any other Red Cross activity, call Ayotte at the Northwest Regional office, 422-2787

## Dunn Steel has unusual 'club'

By W.W. EDGAR

One of the most exclusive clubs in manufacturing circles is the veteran employees group at Dunn Steel in Plymouth.

While nothing has been said about it, the club has a record that could be the envy of all plants: 16 members who have been on the job for at least 16 years.

The oldest in point of service is Curtis W. Copeland, the marketing manager, who has been on the rolls for 37 years. He went on the payroll for the first time on July 1. 1939, and has been employed ever since.

LITTLE WAS HEARD about the group until a recent gathering of Textron officials in Plymouth when the top brass gath-

Copeland, who heads the delegation, commutes each day from Union Lake and takes keen delight in the knowledge that he has served so long.

Behind him in years of service comes Harold A. Frederick, a header operator who has been on the job since June of

Four others have been there for 30 years. Their ranks include: Clifford J. DePew, supervisor in the secondary department; Peter F. Yost, a tooling and equipment engineer; Herbert Rorabacher, production superintendent; Roy Warner, a grinder carbide

THE 1947 GROUP includes: Harold C. Swan, customer service manager, and John F. Swquib, a lathe operator

Charles Foster, a lathe hand, and Charles E. White, a secondary department leader, are in the 1948 group. There are two who go back to the 1950 class. They are Edward T. Rix, a machine repairman and Clarence Levandowski, a tool crib attendant. Ormal Dunham, an inspector. dates back to 1951 along with Faye Thompson, an executive secretary. William Vradenburg is the lone member of the '52

The other member is Elmer W. Barlo who has been on the rolls twice. As a young man he worked at Dunn and later moved to Burroughs Corporation. His present employment dates back to 1959 and makes him the youngerst of the old timers in his present term of service.

After the senate action. Pursell received \$1,650 from three Plymouth auto dealers.

PURSELL HAD a different view of the two disputes and said that Pierce failed to do his homework" and doesn't know much about the legislative process.

On resource recycling. Pursell said he personally spent 1,000 manhours on the ssue over 312 years but a problem was that a senate committee chairman was interested in taking credit for writing the which requires the private sector to work with governments in developing re-

"The senate resource recycling bill was completely rewritten," Pierce said.

Pierce said the bill was rewritten by the House committee and signed into law.

"I'm not saying that Pursell had nothing to do with the act," Pierce said. "What I am saving is that the senator is being a little less than careful in describing his role in the legislative process. He wrote a bill. The House completely rewrote it and sent it back to the senate.

"The Senate passed the House rewritenot Pursell's original bill. The senator thus deserves some credit for a good idea, but certainly not the credit he claims as the author of this landmark legislation

ON THE bills related to car buyers and their obligations to make payments for "lemons," Pierce said the bill was designed to protect buyers of defective cars and allow persons to stop payments to lending institutions.

The donations were \$450 from Leo Calhoun; of Calhoun Ford, 41001 Plymouth Road; \$1,000 from Don Massey, of Don Massey Cadillac, 684 Ann Arbor Road; and \$200 from George Kolb, of Hines Park Lincoln-Mercury. Another \$100 came from the Committee of Automotive Dealers.

PURSELL DISPUTED Pierce's version of what the bill would do for consumers and claimed the donations were from longtime friends of his in the Plymouth area.

"It's a bad, anti-cortsumer bill which would deny poor people credit they need to buy a car and cut jobs in the auto industry by reducing auto sales," the senator said.

## Pursell backed by State Police union

State Sen. Carl Pursell, Republican candidate for the 2d Congressional District seat in the Nov. 2 election, has received political endorsements from the Police Officers Association of Michigan, a Democratic candidate who failed to win his party's primary, and a colleague in the senate.

Pursell also received a letter of praise from the Plymouth chapter of Alpha Delta Kappa, a professional teachers' group.

Delbert Hoffman, a Democrat who finished a distant third in a field of five congressional candidates in the Aug. 3 primary, said:

"Pursell is the far superior candidate. He is conscientious, qualified, sincere and honest. I observed during my primary debates with all the candidates that Carl was

The candidate said among his accomplishments in crime prevention during his six years in the senate is the opening of the state police headquarters and crime lab which opened recently in Northville.

STATE SEN. Gilbert Bursley, Ann Arbor Republican, endorsed Pursell although he added that "it is still difficult to lose someone of Carl's caliber from the senate.'

Pursell would "make an equally out-

standing contribution to solving the problems which beset us" if elected to congress. Bursley said.

Bursley added that he has worked with Purcell six years in the senate and said 'his continued determination and capability is probably best evidenced by his being named, when he first arrived on the Lansing scene, the 'outstanding freshman senator' by the legislature and the press."

THE TEACHERS' group said that its members appreciate Pursell's work in supporting educational programs in Michigan.

"As present and former teachers in Plymouth and the surrounding areas, we are constantly aware of the pressing needs for financing quality education," the association said. "We are grateful for your sensitivity to this taxing problem which often necessitates bipartisan voting."

"The issue isn't whether we can afford to assure jobs to all who want themit's whether we can survive if we don't."

—Ed Pierce

The number one priority of this nation must be to put the unemployed back to work. With so much work to be done in this country and so many unemployed who want to work, it is senseless that many Americans are unable to find jobs.

Ed Pierce thinks we can no longer tolerate the human misery and tremendous cost to our nation that unemployment causes. There's nothing more wasteful than the policy the Republicans favor—to pay the jobless billions of dollars in unemployment compensation and welfare instead of giving them jobs.

Those who say we can't reduce unemployment without causing inflation are wrong. Since 1974, we've had high inflation and high unemployment. In the mid-60's unemployment and inflation were both low. Setting employment as a primary national priority, we will be able to achieve that balance again.

There is a simple fact facing us today. The issue is no longer whether we can afford to assure jobs for all those who seek work—the issue is how long we can survive if we don't.

November 2 elect Dr. Ed Pierce, Democrat, to Congress.

## Presenting all the news gives them a fit

In the blazing heat of political factionalism, a few campaigners have lost sight, perhaps due to the smoke, of what free speech and a free press are all about in a free society.

The misunderstanding revolves around the efforts of Canton Township Supervisor Robert Greenstein and his slate to win re-election with a write-in effort Nov. 2.

We will continue to maintain that the write-in effort is futile; that the losers of the August Democratic primary should accept defeat and that the least wasteful course would be to try again next election.

Our argument is based not an any personal illwill toward the Greenstein team but on the evidence of history that write-in efforts simply don't work with a big voter turnout. It's theoretically possible, but the odds are massively against it.

'The sincere, but emotional, supporters of the write-in must try to understand that.

SO WHAT BUSINESS, the other side asked, did The Canton Observer have publishing the replies to a questionnaire of the write-in candidates? They're "uncertified" candidates, said the oppoments of the write-in.

## editorial opinion

The shoe was on the other foot, and the supporters of the primary winners didn't like it.

Time was when a political faction hired a printer to set their essays and diatribes in type, and they called it "a newspaper."

The nation is different today. No political faction can hire us. We're independent of any party, any faction, any candidate.

In a way, we're a little like a public utilityserving all the voters by telling all sides of an issue and giving our own reasoned conclusions.

You never hear of Meijer's calling up the gas company and asking why they sell gas to Kmart; you never hear of a Standard station manager denouncing the electric company for selling kilowatts to Boron and Mobil and all the rest.

The odds, we repeat, are massively against the write-in, but the situation isn't impossible.

In any event, you, the voters, should have enough information to make up your minds. We've been as thorough as human energy and the demands of other community responsibilities will allow us to be. At first glance, Proposal C, supported by Taxpayers United and spawned by Reagan-style conservatives, has a certain superficial charm. The heart of Proposal C is to limit state taxes and spending to 8.3 per cent of total personal income. Beneath the surface charm, however, lies a

horde of bugs. Proposal C is just plain poor constitutional law. Taxing and spending are matters for the legislature and governor, and for voter initiatives and referendums. The constitution is simply no place for the kind of taxing and spending limits that

Proposal C promises, however alluring the promises may be. Most folks are happy to pay taxes as long as they feel they're getting something for those taxes. It's illogical, then, to set an 8.3 per cent lid

Passage of Proposal C would have two bad after-effects. Local officials, particularly in schools, would put immense pressures on voters to raise property taxes to make up for frozen state spending; and lobbyists for more spending would look to Washington, with its gravy train in the form of the graduated income tax.

Finally, Proposal C is immensely complicatedjust defining its terms would consume many pages-and the complications would only result in a multiplicity of lawsuits. We urge defeat for Pro-

## Why voters drop out

It is now quite clear that the big story about the forthcoming election will not be who won and who lost. Rather, it will be in the attitude of the people: cynical; turned off; resigned; angry; de-

There is no better way of measuring the extent of public disillusionment with the workings of our political system than examining voter turnout and registration data. In 1960, the year of the now-legendary Nixon-Kennedy debates, the voter turnout was 64 per cent. In 1972, the year of the Nixon landslide, 55 per cent of those eligible voted. This year, experts forecast that less than half of eligible voters will actually go to the polls.

Voter registration numbers are equally depressing. Of those old enough to vote, 77 per cent were registered in 1968, 75 per cent in 1972, and only 71

THE VOTERS are telling the politicians something: They don't like what's going on, and as a result they are dropping out of the system.

disillusioned is that, while producing a lot of talk, the politicians are failing to talk about the right

HENCE the following list of unasked questions which should have been discussed during this cam-

1) In what direction should the country be headed during the next decade? It's not enough to stress love and a government as good as the people are, or to talk about maintaining the stability of the dollar. America has always been a nation with a special, ennobling mission

2) How can we achieve consensus in America. in an environment increasingly permeated by the shrill, self-serving demands of endlessly proliferating special interest groups? Without a national mission, we cannot develop a framework of unity within our country against which the needs of individual groups in our society can be balanced.

by PHILIP H. POWER

3) What's leadership, and how can it be discussed without individual politicians falling into the trap of over-promising? Neither Mr. Ford nor Mr. Carter has really talked about the subtle processes by which they propose to lead the country. Will they try to run the entire government, a la Mr. Nixon? Will they try to set priorities? Will they concentrate on articulating a vision for Amer-

4) What's politics all about, anyway? As I watched the debates, my disgust with the increasingly transparent efforts of both candidates to manipulate blocs of votes rose with the lateness of the hour. If candidates insist on manipulating people like unthinking symbols in an algebra equation, the people will begin to react in kind and turn off those who insist on manipulating them.

5) How to get competent people to become involved in public service? No government can be run by one man, no matter how able or charismatic. The real guts of our governmental system rests in the willingness of ordinary, capable people to participate in it. At present, between the ravening avarice of the press to invade and destroy the private lives of public servants and the neurotic demands of the political system for unreasonable allocations of an individual's time, the system is set up to provide enormous disincentives against reasonable people getting in-

## Why are letters anti-Greenstein?

Editor:

I feel the reason you get few letters pro-Greenstein is because I went to three stores before I could purchase one of your papers. Now I am glad I bothered. Since you seem to print anti-Greenstein letters all the time. I did not want to waste my money reading lies told about him and the team. The only reason I bought it this time was I heard some good things were being

said about Greenstein. So, if this letter is not printed you and I will both know why. It is because it is all facts, pro-Greenstein and team and against you. Also, all of your anti-Greenstein letters that you have printed seem to be from the same people that the other Canton papers print, too.

First of all, I was so shocked to read that a person was questioning how many hours a week Greenstein worked. That is the first time I have ever heard of a man in a public office being cut down because he worked so hard. Second, my own husband usually works all those hours because he wants many nice things for his family. I would say Greenstein is similar in that he wants many nice things to happen for Canton. So he has to work many

long, hard hours to achieve this. Since Greenstein and team have been in office, they have done more than anyone else has ever done for Canton. I have lived in the Plymouth-Canton area since 1969 and have seen more done for Canton in the last two yeas than in all the other years before combined. No one man and his team have done more for Canton than Green-

stein and his team Of course I have not approved of everything they have done. I would not be human if I did. But who has? Greenstein has stepped on many toes, especially builders and contractors. I wonder if any of them could be friends with Harold Stein, who happens to own a contracting business

So you see, dear editor, I have not approved of everything Greenstein and team

### Support 'Fair-Share'

Editor:

Very few elections are held in which voters are not asked to vote on constitutional amendments. And to be sure this year is not an exception, as we, the tax-paying voters, are being asked to vote

on a "Fair-Share" tax reform amendment. Before broaching the amendment itself, let me explain our situation of income taxation in the status quo. The income tax permitted by the state constitution is cited for two deficiencies. First, it is "regressive" in imposing the heavier burdens on the middle-lower incomes, rather than on the higher income families. Second, the tax is not sufficiently responsive to the prevailing inflationary trends and does not. therefore, provide sufficient levels of revenue to the states and localities, under con-

ditions of increasing prices. So, the "flatness" of the state income tax rates limits its revenue production during periods of rising incomes. Also, the income tax does not bulk as large in the revenues of state governments as it does in

the revenues of the federal government There you have it, a tax situation in which the poor and the middle class are heavily burdened, while the wealthy get off cheap. However, it does not have to prevail any longer, for you and I, the voters. can put an end to this unfair tax. How?

Michigan Citizens Lobby has a "Fair-

Share" tax reform constitutional amendment, to be placed on the November ballot for approval by the voters. If it passes by a majority vote, it would remove the state constitutions ban on a graduated income tax. It would roll back the income tax rate from 4.6 per cent to 3.9 per cent on all taxable income under \$20,000 and allow a gradual higher rate for incomes over \$20,000. This does not mean that everyone who has an income over 20,000 is going to pay a high percentage of taxes compared to that which they pay in the status quo. Far from it, they will have a minute increase. This amendment would put a "fair share" of the burden of taxation on the wealthy businessmen of Michigan who literally pay nothing compared to the lower-

Citizens are continuously heard screaming "unfair taxation," yet believe it or not this will be the third time Michigan voters consider a graduated income tax, having turned it down twice before. This kneejerk, unknowledgeable reflex of voters to vote "no" on any amendment with the

word "tax" in it has got to be overcome. If you are a tax-payer who's tired of the unfair income tax situation, and want the wealthy to pay their fair share, then, for your own benefit, vote "yes" on tax re-

Land use legislation limits the rights of people to do with their property as they see fit. This very concept brings to mind the same type of control exercised on

people in fascist Italy under Mussolini. We must not allow this to happen in Canton. We must oppose the proponents of this radical and alien legislation.

The Foundation for Mentally III Children has a 1976 Christmas card designed by a student at Fairlawn Clinton Valley Center in Pontiac. The card bears a toy-filled red stocking and a red border, and sets of 25 cards and red envelopes are priced at \$5, with additional orders available at \$4. Order them from Mrs. Dale O. Miller, 6015 Showshoe Circle, Birmingham, 644-7714.

### City Christmas

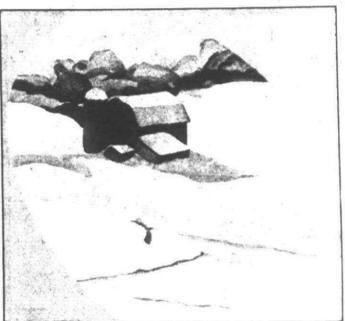

The Michigan Association for Emotionally Disturbed Children conducted a contest in Detroit public schools to choose its 1976 Christmas card, and the winning entry, by 14-year-old Kim Prosinskiis a colorful depiction of urban holiday lights. The cards, in packets of 10, cost \$1.50 for one packet or \$5 for five, and imprinting is available with \$5 orders. Make checks payable to the Michigan Association for Emotionally Disturbed Children, and mail orders to 668 Pallister, Detroit

### Holiday greetings

The Mongoloid Achievements Foundation offers a yellow card with red and green greetings of the season forming its design. The cost is \$4.25 for 25 cards and envelopes, and name imprints can be requested. Order them through the foundation's research and development, 4182 Cherrywood, Troy, 643-0466.

### Winter scene

Metropolitan Society for Crippled Children and Adults has six cards this year to support its programs for the handicapped. Pictured is a vellow card with a snow scene circled, and that card and the five other designs sell for \$3 for a box of 25. They may be purchased at the therapy center, 17330 Schaefer, Detroit, or ordered from the center by telephone, 341-4900.

## These cards send hope along with Christmas cheer

Why shouldn't a greeting card that makes friends and relatives happy at Christmas time, also be used to lift the spirit of those whose spirit is badly in need of uplifting?

That is the philosophy behind the sale of holiday cards by many charitable organizations prior to the Christmas season. Money gleaned from the sale of these cards will be used to fight against many problems such as mental illness, disease, blindness and hunger

Purchasing the cards displayed on this page will help the Michigan Chapter of the National Multiple Sclerosis Society, the Michigan Association for Emotionally Disturbed Children and the American Lung Association.

SELECT THAT cheerful, bright red Yule stocking and the lives of mentally ill children will be brightened. Pick the one showing an open book and candle and an intellectual light will snap on in the heads of people who must read in Braille.

Profits from the sale of the card showing a barn in a snowy setting will be used to provide therapy for the handicapped in the tri-county

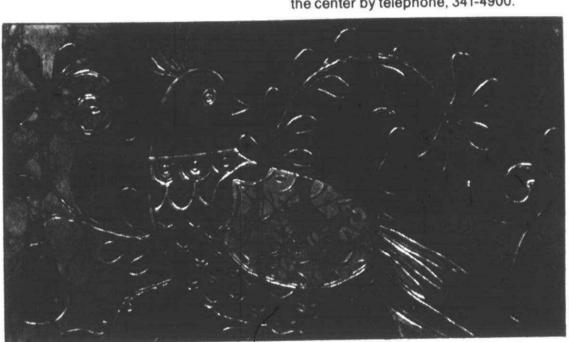

Knowledge, understanding and achievements of mongoloids will be promoted by the sale of the card that says"Noel, Shalom and Merry Christmas." Vocational training and sheltered employment programs for the handicapped will be boosted by proceeds from the sale of the red, blue and gold New Horizons partridge.

Cards of other organizations will be displayed in later editions. Watch for them in making your Christmas mailing plans.

THIS PAPER does not handle orders, but the cards we have received, together with instructios for ordering, will be placed in a book that will be on display in the lobby of the Birmingham Eccentric, 1225 Bowers, Birmingham.

Some card samples and information will also be available at the office of the Livonia Observer,

INTERLUDE

Among the admirers who came to hear Alan Jay Lerner (right) at Northville Town Hall were Evelyn Funk (left) of Plymouth, whose favorite Lerner song is "I've Grown Accustomed to her Face," and Livonian Elaine Vermeesch, who

## Lerner, the romantic, charms town hall

By JEAN DAY

Alan Jay Lerner reminded a packed Northville Town Hall audience that there's still romance in the world.

Listening to the famous lyricist at the opening of the 16th session in the Plymouth Hilton was much like hearing phrases from his "My Fair Lady." "Gigi"

or Camelot. The man who wrote romantic words to the music of Frederick Loewe for so many years drew applause when he sang his own

He sounds a little like Rex Harrison (for whom he wrote the professor's role in "My Fair Lady") as he "talks" his way through a song.

He looks a little like Frank Sinatra in his slim days. He named Sinatra as his favor-

ite popular male singer. "I have never written a lyric in my life that was not for a character in a play," he said. He is drawn to the romantic theater and prefers "subjects larger than life, for if they were truly real there'd never be a

There is a longing for good musicals." said the writer. He cited the musical form as "the only real American invention in the theater-it is purely American. It is ours. It is what we are known for around

the world. "It will be a crime if American youth does not find in the musical an avenue for

the things we feel. Lerner called writers such as himself

'an endangered species.' "One of a malaises of the theater today." Lerner told his audience,"is that too many young people are cavalier about craftsmanship.

He feels there is too much concern about whether young people will like it. The theater, said Lerner, "is for people

who like it, of whatever age-who go to be transplanted and wanting to be seduced."

LERNER SAID he remains an optimist about its future, adding that he has been fortunate enough to have songs that have

The songwriter also admitted that he can't remember his own lyrics, recalling how Princess Margaret asked him to sing and he couldn't get beyond the first line,

I've Grown Accustomed to Here Face.' For his appearance, he had before him the words to such songs as "Gigi," his personal favorite. It is also the favorite of Loewe, he added.

Lerner capsuled his theatrical success by saying it was determined by "a cigarette butt, a left hook and a wrong turn to the men's room.

Smoking a forbidden cigarette at Choate caused him to be sent home to a father who decided against sending him to Europe to study for a diplomatic career.

He went instead to Harvard, seeing plays in Boston and writing. He also boxed until a left hook damaged the retinas of his eyes and kept him out of military serv-

man? Why can't a woman be like us?" In this song from "My Fair Lady." Lerner explained, he tried to capture the character of the language professor who was a misogynist.

Comedy, he told the women, is not as much trouble as a ballad to write. It took eight months, he said, for the words. 'Draw back the curtain, you'd be impressed-on a clear day, rise and look around you and you'll see who you are" for "On a Clear Day You Can See For-

This musical resulted from Lerner's interest in the occult, which he admitted fascinates him

LERNER SAID he was as surprised as anyone with the identification of "Carh-, elot" with the Kennedy administration. He recalled that its was "Mrs. Kennedy who said she kept remembering its lines in the days after Nov. 22, 1963, and then they were headlined in New York papers.

In response to the question of which comes first, words or music. Lerner explained that it is an individual thing with each composer. With Loewe, the title and a "germ of an idea" came first, with Ler-

ner then putting lyrics to the music You cannot write for an audience-you write for yourself and hope to God others will like it too. It takes a lot of time and a lot of other people's money." Lerner said

He does write for specific actors, he said, calling Rex Harrison "a rare artist" and Kate Hepburn "the last of the monsters and the last great star of the theater. Quite different was Maurice Chevalier.

He was punctual and a craftsman. It was Chevalier's comment to Lerner that growing old "relieved him of all the problems of love" that resulted in Im Glad I'm Not Young Anymore.

ASKED AT the celebrity luncheon following the lecture how he liked Barbra Stretsand's renditions of his songs. Lerner termed her "an irritating artist-she has an extraordinary voice, but she sacrifices content for sound. I don't think good singers do this

### Preparing for Call to Action

Area members of the Catholic Archdiocesan Pastoral Council had plenty of reading to do in preparation for the Call to Action conference in Detroit this weekend. Some 4.600 recommendations came from Catholics in the Detroit Archdiocese as part of the American Bishops' "Liberty and Justice for All" program, and

printouts of these are being examined by Mrs. Helen Marks (left), of St. Damian parish in Westland, Michael Ives of St. Anthony in Belleville, and Sister Barbara Celeskey, pastoral minister for education in St. Edith parish in Livonia.

## CHRISTMAS BONUS

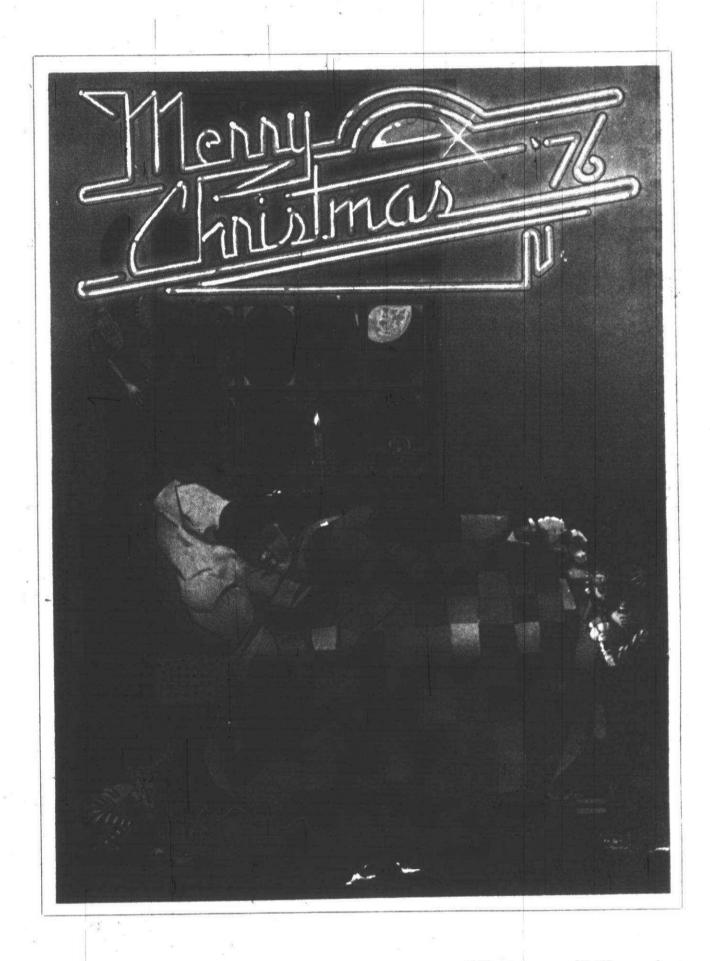

1975... Last year's Christmas Gift Guide was honored as the "Most Outstanding" special section in Michigan. It also won National and International honors for Cover Illustration and Newspaper Promotion\*. We're proud that our special sections continue to be the finest anywhere; but we're most honored to produce this bonus for you!

- First Place, Special Section Michigan Press Assn.
- Honorable Mention Illustration Society of Publication Design
- Honorable Mention Illustration International Newspaper Promotion Assn.

### A BONUS FOR OUR READERS

At the beginning of the Holiday Season, when you need it most, the Observer & Eccentric brings you seasonal shopping, decorating and entertaining tips. It will save you time, money and some of the extra steps you take to make the Holidays special. We'll put you in touch with shops, services and conveniences that will make your season merry. We'll make visions of sugar plums dance in your head with Christmas Spirit and Holiday Cheer on every page. It's a Christmas Bonus for you from the Observer & Eccentric Newspapers.

1976... We're presently working on our "Christmas '76" section, with the same high standards, good taste and attention-to-detail that went into last year's award-winner. Look for this Christmas Bonus in your Observer & Eccentric, Wednesday, November 24th.

### A BONUS FOR OUR ADVERTISERS

If you have a holiday message to deliver, it belongs here. We take care to assure that your advertisement appears in the finest newspaper supplement in the state — (you've got the Michigan Press Association's word on that.) High-quality white-offset paper, sharp reproduction and relevant, informative editorial content combine to display your message at its best. More than 152,000 families will see your ad — probably more than once, because this is the calibre of section that stays in the living-room; it isn't tucked away in with last Sunday's news. Wayne or Oakland Counties as well as Full Circulation are available for this fully-indexed, November 24th supplement — for further details contact an Observer & Eccentric representative.

### Symphony season opens

The audience gathered in the lobby for coffee and conversation during intermission of the Plymouth Symphony Orchestra's opening concert of its 31st season. Guest soloist Mischa Mischakoff and the orchestra, conducted by Wayne Dunlap, performed for one of the largest season openers en record. Several of Mischakoff's former violin students joined him for the performance, one of whom flew in from New York for the occasion. (Staff

## PTG season opener is entertaining comedy

By PATRICK TOUHEY

Despite inadequate stage facilities and opening night jitters, the Plymouth Theatre Guild turned in a good performance of "Pursuit of Happiness" this week-

The play is set on a farm in Connecticut during the American Revolution. On the surface the drama is a light comedy about "bundling," the old dating custom in which the courting and sparking couple wrap up in blankets and get in bed together-fully clothed, of course

However, beneath the surface humor, the play provides a vehicle to dramatize the contradictory nature of the American

ON THE ONE HAND is Max Christman. a Hessian soldier who defects from the British Army to become an American. Quoting the Bill of Rights, Christman tells the people assembled in the farmhouse that he wants to become a citizen so that he, too, can "run after happiness." He talks enthusiastically about leaving the oppression of Europe and building a new life in America. Symbolically he represents the philosophical and political principles that guided the framers of the Constitution

In antithesis to Christman and his naive optimism stands the Rev. Lyman Banks, a mean-spirited Puritan clergyman. Banks personifies the holier-than-thou hypocrite. who, under the cloak of Godliness, does his

very best to make everyone miserable. He hates people; he hates fun; he hates sex; and most of all he hates happiness.

With the broad conflict thus established, the plot is moved forward by Christman's attempts to find happiness and marry the farmer's daughter. Needless to say, the good reverend and a contingent of frightened, narrow-minded villagers fight him every step of the way.

IN THE END, political promise triumphs-at least temporarily- over religious self-denial, and boy marries girl. Leading the cast of players was Thomas

There is an Archives and Research Library in town, Do you know where it is? The list of topics that can be researched in the library is extensive:

Maybe you are interested in finding someone who lived in Plymouth or the surrounding area. The source of information ss the genealogy section. Some of the family names are Miller, Chase, Smith, Jackson and Crawford. .

Or, perhaps your interest is industry of the area such as Chief Hunter Cigar Mfg., Wherry Self-Setting Mole Trap Mfg., Hoyt Monument Works, Chair Factory, and saw

Or maybe you would like to know what was happening in the area from 1887 to 1939. We have newspapers of the era on mi-

Or, you may be a Civil War buff. We have a complete set of the "War of the Rebellion" and much other material. •

Or, maybe you would like to know what Michigan was like when the first settlers came. Then, you would be interested in the set of "The Pioneer Books."

The Archives and Research Library is in the Plymouth Historical Museum, Main Street at Church

Hinks in the role of Lyman Banks. Except for a few moments in the last act, when the strain of being nasty got to him and he started laughing, his performance was unquestionably polished. Dale Feldpausch, who co-directed the play, also did an outstanding job in the character of Max Christman. Other commendable performances were

given by Richard Brown, who played the village sheriff, Cynthia Richards as an. addle-brained serving girl, and Carole Shrewsbury as the farmer's daughter.

Patricia Bray, who co-directed and produced the play, made the best of the Cultural Center's rather small stage,

Friday night's performance marked the guild's new dramatic season debut; and judging from the general acting and technical quality, the Plymouth community can look forward to a very entertaining year.

## Gridders look to rebound against rivals

By DENNIS O'CONNOR Sports Editor

Traditional rivalry-something that has spurred both football players and fans over the years.

That's what the Plymouth Centennial Park has to offer this weekend as Livonia Bentley and Northville visit Plymouth Salem and Plymouth Canton for regular league action.

The Rocks host Bentley Friday night at 8 p.m., while the Chiefs battle Northville in a Saturday night contest, also at 8 p.m.

THE SALEM-BENTLEY ANCIENT rivalry has been nothing but a laugh for Plymouth fans over the past six years. And if everything happens the way it should, the Rocks should easily make it seven in a row.

Head coach Tom Moshimer beat his buddy Glenn Goode, coach of the Bulldogs. last season in a thrilling 21-20, double overtime victory

The Rocks also won 16-0 in 1974, 18-15 in 1973, 25-22 un 1972, 21-12 in 1971 and 25-0 in

As for the 1976 season, Bentley comes as a welcome relief to the Rocks after last week's thrashing it received from stateranked Edsel Ford.

"Our goal this week is to shutout Bentley," said Moshimer. "That is something that no other team has done this season." Bentley is rebuilding, fielding a young and inexperienced ballclub. While the squad has proven to be potent on offense, it has had problems on defense.

One thing is for sure—the Rocks won't have to contend with the speed Ford gave them the week before. Moshimer sighted what he called a "nat-

ural letdown" of his layers against Ford. saying they came out "fairly flat" in the game following the big victory against Despite this fact, it didn't take away

from Moshimer's expected respect for Edsel Ford. He feels that if Ford this week gets past Dearborn, it should win the Sub-8 title and possibly go all the way if it reaches the state playoffs. As for his team, Moshimer doesn't think

the Rocks will come out flat this week. When you come off the thrashing like that, you can either come back or fall flat on your face.

"With the kids we have, I think we will come back."0 But Moshimer added cautiously, "We

aren't taking Bentley lightyly. Salem takes a 3-2 record into the game.

while the Bulldogs are 2-3

THE FOLLOWING NIGHT, it's the battle for The Bell as Canton tries to regain this prize which it lost last season to the Northville Mustangs.

Coach Dave Schuele's slogan for this week is quite fitting, as he fries to get his sound to rebound from last week's disastrous loss to lowly Walled Lake Western.

'What the hell-let's get the bell" was printed on the Chiefs' scouting report before practice began this week.

To put it mildly, Schuele was very upset with his team's performance last week, against a team they could have beaten.

"It was the first time I was disappointed in the way we played," Schuele said. "We just quit playing.

"Even against Harrison, we did not quit. The Chiefs battled back against Western, trailing only 14-12 after an impressive drive. They were only two points back with more than eight minutes left in the

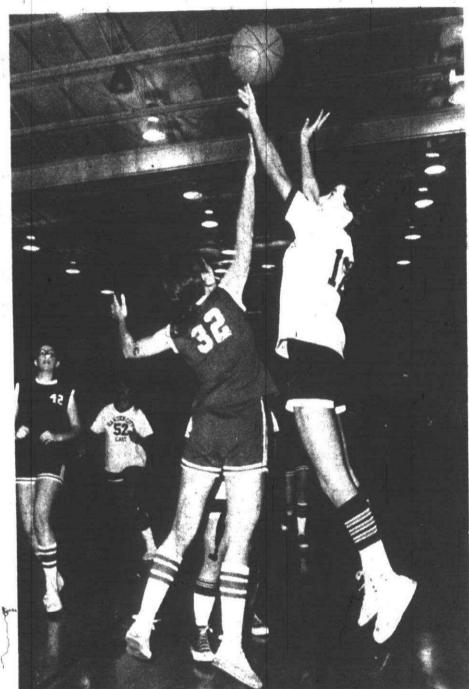

But Western came right back and easily scored to end the Chiefs' hopes for victory. We had a shot at them. I couldn't believe we fold at the time we did.

"We just seemed to say 'That's it for the 'We just didn't look good and I let them (the players) know it." While Schuele will do some re-shuffling of players in certain positions this week, he still feels the Chiefs have a chance to upend a 4-1 Northville team that outweighs them.

"We got a shot at them," he said. "We have to get things reassembled. The extra day of practice will help us."

Northville had a four-game win streak snapped last week against state-ranked Farmingtom Harrison, 34-0.

The Chiefs come into this contest as the lone celler dweller in the Western Six League. Canton has a 1-4 overall mark and 0-3 in the conference. They sport the worst statistics for points scored and points allowed in the league

The end of what was supposed to be a 'rebuilding' season for the Plymouth Salem girls tennis team resulted in a respectable fourth place finish in regional competition held last weekend at Ann

Arbor Pioneer High School. Pioneer easily won the regional title. scoring 20 points. Ann Arbor Huron, Jack son Parkside and Salem were bunched up behind the victors with 16, 15 and 14 points

The Plymouth Canton girls squad didn't fair as well, failing to win a match in the 13-team event.

Although none of the Rock netters won individual regional honors, all but one of the players reached the semi-finals or championship rounds before bowing.

First singles Becky Crespo played the tourney with a strained back, but still reached the semifinals.

The Salem sophomore, who was seeded fourth, won matches from Brighton and Milford before losing to the eventual tourney champion Letica Diaz-Perez from Ann Arbor Huron.

Coach Jan Lawson was very proud of her teams' performance over this past year, which included an overall record of 8-2 and a second place finish in the Suburban Eight League.

Lawson is equally excited about next season since all but two girls from the starting 10 will be returning.

### Tankers cruise to easy meet victories

It was a fun Tuesday for both the Plymouth Canton and Plymouth Salem girls swim teams, as both squads easily won non-league meets.

The Chiefs met Walled Lake Central at the Plymouth pool Tuesday night, and coach Anne Massey's crew won its fourth meet of the season with a 104-60 victory?

Coach Chuck Olson's Rock's traveled for afternoon competition against Livenia Franklin and won 111-60.

Both coaches were free to experiment all day and night, swimming their top competitors in different events, and allowing most other swimmers to participate.

CANTON took eight first place finishes of the 11 events, including both relays.

The 200-medley combination of Cindy Shelanskey, Sue Knight, Annette Piethe and Jane Anderson placed first with a 2:10.7 clocking. The 400-free relay saw Shelanskey, Peggy McElmeel, Lori Hogan and Anderson win with a 4:27.6 clocking.

The Chiefs took first, second and third place finishes in the 100-breast and 500free. Hogan won the 500 race with a 6:46.0 time. Janet Gottschalk and Sue Vitoratus followed behind.

## Salem cagers get scare; Canton bows to GC East

A fourth quarter rally preserved the unbeaten string of the Plymouth Salem girls basketball team, but not after the Rocks got the scare of its life from a determined Edsel Ford crew

The Rocks went into halftime Tuesday night with a slim 20-19 lead, over this second-year squad. After extending that margin to a mere 35-29 advantage, the Rocks finally exploded in the final eight minutes to ice the game by 30 points, 61-31...

'We ate humble pie tonight," said coach Debbie Hatcher. "Their girls were prepared and gave us a run for our money. 'This game proved a lot-you can't get

too cocky. It was very disappointing.' The Rocks face Bentley tonight in a battle for the Suburban Eight League lead. Salem is unbeaten, while the Bulldogs are only one game behind. Last time, Salem survived a fourth quarter rally from the Bulldogs to win 50-40.

### Chief golfers take 3d

By BETTY DeLANO

The end of a rewarding season came Monday afternoon for the Plymouth Canton boys' varsity golf team when the Chiefs placed third in the Western Six

Playing on the Kensington Park golf course, the Chiefs went into the meet with a 7-3 season record, which was second best to Northville's 9-1 mark in the conference.

Canton's Doug Bricker led the team to its third place finish with an 84 for the 18hole round, while Steve Morman and Jon

Pearson added 85s toward the 430 point team total.

Don Dales of Northville was overall medalist with a 77 and led the Mustangs to a 413 score for first place. Farmington Harrison came in second with 417.

Fourth place was claimed by Walled Lake Western with a 431. Waterford Mott was fifth at 440 and Livonia Churchill tallied 443 for sixth.

The Western Six all-league team was announced by coaches and includes Steve Morman of Canton, Hampton and Wilson of Waterford Mott, and Dales, Chamberlin, Pvett and Mack, of Northville

## **Doc's**

By DENNIS O'CONNOR Sports Editor

After the pitiful performances exhibited by both football teams last week. I think its time to talk a little about the Plymouth Salem and Plymouth Canton girls basketball teams.

Last week's action marked the halfway point in the season for the Rock and Chief cagers. Going into Tuesday night's action, Salem was undefeated with a 9-0 record. and well on their way to another Suburban Eight League victory.

The Chiefs stand 6-3 overall and have a second blace standing in the Western Six League

Credit has been long overdue to coaches Debbie Hatcher and Mike McCauley, for two outstanding jobs.

Hatcher began Salem's program only a few years ago, and McCauley began his position after the initial season ended In the short time, both coaches have built solid, experienced programs that have been the envy of most coaches in the

Both coaches have given the extra time it takes to help develop winning programs. Another of the secrets behind the success of such an early program must be credited to Our Lady Of Good Counsel elementary school, which has trained a number of current high school players with its programs between fifth and eighth grade.

Because of this extensive training that this Catholic school offers in the elementary level, much of McCauley's and Hatcher's job is made easier.

Counsel has served well as a feeder school for CEP girls basketball, where the middle schools in Plymouth don't have a program as yet. THIS WEEK'S GRID

I've really been taking my lumps over the past weeks with my picks. Maybe it's because I'm choosing the Plymouth teams

The Salem Rocks are back home against Bentley in a traditional grudge match. Last week, I chose the Rocks to win-only on the basis of the performance the team showed against Trenton the week before. Obviously, the Rocks didn't look as good against Edsel Ford as they did against Trenton - but - 42-0! I was wrong by 48

The Rocks should rebound against the rebuilding Bentley squad that can generate offense, but is very vulnerable on defense. Look for a high scoring game. Salem by

AT THE BEGINNING of the season. I predicted the Plymouth Canton Chiefs would finish the season with a 2-7 record. I thought Canton would beat Annapolis and it did. I also figured Canton would win

against Walled Lake Western last week, and it didn't. Losing to a meager squad like Western can't say much for the Chiefs now, or at

the end of the season. Look for coach Dave Schuele to make personnel changes on the field, but don't ook for any change in the results of the

### Robb named MIAA player of the week

Steve Robb, 1973 graduate of Plymouth Salem Hifh School, was named Michigan Intercollegiate Athlectic Association (MIAA) player of the week Monday, after leading Albion College to a 28-0 victory over Kalamazoo.

In the game Saturday, quarterback Robb passed for two touchdowns, completing 10-14 attempts. He also ran seven times for 76 yards.

Robb heads the Albion offense which has a 6-0 record so far this season. The Britons are in first place in the MIAA conference and rank third in the NCAA Division III

The 6-3, 200-pound senior, served as cocaptain on the Rocks 1972 squad as a senior. After the season, Robb was named as co-Most Valuable Player along with Ron Egloff, who attends the University of Wis-

Robb was the first wishbone option quarterback for Salem, spearheading this new offense which was introduced by head coach Tom Moshimer in 1972.

The Plymouth grads' ability to run an option-type offense has helped in his college days as well.

"Steve's speed and agility make him an excellent option quarterback," said Albion head coach Frank Joranko. "He readsand reacts extremely well. He has the ability to come up with the big play when we

## Plymouth touch football results

The Stoners proved too much for Wagenschutz, as the squad dominated the game from beginning to end, posting a 37-0 win in the first game of the Plymouth men's

touch football league. In the opening period, Larry Gates and Brian Eschels combined on a pass for the first Stoners' score. In the second period, Gates hit Jim Goedde for another touchdown, and before the half ended, the Sto-

ners added a 27-yard field goal. The Stoners rounded out the scoring with three quick touchdown passes from Gates to receivers Mark Johnson, Gordon Harrison and Eschels. The Stoners' big victory was highlighted by eight pass inter-

The second game this past weekend pitted first place Realty World against Vettese Builders

Realty scored early and often as quarterback Gary Knapp hooked up with Dennis Finfrock for a 31-yard touchdown

in the initial period. After the ensuing kickoff, Rick Martinez

Knapp again hit Finfrock for a 35-yard touchdown pass to round out the first period scoring with Realty on top, 19-0.

In the second quarter, a strong Realty pass rush resulted in a pass intercepted by Bernie Jackson which he returned 43-yards for a score. Later in the second stanza, Rick Dudley intercepted another Vettese pass and two plays later, Knapp hit Marty Blevins from 27-yards out for a touchdown.

Third quarter action saw Dennis Galloway intercept a pass which set up another Knapp to Blevins scoring pass, making the score 37-0.

Vettese scored its only touchdown in the final period when quarterback Rick Neu led a sustained drive, capped off with a five-yard pass to Clark Fullerton.

As time ran out. Blevins caught his third touchdown pass from substitute signal-caller Bernie Jackson to make the final score

# The Family of

wish to sincerely thank the hundreds of friends for their thoughtfulness and condolences rendered in our recent bereavement.

HARRY S. WOLFE

We especially want to thank the members of St. Matthews United Methodist Church for all of their help and thoughtfulness and in preparing the fine luncheon after the services. It is in our hearts to give special recognition first of all to Pastor Rickard for his outstanding tribute to Harry S. Wolfe, next to W.W. Edgar's eulogy which was so eloquently delivered, and not to forget Pat Ruark (Harry S. Wolfe's private nurse) who sang so beautifully his favorite song "How Great Thou Art."

In addition to the above we will always remember the impressive memorial services performed by the Brother Masons of Livonia Lodge No. 586. The citizens of Livonia are so fortunate to have a

Fire and Police department, that our experiences, proved are superb.

Harry S. Wolfe loved Livonia and did his part to help in its growth. He was proud of his City and the people in it. We're not only proud but also grateful and will remember always the sincerity shown by everyone. In conclusion all we can say again is "Thanks to Everyone."

# HOMES WITH IMPACT

# SERENITY AMID THE GREAT TREES

200 years ago, rich stands of tall trees flourished in Michigan, providing shelter for small game and birds in their shade. That long-ago beauty still endures at Nottingham Park in Livonia, a community of fine single homes set in a woods so dense you can hardly see the houses for the trees. If you've ever wanted to get back to nature, come home now to Nottingham Park. It might be 200 years before there's another place like it.
