# School bans film on teen stereotypes

By Emory Daniels staff writer

Superintendent John M. Hoben has ruled that the movie "The Breakfast Club" is inappropriate material to be used in the classrooms of Plymouth-Canton Community Schools.

Dr. Hoben Monday night reaffirmed a decision made earlier that the movie could not be shown in English classes at the Centennial Ed- t

ucational Park. Before making that decision, Hoben discussed the matter with the executive cabinet and informed the school board at a workshop session of the action he was taking. Monday night some students

appeared to protest the decision. The school trustees listened to the positions of the students but took no ac-

d- tion on the matter.

THE SUPERINTENDENT acted on the matter when a resident, Diane Daskalakis, objected to plans to show the film to English classes.

The movie involves the interaction of a handful of high school students placed on an all-day detention on a Saturday. Each participant represents a stereotype of a type of student — cheerleader, athlete, a brain, a non-conformist and an outcast.

The movie also involves profane language and sexually explicit discussions, which resulted in it carrying an "R" rating.

Hoben said at Monday's board meeting that he reviewed a summary of the language used and determined it was inappropriate for use in the classroom. Executive cabinet members agreeing with him earlier were Dr. Michael Homes, Ray Hoedel and Norman Kee. At the workshop session, no trustee objected to Hoben's decision to "ban" the movie.

After reaching that decision, Hoben sent a memo on Oct. 7 to principals, area coordinators, assistant principals and instructional program administrators to issue guidelines on selection and use of educational resource materials.

"Because we are entrusted with the education of the community's youth we must, rightfully, take a leadership role in determining what is apropriate and acceptable," he wrote.

Residents heard in park site development tiff

#### By Diane Gale staff writer

About 100 residents left township hall Monday cheering a vote that weakens chances for a proposed development on a neighborhood park.

Carriage Hills and Willow Creek subdivision residents convinced a majority of the Canton Planning Commission to vote against a proposed single-family development of a 9.5-acre parcel on the south side of Barchester between Paul Revere Lane and Burham. The land includes a soccer field, baseball diamond and

#### wooded area

Residents — armed with a detailed outline of potential problems with the development — opposed the maximum 40 homes that would be built. They cited insufficient sewer capacity, traffic congestion and loss of a park in a section of Canton otherwise without recreational areas.

Plymouth-Canton Community Schools owns the land located in both subdivisions. The district has a contingent purchase agreement with Mel Belovicz of Southfield pending approval of the development. However when the subdivisions were built the township agreed the land would be designated as a future school site in a planned unit development (contract agreement).

"As a homeowner I relied on this PUD," said Jacob J. Weil, who owns property abutting the parcel.

Residents, citing long bus rides for some students, also argued a present and future need for more schools.

THE PLANNING Commission voted Monday against allowing single-family use in a 4-2 vote. Commissioners Robert Shefferly, Loren Bennett, Martin E. LaForte and Ed Portschell voted to deny the school board's request to allow the change. Catherine Prince and Chairman Richard Kirchgatter voted in favor.

"The planning commission is considering what the people want," said Cathy Johnson, president of Willow Homes Association, representing 980

members. The vote represents a recommendation from the Planning Commission to the Canton Township Board

of Trustees, which will have the final say. "Just because we won this round we won't drop this but we don't want

it to be done in a threatening manner," said Brent Taylor, president of Carriage Hills Homeowners Association, representing 980 members.

Harold Fischer, a Plymouth Realtor who identified himself Monday as a school board representative for the Barchester site, said the board maintains the development of the property is best for the Plymouth-Canton community.

Fischer said the district was prepared to continue requesting approval for the development. Three school officials were unavailable for com-

The opposition to the development, Taylor stressed, will not be done in an adversarial manner. The thrust, he said, is to present the issues and hopefully convince township officials to support the residents' stand.

Carriage Hills and Willow Creek homeowners also are involved in starting a coalition of homeowner's associations. The coalition would work as a positive tool explaining homeowners' concerns to township officials, Taylor said.

# Local officials prepare for new no-smoking law

Butt out!

#### By Doug Funke staff writer

Some smokers may have to adjust their habits beginning Jan. 1 when a state law that effectively bans smoking in publicly owned buildings takes effect.

Visitors will have to put out their cigarettes, pipes and cigars when they attend meetings of all public bodies including city commission, school boards and township boards.

It doesn't matter whether the visit is for a meeting or only for a couple of minutes to pay a water bill, property taxes, obtain a dog license, return a library book or file a police report.

Municipal and school employees and elected trustees would be affected, too, if they're used to smoking at their desks or during meetings.

The law essentially allows smok-

Paul Sincock, assistant to the city manager in Plymouth. "We're going to have to make necessary changes."

Smoking is allowed now at commission meetings and in the ice arena and meeting rooms at the Cultural Center — all unlawful in  $2\frac{1}{2}$ months.

(The law won't apply to private functions like wedding receptions in the Cultural Center when seating arrangements are outside of the control of city officials.)

"I think it's going to be an indoctrination process, but I don't anticipate any major problems with it," Sincock said. Smoking won't be permitted in the Canton Township Hall once no-smok-

ing signs on order arrive and can be posted, probably within a couple of weeks. "Signs will be posted at doors and

FOR INSTANCE, designated smoking areas can be established "except in a public place in which smoking is prohibited by law."

When that section is coupled with one allowing smoking in an enclosed office occupied "exclusively" by a non-smoker, the question arises where exactly can employees smoke inside?

"Generally speaking, we'll expect people to respect it — as long as we can figure it out," Plymouth Township Supervisor Maurice Breen said of the new law.

The township board banned smoking at public meetings two years ago.

"We'll post the appropriate signs," Breen said. "If it looks like somebody is flagrantly violating the law, we'll ask the police to come over and enforce it. I think most of the time provide the impetus to quit smoking, Breen added.

WHILE THE school board currently has "thank you for not smoking" signs posted in its meeting room, a policy has never been adopted, said Richard Egli, assistant to the superintendent for community relations.

"They may want to get something formal on the record. Obviously, we intend to comply," he said.

intend to comply," he said. The outdoor designated smoking areas at the two high schools wouldn't be affected by the law.

Smoking isn't allowed now at the Plymouth District Library in Plymouth or in the Canton Public Library. "We've never really had a prob-

lem," said Jean Sebestyn, Canton's

library director. "It would be a real fire hazard in a library," said Pat Thomas, director at Dunning-Hough Library in Plymouth. "We have large ashtrays as you come in the door. Over the years, I can only recall a handful of incidents."

BILL BRESLER/staff photographer

The state's newest no-smoking law won't affect students at the Centennial Educational Park because their designated smoking areas are outdoors.

ing only in an enclosed office occupied exclusively by a smoker.

"OVERALL, it's going to be a slow process but something we're going to have to comply with," said we'll have ashtrays for people to butt out," said Daniel Durack, personnel director.

The new law seems to allow little leeway for smokers, but does raise questions nonetheless. now, smokers look around and if there are no ashtrays around, they tend not to smoke."

A couple of township workers on the employee involvement committee have indicated the new law will

# Counselor fights alcohol, marijuana abuse battles

#### By Kevin Brown staff writer

Is this cocaine epidemic all it's cracked up to be?

Dale Yagiela, who has more than 10 years experience fighting substance abuse among local teens, says alcohol and marijuana still pose a greater threat than cocaine.

Cocaine is not their drug of choice, says Yagiela, director of Growth Works in Plymouth, a social agency which serves the Canton, Northville, and Plymouth communities. But he cautions, "That's not saying it won't happen."

REGARDLESS of the relative contribution of cocaine to substance abuse problems among teens, alcohol and drug abuse contribute to a 35 percent drop-out rate from Wayne County high schools and to crime which includes kids selling themselves on the streets, even in Plyimouth, he said.

Yagiela, 37, joined Growth Works in 1971. "It was just a place for kids to recreate," he recalled, born in the wave of counterculture-influenced youth services of the time.

Mounted on a wall in his downtown Plymouth office is a photo of himself, taken in the early '70s when

#### people

his hair was shoulder-length. Drafted as the Vietnam War wound down, the University of Michigan graduate sought work with a service agency to meet conscientious objector conditions. When the draft expired soon after, he elected to stay with the fledgling Plymouth Youth Inc.

"The more time I spent here the more I realized that we were concerned about kids that no one else was concerned about."

Now a married father — he earned a master's degree in community development from U-M in 1979 — Yagiela notes that unlike Growth Works, many alternative youth-oriented agencies folded in the late '70s.

"They didn't learn how to manage. We had a contract. We had to view ourselves as performing in a business-like manner."

IT WAS through Growth Works' schooling for problem kids that Yagiela saw a recurring contributor to those problems - drugs.

While Growth Works still provides services to kids having problems in school, the emphasis has shifted. The agency, funded by the Plymouth Community Fund/United Way and United Foundation, mainly assists teens with substance abuse problems — helping them find treatment or aiding their return to the community following inpatient detoxification.

Based on his experience and statistics on teen alcohol-drug abuse, Yagiela offers some views on the widely publicized problem and solutions.

"What happens is when these kids use a drug, it has an overwhelming effect. They get to really like feeling out of control. That feeling scares the social user."

Despite the publicity heaped on the "crack" cocaine problem, Yagiela says most teens with substance abuse problems choose alcohol or pot, adding that for most, the cost of cocaine is too high. "It still is expensive but we're going to see more of it."

Teens who have a relative who abuses alcohol should be especially vigilant about their own potential for abusing alcohol.

"There's strong evidence that there's a real strong genetic trait" encouraging alcohol abuse, Yagiela

Growth Works has survived as a help-agency over the years because it's run in a business-like manner, said Director Dale Yagiela.

"No standard of this school district provides for the acceptance of such behavior in our students. Similarly, there is no rationale for allowing such behavior at any level to be included within the overall program of instruction provided in district

AN ENGLISH teacher at Plymouth Canton High, Dawn Soerries, described the action as "an overt act of censorship.

"Obviously, the censors equated the value of the film with the amount of 'offensive language' found within it. As a result of this decision, teachers no longer have the option of using this film in class, students of legal adult age are denied the right to view it as part of their education, and the decision of whether minor aged students should be allowed to view the film has been wrested from

their parents." At Monday night's board meeting,

Ed Lee, a student at the CEP, asked what procedure was used to censure

ship could be expected. Hoben said the decision was his alone after discussing the issue with the executive cabinet. He stressed he will not get involved in censorship of books but feit the "Breakfast Club"

was inappropriate. Scott Smith, a graduate of Plymouth Canton High, argued the film had important psychological and sociological content as it dealt with stereotyping. While it contained strong language, Smith said high school students hear that kind of language all the time and a high percentage of teens use profanity, so that should not be a factor in baning the film.

Smith noted that a petition bearing 700 signatures objecting to the film was presented by Daskalakis, an unsuccessful school board candidate last June who had objected to last October's appearance of Gundella the Witch as a speaker at the CEP. "There are thousands of people living in the community. How can

you let 700 decide?" Trustee David Artley said it was only "coincidental" that the decision to ban the film was made at the time

the petitions were presented. Artley stressed the decision would have been made without the petitis have seen the movie and find it offensive. I support the choice made. There was no cause-effect relation ship between the petition and deci sion, Artley added.

Our educational process should represent the democracy we espouse. The intolerance of a few should not dictate to and limit the choice of the many members of this community.

In his memo reminding principals of their leadership role in selection of learning materials, Dr. Hoben specified that "profanity, violence nudity, promiscuous sexual conduct. and similar sensitive subject matter is basically inappropriate in the classroom and must be strongly questioned by each of us."

Daskalakis was not at Monday's board meeting, and no teacher spoke on the issue before trustees. There was a contingent of students, with two who spoke.

# Tough court battle awaits Rashid

#### By Teri Bana staff writer

This is the fifth in a series of profiles on candidates for the Wayne County Circuit Court. Voters will select three candidates in the general election on Nov. 4.

When James Rashid was a young boy he remembers traveling downtown to visit his father in the Wayne County Circuit Court.

Often accompanied by one or more of his eight brothers or sisters, he would spend afternoons amusing himself in Joe Rashid's office chamber, making chains out of paperclips, Rashid, 32, is still asked about his

father who died five years ago. "I can't tell you the number of people I run into who tell me stories about my father - that they respected him as honest and hardworking," Rashid said. He says one reason wants to be elected a Circuit Judge is to continue that tradition.

"I really believe if you've got brains, and any desire to serve the public, you got an obligation," he said. 'Otherwise, you leave government to some people who are just trying to make a living off it."

Rashid said he is seeking the court seat this year - even though his law practice is doing well and he could earn more than the \$74,888 judicial salary - because of that civic pur-

Virginians wage war against French from Detroit

Along the Potomac in the old town of Alexandria, Va., there still stands one of the favorite meeting places of the 18th century's Founding Fathers. Ita is Gadsby's Tavern. There it stands where it always has been, 128 North Royal St. Now owned by the city of Alexandria, it is open to the

In its heyday Gadsby's was known as the finest public house in America. George Washington was fond of it, and he began and ended his military career there. Although his famous farewell meeting with his officers at Fraunces Tavern, Pearl and Broad Streets, New York City, is well known, when he met his Virginians in an informal way, it usually was at Gadsby's.

WASHINGTON WAS named a lieutenant colonel in the Virginia Militia in 1754 and recruited his first command at Gadsby's.

The tavern had opened in 1752. In 1798, a year before his death, Washington held his last military review there. There are many places in the Washington area that are well worth a history buff's time but the splendid old tavern on Royal Street is often overlooked.

Another place you will not want to miss is Mt. Vernon - Washington's old home - a beautiful, two-story, pillared mansion on the banks of the

Potomac not far from the city. There is another landmark in this area that you will enjoy seeing. Williamsburg really brings the 18th century back to life. Forty years of work and many millions of donated dollars (largely from the Rockefeller Fund) went into this remarkable restoration. No wonder a million people come to Williamsburg every year. The very best time to visit is coming up soon. Christmas in Williams-

burg is simply magnificent - a joy and a delight. But be sure you make reservations ahead. Today, Tonquish Tales continues

the story of the struggle for Ameri-

VIRGINIA'S Governor Dinwiddie looked out of the flint glass windows of the palace at Williamsburg and pondered his plight

His spies had told him that Charles Michel Langlade, an active, daring, half-French commander had led a party of his Detroit and Mackinac idians and French to Pickawillany Picqua), Ohio, where they destroyed a British trading post, captured Old Britain, the Indian chief of the area, nd boiled him in his own pot. The horror of this cannibalistic act

added fuel to the fire of the governor's determined will to drive the French out of the Ohio Valley. Although past 60, Robert Dinwid-

die probably was the most watchful and determined foe of the French in the entire country. He made speech after speech before the Virginia Asembly urging them to begin immediately to build strong forts along the Ohio. He sent several letters to King George in England begging for noney and authorization to act more ggressively in behalf of the Virgini-

No reply came until Aug. 28, 1753. when the king wrote: "If you shall and that any number of persons shall presume to erect any fort or forts within the limits of our province of Virginia, you are first to reand if, notwithstanding your admoniions, they do still carry out any such inlawful and unjustifiable designs we do hereby strictly charge and command you to drive them off by orce of arms."

So the word went forth - it's all ight Dinwiddie, go ahead. But what King George did not know was that the forceful governor had gone ahead last year. In October, without official authorization, he had sent George Washington and Christopher Gist with a party of scouts to Presquesle, where Erie now stands. There the "father of our country' ravely confronted the French with Dinwiddie's demand that they leave he area forthwith.

(The story of Washington's encouner with the French Commandant legardeur de Saint-Pierre at Fort LeBoeuf near Waterford, Pa., has een reported in Tonquish Tales this mer. Those who have missed this eresting bit of the 18th century will find it retold again with some dditions and improvements in Ton-uish Tales, Volume 2.)

THE HOUSE of Burgesses, the Congress of those days, rejected Dinwiddie's demands until he

omised to lower the taxes. To wage war and at the same time wer the taxes is quite an imposs ble feat, and there was no fool in the House of Burgesses who believed it pould be done. In fact, the matter rew into such a ranting hassle that he governor was driven to despair. ut he didn't give up.

But he didn't give up. To condense the argument into one paragraph is not easy but essen-hely it was this: The debate cen-ared on the fee of a pistole (about 5.85) which Dinwiddle had demand-d for each land patent he granted. he Virginians were, for the most art artistocratic, independent, and cratic, independent, and alous of any invasion of, chment upon, their rights. nted the king and his reptive. They were most effe tive in declaring with great fervor

and firmness that they could not be deprived of the least part of their property without their consent. There will be no taxation without epresentation '

The argument grew into a real fight, and so the governor was unable to obey the instructions of the king because the people refused to be taxed for that purpose. Did that stop the governor? Of course not. He proceeded independently without what he called his "damned House of

He ordered a draft of 200 men from the militia and named George Washington as their commander, and William Trent as his lieutenant. Next on his list were the Cherokees, Chickasaws, Catawbas, and Iroquois

and their various tribes and sub-Messengers went forth to the chiefs of those people wherever they

could find them, and the substance of each message was the same: "Take up the hatchet against the French who, under pretence of embracing you, mean to squeeze you to death.' Promises were made of gifts and firewater that could not easily be overlooked by thirsty, hungry Indi-

Then Gov. Dinwiddie sent urgent letters to the governors of New Jer-sey, Maryland, North and South Carolina, and Pennsylvania. He told them of the situation at the French forts as discovered by Washington and Gist last winter, and urged them to send their militia to Will's Creek by March 1.

MEANWHILE let's walk over to Gadsby's Tavern for a relaxing glass of grog. What's that commotion in the back room? Look at the lineuparound that table! Who is it?

Area reps back 5-year EPA Superfund

Here's how area members of Congress were recorded on major rollcall votes Oct. 3-10.

#### HOUSE

SUPERFUND - By a vote of 386 for and 27 against, the House passed and sent to the White House a bill extending for five years the Environmental Protection Agency's Superfund cleanup of the nation's hazardous wastes.

President Reagan has threatened to veto the legislation (HR 2005) because its \$9-billion pricetag would be paid mostly by new taxes, including levies on the oil and petrochemical industries covering a large chunk of

the five-year Superfund cost. Of the nearly 900 toxic dumps nationwide targeted by the EPA during the six years of the Superfund pro gram, fewer than two dozen have been cleaned up.

Members voting yes supported the proposed Superfund extension. Voting yes: Carl Pursell, R-Plym-outh; Dennis Hertel, D-Harper Woods; William Ford, D-Taylor; Sander Levin, D-Southfield; William Broomfield, R-Birmingham.

**IMMIGRATION REFORM - By** a vote of 230 for and 166 against, the House passed and sent to conference with the Senate a landmark bill (HR 3810) tightening federal immigration policies to combat the influx of ille-

gal aliens into the United States. The bill's primary mission is to enable America to regain control of its border with Mexico in a way that is reasonably fair to Western growers who depend on undocumented for-

Members voting yes supported the immigration bill. Voting yes were Democrats Hertel, Ford and Levin. Voting no: Republicans Pursell and Broomfield.

EMPLOYER PENALTIES - By vote of 137 for and 264 against, the House rejected an amendment to criminal penalties against Western ployers from hiring undocumented growers and others who knowingly nire illegal aliens. The vote preserved language subjecting employers to maximum

penalties of \$5,000 and six months in jail for each undocumented worker they hire. Critics of the proposed criminal

penalties said it was an impossible burden to require employers to verify the legal residency of all their workers. Members voting against the

# For circuit court: Murphy, Stempien, Rashid

NOV. 4 voters in Wayne County will elect three judges to the circuit court bench. The Wayne County Circuit

-12A(P.C)

'Court is the state's highest trial court and has jurisdiction over equity cases, criminal cases involving felonies outside of Detroit, divorce cases and civil cases in which the amount in controversy exceeds \$10,000. It also hears and community experience to help them appeals from lower courts. Judges who serve in the Wayne Circuit Court are elected to six-year terms and are paid \$74.888 annually

The court race is as important as or expertise for the job. those at the top of ticket and we believe voters should take care to elect qualified, experienced people.

Of the six names on the ballot, we believe the three most qualified to serve are John A. Murphy, Gregory Stempien and James J. Rashid. They have the background in the law, trial court work deal with the complex legal matters and human problems that face a circuit court judge. We don't feel that the other candidates have sufficient background

Murphy, 38, is presently a judge for the 36th District Court in Detroit. He has the background, sensitivity and experience needed to be a good judge of the circuit court. A graduate of the Wayne State University Law School and the University of Michigan, Murphy is a solid choice on Nov. 4.

Stempien, 45, is a Northville Township resident with a law practice in years tackling a variety of cases - the kind he would hear as a circuit court judge.

He's knowlegeable, hardworking and has the experience and maturity needed to be a good judge. He has studied, practiced and taught the law. Now he wants to move on and we believe that he's prepared himself well.

In addition to his experience as an attorney, Rashid, 32, has worked for Wayne County Friend of the Court in Livonia. He has practiced law for 16 the family support division. He also represented the Dearborn. Melvindale

and Allen Park areas on the Wayne County Board of Commissioners.

O&E Thursday, October 16, 1986

He knows Wayne County and its court, has a record of public service and if elected, we believe, would capably serve all the residents of this county. Wayne County Circuit Court needs judges who have a broad-based background in the law and life.

After interviewing each of the candidates and reviewing their resumes, we believe Murphy, Stempien and Rashid merit voter support on Nov. 4.

# What's the best bet for judicial picks? Guest Commentary Electing Appointing

NHERENT IN a sound judicial system is a judiciary composed of qualified judges, independent of political pres-

SULLE The League of Women Voters of Michigan believes a method of judicial selection combining original appointment to the bench and subsequent election frees qualified judges from outside pressure, helping them to maintain their essential independence

Under such a method all vacancies on the bench would be filled by appointment. After serving a term on the bench, the incumbent judge, if wishing to continue, would face the voters. At the next general election, a non-partisan ballot would carry the question: "Shall Judge (blank) of the (blank) Court be retained in office?" There would be no other candidates for the same office on the ballot. Voters would decide "yes" or "no" on the judge's record.

The present method of popular election of judges contains many obstructions to obtaining an independent, effective judi-

lection of judges, a position

that has been reaffirmed at

every state convention since

The LWV is non-partisan.

litical parties or candidates

In all but exceptional circumstances, voters are virtually helpless n making intelligent selection among udicial candidates, having no person-I knowledge of them or any adequate way of evaluating their qualifications. In election day, the judicial ballot is always the most neglected.

CANDIDATES WITH a catchy ame, a large campaign fund or an ppealing profile often win popular lections over candidates with possibly more ability and personal integri-

the League of Women Voters of Michigan, lives in Plymouth Waging a political campaign consumes much of an incumbent judge's In 1961 the League of Wom-en Voters of Michigan an-nounced its position on the setime, which is a waste the court can

ill afford. Judges can later be subject to the influences of people who make time or money contributions to their politinever supports or endorses po- cal campaigns, and particularly to the political organization responsible for

helping them win the election. Judges are subject to great and continuous political pressures. Judges become responsible to constituents, when they should

be responsible only to the law. Under a system of appointment with subsequent election, the establishment of an independent, efficient judiciary is bet-

ter assured. The judicial, as contrasted with the legislative and executive branches of government, has no political purpose or political function to serve. Courts are responsible for upholding the law

as it is written. Political factors such as the will of the majority and the wishes and influence of the minority should and do operate on

the legislative and executive branches of government. Such political factors have no place in a court of law, and the apointment method avoids these factors.

JUDGES WOULD come from the ranks of the most able and most talented people — from people chosen on the basis of personal integrity, impartiality, judicial temperament, ability, legal training and physical and mental vigor for the arduous work of the position - not on the basis of popularity or ability to win an election.

After selection, judges would be assured freedom from political influences and threat, and would be provided with reasonable security of tenure so long as they performed properly.

Judges would be free from having to conduct campaigns or engage in time-consuming activities for their retention, and would be left free to devote their full time to doing the work of a judge.

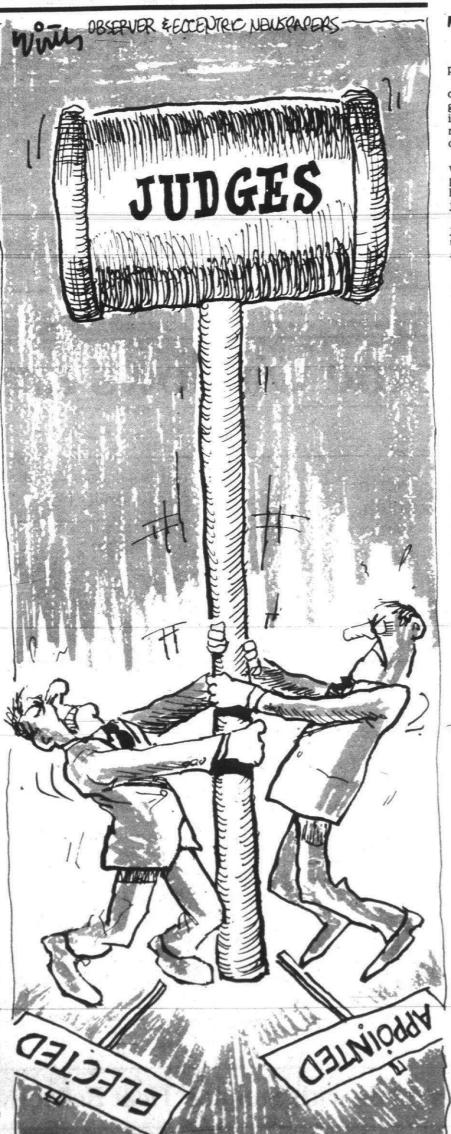

Opportunity for appointment to the bench would be greater for qualified people who lack the necessary money to finance a campaign.

An incumbent judge who wishes to remain in office would be ubject to approval by the electorate on the basis of record, rather than having to compete against other candidates.

The intent of the founding fathers of this country could be better fulfilled. They did not provide for judges to be obtained at the polls by a partisan ballot.

It was not until 1846 that any state elected judges by politi-cal party ballot. The federal judiciary has always been ob-tained by appointment by the president with the consent of the

- Mancy J. White, pres The League of Women Voters of Michie

O ELECT or to appoint, that is the question. While no one seems to argue strongly for a process other than election in the executive and legislative branches of government, many believe that judges should be ap-

pointed or selected in a manner other than by election. The argument is made that the public does not really know or cannot learn enough about judicial candidates to intelligently select one judicial hopeful over another. The end result is often seen as a name game where votes are cast based on name recognition rather than the qualifications of the candidates.

As a recently elected district judge, I disagree with those who say judges cannot be prudently or knowingly selected by public vote. Moreover, the experience of running for election has an everlasting and invaluable impact on that elected

Those who oppose the election of judges argue that the electorate is unwilling or unable to educate itself about judicial candidates.

BUT, GIVEN the importance of judicial actions in our everyday ives. I believe this problem can be corrected. Rather than taking away the people's voice in selecting their judges, let us use all the avenues the media provides us and print all the information the people need to make informed decisions

Supporters of judicial appointment would have judges selected by a special panel whose job would be to evaluate qualified candidates and appoint the senior trial attorney at the those scoring highest on the evalua-

There is nothing mysterious about the operation of our courts. Yet people seem fearful or baffled about its workings. Much of this confusion would disappear with greater public education on the function of the courts and, in particular, its judges. Once again, the media provides a perfect forum for this educational process. We have the resources to make the name game the knowledge game.

THE CAMPAIGN PROCESS exposes a judicial candidate to the fears and concerns of the people he or she is to serve. For example, campaigning door to door in a neighborhood and waiting while several security locks are unbolted brings home the terror of crime.

Going through the rigors of an election forces a candidate to think through his positions and tests his or her temperament and patience, both of which are essential ingredients for a judge. An elected judge never forgets that his authority or ition came from the people who elected him.

It has been suggested that a citizen/attorney committee initially screen potential candidates to eliminate unqualified hopefuls (a process not unlike the primary election). That idea deserves further consideration.

However, in the general election, judicial candidates must learn the same lessons regarding their constituents that benefit legislative and executive candidates

For instance, to football telecaster John Madden it means there's been a change in possession of the hoghide and it's time for a commercial

But if applied to 92-year-old Rt. Rev. Monsignor Edward J. Hickey, one of the metropolitan area's most reknowned and beloved Catholic priets, it means a permanent farewell to the avocation that has engulfed him throughout his adult life.

"Yes, I'm getting out of the art business," he told me a few mornings ago when I waylaid the still jovial and dynamic 5-foot-8-inch priest. He was en route to a meeeting with dispersal agents who own Schmidt's Antique Shop, 5138 W. Michigan Ave, Ypsilanti.

At one time the Hickey art treasure numbered more than 3,000 paintings and sculptures. Their dollar value was astronomical. Several hundred remain

and are being moved from the Monsignor's Art Cloister - St. Mary's Gallery at East Grand Boulevard and Gratiot to Schmidt's

BORN WITH a silver spoon in his mouth in 1893 to an affluent Grosse Pointe family, he once said;, "I blew my entire inheritance on art."

A series of two-day sales is being scheduled for different sites to get rid of all but 12 to 15 items which he will keep in his quarters in the Hickey Tower in the St. Marv's of Redford parish.

Although the full calendar hadn't been announced yet. I did coax from the fascinating little Irishman the fact that one of the first sales will be from 9 a.m. to 3 p.m., Friday and Saturday, Nov. 14

and 15 at Plymouth's Mayflower Hotel Meeting House. As always in his career, the profits will go to charity.

The oldest active priest in Michigan and the oldest living alumnus of the University of Detroit, Monsignor Hickey still maintains a brisk and enterprising pace.

SERVING as pastor emeritus of one of the state's largest parishes, he said, "I'll take the mass that no one else would take. I take the 6 a.m. mass but I get up at quarter to four. I open the church, turn on the heat, turn on the lights, open the doors, prepare the sanctuary and give a brief homily every

"I do that seven days a week. I haven't been five minute late in two years and I haven't taken a day off in two years. If I take day off after liquidating the art collection, I'll jump into a plane and go to Spain for a while."

He laughed with delight when I suggested that any man trained by the Jesuits at U-D who then went on to earn a degree in business administration at

Harvard University, and who was raised by a father from the ranks of Detroit's most successful businessmen simply had to have learned the value of a dollar.

IT LED TO asking him how he got into collecting art in the first place.

"It's a strange story. I was trout fishing as a teen-ager up at Higgins Lake. I couldn't land a trout even if someon put it on my line. I was with a friend from Port Huron whose father, a distinguished attorney, had taken us for three days in the woods.

"Coming back, he said, 'Ed, my son and I are going to leave the country for three months and tour Europe and the Mediterranean area. Why don't you come along?'

"He devoted himself to us like a professional tutor. I was only 16 or 17. At Cairo, Egypt, we went to a reception for Teddy Roosevelt. Then we went to Rome and out of it all grew this interst in the great art of the world. Now I've been to Europe 23 times."

it isn't old age that has led to closing the gallery. These are the reasons:

"THE AREA has become too dangerous. The authorities are tolerating the sale of drugs up and down the avenue and it drove all the customers away. Sometimes during one day there have been as many as eight different automobiles and probably 60 different people who would come peddling drugs, sometimes mothers with infants in their arms

"There have been thefts, gaining entry through the roof. But the last straw was what they did to my security guard I had given him the key so he could put some more paintings on the wall. Two fellows came over about 7 p.m. and sliced up his face, requiring 20 stitches but missing his throat."

I guess that even with a man of compassion and humor there comes a breaking point. It has cost Monsignor Hickey his gallery but not the unadultereated kind of happy feeling he remembers seeking the elusive trout.

# Fashions, traffic sometimes leave her in fog

Lately, I've come to realize that I'm really "out of it."

In fact, I'm so out of it that I don't even know what the current phrase is to indicate this particularly terrible social and mental status. (Is a nerd the same as what a square once was?).

This unsettling thought occurred to me the other day while my friend, Linda, and I were flipping through catalogs while sipping tea and flapping our jaws.

AFTER LISTENING to several of Linda's astute comments regarding the clothes in the new catalogs, I confessed to her, "You know, I don't think I've ever known what was in style - not in

### Teacher upset by film ban

To the editor:

The teachers and administrators of Plymouth-Canton Community Schools have long recognized and treasured the value of diverse opinions in their classrooms to challenge students' knowledge from district administrators banning and values.

Controversy has often been the classrooms due to "the blatant and grabyword and a staple of the classroom in tuitous use of profanity." Could there be a more blatant denial of our intellectual and/or academic freedom? - a more derogatory and abusive action taken against our ideal of the pluralistic society in which every citizen has equal rights to inform himself on all of reason?

Are the students we educate in Plymouth-Canton so fragile that their instilled values run the risk of dissolution in

# Respite center opens for short-term care

#### By Sue Masor staff writer

py. So is Rose Malesky of Garden City.

They're happy because the Rose P. Kennedy Respite Center in Westland is back to doing what it does best providing short-term care of developmentally disabled children and adults.

The center reopened last month after a short hiatus, much to the delight of parents of developmentally disabled people, who had been using the facility during the six years was operated by the Wayne-Westland Community Schools.

The school district closed the center in June as the result of money problems, but is leasing the center to Family and Neighborhood Services for Wayne County, a non-profit organization that services families and individuals in distress.

The center, on Marquette between Wayne Road and Newburgh, is designed to provide respite - a break for families who care for developmentally disabled relatives. Its reopening was good news for Rowden, who used the center on numerous occasions.

"I can't say enough nice things about it," she said. "I'm a single parent, so it's a real big help for me. I was devastated when I heard it was closing."

This is FNS' first venture into respite care, but Barry Jaffe believes it's a "natural extension of what we already do."

"THIS IS a very needed service," said Jaffe, FNS vice president for programs. "What we hear continously is that respite care is an essential support system for families with developmentally disabled persons. Respite care many times can determine if the developmentally disabled

individual will be placed outside the home or kept at home."

The center is the largest staffed program offered by FNS to Wayne County residents. In addition to the program director, Cheryl Betz, the staff includes a registered nurse, the full-time resident manager - Rick Naughton - a consulting physician and cooks.

The program is geared to serve the broadest range of developmentally disabled people, including those who are medically fragile, have multiple handicaps or are in need of clinical intervention, Jaffe explained

Developmentally disabled includes mental retardation, cerebral palsy, epilepsy, autism or a combi-nation of those. A majority of the center's clients are mentally retarded, Jaffee explained.

The center serves as one of several respite care options available to families. The Northwest Guidance

S

Clinic serves as the intake agency for respite care, which includes such programs as in-home respite, foster care, family friend and foster grandparent.

Families can use 30 days of respite care a year and "most use it strategically throughout the year, so that it is of benefit to them," Jaffe said

"RESPITE CARE is a tremendous shot in the arm for a fatigued family," he added.

The cost of the service is determined by the family's annual income and the number of people dependent on it. Families also will be able to use Medicare and Medicaid coverage for personal care services, such as administering injections, toileting and other services administered by the center's staff under a plan devel-

oped by the physician and nurse. Betz, who was resident manager of the center when it was operated by the school district, pointed out

that there will be a "tremendous effort to have a normalized enviroment for the clients." Meals will be served family style

and the day's activities will include physical activities, quiet times, field trips and in-center activities.

The center can accommodate eight adults and eight children, although FNS is looking at getting a state license to also offer day care services. Jaffe said.

He describes that staff as "very caring and very devoted," pointing to Naughton, who with the help of his family, "did all the little things that needed to be done at the center to get a state license."

# Pain can point the way to recovery

#### By Julie Brown staff writer /

ESPITE ITS bad public image, there are things to be said for pain.

"Pain has always got ten a lot of bad press," said Nancy

Thompson-Britton of the community relations department at Annapolis Hospital in Wayne. When pain strikes, the first thought is often how to get rid of it.

Pain does, however, have its uses

"It's a signal," said Thompson-Britton, who is a registered nurse. "It communicates to us that an injury has taken place.

Pain forces the sufferer to slow

down or even to stop moving, and to avoid further injury.

It's a great motivator. Thompson-Britton told those attending Monday night's meeting of the Canton Business and Professional Women Whether it's on a global level or on a personal one, pain motivates people to change for the better.

Pain also helps teach empathy. allowing us to get inside the emotional skin of other people.

"By being able to do that, you help to lift her burden."

THOMPSON-BRITTON spoke on "Stress Overload: Recognition and Recovery" during the Monday night Canton BPW meeting, held at the Roman Forum Restaurant in Canton

Women in particular can be victims of stress overload. Thompson-Britton told those at the meeting In trying to live up to the myth of 'superwoman." stress overload can be the result.

"There are only so many things you can juggle at once." When that load becomes an overwhelming one, depression - the response to stress overload -- is the result.

Depression is actually a normal. healthy and predictable response to significant emotional stress or injury, Thompson-Britton told those at the meeting. She herself experienced depression. Despite having studied it and having worked with depressed patients, she found it to be a whole new ballgame.

'Until you experience it, it's not the same.

Thompson-Britton said that during the counseling she went through, what she was experiencing wasn't identified as depression.

There was so much of a component of fear, not understanding what it was."

All of us experience day-to-day ups and downs. Thompson-Britton said. It's important, however, to be able to distinguish between those and the symptoms of ongoing depression.

THE SYMPTOMS of stress overload are varied and often subtle. A loss of self-esteem and a tendency to be overly self-critical are common

Almost invariably, they will berate themselves," Thompson-Britton said of depressed people

We kick ourselves when we're down. We need to learn to hug ourselves and to be kind."

Depressed people may also worry about their inability to "snap out of it." Thompson-Britton said.

You don't just snap out of a de pression, any more than you snap out of pneumonia

Physical complaints without any diagnosable basis are another symptom of stress overload. Backaches, headaches and stomach problems are frequent sources of such trouble, she said.

"Often, the symptoms are treat-The underlying cause of the ed." problems, however, frequently re-

HERE WON'T be any shortage of Halloween fun this year at the Canton Public Library and the Dunning-Hough Library in Plymouth.

Thursday, October 16, 1986 O&E

Both libraries have planned spe-cial Halloween programs for local youngsters. At the Canton Public Library, the fun includes sessions of music and stories with Pamela Vander Ploeg.

Vander Ploeg is a storyteller from Grand Haven, Mich. She's also a librarian and musician who has worked with children throughout Michigan.

A session for preschool children ages 3 to 5 will be held 2-2:45 p.m. Wednesday, Oct. 29, in the meeting room of Township Hall, 1150 S. Canton Center Road, Canton. Children must attend with an adult.

Those participating may want to bring a blanket to sit on, according to Shervl Mase-Brookens, children's librarian for the Canton Public Library.

Registration for the session will begin 10 a.m. Thursday, Oct. 23, in person or by telephone.

"These things go really quickly," said Mase-Brookens, suggesting early registration for the storytelling "Space is limited. Hopefully we

won't have to turn anybody away." VANDER PLOEG will also have a library program for school-age youngsters in kindergarten and above. That program will be held 4:30-5:30 p.m. Wednesday, Oct. 29, in

the meeting room of Township Hall. Registration for the program for school-age children will begin 10 a.m. Friday, Oct. 24, in person or by

telephone. The Dunning-Hough Library in Plymouth will have two Halloween programs. The first will be for children ages 4 to 8 and older who do not like scary stories. The program will be held 10:30-11:30 a.m. Saturday, Oct. 25, at the library, 223 S. Main St. in Plymouth.

The program will feature funny stories, crafts, games and treats. The second program at the Dunning-Hough Library is for 8- to 12 year-olds who enjoy scary stories. It will include scary tales, crafts,

The program will be held 7:30-8:30 p.m. Thursday, Oct. 23, at the Dunning-Hough Library.

Those participating in the Plymouth programs may wear costumes if they wish. Registration for the programs in person or by phone is continuing, with Monday, Oct. 20, the registration deadline.

"We have to cut it off at a certain point," said Kathy Petlewski, children's librarian at the Dunning-Hough Library.

ALTHOUGH THE younger chil-dren enjoy wearing Halloween costumes, the older youngsters gener-ally don't, Petlewski said. She wasn't positive that library staff members would wear costumes for the Halloween activities.

"The staff may or may not be. We will be in the spirit, let me put it that way," the librarian said with a laugh

In addition to the Halloween programs, both libraries have appropri-ate books and decorations on display for young readers.

"It's incredible how much they circulate," the Canton Public Library's Mase-Brookens said of the Halloween material. Children begin to check out the Halloween books in September, she said, and continue to look for them right up to the magical

The Halloween books and other materials are also popular at the Dunning-Hough Library, Petlewski said.

"They have been checking them out for weeks now," she said. "We have them for all ages."

In addition to Halloween fiction "how-to" books with a Halloween theme are also found at the Dunning-Hough Library. Those books cover such things as decorating pumpkins. creating costumes and fixing Halloween treats, Petlewski said.

The Halloween season at the library in Plymouth will be the first one for Petlewski, who joined the staff in August. "It's going to be a new experience

for me, too. (For additional information, ca the Canton Public Library, 397-0999 or the Dunning-Hough Library, 453-0750.)

**REGULAR EXERCISE** has the most dramatic and immediate effect on those who are depressed, she said. Vigorous exercise triggers the release of endorphins, which act as natural painkillers.

Depressed people also need to get adequate rest and to eat nutritious meals. It's best to limit consumption of alcohol, sugar and caffeine, she said. "Alcohol is a depressant. It will

only make it worse." Reliance on drugs should also be avoided. Doing a "bug inventory" is a good way to identify sources of

stress overload, Thompson-Britton said. Making a list of things that bug you - and then dividing those according to whether they can be

changed - is a good idea "It's a good emotional housecleaning, and I would sugges you do it once a year.'

Giving yourself something to anticipate is also helpful, she said. It's also a good idea to have a "comfort ' at home. "It's like a nest." The area should be physically comfortable,

WHETHER HANDGUNS should be allowed or not is hardly the issue. Whether the state has the right to take life or not is hardly the issue. The fact is that the use of both handguns and capital punishment has been so abused that the survival of the population is now a legitimate concern. If Young and Patterson have their way, they might just destroy the population to save it.

Young and Patterson are elected officials. Even more frightening than their feuding is the possibility that they are representative of their constituency. Public officials out of

# New drug can control psoriasis

A new drug tested at the University of Michigan is a major advance in the treatment of the skin disorder psoriasis.

"The worse the patient's psoriasis, the more effective the drug appears to be," said Dr. Charles N. Ellis, coprincipal investigator.

Testing by researchers at the U-M Medical Center has shown that the drug, etretinate (pronounced "e-TRE-tin-ate"), is a major advance in the treatment of severe psoriasis.

THE FEDERAL Food and Drug Administration recently approved the drug for use by physicians across the country.

Approval followed studies at the U-M Medical Center and other major tests by the University of Utah, Northwestern University and the University of California at Los Ange-

Etretinate has undergone seven years of clinical research by faculty at the U-M Medical School.

"This is a powerful drug that represents a substantial advance in the treatment of our patients with severe, recalcitrant psoriasis," said Dr. John J. Voorhees, chairman of dermatology and co-principal investigator in the U-M Medical Center study.

PSORIASIS IS a disorder of the skin that causes scaly, red patches. Severe psoriasis is a chronic skin disease that causes reddening, scabbing, itching, and pus formation all over the body and can be lifethreatening.

Etretinate therapy is designed for patients with this type of the disease, who cannot be improved satisfactorily by standard therapies. However, until now, severe psoriasis has been extremely difficult to treat.

Severe psoriasis affects approximately 5 to 10 percent of persons with psoriasis in the United States. About 500,000 to one million individuals may be eligible for the new drug.

"SINCE ETRETINATE does not represent a cure for psoriasis," Dr. Voorhees said, "we will continue to use it in combination with other older forms of treatment."

Traditional treatments for severe psoriasis include coal tar products, steroid creams, ultra-violet light and methotrexate.

Etretinate, which will be available only by prescription, should be in pharmacies by December. It is manufactured by Hoffman-LaRoche Inc. of Nutley, N.J.

Patients wanting further information about etretinate should call the U-M at 764-2220 in Ann Arbor.

SIDE EFFECTS from the new drug, such as increased fats in the blood, can be controlled by diet.

"A young woman capable of bearing children may not take the drug unless she is practicing completely effective contraception," Dr. Voorhees said.

Of the more than 50 patients in the U-M study, all had been in the hospital at least twice each year for three and four weeks at a time for clearance of severe psoriasis using standard treatments.

Since using the drug only one of

tient in the U-M study has been hospitalized for psoriasis.

Joe Blauvelt of Ypsilanti was told of the potential side effects when he went to the U-M Dermatology Department for treatment when the study began, but for him there was only one choice.

"They say psoriasis won't kill you, but if you have it, you wish you were dead," Blauvelt said. "That pretty much sums it up for me. I was one big sore from head to toe. At that point, I would try anything."

Seven years later, all that is left of Blauvelt's psoriasis are a few small painless spots on his arms. "Without this drug, I wouldn't have been able to work or do anything," Blauvelt said. "It has been very helpful."

'This is a powerful drug that represents a substantial advance in the treatment of our patients with severe, recalcitrant psoriasis.'

Business leaders should pay attention to the demands of consumers in southeastern Michigan because they have some of the strongest buying power in the nation.

That message came out loud and clear at an Oct. 7 business conference at the University of Detroit, which was co-sponsored by the Greater Detroit Chamber of Commerce and U-D's Kellstadt Consumer Research Center.

Laurence S. Rosen, state demographer for the Michigan Department of Management and Budget, said the eight-county southeastern Michigan area has 4.6 million people whose disposable income last year was about \$52.5 billion. In addition to the tri-county area, his study includes Monroe, Washtenaw, Livingston, St. Clair and Lapeer counties.

Rosen said the area's heavy concentration of manufacturing and high-wage scales makes it "a substantially wealthier market area

FREDERICK MARX, president of Marx Management Co. in Birmingham, told conference participants that the consumer should be thought of as the "czar or czarina who can buy products elsewhere and (therefore) should be given the red-carpet treatment."

Frank Fraser Jr., senior vice president of automotive marketing for Campbell-Ewald, a Warren advertising firm, cautioned that car buyers will be looking at the "worth ethic," meaning "price is what you pay and value is what you get."

Praising the Japanese automakers for well-designed vehicles and sound marketing strategy, Fraser said, "I hope domestic managements can do as well as their Japanese counterparts. I hope they can do even bet-

Thomas Adams, vice president of marketing for Taubman Co. in Bloomfield Hills, stressed that today's consumer is far more discriminating than in the past. He predicted that many retailers will have to

redefine their marketplaces. The banking industry will experi-

ence more consolidations and mergers, said John Barnds, vice president and director of business and banking analysis at National Bank of Detroit.

(R,W,G-9B) + 1C

"We will identify new locations for banks, even in Detroit where we've closed a lot of offices. There is a lot more competition in banking today, and we're always looking at pockets of opportunity," Barnds said.

IN A NATIONAL outlook, Sandra Shaber, vice president of consumer economics of Chase Econometrics, said the shift from a manufacturing to a service economy is helping to create more two-income households and women in the labor force.

But incomes from lower paying service jobs are not replacing the higher wages many people used to earn in manufacturing.

"For every 25-year-old earning \$250,000 on Wall Street, there are 100 flipping hamburgers," she said. Productivity is declining, while wages are not keeping pace with inflation.

Such trends have the effect of shrinking the middle class, Shaber said, suggesting "the rich may be getting richer and the poor, poorer."

# Witness calls Stoddard expenses 'piddling'

#### **By Tim Richard** special writer

A volunteer expert witness said entertainment and house repair expenses of the sort Stanford C. Stoddard charged to Michigan National Corp. were "normal,

proper, prudent and necessary." "They were not perquisites," Peter H. Burgher testified in Stoddard's trial before a federal administrative law judge.

They were ordinary expenses to free his body to do what it does best," said Burgher, a retired certified public accountant from Utica.

IN AN OFF-STAND interview Burgher said he read news accounts of government allegations against Stoddard early in the two-month trial.

"I talked to heads of major banks, heads of law firms and some businessmen, who uniformly supported that I should testify. . . against irresponsible statements about unsafe and unsound banking practices," said Burgher. He then volunteered his testimony to Stoddard's attorneys.

Retired since 1979, Burgher is author of two books and testifies regularly as an expert witness. He considers executive compensation in his field of expertise. Under governmental cross-examination Burgher said he wasn't being paid in this case.

Government lawyers said afterwards that Burgher's testimony rebutted things they hadn't alleged. "There was nothing at odds" with the government's case, said federal attorney Ellen Broadman.

STODDARD, 55, of Birmingham, was a board chairman of the state's third largest bank holding company and two of its subsidiaries until mid-1984, when he was pressured to resign during a federal investigation.

The U.S. Comptroller of the Currency seeks to fine him \$500,000 and bar him for life from working in federally-insured financial institutions.

His hearing in the Ann Arbor Federqal Building is due to be wrapped up this week by exhibits and arguments.

Then Thomas Jones, an administrative law judge from Grand Rapids, is expected to take two months to decide wheather to issue the comptroller's orders.

BURGHER SAID he was treasurer of the Founders Society of Detroit Institute of Arts in the '70s and early '80s when Stoddard was board chairman of that private group

"I'm not a close acquaintance," he added.

Stoddard's attorneys asked Burgher a series of hypothetical questions about a bank holding company with assets of \$6 billion which made contributions of building materials of up to \$34,000 a year to churches. The description fitted Michigan National Corp. and its donations to several Mormon churches across the state.

Burgher called the gifts "not material, given the size of the institution." He defined a "material" expense as one affecting 10 percent of a bank's earnings.

"Piddling," Burgher said time after time as he was asked questions about the bank chief executive's expenditures on church gifts, his own two residences and business entertainment expenses at family weddings.

"A shareholder would not see the effect on his earnings per share," he said.

What kind of expense would be unreasonable? he was asked

"A polo pony farm . . . \$1 million a year," he explained

CITING STATE law which says an employee cannot be forced to spend money to hold a job, Burgher said the hypothetical banker "did exactly what he should have done. He separated personal from business expenses. Asked about spending corporate funds to entertain at

a daughter's wedding, Burgher said, "People have gotta know they're coming (to the wedding) because they're an important customer — it's not love." As for bank's employees doing work on en executive's

house, Burgher likened it to a secretary who manages the executive's civic, personal and business schedule.

The CPA said that \$31,000 of work on an executive's residence used for business entertaining shouldn't be viewed as accruing to his personal benefit, but should be "offset against other valid expenses of the bank" in wooing depositors and customers.

IN EARLIER testimony this week, a former MNC executive denied Stoddard had pressured him into changing an auditor's report to delete a key recommendation

David Searles of Birmingham said he ordered deletion of a section labeled "lack of written policies and procedures" from a draft audit of MNC's buildings and properties division.

B&P, as it's called, is the division whose workers made the controversial modifications of Stoddard's homes in Birmingham and on Lake Michigan.

Searles, who was president of MNB-West Oakland in Novi in 1981-82, was a vice president of the holding company and head of its audit section when the audit of B&P was performed in 1983. He now is with Franklin Savings & Loan.

He said that when he and others discussed the audit with Howard Cochran, B&P head, in fall of 1983, "Cochran became somewhat agitated" and left the room for a time.

By the end of the 11/2-hour meeting, however, Searles said they agreed that written policies and procedures would be developed.

ABOUT 9 that night, Searles said he got a call at home from Stoddard, who asked, "What was wrong with Howard?'

'Initially, I did not feel anybody had done anything to agitate Cochran, said Searles, who admitted he was "set back" by Stoddard's unusual late-hour call.

Searles said he eliminated the criticism of lack of written policies "thinking of the individual involved. I was giving him the benefit of the doubt. I thought it was more tactful to handle that way."

He added, "The audit objective had been achieved."

Stoddard's attorney, Richard Roberts, asked, "Did you say Stoddard compromised you by asking you to delete that meterial?" "No." Searles answered

# Link between working teens, drug use disputed

#### By Carolyn Smith special writer

Are teenagers who work more than 15 to 20 hours a week more inclined to spend their money on non-essential items, including drugs, than their peers working fewer hours or not at all?

A University of Michigan researcher claims that's a "reasonable assumption." But area high school and drug abuse counselors dispute the link between a working teen's income and purchase of illegal substances.

Dr. Jerald G. Bachman, project director of annual surveys of high school seniors at U-M's Institute for Social Research, said he has studied the buying habits of teens since the mid-1970s.

Three years ago, Bachman wrote in the ISR publication "Economic Outlook USA" that "premature affluence" of teens working long hours had negative effects, including "diminished involvement with school, family and peers, as well as increased use of cigarettes and marijuana . . . Drug use is positively associated with the number of hours worked in part-time jobs."

DOES FURTHER research point to different conclusions? Bachman said no.

"We never asked them (teens) about spending on drugs. We looked at hours worked, money earned and drug use. We concluded that the more hours worked, the more money spent on drugs. I think that's a reasonable assumption," Bachman said in a recent interview.

His studies since 1983 also show that most high school seniors working long (15-20) hours began using marijuana in the eighth grade.

AREA COUNSELORS didn't deny that a teen's working long hours means more income to buy non-essential things, but they disagreed that drugs are prevalent among them.

Janice Cotter, program manager for Maplegrove Youth Treatment Center, West Bloomfield, deals with many youths with chemical dependencies. Maplegrove is the only residentital treatment center for teens in the tri-county area.

"When drugs or alcohol become problematic, among the first things to go are school and job performance," Cotter said. She added that those who want to use drugs or alcohol will always find the money.

'Having more money certainly increases the risks of buying more jeans, candy or even drugs."

Deborah Trapp, a teacher and counselor at Plymouth

Salem High School, agrees.

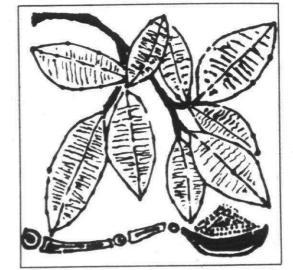

"If I'm chemically dependent, it doesn't matter whether I work 10 hours per week or 50. I'll always come up with the money. There's a million things kids can do to get drugs," she said.

"Teens are among the 10 percent of our nation's total population that has drug or alcohol addiction. A major man's study) seems to refute the fact that chemical dependency is a disease.'

Louis Ruggirello, head counselor for 13 of his 17 years at Lahser High School in the Bloomfield Hills School District, said youngsters who work tend to get better grades than those who don't.

"His (Bachman's) slam is on the kid who has a hardwork ethic. His conclusions would seem to be selfdefeating to the youngster with initiative, drive and mo-tivation," Ruggirello said.

He also questioned the study's timeliness. "Social trends among teens change from year to year, and that's what I think the study fails to address. A good kid, no matter how many hours he's working, is fairly secure, has strong family ties and an ego strong enough to say no to drugs.

#### equity loans worth the risk? Are home

Each year homeowners tap more than \$3.5 trillion in loans based on the equity in their homes The money provides ready cash for a variety of uses, including home improvements, education, medical expenses, new cars and more. But these loans also put at risk what is probably their single most valuable asset - their homes.

Equity is the market value of your home after subtracting what you owe on any outstanding mortgages. Many homeowners are reluctant to borrow against this because it usually represents their largest financial cushion.

How do home equity loans work? Many have different names coined by the institution offering them, but these loans, as well as second mortgages, basically are backed by the value of the borrower's house.

Although the amount you can borrow is determined by the lender, some institutions will allow their customers to borrow up to 80 percent of their home's appraised value, less the amount owed on the home

There are two basic types of home equity loans, open-end and closed-end. An open-end loan is actually a line of credit which can be drawn upon at time by using checks and sometimes credit

### practically speaking

cards up to the limit of the loan. With a closed-end loan, you borrow the entire amount all at once.

Before you commit to making an equity loan,

you should ask these questions: • What are the fees? An equity loan is similar to a second mortgage with many of the same fees. There are application fees, annual fees and the cost for the closing. Many lenders also charge upfront fees in the form of points. Find out how much these and other fees will add to the total cost of the loan.

· Is the interest rate fixed or variable? If you choose a variable rate, your payments will fluctuate to match the current interest rates that your lending institution charges. Make sure you know how often the rate can fluctuate and by how many interest points.

· How are payments applied against the loan?

Every time you make a payment, you are paying a portion to the principal, the actual loan amount, and a portion to pay the interest. Know what these portions are and ask if you can make early pay-ments on the principal. This will help to shorten the loan's repayment schedule and save on the amont of interest you have to pay. Sometimes pre-payments are subject to penalties, so find out what they are.

• Can the loan be "called" if you sell your house? When you take out a loan to buy a house the bank has some control over what you can do with it. If you decide to sell you might have to settle these obligations which might require paying off the entire loan.

HOW WILL THE new tax reform affect equity loans? Interest deductions will only be allowed under certain circumstances. If the loan or mortgage is greater than the purchase price of your house plus the cost of any improvements you have made, it will no longer be deductible unless the extra money is being used for improvements on the house itself and for other specific items.

**Slow but sure** Salem walks past rival Chiefs

This could have made WNIC's Pil-

low Talk program. In a basketball game played at a heavily sedated pace, Plymouth Salem outlasted rival Plymouth Canton Tuesday night, 43-35.

It was very unlike some of the heated, race and chase Salem-Canton games of the past. The crowd was thinner. The noise level quieter. And the game, well, race and chase turned into snooze and lose.

But that was the way Plymouth Canton and coach Rob Neu preferred it. It was also the way Salem coach Fred Thomann expected it to be. No way did Canton want to run the court with the explosive Rocks.

"We knew coming in that they were going to want to make this a 30-30 game," Salem coach Fred Tho-mann said. "We tried to pick the tempo up with our press and fastbreaks. But we could never get Canton to go faster."

Said Neu: "We were really patient. We took care of the ball and we played under control."

But Salem never trailed after the first 1:30 of the game. "We needed to challenge their de-

fense with drives to the basket," Neu said. "We had to force them to play us. Then, either we score at the bas ket or we draw the foul."

Canton only took 17 shots in the first half. The Chiefs never took more than nine shots in any one quarter

Still, Canton stayed in contention.

WITH DENA HEAD doing heavy damage,-Salem kept several steps ahead of Canton without being able to finish the Chiefs off until the final three minutes.

Head lead all scorers with 21 points on the night. She had 13 in the

first half and staked Salem to a 22-15 halftime lead. Head scored the first points of the third quarter to make it 24-15 then Canton answered back.

Tory Barger, Michelle Fortier and Jen Gansler scored three consecutive baskets and Canton was suddenly down by three.

That, however, was the Chiefs final rush. Jessica Handley and sophomore

Jill Estey took charge of the situation from that point.

Handley scored eight points in the final 8:01 of the game. She hit a shot at the third quarter buzzer to give the Rocks at six point lead. She finished with 14 on the night.

Estey, playing in her first Canton-Salem game, put Canton away in the final three minutes with a flurry of steals, assists and scores. In the final 3:33 she-made three steals, scored two layups and set up two other scores.

"WE PLAYED at their tempo but we were still able to get some easy scores," Thomann said. "We weren't

able to spread it until late, but Canton did a nice job. We had chances to open it up early, but we missed the layups. We like the layups and we're in our press. We missed and they are walking the ball back up the court.

For Salem (9-0 in the league, 12-1 overall), the win comes in the middle of a treacherous three-game stretch. The Rocks knocked off previously unbeaten John Glenn last Thursday. They travel to Lakes Division challenger Walled Lake Central Thursday

Canton (5-4 in the Western Lakes, 6-6 overall) got 10 points from Tory Barger, seven from Penny Piggott and six from Karen Boluch. Canton, with only seven players dressed (Jennifer Griffith is injured), had some problems with depth. Gansler and Heather Miller both got into early foul trouble.

"I'm not interested in any moral victories," Neu said. "What I care about is improving our play. And I'm thrilled. We played a very good game tonight."

Too bad we couldn't have had Johnny Williams on hand to provide a sound track for this game

Tory Barger led Canton Tuesday with 10 points.

The Michigan High School Athletic Association allows only the top two teams from each regional to compete in the state Class A girls tennis tournament. Not to be put out by a rule, however, the Observer & Eccentric area found a way to sneak two additional teams into Friday's state tournament at Midland.

Plymouth Salem, Plymouth Canton and Livonia Churchill all made it out of the Class A regional at Schoolcraft College. Farmington Hills Mercy, Birmingham Marian and Birmingham Seaholm each advanced from the Class A regional at Southfield's Civic Center.

How? By virtue of the tie. Marian, Seaholm and Mercy each scored 21 points at Southfield. Salem, 19 points, won the regional at Schoolcraft while Canton and Churchill both tied for second with 16.

Livonia Stevenson, which just missed with 15 points, will be represented by No. 1 singles player Kristine Bailey. Bailey was runner-up at the regional to Salem's Anita Toth.

High drama reigned at both regional sites.

FARMINGTON HILLS MERCY was in third place prior to the final three matches on Saturday. Mercy needed wins at Nos. 1-2-3 singles in order to gain a tie and a berth at the state tourney

Nicole Transou obliged at No. 1 singles with a 6-0, 6-4 win against Marian's Jenny Catalano. Becky Tasich also came through with relative ease at No. 3 singles beating Seaholm's Sue Rifkin, 6-0, 6-2.

That left it up to Kathy Heimbuch. Heimbuck, who has won key matches for the Marlins all season, withstood Seaholm's Sue Fredericks, 6-3, 6-1.

"That match was a lot harder than the score might indicate," said Mercy coach Jim Kerwin, whose team is going to state for the second time in four years. "There were a lot of

like that, character and attitude becomes more important than pure talent."

Kerwin was happy his team sur-vived the regional, but he was less than pleased with the regional alignment

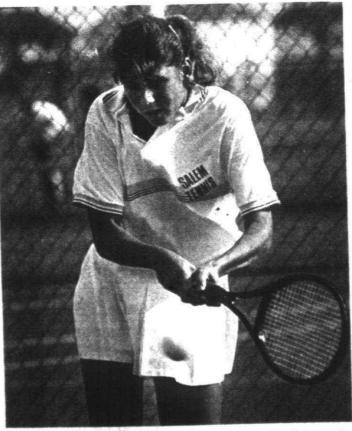

"It's awfully difficult when you have three teams in the top 10 of the state playing at the same place," he said. "Maybe someone will look at

The reason cliches become cliches is because the overused word or phrase generally holds a good deal of

Take, for example, the saying "offense sells tickets, defense wins football games." Never was that cliche. more in focus than last Saturday in Ann Arbor.

The University of Michigan's defense didn't allow a touchdown. It allowed just 193 total yards and 13 first downs. The Michigan State defense allowed three touchdowns, 380 total yards (219 via the pass) and 22 first downs. You might remember that U-M

won the game, 27-6. Ironically, it was Michigan's defense that was considered the team's soft spot coming into the game. Es-

pecially soft, said the critics, was its pass rush. That might come as a shock to harried MSU quarterback Dave Yarema, who was sacked six times for 63 yards in losses and was hur-

ried on virtually every pass he At the eye of the Maize and Blue storm that hounded Yarema was ling goal-line stand right before the Redford Catholic Central product and All-Area star Mark Messner pre-season all-America candidate and a 1985 first-team all-Big 10 choice made two solo sacks of Yarema and had six solo tackles.

"Mark played a terrific game," said Michigan defensive line coach Jerry Meter. "We asked Mark to do some very demanding extra things out there and he performed very well. We put him in a position to make the plays. If he didn't perform, we weren't going to put pressure on the quarterback."

After a great season a year ago, and all the pre-season hype this season, Messner's name hadn't been mentioned much through the first four games of the season.

"MARK, TO some extent, hadn't been as productive as last year," Meter said. "But we've been asking him to do different things. He's played well for us. It's just that last year, he was in a position to be seen

In other words, Messner has been drawing a lot of double and triple teaming this year. Last year - playing alongside the likes of all-Ameri-ca Mike Hammerstein, now with the Cincinnati Bengals - Messner drew primarily single coverage on the

"Mark, like our entire defensive line, played with more confidence this week," Meter said. "When you are a confident player, you tend to be more excitable. The unconfident player tends to be more contempla tive on the field."

THE CONTEMPLATIVE figures on the field Saturday wore green and

white. There was Farmington Harrison product John Miller and Dean Altobelli on their knees in the end zone staring forlornly at each other while U-M players celebrated the clinching TD behind them.

It's perhaps unfair, but that one play seemed to symbolize the entire nightmarish day for the Spartan de-

It was a close game at that point 13-3 Michigan with 3:39 left in the third quarter. MSU had made a sterhalf. It was Miller who made the big play, stopping Michigan's Thomas Wilcher on a 3rd-and-1 play from the Spartans' 1. He ignored Michigan's deceptive misdirection fakes, burst through the line and stuck Wilche back at the 2. Instead of a 17-3 Michigan halftime lead, it was 13-3 and MSU was charged up and still in contention.

Miller, in fact, played a strong game overall. He was in on five tac-

kles, four solo. Then came the cruncher. Michigan had been using primarily short, control passes. Only twice had the Wolverines thrown deep. Then quarterback Jim Harbaugh sent John Kolesar deep. Kolesar streaked past Miller. Altobelli was late coming over to help. The ball was unde thrown. Miller leaped. Altobelli leaped. Kolesar caught the ball in the end zone, 42-yard TD. Ball game

MICHIGAN'S THIRD TD came in the fourth quarter when Harbaugh drilled a 7-vard strike to Jeff Brown between Miller and several other Spartan defenders.

"It's not a situation where you can point the finger at one or two play ers," Michigan State coach George

Perles said after the game. "The los was a team effort. He affixed no blame for the two TD passes either. "The long pass was just a great throw and a great catch," Perles said. "The other, we had a double zone. He just loaded i up and stuck it in." Write it down: Offense sells tick-

# Logjam in Lakes Potential 3-way tie has ADs scrambling

#### By Brad Emons and Chris McCosky staff writers

T'S TIME TO reveal the se-

cret document. Who will represent the Lakes Division in the Western Lakes Activities Association football championship (Oct. 25) if there's a three-way tie for first between North Farmington, Westland John Glenn and Livonia Stevenson All three schools could very well wind up tied for the Lakes crown with 5-1 records each because they're all playing the lower diviion teams this weekend.

The winner will play Western Division champ Farmington Harrison, which has already locked up a spot in the final, even if it loses Saturday to Walled Lake Western.

A tie-breaker format will be used to determine which Lakes Division team will be awarded the chance to play for the title, coningent upon North getting by Farmington, Glenn over Plymouth Salem and Stevenson over Walled Lake Central.

HEAD-TO-HEAD competition can't be used because Stevenson beat North, North beat Glenn and Glenn beat Stevenson. Confusing?

Western Lakes athletic directors eportedly met Wednesday morning to clear up the matter. Rumor has it that state high school athletic association playoff point formula. based on opponents' wins and loss-

#### grid predictions es, will be used to break the tie.

Last week, Emons went 11-3 to The Cougars (3-3) came to life last week downing Dearborn in a mild upset. It's home push his overall season record to 45-24, but McCosky maintains the overall lead at 48-21, even though he slipped to 9-5 in Week No. 6.

FRIDAY'S GAMES (All games at 7:30 p.m.)

LIV. FRANKLIN at LIV. CHURCHILL: The Chargers (5-1) could be getting in position to make a run for the state playoffs, but a victory over Franklin (1-5) is not a cinch. After scouting Churchill last week, Patriot coach Armand Vigna calls the Chargers "the best team I've seen." Shou be another defensive battle. Picks - Take the Chargers in a yawner

LIV. STEVENSON at WALLED LK. CENTRAL: The Spartans (4-2) can clinch a tie for the Lakes Division title. Past history says they shouldn't worry over the worst team in the WLAA. Picks - Stevenson topples the Vikings (1-5).

WESTLAND GLENN at PLYU-MOUTH SALEM: Could be the highest scoring game of the night. Last week, Salem e(1-5) couldn't hold a 14-3 lead against North Farmington. The Rocks, however, do not match up well against Glenn (5-1), particularly on the line. Picks - Glenn makes it

PLYMOUTH CANTON at NORTHVILLE: This game, pitting a pair of 2-4 teams, hinges on defense. Don't expect many points to be scored, unless Jack Sylve tre is doing the kicking for Northville. Picks -Northville wins its third straight.

**BOMULUS at GARDEN CITY** 

ION: RU (3-3) still has an outside chance to claim a share of the Northwest Suburban League crown. The Panthers edged Woodhaven last week, 14-12. Picks -Emons says Dearborn ruins the party ry says coach Jim Gibbons lights an other fire under RU

WAYNE MEMORIAL at WYAN-DOTTE: The only concern for Wayne (3-3) s Wyandotte's mucky field. The Bears (1-5) are still seeking their first Wolverine A Confer-ence victory. Picks - Not this time, Wayne

SATURDAY'S GAMES

. FARMINGTON at FARMINGTON ( p.m.): Last week Salem made the dangerous Scott Selzer earn his yardage, but North quarterback Scott Simon burned the Rocks' secondary. The Raiders (5-1) will be tested by a Farmington team (2-4) with a better than-average defense. Picks - North clinches a share of the Lakes Division crown.

WALLED LK. WESTERN at FARM. HARRISON (1 p.m.): Harrison (5-1) is getting ready for its fifth straight WLAA championship game. Western (2-4) could put up a fight if junior. Mike Hall gets loose. Unfortunately, Hall doesn't appear to have the supporting cast. Picks — Harrison wins the Western Division outright.

WOODS (1 p.m.): The Trojans (3-3) are hurting, as quarterback Gregg Buell will sit out the game with bruised ribs. Joe Jentzer, e receiver, will take over. The host Eagle (0-6) are undoubtedly the worst team in the Metro Conference. Picks — The Trojans go back over .500

ANNAPOLIS at REDFORD THURSTON (2 p.m.): The Eagles (1-5) are still eyeing their first Tri-River League with after falling in the final 55 seconds to Taylor Center last week, 9-7. Annapolis (1-5) hasn' shown much of late. Picks - Emons says it'r happy Thurston homecoming. McCosky begrudgingly, agrees.

REDFORD ST. AGATHA at OR-CHARD LK. ST. MARY'S (2 p.m.): A win by the Aggies (4-2) could set up a showdown for the C-Section title on Oct. 25 with division leader Pontiac Catholic. Agatha coach John Goddard fears the Eaglets (4-2) especially running back Marcus Relliford and ineman Scott Kowalkowski, son of former Detroit Lion Bob Kowalkowski. Picks - The Eaglets set sail in Orchard Lake.

REDFORD BISHOP BOR'JESS vs. WARREN DeLaSALLE (7:30 p.m. at Garden City Junior High): he Spartans (4-2), who suffered a hear breaking 6-0 overtime defeat last week to Harper Woods Bishop Gallagher, got a boost last week when Catholic Central upended rother Rice, creating a four-way tie for first DeLaSalle (4-2) is big and strong, but may not be able to match the Spartans' quickness Picks - Emons says Borgess stays in the hunt. McCosky disagrees

REDEORD CATHOLIC CEN-TRAL vs.HARPER WDS. NOTRE DAME (7:30 p.m. at Clarenceville): who remember last year's stinging 7-6 loss to the unheralded Fighting Irish. Notre Dame (2-4) simply can't match up with CC's stingy defense. Picks — CC runs its Central Division mark to 3-1.

# CC turns Rice mistakes into win

By Brad Emons staff writer

There's a logjam at the top of the Catholic League's Central Division. Thanks to Redford Catholic Central's come-from-behind 7-3 football

victory Sunday over Boys Bowl rival Birmingham Brother Rice before 6,000 fans at Pontiac's Wisner Stadium, four teams are tied for first

CC, Rice, Redford Bishop Borgess and Warren DeLaSalle are all 4-2 overall and 2-1 in the division.

"There's no puzzle involved in our ague," said a happy CC coach Tom Mach. "Any team can beat anybody on a given afternoon. It just happens this year it has taken place."

The loss by Rice was damaging it more ways than one. The Warriors could have been sitting pretty, all alone in first, with only two games remaining. And Rice all but knocked ruined its chances for a post-season nlavoff berth.

As expected, it was a defensive battle all the way

Not only did it showcase the state's Junior A-level hockey, it also served as a preview to the Plymouth-based Hennessey Engineers' North American Junior Hockey League home opener Friday against the Detroit Falcons. Compuware, one of the four teams

Engineers' coach A.J. Baker. "I'll tell you, Compuware won the game, but Oshawa won the fight." Mike Bovack, who tallied six goals

and four assists in four tournament games, led Compuware in the finale with a pair of goals. Livonian Matt Wiljanan also scored. Baker's Engineers took the tour-

nament's bronze medal, beating the Falcons 5-2. The Falcons had defeated the Engineers earlier in the tournament 6-3.

"The difference was our goalie," Baker said of netminder Doug Brown "The first-night he was incredibly nervous. They scored a couple of weak goals early that were the lifference in the game. Should the powers-that-be sack the Farmington Harrison girls basketball program? No way.

Yes, the team has lost a staterecord 72 consecutive games. A win this season does not appear likely. The team has lost by scores of 95-9, 64-2 and 105-15 this season. Coaches throughout the Western Lakes Activities Association feel playing Farmington Harrisor is a complete waste of time. Others think it is dangerous and counterproductive.

Recently a columnist in a Northville newspaper made the following assumptions about the Harrison program:

 To achieve that goal, the current varsity team practices Monday through Friday 2:30-4:30 p.m. and 7-9 p.m. Monday and Wednesday nights.

The bottom line is this: There are enough girls now to have a program. The girls in the program seem genuinely committed to playing basketball. They want to play basketball. # Hunters beware: waterfowl aplenty

#### **By Bill Parker** staff writer

If your hunting partner suggests sloshing through his cousin's flooded-out farm - as opposed to wad-ing through cattails and marshes when trying to bag a couple ducks or geese this season, don't call him a quack and figure he's fallen out of the boat once too often. He just may have a little insight into the situation.

About the only good thing coming out of all the flood damage throughout Michigan is that avid duck and goose hunters may not have to travel as far as usual to fill their daily bag limits on waterfowl

Duck and goose season was open for the most part - throughout the state as of Oct. 11. (Limitations on hunting areas are defined in the DNR hunting guide.) Over the past few weeks ducks and geese have been spotted on farms throughout the state feeding in flooded-out fields, especially corn and soybean fields

"THE SEASON should be as good or better than last year but the hunters will have to work a little harder." said Ed Mikula assistant chief of wildlife for the Michigan Department Of Natural Resources. "All this rain has scattered the waterfowl over much of the state. In areas with too much water the birds have moved on. They're spending a lot of time in the flooded-out farmlands. Southern Michigan has a lot of birds; the hunters will just have to find them '

The migratory diving ducks. which include scaup, bluebill, golden eye, ringneck, redhead and bufflehead, are beginning to move through the state and should continue this migration through midlovember. These birds congregate on large open stands of water Traditional good hunting spots in southern Michigan include areas of Saginaw Bay, Lake St. Clair, the Detroit River and Lake Erie. mallards, green winged and blue winged teal, black and pintail, inhabit areas with shallow water and are also abundant in the area this year. Traditional hot spots include Point Mouillee, Harsen's Island, Fish Point and the Shiawasse area

MIKULA STATED that the local goose flock has increased in size to etween 80,000 and 90,000 birds.

"Goose hunting has come in like a gang buster," said Mikula, "The flock is up and growing at an exponential rate, particularly in southeastern Michigan. The birds are growing very, very well."

Despite this good news on the lo cal flock the popularity of waterfowl hunting has decreased dramatically since the late 1950s. Hunter population at that time was close to 100.000. It's down to about 65,000 hunters now.

Although there is no simple answer to the question why, it's speculated that the fall-off in the num ber of hunters can be attributed, at least partially, to the high cost of outfitting yourself to hunt. Guns, boats and blinds or camouflage are needed, and the cost, especially for a good boat, has turned some hunters toward less expensive avenues of hunting.

Another reason for the downslide is that the upswing in fall recreational boating has created a tremendous amount of activity on the lakes and subsequently the water fowl havn't been coming into these areas as much as they use to.

"Overall I'd have to say that hunters will have a pretty darn good season," said Mikula. "It should be comparable to or slightly better than last year. In southeast ern Michigan hunters should be a little innovative and try the farm areas

In on-field performances, SC looked good. The team bested University of Michigan's club team 1-0 last Wednesday, but it took overtime to do it. John Gelmisi pumped in the game-winner, converting a pass from Mike Murphy. And on Saturday, the Ocelots scored four second half goals and blanked Delta CC 4-0. Now for the bad news. In the win over U-M, Murphy suffered a knee injury and will miss the remainder of the regular season, at least. SC coach Van Dimitriou was optimistic that Murphy - who has played exceedingly well lately - would be Should the Ocelots make it that

the first game 6-1 turning a tight game into a rout with four secondhalf goals.

To make bad news worse, two more players were lost. Goalkeeper Sam Matovski, from Livonia Churchill, reinjured his knee during practice last week and is now lost for the season. Matovski, who split time with current starter Jeff Vakratsis last year, initially hurt his knee last summer and was just getting back into shape.

JOEL SKOLNICK has also been lost. A midfielder bothered by injuries who made only one appearance - a strong performance against Macomb - was hurt again. He has decided to leave schoo

# Teamwork key to Ocelot spike streak

#### By C.J. Risak staff writer

After each point of Saturday's match with Lansing Community College - whether it was won or lost by Schoolcraft College's volleyball team - the Lady Ocelots slapped hands

The meaning behind that seeming insignificant act is considerable demonstrated a deep-rooted sense of teamwork, a belief that each member of the team shared in its successes and its defeats. In a game that is heavily psycho-

logical, knowing that the rest of the team is both depending upon you and supporting you can be a major advantage. Not that SC has had much need for positive reinforcement: the coach Tom Teeters. "We were serv-Lady Ocelots have not experienced much in the way of losing.

AGAINST LCC, they ran their unbeaten string to 11 and 28. That's 11 straight matches and 28 consecutive games. SC has not lost a game since the Eastern Kentucky tournament 8. 15-9 triumph over visiting LCC. From the start of Saturday's

nate. These were the same two teams that met for the NJCAA region championship last year, a match that the Lady Ocelots narrowly won. This time it was no contest. SC

built an 8-0 lead in the first game and coasted to an easy win. The second game was more difficult until Amy Lotero started serving with the score knotted at 6-all. Lotero served six straight points and LCC never recovered Game No. 3 was very similar, but

SC's net strength proved too strong for LCC. The Lady Ocelots pulled away from an 8-7 lead to the win. allowing LCC to score just two more points. Lotero's serving played a key role

in the first two wins. "She was serving it in the right area, and keeping the ball real low to the net." said SC ing tough.

WHILE LOTERO'S serves gave LCC fits, the Lady Ocelots had few problems on service returns. Their passing excelled, and setter Patti Kozicki continually got the ball to hitters Kim Relvea (29 attacks, 18 Sept. 20, which includes its 15-2, 15- kills, one error), Diana Dietz (25 attacks, 10 kills, two errors) and Jill Ehlert (12 attacks, eight kills, two errors) in good position.

# Good performances brighten one-acts

Performances of "Laundry and Bourbon" and "Lone Star" by James McLure continue through Saturday, Oct. 25. at the Theatre Guild of Livonia-Redford playhouse in Redford. For ticket information, call 522-8057.

Sooner or later we all must cross the line between the dreams and expectations of our youth and come to grips with the realities of adult life. That's the subject of two one-acts

by James McLure that make up the season's opener for the Theatre Guild of Livonia-Redford Both feature illuminating performances and skillful direction by Laurie Johnson. The setting is Maynard, Texas one of those small, dusty towns of no particular importance. It seems to

have more than its share of citizens living what Thoreau called "lives of quiet desperation." In the first piece, "Laundry and Bourbon," we meet three young married women whose marriages are

something less than what they once imagined. They fold laundry and swish down bourbon and water on a hot summer day as they reminisce of high school romances, gossip about each other and rationalize away their husbands' faults.

VICKI CRAVENS gives a sparkling performance as Hattie, a harried mother of three kids. Counter-

-

played poignantly by Mary Rychlewski. Elaine Kaiser is very good as Amy Lee, who married a whimpy nerd. In the second play, "Lone Star,"

we meet a triad of men in these women's lives. The setting is behind Angel's Bar, late one summer's night. It's strictly man talk Tall tales of drinking, fighting, women and cars. Mark Maccagnone turns in a very

believeable performance as Elizabeth's husband. Roy - a wild, boozing stud whose only sense of accomolishment is how many women he has seduced in his 1959 pink Thunderbird.

JOHN BATTLE plays Roy's younger brother, Ray. His performance is well-rounded and flavored with just the right touch of inno

cence. John Eastman has perhaps the juiciest role, that of Amy Lee's nerdy husband, Cletis. And he plays it to the hilt. At times its almost too broad, but it's consistent and well

# Summit steakhouse has a view and more

#### **By Ethel Simmons** staff writer

The Summit, rooftop revolving restaurant at Detroit's Westin Hotel, has taken a turn for the better. Always popular because of its breathtaking view of downtown Detroit and neighboring Windsor, the restaurant wasn't known for out-of-the-ordinary food until it inaugurated a steakhouse concept last December

The hefty portions, with delectable steaks done perfectly to order. has created good vibes for the Summit. The menu, a simple onepager, lists 12-ounce filet mignon unce tenderloin brochette, 16ounce New York sirloin strip steak. 16-ounce club ribeye steak, 16ounce hickory-smoked prime rib and 24-ounce T-bone steak.

These are among the charbroiled specialities, as well as lamb chops and smoked pork chops. Steaks range in price from \$22.95-\$28.95.

You need to take your appetite when you go to eat at the Summit. Appetizers (Summit cheddar cheese soup, fresh vegetable chowder, escargots in fresh mushrooms and sauteed fresh mushooms) are a la carte.

BUT EVERY dinner includes a ucket of shrimp for preliminaries, read with special butters, a salad ossed tableside and a stuffed haked notato with the entree.

The shrimp to peel and enjoy arrived in a bucket, with a morehan-you-can-eat serving for two at least for these two diners. The entree was eagerly awaited, the table having been set with big, wood-handled steak knives.

The filet mignon lived up to exectations. It was served directly on a skillet to keep it hot, the steak charred on the outside, juicy and tasty throughout

The menu has remained basical ly the same ever since the Summit became a steakhouse. The success of a steakhouse at the hotel chain's evolving rooftop restaurant in Atlanta partly inspired this steak-house, said Keith Schaffner, the Summit's food and beverage director. He said a market survey also indicated there was a "desire for a good piece of red meat" locally.

The Summit purposely serves what he calls "oversized portions so the customer can say. "I got value for my money. The majority o the people eat the entire meal."

**BESIDES THE** char-broiled se lections, there is mesquite grilled chicken kabob teriyaki, or veal chop - a whole rib. Norwegian salmon steak or swordfish may be ordered mesquite grilled or Cajun style. Only change in the menu since the steakhouse first opened is the addition of lobster tail. Twin lobster tails are offered or lobster tail and filet.

Featured wines by the glass from the cruvinet installed month ago, include a chardonnay white zinfandel, riesling, piersport er and claret.

Anyone who still has room after the big meal may go for the "Grand Finale." The separate dessert menu lists six heavenly choices, a la carte.

#### Wicker Works

Right restaurant - wrong hotel. The Oktoberfest Bavarian Buffet described at the Wicker Works is in Troy's Northfield Hilton, not in the Hilton, as Monday's Table Troy Talk column erroneously stated.

Waiting for films to descend from the wide screen to the video cassette must be the '80s version of waiting for a new book to come out in paper back. Couch slobs will agree, not only is it cheaper to rent, one needn' dress for the occasion.

Here are a few fall releases to take your mind off raking leaves and putting up the storm windows: "Santa Claus: The Movie:" This is

the movie made for the sons and daughters of the TV Generation. An inside look at life at the top of the world, the North Pole, it would have been a better made-for-TV movie. It even has its own built-in commer cials for McDonalds and Coca Cola when a little poor boy in the film is given a Christmas dinner consisting of those fast food staples.

Jeesh, even Scrooge managed to cough up roast duck with all the trimmings for Tiny Tim. The better commercial tie-ins, my dear.

Last year Mickey D's handed out pic-ture books based on the movie with its children's meals. Parents deserve a break today but this isn't it

If you can really transcend your own disbelief and accept Dudley Moore as Patches, one of Santa's head elves, this is your movie. Young children of the TV Generation, say those under 6 years old, liked this movie. Why not? Santa looks like he stepped off of a 19th-century table oration in this film. The sets of Santa's workshop at the North Pole are elaborate pieces of gingerbrea construction - sort of ren iniscen of the gone but still lamented Christmas displays at the old downtown

Hudson's. There's one problem. These are supposed to be actors, not puppets. Older children and adults will snooze through this one. You'd be better off renting "Miracle on 34th Street." For those who insist on seeing this movie, it'll hit the cable pay stations later on this fall.

"The Music Man:" A good family movie before that category turned into a dumping ground for the insipd. When it was first released, critics ned that the movie based or Meredith Willson's successful musical was shot as if it were still on the Broadway stage. Maybe this isn't the movie for buffs to savor breakthrough camera angles but years later this chestnut still possesses exuberance.

Robert Preston remains wonder fully conniving as he convinces the arents of River City to spell trouble P-O-O-L. Of course, we all know they invest in his bogus band equipment to keep their youngsters off the streets and out of the pool halls, the video arcades of yesteryear. Shirley Jones writes the book on acting lemure as Marion the Librarian. Oh, what the heck, any movie that features a song rhyming Marion with carrion can't be all bad. Throw a bag of popcorn in the microwave, sit back and enjoy

'Agnes of God:" This movie, too made the transition from Broadway stage to the screen. Along the way, i picked up a few scenes taking place outside the convent grounds where Sister Agnes lives and a newborn

\*9Q

Meg Tilly gives a nice low-key performance as the other-worldly Sister Agnes. Jane Fonda is the psy-chologist sent to investigate the incluient who ends ups tackling the sort f questions first raised by medieval ogians. Fonda never quite hits her stride in the role.

Generally the movie fails to sustain the tension between 20th-centu-ry values and those of a life devoted to religious seclusion. At times it just seems silly, like the conversation be tween Fonda's psychiatrist and the convent's superior about what brand, of cigarettes different saints and as: cetics would smoke.

The movie comes close to its mark, but it doesn't deserve a cigar. It can also be seen this month on

# **Pigeon River Country is a Michigan gem**

#### By Gordon Charle special writer

Most Michigan maps don't show the Pigeon River Country. Adventurers who happen across it may not even suspect they have discovered something unusual unless they take the time to explore its depth. Then they know they have, indeed, found a gem of the highest quality.

Near the top-center of the "mitten," which makes up the state's Lower Peninsula, it consists of roughly 500 square miles of mostly wild lands. The interior portion of about 150 square miles is more than 95 percent state-owned and has been dedicated for use by the public under rules allowing as many non-conflicting uses as possible. Closest to the four corners are Gaylord, Indian River, Onaway and Atlanta, thus making it easy to reach.

Three lovely rivers - the Pigeon Sturgeon and Black - originate and include nearly their entire upstream watersheds within this forest. Nearby are headwaters of the famed AuSable and Manistee rivers. The Black is frequently called the finest brook trout river in the Lower Peninsula. The Pigeon and Sturgeon also contain these highly prized trout, along with browns and rainbows.

Young, vigorous hardwoods, wellmixed with coniferous swamps and sandy highlands, are found along the three main streams. All are vital areas to wildlife, especially during the severe, deep-snow winters so common to this region.

Perhaps highest on the PRC's list of fascination features are the wildlife. The largest herd of truly wild elk east of the Mississippi River lives in this forest. So do black bears, bobcats, bald eagles, ospreys, pileated woodpeckers and ravens, all considered fairly rare south of the Mackinac Bridge. Such species require large blocks of wild, quiet habitat, free from the harassments of vilization

At one time, this was land nobody wanted. Much of it was barren, stripped of lush white pine cover by uncaring loggers. Later it was repeatedly by wildfires.

Three lovely rivers — the Pigeon, Sturgeon and Black - originate and include nearly their entire upstream watersheds within this forest. Nearby are headwaters of the famed Au Sable and Manistee rivers. The Black is frequently called the finest brook in the Lower Peninsula.

which swept across Michigan. Early visionary P.S. Lovejoy, a member of the old Department of Conservation, prevailed upon his superiors to begin equiring land within the tract. Over 13,000 acres was bought with hunting license money, while another 6,000 acres was tax-reverted to the state by owners who felt the land would always be worthless.

THE PRESENT Department of Natural Resources has followed Lovejoy's lead in buying land as it becomes available in the PRC. Realizing that "people pressure" can also be a major factor in "loving a beautiful area to death," the DNR adopted a number of restrictions

Some forest trails have been closed to motorized traffic, including noisy snowmobiles. Enough twotracks remain open for the general public to enjoy drives through the forest and, for those who wish to explore farther, a number of hiking and cross-country ski trails are available for foot traffic.

It is thus possible for the lucky motorist to catch an occasional glimpse of an elk or other large wildlife, right from the comfort of a car. Best results, though, come from following one of the quiet foot trails, no matter what the season.

September is the prime month for elk watchers. The huge bulls are sounding their clarion calls as they attempt to round up their harems of cows. The sound is like none other and is guaranteed to make the hair stand up on your neck the first time the shrill call is heard.

Within the Pigeon River Country are seven state forest campgrounds with most located on unspoiled lakes or rivers. Several tiny, scenic sinkhole lakes are visible from some of the rustic trail roads. A motorist can drive 20 miles in any one direction without seeing a house, cottage, fence or anything else manmade There is no other place in Michigan's Lower Peninsula where you can find that. It is a major part of this area's charm and fascin

THE PRC IS LARGE enough to absorb a reasonable number of visitors seeking a variety of outdoor recreation. Many enjoy just driving the two-tracks to marvel at the scenery and to capture memories with a camera, Fishing, hunting, camping, swimming, boating, horseback riding on a fine trail system are all high priorities. Mushroom and berry picking, bird watching and many northern forest products are all yielded from this same area, usually with reasonably compatible use.

No story about this unique land could be written, however, without mentioning the highly controversial battle between environmentalists and the petroleum industry, beginning in the late 1970s. It was then that a rich oil and gas strike was made on state lands within the forest after they had been leased from the DNR.

A decade of court battles ensued. They were resolved only after oil and gas interests were forced to operate in just a small portion of the southern forest under the strictest rules in the United States. Work is permitted only during periods deemed least disruptive to wildlife breeding habits. New wells must be screened by natural barriers to maintain the forest in seeming-pristine condition. It appears to be working well, especially recently since oil work has nearly stopped in the for est, due to the worldwide oil glut.

EXTREMELY HEAVY snowfall in the PRC closes many of the trail roads in winter, although some are kept plowed. This can be a fine time to don cross-country skis for exploring a winter wonderland setting. For the camera enthusiast, elk, deer and other wildlife often offer ideal lens subjects in gorgeous white settings. Whatever the season, a visit to the

Pigeon River Country can provide a peaceful, quiet interlude from the lemands of modern-day civilization. For this, you can thank P.S. Lovejoy and others of vision.

Pigeon River Country: The Big Wild" is a new book by Gordon Charles, author of today's travel feature on this wild area in Michigan's northern Lower Peninsula. It tells visitors what to see and do there, as well as containing a history of the 12-year struggle to save this special place from ruination by oil and gas drillers. Ford

# Salary hikes proposed for officials

#### By Teri Banas staff writer

Wayne County commissioners are considering pay increases of 12 to 65 percent for county elected officials, many of whom have not seen a wage increase in four year.

All this comes at a time when the county faces a serious cash flow shortage, and looming deficit by year's end.

Proposed by commission chairman Richard Manning, D-Redford, the pay increase request would take effect on Jan. 1, 1987, for elected officials if adopted by the full board and County Executive William Lucas. Increases in salaries for county commissioners have also been proposed, but those hav : not been suggested to take effect intil 1989. Lucas, in a state nent this week

sharply criticized the commission for proposing the salary hikes "at a time like this" and likened it to an oril Fool's joke.

"IT'S TOO far a way from April 1 to be an April Fool's joke, so it must be some kind of Halloween prank some of the commission is playing on Wayne County taxpayers," said Lucas.

A spokesman said Lucas would veto the measure if it reaches the county executive's office. Based on the proposal, here's how the annual salaries of elected offi-

cials would rise: County executive: current wage

(\$72,150); proposed wage (\$81,000) · Prosecutor: current wage (\$54,226); proposed wage (72,900) • Clerk: current wage (\$44,866); roposed wage (\$68 85 i)

• Treasurer corrent wage (41,686); proposed wage (\$68,850) • Sheriff: curran wage (\$45,866);

proposed wage (83/350) • Register of Deeds: current wage (\$41,636, proposed wage

(\$64,800) • Drain commissioner: current wage (\$41 86); proposed wage

(\$64.800) • Commussioners: current wage (\$26,426; proposed wage (\$29,970)

COUNTY TREASURER Raymond Woytowicz defended the move as an attempt to address longstanding inequities between the salaries of elected officials and the department heads. He said that elected officials received their last pay hike in 1982, yet department heads and others have steadily seen rises in their sala?

In some cases, he said, department heads earn \$25,000-\$30,000 more than the elected officers. "It's my understanding the board of commissioners has entertained that thought a year and a half ago," he said. "They realize the inequity. For instance, it was recognized even when our ceo took a better than 77 percent increase."

About the county's financial difficulties, which Woytowicz has been particularly outspoken about in recent months, he said: "We've have financial troubles for the last four years and will have them in the future. These problems (pay inequities) will have to be addressed and will have to be resolved."

He called the total increase in elected officials' salaries "really, a fraction of the overall county's trou-

ommendation. IN ALL, seven commissioners voted in favor of the plan, three

#### Group supports election reform in judge races

Bar association attorneys and la-bor groups will back state Legislative efforts requiring at least six years legal experience of judicial hopefuls, predicts Dearborn attorney Karl Lukens.

Lukens says such a coalition is being formed, inspired by last August's election returns in the Wayne County judicial primary.

Referring to a proposal that has yet to be introduced in the state Legislature, Lukens said: "This proposal is a reaction to the name game form of judicial elections we have seen in Wayne County and for the Supreme Court this year, where a candidate with little or no experience as an attorney attempts to capitalize on a familiar political name by running for office.

State Sen. William Faust, D-Westland, said this month that he is preparing an amendment to the state Constitution making that provision. 'Faust said Michigan's overabundance of lawyers (some 24,000 statewide) has resulted in the emergence of judicial candidates with little legal experience.

FAUST SAID he would introduce his plan in January. Lukens points to the Wayne Coun-

ty race, which attracted 17 candidates last summer, and notes that of the six semi-finalists, three have four years or less of legal experience

voted against it, four were absent and one abstained.

Area representatives supporting the proposal were Manning and Kay Beard, D-Inkster. Milton Mack, D-Wayne, voted no, and Mary Dumas, R-Livonia, abstained. Others voting in favor were Stan-

ley Rozycki, Jackie Currie, Clarence Young, Bernard Kilpatrick and William Suzore. Those absent were Freddie Bur-

ton, Arthur Carter, John Hertel and Samuel Turner. Dumas, afterward, said she cannot

support the plan and abstained because she disagrees with tying elect-ed officials salaries to the salary of the chief executive officer. Under this proposal, most elected officials would earn a salary that ranges between 80 and 90 percent of the ceo's salary while commissioners would be tied into earning 37 percent of whatever the ceo's salary is at the

"I'm concerned with equating that," she said. "This is what happened with the pension system in Livonia.

# Symphony leads with Votapek

The Piymouth Symphony opens its 41st season at 8 p.m. Friday in the Plymouth Salem High School auditorium under the baton of its new music director-conductor Leon Grigorian.

Guest artist will be pianist Ralph Votapek, the only American to have been awarded the grand prize for his performance in the Van Cliburn International Piano Competition. Votapek also has appeared with major orchestras of the United States, including the Chicago Symphony and the Boston Pops Orchestra.

Recently invited by the Soviet government to tour the Soviet Union, Votapek performed in recital and as soloist with orchestras in Leningrad and other major cities. Audiences there were tremendously responsive dand his concerts were sell-outs.

THE FRIDAY NIGHT appearance is his first with the Plymouth Symphony. He has chosen to play Prokfiev's Concerto No. 2 in G minor for Piano and Orchestra, Op.22.

The symphony will perform three excerpts from "The Damnation of Faust" by Berlioz and the Tchaikovsky Symphony No. 4 in F. minor, Op.36.

Following the first concert, a gala afterglow" will be held at the Mayflower Meeting House during which time concert-goers will have the opportunity to meet Grigorian. Cost of the afterglow is separate from the concert admission and is \$10. Hors d'oeuvres will be served and there will be a cash bar. Anyone wishing to make a reservation should call 451-2112. Tickets for the concert will be available at the box office at \$6 for adults. \$3.50 for senior citizens and full-time college students. Students, 12th grade and under, are admitted free

# Nicaraguan photo exhibit hosted by YW

In commemoration of United Nations Day, Friday, Oct. 24, the Northwest YWCA will open an art exhibit titled "Nicaragua — A People in Search of Peace," featuring the work of two Detroit artists whose perceptions of their visits to Nicaragua are recorded in paintings, drawings and photographs. Featured will be Lin Baum, a 1971

ings and photographs. Featured will be Lin Baum, a 1971 fine arts graduate of the University of Michigan, who sees her work as "an avenue for social/political outreach."

In December 1985, after a crash course in Spanish, Baum went to Nicaragua where for eight weeks she gave herself the mission of capturing on canvas, the faces of war. The result is a series of paintings and drawings which are, she says, "the first step of my vision of bringing children, who are being forgotten while adults play their game of war, to you through my art."

to you through my art." The other artist is Bob Buchta, a Detroit based freelance photogra-

pher, who was in Nicaragua in March and April of 1980, during the early days of the Sandinista regime. He shot 9,000 frames of both color and black and white photographs and thinks of them as a "protest of cliches."

BUCHTA HAS BEEN a teacher of photography at the University of Detroit and Marygrove College. He has worked as a freelance photographer for the past 10 years. With these photos from Nicaragua, he wants viewers to "meet the Nicaraguan people, see their children, their homes, their work and their play. Then decide if we should be burning their villages."

The Oct. 24 opening of the show at the Northwest YWCA, 25940 Grand River at Beech, 7-9p.m., will feature guest speakers, a video presentation and a wine and cheese reception. It is open to the public. Call 537-8500 for more information.

Hotel St. Regis waitress Laurie LePain pours hot water into the tea pot as Mary Ellen Sweet watches.

# Take tea and see

#### By Arlene Funke special writer

ALTHOUGH AFTERNOON tea is a cherished tradition in England, it is only now beginning to catch on in the United States.

And catching on it is — and in grand style in the posh surroundings of the St. Regis Hotel in Detroit's newly burgeoning New Center area.

Make no mistake about it, a proper afternoon tea is not simply a cup of tea downed on the run. That holds little appeal. Indeed, afternoon tea is a state of mind, in which you accept the invevitable: you will relax and you will be pampered.

Al and Ellen Sweet of Bloomfield Hills got hooked on this very British custom during a trip to England last year. Now, the couple slip away to the St. Regis to sip tea and nibble on dainty sandwiches in elegant surroundings that closely emulate the best London has to offor

That's probably because the St. Regis is managed by the Britishrun Rank Organization. Tea, which is served in the late afternoon, has been a mainstay at the St. Regis since the early 1980s.

"SOME PEOPLE think it's hoity-toity," said Mrs. Sweet. "I like the atmosphere."

"A lot of people seem to enjoy it," said St. Regis hotelier (manager) Michale Kahler. "We serve afternoon tea in all our hotels."

Kahler is familiar with both British customs and American tastes. Kahler was born in London but has been an United States citizen for about 30 years.

Afternoon tea is a time to wind down. The atmosphere is tranquil and unhurried, relaxed but slightly formal. Show up in blue jeans and running shoes and you'll feel out of place. This is a business-suits-for-

just at home having a cup of tea or a cocktail."

(P.C.W.G)1E

The St. Regis offers afternoon tea 3-5 p.m. Monday through Saturday and 4-5 p.m. on Sunday. Diners may choose from a selection of 10 teas including one herbal tea. The server brings each patron his or her own small, dainty china pot and a heavy linen napkin.

THE FULL TEA, at \$6, includes finger sandwiches of cucumber, watercress, ham and crabmeat, along with warm scones served with whipped cream and strawberry jam. Scones, typical British fare, are small teacakes filled with nuts and dried fruit. Smaller versions of afternoon tea are also available. Tea, sandwiches and cookies cost \$5, and tea with scones is \$3. Tea only cost \$2.

"We bring all of our out-of-town guests here," said Ellen Sweet.

Al Sweet, owner of a Southfield insurance agency, says the family's fondness for teatime is a bit of a joke.

Daughters Ellen, a student at Oakland University, and Suzánne, who attends Michigan State University, often accompany their parents to tea.

"Americans get away from the niceties," said Mary Ellen, who enjoys the teatime rituals.

According to Kahler, the traditional way of drinking tea in Britain is to drop a sugar cube in the cup, cover it with milk and then pour in the tea. Many people mistakenly call afternoon tea "high tea," Kahler said. In Britain, high tea is characterized by the inclusion of a hot entree, making it a meal. That is often served to children at the dinner hour.

ON A RECENT visit to the hotel, several groups of people were having small business meetings over afternoon tea.

Joseph Barrett of Detroit and Walton Cook of Fenton opted for tea instead of alcoholic beverages

'Wearables' show

The Ann Arbor Art Association's fifth annual wearable art fashion show will feature the work of 29 Michigan artists — three of them from the Observerland area whose work is woven, handpainted, appliqued, stitched, knitted and some are a multimedia presentation. Both clothing and accessories will

be included in this year's show.

Highlighting the show will be the presentation of work by Matthew C. Hoffman, honorary chairman of this year's event.

Area artists who will be featured include former Livonia resident Harriet Kozyn, a Bentley High School graduate who will show fantasy creations; Cynthia Wayne-Gaffield, a Livonia resident who has been in previous shows and who will show painted silks; and Farmington Hills resident Janice Haddad, also exhibiting painted silk.

**POPULAR ARTISTS** from previous shows will be returning with new works and the show has expanded from the previous year to show the work of many new artists.

Artists were selected for the show

on the basis of originality of design and quality of workmanship by a statewide jurying process held in June.

To be accepted for the show, an artist must have either created the fabric or the design or both for the clothing. Some artists use commercially available fabrics, but to qualify for the show, they must have substantially altered the fabric to make a unique artistic statement. Artists are permitted to use fabric of their own design with commercially designed pattrns.

Staging for the show will have a new dimension. All models will be dressed in black to provide a background for the artist-designed works. Cooperating with the art association in producing the show is the fashion board at Briarwood shopping center.

Tickets for the show must be purchased in advance. Dessert and coffee will be served following the show and are included in the ticket price of \$12. Tickets are available at the Ann Arbor Art Association, 117 W. Liberty, Ann Arbor 48104. For more information, call 994-8004.

### **FinnFest plans announced**

Next year will be year of double celebration for Detroit area Finns.

Not only will they be celebrating the 150th anniversary of Michigan's statehood, they will also have the opportunity to commemorate the 70th anniversary of Finland's independence — right in their own backyard.

That backyard is Schoolcraft College in Livonia, which happens to be located in the midst of the largest concentration of Finns in southern Michigan. For that reason, Schoolcraft will host FinnFest '87. a sporting and cultural festival, which will attract Finns from across the country.

As part of the cultural events, FinnFest committee members are planning an exhibition of Finnish art and crafts and are seeking exhibitors. If you are a Finnish-American, and are interested in displaying your art or would like to demonstrate a craft, write to: FinnFest '87, Chairman Art and Crafts Committee, P. O. Box 169, Farmington 48024.

#### Some people think it's hoity-toity. I like the atmosphere.'

— Ellen Sweet teatime devotee the-men and skirted- suits-for-thewomen crowd.

At the St. Regis, tea is served in the hotel lounge where cocktails are also available (the bar is tucked unobtrusively in a corner). Each small, glass-topped table is adorned with a bud vase filled with a single fragrant fresh flower. Soft music plays in the background.

Diners sit on upholstered chairs or sofas usually found in a living room. If the weather is cooperating, late afternoon sun streams through the windows complementing the setting designed to create a homelike ambience.

"It's the hotel's living room," said Kahler. "Hopefully, you feel

tea instead of alcoholic beverages after a business meeting. "It's like creating the occasion

- anticipation," said Barrett, an industrial filmmaker. "We've lost a bit of that. Maybe this is a way of getting it back."

Currently, only a handful of local establishments have joined the St. Regis in serving afternoon tea. Two other hotels, the new Berkshire in Southfield, and the Ann Arbor Hilton, serve a limited, complimentary tea to hotel guests only.

And in trend-setting San Franciso, the legendary Fairmount Hotel has been offering afternoon tea with all the trappings for ages.

# Translate hints into improvements

From time to time, the format of Artifacts will change to include questions and answers as well as tips for those pursuing artistic endeavors. Q: How do you transfer a "rough" drawing to colored papers or art

A: When transferring art to illustration board, paper or colored papers, you must first ask yourself what media you intend to use.

You should use graphite to transfer if your finished media is: pencil, colored pencil, scratchboard, pen and ink and watercolor or oils Beware of graphite transfer sheets. They are thin sheets of paper with a coating of graphite. The problem with them is that the transferred line does not completely erase. This can be a tragedy if you are doing a commercial piece or watercolor

A simple and fast way to make an 'erasable" transfer sheet is to first take a sheet of tracing paper and give it a heavy coat of graphite. Then use a 4B-6B graphite stick, and squirt lighter fluid onto the coated surface. Quickly rub the fluid with a paper towel. Continue rubbing until the fluid is dry and produces an even coating of graphite. Now, when you transfer with your homemade transfer sheet, your transferred line will erase completely from any surface. When transferring onto dark

boards, canvas or colored papers try pastels as a coating on the back of the artwork. It is best to use a conte' crayon (a small waxy pastel). Be careful to put the conte' crayor only on the lines you wish to transfer and not on the complete backside of your rough.

After you have finished your transfer, you will notice your lines are fuzzy or dusty. Simply blow on them or lightly rub a paper towel over the transferred lines and start your finished drawing.

#### TIPS & HINTS:

.

• To clean mat board or to remove a surface scratch, simply moisten a paper towel and rub it the entire area. The noisture causes the paper surface to

swell and correct itself A dent on unfinished wood can similarly be removed by placing water on the dent then place a hot iron onto the surface. The heat pulls the moisture up out of the wood and it is hoped the dent with it.

· If you are stenciling an object or material and you want to be sure that paint does not seep under the template, simply spray a light coat of spray adhesive on the back of the stencil. Let it dry until the adhesive has a light tacky feel then lace it on the object you wish to stencil.

 You can do an amazing amount of retouching on black and white prints with a stabillo all pencil or a gamma retouch pencil.

• Everytime you read an article about "Tips" or "Shortcuts" for artists, there will be this old favorite: to prevent ink from seeping under your emplate put several layers of tape or tape several dimes under your template. But do you know what? That tape gets do dirty so fast that within a few drawings your templates are smearing graphite all over your paper. Here's a solution: simply buy little "Pro Tabs" or poster hangers. These are little plastic tabs one-by-three-inch or smaller. Cut these super sticky tabs into strips or whatever shape you need and place them on the back of the template. You will notice that your templates slide smoothly and cleanly across your artwork.

• When coloring tracing paper or layout papers with markers, try coloring both sides for a variety of colors. Also you can liven up any pencil or colored pencil drawing by bleeding marker colors through from the back side of the paper. This allows you to add color without smearing your graphite or color pencil lines.

OMMUNITY symphonies are a cultural advantage to a city. Fortunately 57 years ago a group of Scandanavians in this area realized this advantage and formed a Scandanavian Symphony Society 1930, 10 years be fore Julius Chajes formed the Center Symphony, 17 years before the Plymouth Symphony Orchestra was begun, and 22 years before the Dear-

born Symphony was started. That makes the Scandanavian Symphony Orchestra of Southfield one of the oldest, if not the oldest, community symphony orchestra in the metropolitan Detroit area, instituted only about 17 years after the Detroit Symphony.

That distinct cultural advantage was realized Saturday evening at Southfield High School when the orchestra opened their season with a Traditional Flag Ceremony and the national anthems of Denmark, Finland, Faroe Islands, Iceland, Norway, Sweden and the United States, and particularly appropriate on the day of the Icelandic Summit.

**PIANIST MARIA** Meirelles soloed with the orchestra, bringing with her a superb muscianship she gained in her three degrees from the University of Michigan

# TransDesign: accessorizing tips on wheels

Remember when carpet was gold or grass green? Remember when picture and mirror frames were wood tones or brass? Remember when bedspreads were solid chenilles or floral patterns?

That's all changed. Today's society offers overwhelming choices and the color choices in decorating your home can sometimes be a confusing maze. It's no surprise then that trying to decide what goes with what can be a difficult task. Rushing from one place to another hoping to match

pieces can be exhausting. And integrating the accessories into the overall design of your room can be puzzle

BUT THAT'S WHERE TransDesigns fits into the picture. Using an integrated color system, the design firm has put the pieces together through the use of a color computer augmented by an accessory designer's training in color and design. TransDesigns accessory designers use a color board when planning a

**Fair Lane** youth guild auditions

Serious young musi-cians are invited to audition for the the Fair Lane Youth Chamber Music Guild.

Fair Lane Youth pro vides an excellent oportunity for talented and highly motivated tudent musicians to participate in a profes onally directed chamber music program. The guild includes a chamber orchestra and coaching in smaller en-sembles.

Beginning this month, Fair Lane youth's coaching sessions will be in Birmingham. For-merly coaching sessions were at the University of Michigan-Dearborn campus. This move offers local musicians the opportunity to partici-pate in this intensive educational program, which is organized into two 12-week semesters.

MEMBERSHIP I Fair Lane Youth in-cludes opportunities for recitals and other pub-lic performances. The non-profit organizanon-profit organiza-tion's students have per-formed both formally and informally, in a va-riety of settings.
