The snowstorm knocked out power to area homes and trapped about 60 Canton children in a church for several hours before fading away. Canton was heavily hit by the power outage because of a circuit failure at Lillev and Cherry Hill.

By Kevin Brown Staff Writer

The big winter storm Thursday caused its share of power outages and traffic accidents, but life returned to normal by the weekend.

Detroit Edison said 1,500 customers in Plymouth and Canton reported power outages due to the storm.

Scott Simons, an Edison spokes-man, said power was restored to all customers reporting outages by late Friday afternoon. He said power outages lasted "three or four hours

The outages were sparked by strong

A power outage caused by a circuit failure at Lilley and Cherry Hill roads sparked the closure of that intersection, making it tough for parents of about 60 kids at St. Thomas Aquinas church to pick up children from catechism classes, as the intersection provides the only street access to the church.

faces trial

Lance is accused of sexually assaulting an 87-year-old blind, wheelchair-bound resident of West Trail Nursing Home at 395 W. Ann Arbor Trail. The charge carries a prison sentence of up to 15 years.

Unable to post \$25,000 bond, Lance was taken to Wayne County Jail. Her arraignment on the information is scheduled for Friday, March 19 in Detroit Recorder's Court.

Lance pleaded not guilty to the charge at her district court arraignment Feb. 26.

In Friday's exam Garber admitted into evidence a three-page handwritten confession Lance gave to Plymouth police which said in part: "I touched her private area and accidentally placed a finger inside. I felt sick to my stomach. What I did made me sick. I ate lunch, but couldn't keep it down. I'm not bisexual or anything, I didn't get any satisfaction from it.'

The victim testified that Lance took her back to her room after dinner Feb. 22 and undressed her for bed, because "I can't walk or anything. She brushed my breast and whispered in my ear what she was going to do to me. She said she was going to rape me, only she didn't use that word. She used the 'f' word." The victim testified that Lance stuck her finger into her private parts. "I told the nurse the next morning. That's the only one I knew to go to," the woman

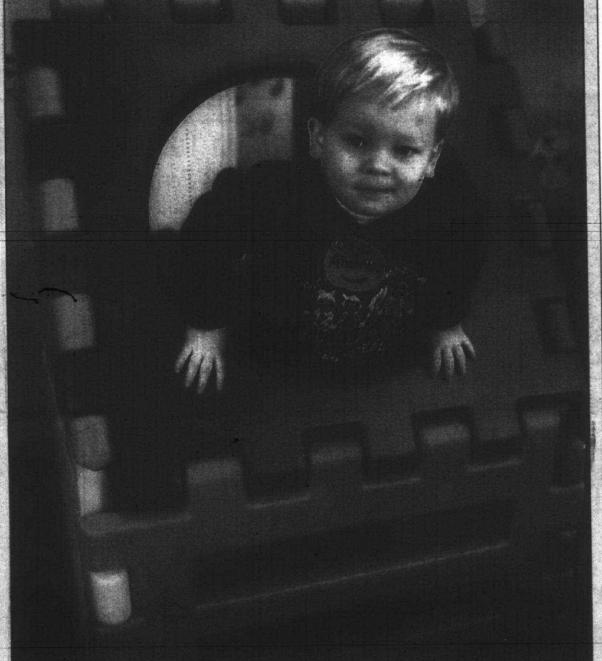

Lance's attorney, Cleophas Culp Jr., asked whether the victim had had an enema the week before. 'I have no record of it," she answered. The woman testified she's had no trouble with nurse's aides. "I get along with them. I don't know why. I shouldn't get along with them," she said.

Bonnie Bannon, director of nursing at West Trail, said she presented Lance with a series of written questions after hearing that Lance had force-fed the victim. West Trail administrators later reported the sexual assault to Plymouth police.

Sgt. Wayne Carroll of the Plymouth Police Department testified that Lance voluntarily came into the station and offered a statement in the presence of two officers before she

When the Plymouth Children's Nursery held its first classes back in 1962, mothers of the children

had to sweep up gunpowder and shell casings before each class.

It wasn't anything the kids did. It was just that the nursery began its cooperative program in the Plymouth Community Building, which at the time was a rifle range.

"I was a halv at the time, and I

"I was a baby at the time, and I remember my mother talking about the program," said Marisa Cimino, a parent who is in charge of publicity for the nursery school that is celebrating its 30-year anniversary.

"It's one of the older cooperatives in Michigan. And it's definitely the oldest in Canton," said Cimino, who attended the nursery as a child

and whose children now attend.

This isn't a nursery school where parents kiss their kids, open the car door, and say goodbye. Now on Sheldon Road just north of Ford Road, the nursery has mothers and fathers work there.

In each of the program's four classes with 21 children ages 3 and 4, there is a teacher and four parents. "Ninety-seven percent of the moms work in the school. You have to assist the teacher with lesson planning each day."

The cooperative, which moved to Canton in the late 1980s, is not your traditional business. There is no administrative staff, secretaries, janitors, or anyone one else you might expect to find in a nursery

For example, in teacher Linda Borsos' class — where children were painting by using straws to blow paint bubbles — a parent stood close by, helping children complete their work of art.

"All actions we work on have ul-terior motives," Borsos said. "In reality they are seeing big bubbles

### Vegas night

The public is invited to participate in a Vegas Night from 6 p.m. to 1 a.m. Saturday, March 13, at the UAW Local 735, 48055 Michigan Ave., three miles west of Belleville Road.

The event is sponsored by the Friends of Haven Manor as a fund-raiser for the non-profit home for women with substance abuse problems.

Participants will have an opportunity to play poker, roulette, dice and the big wheel, said Jo-An Brown, executive director.

Proceeds from the fund-raiser will be used to help the program expand at 43820 Michigan Ave. Admission is \$5, which includes \$3 worth of poker chips. Attendees must be 18 years of age to be admitted and to play the games.

Refreshments, including coffee, pop, hot dogs,

State Rep. Jerry Vorva, R-Plymouth, said one state finance official he's talked to told him the state doesn't have the money available to spend on the airport - an action being sought by the Michigan Bureau of Aeronautics.

"They may not have the money or the authorization to do it," said Vorva, based on his discussion with the official in state finance.

Vorva said representatives of the state Department of Transportation, which oversees aeronautics, and state finance agencies are scheduled to meet Thursday to discuss the situation.

"The state shouldn't be in this kind of business," Vorva said.

Meanwhile, Wayne County Commissioner Brian Amann, whose district includes Canton, is asking the Federal Aviation Administration not to award gran money to buy the Canton airport.

Bureau of Aeronautics officials announced last month they would seek a federal grant to pay for 90 percent of the purchase price of the airport, within 60 days.

Aeromautics officials said small airports should be maintained, despite heated opposition from some Plymouth and Canton residents to the plan for government to own and operate the airport at illey and Joy roads. "I respectfully suggest that any

expenditure by the FAA to purchase or assist in the purchase of Mettetal Airport lacks fiscal wisdom, especially in light of President Clinton's commitment to use expenditures as job-creating investments," Amann wrote in a

### SCHEDULING ARTHRITIC DRUGS

You take certain arthritis medications 3x/day, others at 2x/day, and a few at 1x/day. In the case of methotrexate, you schedule a week's worth in one day!

Most arthritis drugs enter the body quickly and leave in hours, via the urine. The medicin

work by maintaining a level-like water in a car battery and need frequent replenchment. The best example is aspirin. Even the long acting form is out of your system within 12 hours; to keep therapeutic concentrations, you need a two-time/day dosage. keep therapeutic concentrations, you need a two-timeroay dosage.

Feldene is a once/day medication; you may consider this feature an advantage. However, if you react to the drug or your kidneys are not eliminating it in a regular manner, the medicine can soon build up to dangerous levels. Therefore some physicians prefer a 2x/day medication as the best compromise between convenience and safety.

Methotrexate, taken one time a week, is a special case. It works by presenting the body with a sudden large concentration. This approach stops reproduction of T lymphcytes, cells important in perpetuating the inflammation of rheumatoid arthritis.

Check before changing the timing of your medication. Likely your doctor can explain the reasons why you should comply with the original instructions.

### Adjustable Rate Mortgage

3.95%

6.35%\*

Our Adjustable Rate Mortgage allows you to enjoy this excellent mortgage rate for the first year of the loan. After the first year, your interest rate can only increase by 2% a year loan. And you have the option to convert to a fixed rate mortgage under certain conditions.

Typical APR (annual percentage rate) ncludes interest on loan and other fees, and is based on a \$100,000 loan with an 80% loan-to-value ratio. The APR may increase after closing. Loan must be for construction of ecquisition of borrower's single family owner-occupied primary residence. Interest rates and terms are subject to change at any time without notice. \*Based on a 30-year loan. For 15-year loan, APR is 6.319%.

# Area officials say state's to blame for rough roads

As you contemplate the sorry state of your local roads lately and curse your local government for its alleged sloth in repairing same, consider blaming Lansing or Wayne County.

As a rule of thumb for townships, said Wayne County Deputy Executive Michael Duggan, the county is responsible for any road that doesn't have an M designation and isn't a freeway.

Cities, on the other hand, are responsible for most of their roads. But the county still maintains control over the main thoroughfares in its 33 cities. In Livonia, for example, Wayne County is responsible for Merri- gan claims the state is chiefly reman, Farmington and Newburgh

# WHAT PART OF

Just three months ago, 2 1/2 million Michigan voters rejected a dangerous change in auto insurance laws known as Proposal D. And they were emphatic, voting nearly two to one against the legislation.

So you have to ask: Why are some legislators and Gov. Engler pushing a rehashed version of it

Read through House Bill 4156 and you'll quickly find it's neither new. Or improved.

In fact, it is just like Proposal D. It fails to guarantee lower insurance rates. All it guarantees is reduced benefits and fewer protections.

It's everything you didn't want and voted against. Like Proposal D, it promises a roll-back on premiums. But six months later, the lid comes off. And your insurance company is free to raise

In fact, you will pay more for the very same coverage you have now.

Also like Proposal D, HB 4156 removes basic legal rights that now protect you against unsafe or drunk drivers. Under their new law, it will be much tougher for you to hold drunk or careless drivers responsible in the case of an accident.

And like D, it forces you to buy extra coverage for long-term consequences of an accident. It also gives your insurance company total control over the medical treatment you get.

And again like D, it fails to hold insurance companies accountable for the premiums they

But meaningful reforms are still possible reforms that will reduce your rates while protecting your essential benefits and rights.

# HOW WILL YOUR LEGISLATORS VOTE

Will they vote for a bill that's worse than the one rejected by 2 1/2 million voters? Will they force you to pay more for less insurance protection?

Will your state Senator and Representative vote against you? Or for you?

Supporters of HB 4156 hope you're tired of hearing about this issue. And that you'll miss what they're up to in the Capitol. They hope to pass this bill before you know what's going on.

It's not too late - HB 4156 can still be changed Your state legislators can help turn this bill into one that protects your interests, not just the insurance companies.

But only if they hear from you. Call them today. And who knows – maybe, just maybe – they might begin to understand what you meant when you said NO.

# Cries of racism won't erase ghetto problems

the Kerner Commission released its report on civil disorders. The report was commissioned by President Lyndon Johnson in the wake of a summer of violent disturbances in cities across America, most seriously in De-

The report summed up an extensive amount of research with one frightening sentence. "This is our basic conclusion: Our nation is moving toward two societies, one black, one white - separate and unequal.

The report further stated the primary reason for this continuing national tragedy. "What white Americans have never fully understood — but what the Negro can never forget — is that white society is deeply implicated in the ghetto. White institutions created it, white institutions maintain it, and white society condones it."

The commission, a basically straight-arrow, middle-of-the-road group, concluded that only a massive injection of money and commitment could solve this problem. The report gave a boost to Johnson's Great Society

Ghetto continues

History speaks for itself. The Great

wenty-five years ago this month, | Society was trashed by the war in Vietnam and by 20 years of Republican presidents. The institutions that created the ghetto continued to do their work. In 1968 Detroit was 34 percent black, today it is over 75 percent black. The suburbs are only slightly less white than they were then.

Detroit is not just black but also poor, crime ridden, shabby and growing orse with every passing year. It is a city whose citizenry bristle at such 'negative" commentary, but the evidence is with us every day. It is there on any drive down any street.

It is there in the newspapers, not because they sensationalize but because they report - and they report that the young travel in gangs, that cocaine addiction is epidemic, that children kill children with guns and rarely reflect on the consequences. They report that the schools are hellholes, that vacant and substandard housing riddles every neighborhood and leads to one fire tragedy after another, that more busi nesses close than open and that the usual "dangers of big city life" have multiplied at such a cancerous rate that we joke about eating our young.

Mayor cries racism

Detroit is a city that props up a may-

HUGH GALLAGHER

or who long ago lost his ability to lead and who hides behind the cry of "racism" because he's run out of viable ide-

Racism is certainly the first cause. We, white America, began with 200 years of slavery and another 100 years of suppressed rights. We kept most blacks from attaining any but the most menial jobs. We closed off schools, bank loans, suburban housing and steady income and then accused blacks of being welfare mooches.

Real estate agencies steered (steer?) blacks to substandard and older housing in the inner city or near suburbs. Insurance companies redlined black neighborhoods and charged blacks more for less protection. This abuse is well summarized in the Kerner report, knows it for fact without having to read

Newspapers did contribute to this. Until the '60s, newspapers regularly carried real estate ads listing white only and "colored only." Newspapers regularly played up black crime and identified black criminals while rarely examining the history of ghettoization that led to crime (not just by blacks but also by poor Irish, Italian and Jewish young men as well.)

But a time comes, as Malcolm X most eloquently stated, that the fact is more important than the cause. Malcolm X said that the black community didn't need the approval of the white community to take its affairs into its own hands

### Leadership needed

Detroit cries out for leadership. The responsible, adult population of the city must take stronger action against the drug trade that has engulfed a large part of the city. It must demand a clean police department that fights organized crime rather than being on its payroll. It must bring discipline to the schools rather than excuses. It must decry rather than tolerate reprisals against whites. It must demand of the

to help the schools, job training programs, black owned businesses and housing rehabilitation programs.

It is patronizing to suggest that there is no black leadership. But that leadership has become splintered in the face of continuing racist opposition and the devastating economic situation. Mayor Coleman Young began with

great promise, taking his cue from the traditional Irish political bosses of the early part of this century. He built a fine and, at first, responsive political machine. He wheeled and dealed with the best of them. He worked with the white power structure (especially Henry Ford II) to bring money to the riverfront and negotiated as an equal. He bent rules, as all good bosses do, to get

But time and the frustrations of watching the inner city die while the riverfront grew have made Young an ineffective and bitter man. Detroit deserves better. We can no longer continue drifting into the nightmare of the Kerner commission prophecy.

It is hard to distinguish one flavor of Kool-Aid from another without benefit of seeing the tellflavor. It is simply referred to as red, yellow or green, with orange being

Like most people, you were probably unaware of the magnitude of this phenomenon. That is why the world needs perceptive, insightful columnists to shed some light on this issue to clear it up. I've given this a lot of thought and, frankly, all this "clear" thinking is making me "light"-headed.

### **ROLL CALL REPORT**

# Knollenberg opposes extending unemployment benefits

Here's how Observer & Eccentric-area members of Congress were recorded on major roll call votes in the week ending

Yes on Unemployment Benefits: By a vote of 254 for and 161 against, the House sent the Senate a bill (HR 920) providing extra weeks of jobless benefits for the long-term unemployed.

Depending on the state, 20 or 26 additional weeks of checks will go to an estimated two million individuals who exhaust their initial 26 weeks. Because the \$5.7 billion cost is defined as emergency spending, it will be added to the

deficit rather than offset by revenue increases or spending cuts.

A yes vote was to pass the bill.

Area representatives voting yes
were: Bob Carr, D-Pontiac, Dale
Kildee, D-Flint, Sander Levin, DSouthfield, William Ford, D-Ypsilanti. Voting no: Joseph Knollenberg, R-Birmingham.

No on Hatch Act

Overhaul: The House rejected a bill overhauling the Hatch Act to allow federal civilian employees and postal workers to engage in partisan political activity on their own time. The 275-142 margin fell short of the two-thirds majority needed to pass the bill (HR 20) under a shortcut procedure. Sponsors predicted success when they bring it up again under rules requiring only a simple majority vote for pas-

SENATE

Yes to Fund Committees: By a vote of 94 for and 2 against, the Senate approved a two-year budget of \$113 million for its committees, down about four

percent from the committee budget approved two years ago. The new budget (S Res 71) is in effect until March 1995 and covers all panels except the separately-funded Ethics Committee.

Senate committee staffing is cut by six percent to nearly 1,200 positions on 20 panels. The budget allows annual staff cost-of-living hikes of between 2.2 to 3.7 percent. The present top salary for committee aides is about \$130,000. In addition to payroll, S Res 71 funds hearings, domestic and foreign travel and general com-

mittee operations. A yes vote was to approve the Senate committee budget. Michigan Sens. Carl Levin, D, and Donald Riegie, D, voted yes.

Reject Further Cuts: By a vote of 29 for and 69 against, the Senate rejected cuts of at least \$10 million in the \$113 million. 1993-94 committee budget (above). The amendment sought to force staff reductions.

A yes vote was for deeper cuts in Senate committee budgets. Carl Levin and Riegie voted no.

Carl Levin and Riegle voted no.

Committee on Aging Retained: By a vote of 30 for 68 against, the Senate-refused to abolish its Special Committee on Aging. Although the panel cannot act on bills, it uses its \$1.1 million annual budget to conduct investi-gations and spotlight issues of concern to seniors. A similar non-legislative aging committee in the House also is under fire as lawmak ers eye cuts in legislative branch

CHEF LARRY JANES

### For memorable meals, cast an iron on the fire

ention the term "cookware" to a group of people who enjoy cooking and you'll probably get personal reviews on everything from the cheapest Teflon to the most expensive copper-clad aluminum money can buy. People frequently ask me what my favorite cookware is, and my answer is always the same.

I have an eclectic collection of pots and pans that range in price and size from the cheapest to the best money can buy. But one thing is for certain, I do love my cast-iron fry pan and Dutch

Cold, snowy weather and cast iron seem to go hand in hand, especially when making hearty stews and one-dish meals.

### Frypan memories

Momma frequently cooked in cast iron, and to this day, still hauls out a frypan and cauldron from the fruit cellar for impromptu Sunday morning egg fests and tummy warming pots of chili.

Those of you who remember a story that ran a few years back in Taste know it called for preparing the "ultimate brownie" in a large cast-iron fry pan. I'll admit that when I tested the recipe for that brownie, I had to venture on down to Wyandotte to borrow momma's frypan.

Unfortunately, the diet I'm on now will forbid me from making the brownie recipe in my castiron cookware, but nevertheless, I look forward to testing slow cooking recipes in cast iron.

### Cooking qualities

So why all the hoopla on cast-iron cookware? Cast-iron cookware is heavy; it absorbs heat slowly and evenly, retains it like no other, and is a good conductor of heat as well - all excellent qualities for a cooking vessel to possess.

Unfortunately, there is a negative side too. Cast iron is rather brittle. It rusts, stains and becomes pitted on exposure to air, dampness and some foods, and tends to become distorted when too high a heat is applied.

Food purists will either applaud cast iron for its ability to impart certain minerals into the food while cooking or crucify it for its inability to withstand the pitting that occurs from cooking foods

From a professional standpoint, you just can't beat cast iron's ability to slowly cook a stew or chili, seldom with burning.

Sunny-side up eggs take on a distinctive crust that I still remember from the days when momma cooked up a pound of bacon and then plopped in a half-dozen or so eggs into the molten bacon grease.

She would use the special steel spatula that doubled as a dreaded disciplinary tool to splash the grease onto the tops of the eggs to just barely cook the yolks. It wouldn't take an expert to see and taste the difference from an egg made in a plastic-handled non-stick frypan compared to one made in a cast-iron frypan.

### Pan pointers

There are, of course, a few pointers that all owners of cast-iron cookware should heed. First off, cast-iron cookware is particularly likely to become warped if subjected to high heat or sudden extremes in temperature. Therefore, never place cast-iron cookware directly on a high-heated burner or in a hot oven.

Place cookware on a cold burner or in a cold oven and allow the heat to raise gradually. Common sense should prevail when cooking with cast iron because of its hearty heat conduction. You can cook and get the same results over a medium-

low heat compared to high heat. After using the cookware, it should be washed, dried and seasoned immediately. Never place the cookware filled with food in the refrigerator, freezer or dishwasher. If the food has burned or stuck on the bottom or sides, scouring will remove some of the seasoned coating, but a light scrubbing with table salt and a dry paper towel will remove any leftover food residue with minimal ef-

If the pan must be washed, dry it immediately and place it on the stove under low heat. Add a little oil and gently heat the pan. Turn off the heat and allow the pan to cool to room temperature. Then, using a dry paper towel, rub the seasoned oil over the entire inside and outside of the pan to prevent rusting and pitting.

Even in this best of all possible worlds, there is no such thing as the perfect metal for pots and pans. Each possibility has its own pluses and minuses but if you have a gas or an electric stove you'll notice a difference when cooking with cast iron. If nothing else, it will remind you of the days of old before the Calphalons and non-sticks.

# Winner Dinner Recipes

### SUPREMES DE VOLAILLES ANAIS

3 chicken breasts, boneless, skinless, pounded to scallops

Boursin or Allouette cheese 4 Macintosh apples, peeled, cored and coarsely chopped

flour, eggs, bread crumbs for breading chicken 34 cup apple cider 34 cup heavy cream 3 tablespoons Calvados salt and pepper to taste butter and olive oil for brown-

ing chicken

Place approximately 2-3 tablespoons cheese on each side of chicken breast, spread 1-2 tablespoons apples over cheese. Fold to seal. Bread the chicken breasts, let dry.

Saute in butter and olive oil to brown on both sides over medium heat.

To make sauce, place cream, Calvados, cider and rest of apples in pan with chicken. Reduce mixture over high heat until thickened. Spoon over supremes. Serves 3.

### SHREDDED BRUSSELS SPROUTS WITH BACON AND PINE NUTS

3 pints Brussles sprouts 14 pound bacon, diced

¼ cup pine nuts

2 minced scallions 1/2 teaspoon freshly grated nut-

meg fresh black pepper to taste

Core the Brussels sprouts and place them in a food processor to shred coarsely. Fry the bacon in a large skillet until it's crisp. Remove and drain on paper towels. Add the pine nuts to the fat remaining in the skillet and stir over medium heat until lightly browned, 2-3 minutes. Add shredded sprouts, scallions and nutmeg. Cook, stirring over medium heat until sprouts are cooked through, but still crisp, 6-8 minutes. Stir in bacon and pepper. Serve. Serves 4.

### SWEET POTATO PIE

2 medium-sized sweet potatoes, boiled and mashed

1 cup sugar, more or less, to taste

3 eggs, well-beaten

¼ cup melted butter

¾ cup milk

1 teaspoon vanilla

pinch of nutmeg and cinnamon

1 tablespoon flour 1 9-inch pie shell, unbaked

# Raisins, currants good source of energy

Ap - Made by drying grapes in the sun or by other methods, raisins and currants have a high concentration of sugar, which makes them very sweet and a good source of energy. They're also a good source of iron. For cooking or snacking, you'll find several varieties available, depending on the grape used. Dark Seedless: About 90 per-

cent of all raisins produced are the dark seedless type, usually made from Thompson seedless grapes. These have a sweet flavor and can be used for recipes or Golden Seedless: These light-

colored raisins are also made from Thompson seedless grapes, only they're dried under special conditions to retain the golden color. They have a tangy fruit flavor and are good in recipes and snacks. Muscat: Sun-dried muscat grapes are large, dark and very sweet. Their pronounced fruity

Zante Currants: These tiny seedless raisins are actually sundried black corinth grapes. Even though they are sold as dried currants, they are not related to the current berry. Because of their small size, they are not as handy for snacking. Use them in recipes especially in small breads, such as muffins and cookies. Plumping raisins

### Honey chicken low in calories

AP - Like many, you may be eating more poultry to cut the fat from your diet. You may not real ize, though, that chicken with skin can be higher in fat than many lean cuts of meat. Removing the skin, before or after cooking, is an easy way to get rid of unwanted fat.

For the quick broiled chicken breasts below, discard the skin before cooking, so you can taste more of the delicious honey-mustard coating. Here's the easiest way to do it: start at one end of the breast and pull the skin away from the meat, holding the other end as you pull. If necessary, slip a finger under the skin to loosen; After you've removed the skin, you'll see several pockets of cream-colored fat. Use a sharp knife to cut them off, too.

### ART ON THE EDGE

On silk: Harris Wiltsher creates his silk screen images in the print-making studios of the Cranbrook Academy of Art.

# His artwork conveys black experiences

BY LINDA ANN CHOMIN SPECIAL WRITER

Print artist Harris Wiltsher II combines painting, drawing, photography and collage in richly colored silk screens that focus on Afrocentric themes. Gold miners in Africa, a Massai warrior police beatings in America's streets, or a mother and child, the images aim to educate and stimu-

"They're a balance of educational, political and/ or cultural experiences," said the master of fine arts candidate in an interview at his Cranbrook Academy of Art studio. "I will do things that are relative to what's happening now like with Nelson Mandela. Yeah, he's released but what's different now? Him being one person can't change it by In an artist's statement by the Southfield print

maker, he says, he hopes that his "work will be an insightful and thought provoking window for the audience to view the black experience." Jewel-tone colors like rubies and emeralds shine in the silk screen, "Mother of Civilization." The

impressionistic portrait of a woman-in-waiting captures the essence of life's meaning and Witsh-"All of my work has a lot of

color in it, but it doesn't take precedence over it." Wiltsher said. "In this print, I'm put and the strength of women. I want to do things that show the beauty, their strength, especially African-American women, what they give to the community. Wiltsher creates texture in

the silk screens by layering 25 to 30 oil- or water-based inks. Gold highlights stroke the hands and face of the "Mother of Civili-"I'm painting and drawing," Wiltsher said. "My

prints have a tactile quality. I print for the right combination of color, for texture. I used gold pens to sharpen some things and give a spontaneity to it so that it's very open and suggestive. Wiltsher strives to broaden his views by pursuing a wide range of cultural experiences. After graduating from the High School of Art and Design in

New York City, he earned a bachelor of science degree in fine arts from Florida A&M University, a predominately black school. From there he did a 360-degree turn-about to attend Cranbrook. After graduation in May, he plans to continue his art studies on a fellowship at Cape Town University in South Africa. Eventually, he would like to become an associate professor

In the past Wiltsher has exhibited work at Urban Park-Detroit Art Center and Foster Tanner Fine Arts Gallery in Tallahassee, Fla., and as part of a fund raiser for the Friends of the New Center in Detroit. The first two weeks in May he will exhibit a very confrontational installation in the exiting students show at Cranbrook.

"His work is unique because of his ability to combine pattern and subject matter in an original way," said Urban Park gallery director Dave Roberts. "I like it because of his bold use of color and pattern, his interest in issues, presenting artwork that's not just pretty pictures, but presenting artwork that has a deeper meaning."

Wiltsher's current work-in-progress is a limited edition of 10 prints featuring Mother Hale of Hale House in New York. 'I'm from the Bronx. As a person from New York City, I want to produce an image that would evoke

# Detroit legend Sales comes back for more laughs

By BOB SADLER SPECIAL WRITER

Soupy Sales is truly an original, and at 67, he is showing no signs of slowing down.

He blew into town over the weekend to help out WDIV-TV (Channel 4) with the annual Easter Seals Telethon, hosting two late-night and morning segments that featured video snippets from his old days in Detroit - which, ironically were on rival WXYZ-TV (Channel 7). He also will his the stage this weekend for five shows in Ann Arbor on Thursday. Friday and Saturday.

"There's been a love affair between me and Michigan ever since I came there, and it continues to this day," the former Milton Supman (he legally changed his name in 1957) said in an interview from his New York home. "It was Detroit where I got my big break."

Soupy made his indelible mark in Detroit from 1953, when he moved from previous television gigs in Cincinnati and Cleveland, to 1960, when took his top-rated ABC-TV show (his daily children's show went national after only two years) to Los Angeles.

On the air a now-unheard-of 11 hours a day during that era of live, locally produced television, Sales actually hosted both a children's show, "Lunch with Soupy Sales," and an adult variety show in the evening that featured live musical performances by early rock standouts such as the Everly Brothers and jazz legends Miles Davis and Charlie Par-

"Those were the glory days of live television, as well as the golden age of jazz in Detroit; there were more than 25 jazz clubs in Detroit then," said Sales, who actually started his career in radio as a disc jockey in his hometown of Huntington, W.Va.

The children's shows featured Soupy's trademark shtick, which included wacky sketches, songs and, of course cream pies. No one has done more to optimize the humor potential of a simple pie in the face than Soupy Sales. Major stars of the era, including Frank Sinatra, Sammy Davis Jr. and Tony Curtis, actually begged to be on the messy end of Soupy's shaving cream crea-

"It had to be shaving

pie recipe. "A real pie would glance off."

On a more serious note Soupy bristled at the comparison of his children's show and others like it with '90s offerings for the nint-sized set.

"You've got 'Mister Rogers. 'Seasame Street' and 'Barney.' those are for little kids," Sales said. "You've got nothing for kids past seven years old other than cartoons - and extremely violent ones at that.

"Back in those days, not only did we entertain the kids, but we got our message across. 'Don't talk to strangers. Don't get in anybody's car.' We were

"Detroit is where it all happened for me," Sales said. 'They've given me the key to the city twice. With my luck, they've changed the lock."

Soupy Sales appears Thursday, Friday and Saturday March 11-13, at the Main Street Comedy Showcase, 314 E. Liberty, Ann Arbor. Thursday's show is at 8 p.m., with two shows Friday and Saturday, at 7:45 and 9:45 p.m. Call 996-9080 for reservations.

# 'Shadow:' a long, windy Eskimo epic

A friend once confided that his idea of hell on earth would be sitting through a festival of Canadian films. "Shadow of the Wolf," Canada's most expensive film ever at \$31 million dollars, offers this particular brand of horror on an epic Eskimo scale.

Lou Diamond Phillips ("La Bamba," "Young Guns 1 and 2") plays a proud Inuit Eskimo who leaves the relative comfort of his village to set out on his own. It's 1935 and young Agaguk (pronounced "eggie-gook") doesn't appreciate the encroachment of the white man, who trades a bottle or two of liquor for the Eskimo's hard-earned animal skins.

Before he leaves. Agaguk gets into an argument with a white trader and kills him. The rest of the film finds Agaguk and his young bride (Jennifer Tilly) battling the elements, the supernatural and the white man who comes to investigate the murder.

Northern Lights.

There's too much silliness elsewhere, though. Jennifer Tilly wasn't the worst choice for the female lead (she looks vaguely Indian or Asian with her dark complexion and eyes), but her voice is all wrong. As written, her Igiyook (pronounced 'iggie-yook') hails rom another village and I'm wondering if maybe it was somewhere n Southern California.

Toshiro Mifune, the star of countless Akira Kurosawa moves, is always a pleasure, but his Kroomak is only a fuzzy old Shaman, the kind usually played by Pat Morita. Only when he jumps up from a cross-legged sit and grunts with eyes and nostrils flaring do we get the idea that the is a powerful force to contend

The movie ultimately possesses the best and worst elements about Canadian film production. There's an abiding love of nature, shown to great effect in the wide also a monotonous lack of originality that's only accentuated by Maurice Jarre's synthesized soundtrack.

"Shadow of the Wolf" would like to be seen as an Eskimo version of "Dances with Wolves" and has even hinted at the comparison in television commercials. Panoramic shots of buffaloes Eskimo leader (or actor Mifune) . thundering across the tundra and epic battles with white wolves attempt to hide the truth that this "Dances with Polar Bears" is just a freezer-burned Eskimo pie.

# Knead a treat? Buy fresh-baked goods

oes your mouth water every time you pass your neighborhood bakery? My dad owned a bakery down in Louisiana so I cultivated a serious sweet tooth at a very young age. Not only did I acquire an appreciation for fresh-baked breads, cakes and pastries, but I gained admiration for the dedicated professionals who work the graveyard shift-to put these goodies on our tables.

Laura Kuczajda and her sisters Lynn Kuczajda and Lois Hennessey personify the commitment it takes to run a first-class bakery. They've owned The Home Bakery at 300 Main St. in Ro chester since 1986. "Our hearts are here," says Laura who oversees the business and all of the paperwork, while Lynn and Lois decorate the award-winning specialty cakes.

The incredible wedding cake we picture is a design taken from a photograph. The Lake Orion bride asked Home Bakery artists to replicate the dreamy oneymoon cottage that she admired in the pages of Modern Bride magazine last year. After 72 hours of painstaking labor, the result is this fairy tale gingerbread house iced in white with lattice work,

Victorian trim and the proverbial picket fence complete with delicate climbing roses. It's a show-

On the same weekend, talented decorator Julie Allen created a lavender and white confection for Becky Salminen's Addison Oaks wedding. The idea for this cake also came from a magazine photo. Imagine, if you can, a tiered cake fitted with a headed Venice lace sheath simulated in royal icing lacework. Both these cakes demonstrate the extraordinary skill of the Home Bakery staff.

### Creative cakes

The day I visited, the gleaming metal cake racks were stacked with weekend party creations. Included were a logo cake for Comerica, a three-dinensional kitty and a whimsical scene straight rom 101 Dalmations. Window shoppers are treated to an ever-changing array of custom cakes. Featured now is Allen's confectionery sculpture that took "Best of Show" at the Michigan State Fair. You won't believe that this hand-painted, handformed work of art is completely edible.

Tassos and Carol Bozadzis understand the art of baking fine French pastry. They spent a year in Paris where Tassos studied at the famed Le Cordon Bleu culinary institute. He showcases his expertise at their West Bloomfield storefront, Tassos Epicurean Cuisine in The Boardwalk shopping center.

Among his elaborate presentations are a Marronier, a classic French genoise cake laced with chestnut cream, and Gateau Russe, a French cake replete with buttercream, praline and carmelized walnuts.

I am continually on a search for "crusty on the outside, soft on the inside" French bread, the kind that envelops a good New Orleans oyster po-boy. My quest ended this week at Le Petit Prince, in Birmingham, an authentic patisserie.

"I stop in for the quiche, the ham and cheese croissants and the delicious lemon tarts," said Dolores Titus of Farmington Hills, a fresh paguette tucked under her arm.

### Bread lovers alert

Just opened in downtown Plymouth is The Breadwinner, a bread lover's paradise. No less than 18 daily bread varieties line the shelves, from tavern bread flavored with parmesan and garlic dressing, to Val's veggie, made from zucchini, carrots and cabbage. Weekend specials offer more unusual loaves. Who would expect gour-

met pastries in a mall? The Somerset Collection poasts three restaurants and the specialties of Unique Restaurant Corp pastry chef, Andrew Nicholas McGrath. The basket we picture offers a sampling of his breads and sweets, among them miniature scones, herb brioches, croissants, rich

chocolate brownies and delicious gooey cinnamon rolls. Mall employees frequent Le Cuisine Jardin Carryout, and, like Keith Cauchi who chose the 7-layer bar, they can't pass up dessert. Save room for apple pie with caramel sauce

Linda Bachrack is a Birmingham resident. You can give her column ideas by calling 953-2047, Ext. 1889, from your Touch-Tone phone.

Shop around for retail career

There are all kinds of jobs at a mall and many can lead to well-paying careers in retail. This first-of-a-series report on mall workers, looks at the entry-level sales positions. Next week; How to become a buyer.

WANTED: Sales associates. Must be outgoing. Service-oriented. Have professional appearance. Pay commensurate with experience. \$5-\$5.50 an hour to start. Some nights and weekends. Apply within.

Getting a job at the mall can be as easy as stopping by the information desk in the center court. Most larger retail centers have em-

ployment directories that are updated daily with listings on who's hiring and what's available within the mall. "Some positions offer commission with salary, others just salary, some are total commission," said Hope Champagne, director of marketing at

the Meadowbrook Village Mall in Rochester Hills. "It pays to have a resume ready to leave around. Most stores keep a file on hand and call applicants when they have an opening. Karen MacDonald, spokeswoman

for Lakeside Mall in Sterling Heights said hirings peak twice a year. "Our job employment directory is fullest in early July when stores begin

hiring extra help for the back-toschool shopping season and again late September for the upcoming holiday shopping season," she said. "We also work closely with Macomb Community College to recruit students interested in retailing."

Joyce MacKay manages a Karen Charles store. Her sales associates tend to be moonlighters, people who have other jobs but want to supplement their incomes, she said.

"We have a couple of teachers working here, also some homemakers who enjoy working away from home.' she said. "Pay is based on experience Education requirements are minimal Being a good sales associate depends more on personality than education. We want outgoing, friendly staff

There soon could be more farm in

Farmington If the Farmington City Council gives the go-ahead, the gazebo in the parking lot of the Village Commons Shopping Center could become the epicenter of a farmer's market in May, drawing hundreds of shoppers to downtown Farmington on Satur-

The Farmington Farmer's Market is a goal of the city's downtown development authority director, Judy Downey. Since January, she's been working out details with several local growers to set up produce stands and fresh flower baskets by May 8 around the gazebo at Thomas and Power

"The market would run through the end of October," she explained. onto the nearby stores and eateries after browsing at the market."

Downey said downtown Farmington can boast of a retail mix uncommon to most older business districts.

What weather has in store is just as unpredictable as ever. Astronomical events that will occur

this month are not predictions, however; they are certainties.

For example, Mars will be an evening planet this month, as is Jupiter. Saturn will be visible in the pre-dawn sky, and Mercury is too close to the sun to be

About 45 minutes after sunset on the 1st, the moon was in the constellation of Taurus. The orange-red star eight degrees below the moon is Aldebaran (al DEB a ran), the 'eye' of the bull; above and to the right of the moon will be the Pleiades (PLEE a dees) star cluster. The moon will pass this area of the sky once again on the 28th, but its crescent will be noticeably smaller.

Full Moon occurred at 4:46 a.m. today (March 8). The March full moon was called the Sap Moon by some Native American Indians; others named it the Crow Moon. The reason for the name Sap Moon is obvious - March is the month when sap flows in trees.

Coincidentally, this full moon happens to occur when the moon is at perigee (its closest to the earth.) The orbit of the moon is oval, not circular. It will be a mere 356,528 kilometers (221,536 miles) away, the closest it will be all year, and it will produce unusually high

Venus, which has been drifting eastward through the stars of Pisces, will begin retrograde (backward) motion on March 9.

It will move westward during the rest of the month, as if chasing after the sun. Retrograde motion is an optical illusion; faster moving Venus soon will be passing between the earth and the sun.

On the morning of the 10th, 45 minutes before sunrise, the moon will form a large triangle with Jupiter and the star Spica (SPY ka) in Virgo. On the following morning the moon will be to the left of Spica; drawing a straight line from the moon to Jupiter will take you directly through that star.

The moon will pass from Virgo into Scorpius and will be found eight degrees to the right of Antares (an TAR ees), the "heart" of the scorpion, on the morning of the 13th. Antares is one of the reddest stars in the sky. It is also a supergiant star, 700 times the size of the sun. If placed where the sun is, its outer layer would extend well beyond the orbit of Mars. On the following morning the moon will be three degrees to the left of Antares.

It's also the same month some of us celebrate St. Patrick's Day. But let's face it cage fans, most of these area teams will turn into gooey chocolate by March 17.

That's the week of the regionals, which means it's time to break out the bats and balls.

Oh, fudge, another spring sports season just around the corner.

Time is up. I'm not going to hide my Cadbury bar in the

cupboard any longer. Let's handicap the field as we sneak in a bite (or two). (Records through Friday only.)

### GOOD & PLENTY

Redford Bishop Borgess (11-8): Despite the record, there's something about this team I like. Maybe it's guys like Perry Robinson, Randy Whitfield and Charles Smith which make me believe they could get all the way Class C regional final at Harper Woods Bishop Gallagher and match up well against Southgate Aquinas.

### ALMOND JOY

Plymouth Salem (17-2): The Rocks have it made. WLAA championship game at home, district at home, potential first-round regional matchup with Berkley at Southfield-Lathrup. The key - James Head. He has to play less like Mike (Air Jordan) and more like Dena. Oh, just wanted to let you know that Detroit Pershing, the Doughboys, stand in the way in the regional final.

### OH, HENRY

Wayne Memorial (16-4): The Wolverine A League co-champions have staggered into tournament, but with a coach named Chuck Henry and players like Antonio Dodd and Andre Graves, things could turn out sweet in the Garden City district despite three tough obstacles - city rival Westland John Glenn, Romulus and then Belleville.

### **NESTLES CRUNCH**

Redford Catholic Central (11-9): The Shamrocks, led by Brian Paluk and Damien Baskerville, could make it to St. Patrick's Day with a little luck. Their own district, however, is brutal with the likes of Detroit Henry Ford and 6-foot-10 Marco Hammond tonight, followed by Southeastern Michigan Associithfield on Wednesday Bernie Holowicki has reason to be concerned.

### MILKY WAY

Westland John Glenn (12-7): The Rockets have made strides this season under first-year coach Mike Schuette, but could be a year away. Sophomores Guy Rucker and Brent Washington will be back along with Tony Goins. Not a bad nucleus. A victory over Wayne in tonight's opener is not out of the question. Glenn lost by only three the last time

### PAY DAY

Farmington Harrison (9-10): The good news is that the Hawks earned a first-round bye, but the bad news is that they get district favorite and tournament host West Bloomfield in the next round. The Lakers, led by Harley Marks and Matt Domke, beat Harrison in this year's season opener, 63-53.

### **BABY RUTH**

Plymouth Canton (8-11): The Chiefs lost in overtime against Salem in their previous meeting, so tonight's rematch could be a dandy, although the Rocks appear to be on the upswing again.

### **GUMMI BEARS**

North Farmington (8-11): The Raiders should reach the West Bloomfield district final with a victory Wednesday over Farmington. But then things could get a little chewy after that for coach Tom Negoshi-

### STARDUST

Westland Huron Valley Lutheran (12-8): Son of Swami predicts host Allen Park Inter-City Baptist will walk away with the district trophy. But not so fast, Swami. Huron Valley's Melton Stoudemire could have the last word before it's all over. The 6-1 jumping lack led the Hawks to a district crown a year ago.

# Rocks reign in district volleyball

Plymouth Salem captured its first district volleyball championship in 16 years Saturday, winning the Class A tournament at Novi High School. The Rocks, who have won a school-record 36 matches, advance to the Northville regional.

BY DAN O'MEARA STAFF WRITER

Plymouth Salem's volleyball team arrived right on schedule Saturday.

Oh, the Rocks showed up for the Novi district tournament with plenty of time to spare.

The significant part came later when Salem, according to the plans of co-coaches Brian Gilles and Allie Suffety, won its first post-season title since reaching the Class A quarterfinals in 1977.

"Our timetable was four years," Gilles said. "We kept plugging away. We hoped to be somewhere and we are.

The Rocks (36-12-4) passed their most difficult test in the first round, when they defeated Livonia Churchill in three games (13-15, 16-14, 16-14). The match took more than two hours.

Salem eliminated Plymouth Canton in the semifinals (7-5) and Novi in the final (6-8). The Rocks will play the Ferndale district winner at 11 a.m. Saturday in the regional at Northville High School.

The win over Churchill avenged two earlier losses. The Chargers (2516) won the regular-season dual and a semifinal match in the league tourna-

"In competitive volleyball, it's almost impossible to beat a team that's evenly matched with you three times in a row," Churchill coach Mike Hughes said. "It's an enormous psychological hurdle. It's easy to understand, but it's still there and you have to deal with it.

But you have to give Salem a lot of credit, especially in the third game when they brought in kids who hadn't played all year. They have a nice competitive program.'

Salem took leads of 10-3 and 14-10 in the third game, but the Chargers closed to 10-9 and then tied the score at 14. Churchill got its 13th point when Salem was assessed a penalty point for an illegal timeout, and Krista Laidlaw's kill made it 14-14.

Salem's Jenna Stanton stopped the Chagers with a kill for sideout and then served the final two points, including an ace for the 16th.

"We got lucky in that deal," Suffety said, regarding the timeout error. We could easily have sank it, but the

kids played hard from that point.

"We took another timeout (legally when the score became 14-14) and settled the kids down. We told them we didn't want to end it this way.'

Five-foot-11 senior Cyndi Platter had 19 kills in that match to lead Salem, Jamie Viau six, Paula Dombrowski and Stanton four each. Dombrowski and Shellye Sills also had three blocks each. Caryn Tatterton had 26 assists.

A key for the Rocks has been the development of 5-10 sophomore Dombrowski and 5-11 freshman Sills, who rotated in the middle and allowed Salem to play Platter on the left side.

"Being able to kick Cyndi outside has helped," Gilles said. "It gives us another dimension," because the Rocks (with smaller outside hitters) had to rely on free balls when they weren't passing well. "Cyndi can take the ball off the net and put some mustard on it."

The Rocks were passing well Saturday, which helped their attack and kept it supplied with good sets.

They played much better defense than they did before," Hughes said. "We knew they could serve well, but they passed better and got the ball to the hitters more."

Gilles feared a letdown against Canton (20-14-7) following the emotional win over Churchill, and there was cause for concern at the start

when the Chiefs jumped in front 5-1

in the first game.
Salem called timeout and Gilles told his players, 'If you don't get it going, you'll be bawling your eyes out in an hour, crying, "We should be there (in the final)." The time to go is

right now, Canton led 7-4 when Jenny Garvey served the last 11 points of the game. Platter had four kills and a block for point during that run, and Garvey

served two aces. The Rocks got most of their points one or two at a time in the second game but fought their way through for the win. Karen Gundry served a game-high five points for a 7-1 lead, and Dombrowski had three early

"We got into a rotation where we lost a lot of points with Garvey serving," Canton coach Jacqueline Getz said. "We lost a little confidence there, and it carried over to the sec-

ond game. "We couldn't quite put it all together. At times we work hard to get the ball up and can't finish it. Other times we work hard to get the sideout

and miss our serve. Platter had five kills, Stanton and Viau two aces and two kills each in the first game of the final. The Rocks were ahead 12-2 in the second when Novi scored six straight points before Salem finished with a Gundry ace and kills by Viau and Dombrowski.

Walled Lake Central's basketball team has something in common with the Detroit Pistons and Chicago Bulls as of Saturday night: back-toback league championships.

The No. 9-ranked Vikings maintained their grip on the Western Lakes Activities Association title by defeating host Plymouth Salem in the final for the second straight year, 73-

Central also completed an unbeaten regular season with a 20-0 record. The Rocks are 17-3.

"It gives us a lot of momentum going into the state playoffs," WLC senior Ron Thompson said. "This is our last year. If we were going to do it, it was this year or not at all.

"People told me not to keep 12 seniors, because you can't control 12 seniors," WLC coach Steve Emert said. With this group, I said, 'Yes, I can, because their goal is to be the best team they can be.

"I can't say enough about these kids. We might not have a star of the team, but all of them are real good players and they believe in them-

Eric Leaf scored 17 of his gamehigh 23 points, Thompson 14 of 22, in the second half to lead the Vikings. Mike Gluski added 10 and Christian Emert seven.

Salem got 19 points from James Head, who played an all-around good game despite being in foul trouble. Mike Slone finished with 13. Harold Shanks 10. Brian Jensen, Brandon Slone and Todd Forbes added eight

"It's everyone on that team," Salem coach Bob Brodie said of Central. 'If it's not Thompson and Leaf, it's (Chris) McFarlane and Emert, or

Thompson and Gluski.

"That's the team thing. All have the ability to hurt you. That's the mark of a good team. We had to have an exceptional game to beat a team like that and we didn't.'

The Vikings, who play a run-andgun style, shot poorly and trailed most of the first half. They needed to rebound better to compensate for lack of size and to keep getting shots, Em-

Central made eight of 29 first-half shots, but the Rocks shot nearly 50 percent (14-30) and led 34-26. Salem overcame nine first-quarter turnovers, most forced by Central's fullcourt press.

At halftime, Emert said, he told his players: "I'm not upset because you're missing shots, and I'm not upset about not playing hard because you are. But I am upset because you're not blocking out.' We had to keep them off the boards."

Salem threatened to blow the game open in the third quarter, taking a 47-36 lead, but the Vikings made a quick comeback while Head was sitting with three fouls.

Central scored the next 10 points, Thompson getting six as he converted a three-shot foul and then a threepoint play. He was 6-of-6 at the line in that quarter and had eight points, the last two to tie at the end, 50-50.

"That was the run that put us back in the game," Emert said. "We showed good discipline and didn't panic.'

"I was disappointed with the way we kinda disappeared in the third quarter," Brodie said. "Our game plan was to shoot inside and we stopped. We took some erratic shots. They forced us to rush and we lost our concentration. We played into their hands at that point."

Head's dunk following a Central turnover gave Salem a 60-59 lead with 1:16 left in regulation time. After Leaf put the Vikings on top by a point, each team missed a one-and-one and the Rocks two shots before Mike Slone sank the second of two free throws with 14 seconds left to force

With the score tied at 65, Leaf made a free throw, Thompson two free throws and Emert a layup after Gluski blocked a Salem three-point attempt. That put Central ahead 70-65 with only seconds remaining. Head made a triple with :06 left, but the Vikings went to the line for three more points.

"I think their experience showed at the end," Brodie said. "They held their poise really well late in the game. We missed a rebound, a free throw - the little things you gotta have at crunch time."

# Shamrocks thump Warriors in hockey final

BY MARTY BUDNER STAFF WRITER

It wasn't exactly the state championship trophy, but for the Shamrocks, a Catholic Central victory over Brother Rice - no matter what sport - is always a reason to celebrate.

Led by senior goaltender Jamie Ronayne, the Shamrock hockey team jubilantly skated around the Oak Park Compuware Ice Arena Saturday afternoon proudly displaying the regional champion-ship trophy they captured after defeating Rice, 6-1.

Catholic Central (26-5-4) now advances to the state quarterfinals slated for 7:30 p.m. Wednesday at the Flint IMA Arena against either Port Huron or Flint Kearsley.

Catholic Central's veteran coach, John Gumbleton, couldn't remember his team's last regional championship. But that hardly mattered Saturday as the Shamrocks savored their big victory.

"You know, whenever Brother Rice plays us it's always a big game," said Gumbleton, whose team did not lose to Rice this year in three outings (two wins and a tie). "They motivate themselves against Rice. I'm real happy for the kids."

CC had a 2-0 lead after the first period despite being outshot by a 13-5 margin. Jon Heady and Jason Bellinger scored for the Shamrocks, but it was goalie Ronanye who starred in that opening period with a number of key saves, including two big stops on Rice forward Dale Rominski.

Each team scored a goal in the second period -Josh Fryer for Brother Rice and Frank Novock for CC. Rice trailed 3-1 after two periods, but the Warriors had a chance to get back into the game with a two-man advantage for the first 56 seconds of the third period.

Rice, however, never got a shot on goal during that advantage. CC responded a short while later with goals from Chris Gonzalez and Justin Ronayne to ice the game.

"We had our chances, but Ronayne played an excellent game against us," said Rice coach Mike Brown, whose team finished with a 16-7-1 overall record. "Losing is never easy, but I think CC just had our number this year."

# Hawks soar past Rockets, finish 3rd in WLAA hoop

It was only a consolation game but Farmington Harrison played like it had something to prove Saturday, beating Westland John Glenn for third place in the Western Lakes Activities Association

boys basketball playoffs, 66-56. The Hawks, who finished the regular season at 10-10 overall, pulled away from the Rockets in the second half at Plymouth Salem High.

Center Calvin Pruitt, a 6-foot-6 junior, led a balanced Harrison scoring attack with 18 points.

"We felt this was an important ituation for us," Harrison coach Mike Teachman said. "A lot of teams don't show up for this. The other (consolation) games don't mean anything except the championship, but was a selling point for me to my team.

Sophomore Nick Williams came off the bench to contribute 13. while reserve forward Jeff Cislo and starting guard Jeremy Teachman added 10 apiece.

"For Calvin (Pruitt) it was a big challenge type of game," said Teachman, whose team beat Glenn earlier this season, 55-52. in 14 points to give the Mustangs "I was proud of him because he (13-7) over Plymouth Canton (8-12)

The Hawks then turned it up a notch in the third quarter, breaking away from a 35-all deadlock by running off eight unanswered points on three field goals by Williams and another hoop by Keye Smith.

Harrison then outscored Glenn 21-17 in the decisive fourth quarter to sew things up.

Livonia Stevenson (5-15): Coach Jim McIntyre hasn't lost his sense of humor despite a terrible season. The Spartans hit a snag at mid-season when junior forward Chris Chichila went down with a thumb injury. He's back, but the Spartans haven't been able to give the thumbs-up sign in awhile.

Redford Union (2-16-1): They're nicknamed the Panthers, but there's been little scratch and claw n their game this season. They do have a tie to their credit, however. Check the score back on Jan. 30 (versus the alumni). Detroit Redford (1-11) is RU's first-round foe at Catholic Central. I predict an RU

"The mediation panel tries to resolve cases to shorten the court docket," Albertson said. "You don't shorten the docket if you say 'The plaintiff gets nothing.' The mediation panel has one mission and one only: to try to get (its decision) to be acceptable to be compensated by the district.

Albertson and Susan Zurvalec, director of employee relations for the school district, said the administration believed it made economic sense to resolve the matter at that point and accept the pan-

One thing the school district had to consider is it pays legals fees at an hourly rate while the plaintiff's counsel usually takes a case on a contingency basis, Zur-"We had to look out for the to-

Zurvalec, Kaump gave up any claim to the job by accepting the mediation panel's decision. "The legal significance is that he can never again bring suit for his termination from that job, Albertson said.

Kaump had sued, claiming wrongful firing and violation of due process. He believed his constitutional rights had been violated since the Farmington B1 Schedule governing ceach/employee contracts did not allow for recourse other than to appeal to the same administration taking

action to fire him. "What we wanted to do was get (the case) evaluated on the merits - should Bob have been discharged - and ultimately we didn't get into that before a

# Here's who your money helps when you give to United Way.

hen you give to United Way, you help people in your own community who really need help. United Way supports more than 140 health and human service agencies which last year served more than 1.8 million people right here in Wayne, Oakland and Macomb counties.

United Way is able to direct nearly 90 cents of every dollar contributed to important services, since only 10.4 cents is used for campaign and administrative costs.

We hope these smiles bring a smile to your face, knowing that you helped somany find the hope and help they need. Thank you.

Still the best way to show you care.
